---

2 AS/NZS 3105:1998 Approval and test specification—Electrical portable outlet devices—

**4.2 Portable outlet device**—a device, other than a cord extension set, having a single means of connection to a low voltage supply, and one or more outlet facilities. It may incorporate a reeling or coiling arrangement. The term ‘device’ means ‘electrical portable outlet device’.

3 AS/NZS 3000:2000 Electrical Installations (known as the Australian/New Zealand Wiring Rules)—

**1.4.78 Socket-outlet**

A device for fixing or suspension at a point, and having contacts intended for making a detachable connection with the contacts of a plug. The term ‘socket-outlet’ is deemed to include a cord-extension socket attached to a flexible cord which is permanently connected to fixed wiring.
