 - (c) ensures the clearing does not cause land degradation; and
 - (d) prevents the loss of biodiversity; and
 - (e) maintains ecological processes; and
 - (f) manages the environmental effects of the clearing to achieve the matters mentioned in paragraphs (a) to (e); and
 - (g) reduces greenhouse gas emissions; and

 - (e) the regulation of particular regrowth vegetation.
- (3) In this section—
- environment* includes—
- (a) ecosystems and their constituent parts including people and communities; and
 - (b) all natural and physical resources; and

20AKA What is a *vegetation category area*

A *vegetation category area* is a category A area, category B area, category C area, category R area or category X area.

Note—

The effect of sections 20AL to 20AO, 20BA and 20CA is that there is no overlap of the boundaries of the vegetation category areas.

20AL What is a *category A area*

A *category A area* is an area, other than a category B area, category C area, category R area or category X area, shown on the regulated vegetation management map as a category A area that—

20AM What is a *category B area*

A *category B area* is an area, other than a category A area, category C area, category R area or category X area, shown on the regulated vegetation management map as a category B area that—

- (a) contains remnant vegetation; or

- (b) the chief executive decides to show on the regulated vegetation management map as a category B area; or

Note—

The chief executive may decide under section 20AH to show an area on the regulated vegetation management map as a category B area even though the vegetation is not remnant vegetation.

- (c) if section 20AN does not apply to the area—
- (i) is a Land Act tenure to be converted under the *Land Act 1994* to another form of tenure; and

- (b) the chief executive decides to show on the regulated vegetation management map as a category C area.

Note—

The chief executive may decide under section 20AI to show an area on the regulated vegetation management map as a category C area even though the vegetation is not high value regrowth vegetation.

20ANA What is a *category R area*

- (1) A *category X area* is an area, other than a category A area, category B area, category C area or category R area, shown on the regulated vegetation management map as a category X area.
- (2) However, an area is not a *category X area* if the chief executive decides under section 20CA the area is not a category X area.

20B When chief executive may make PMAV

- (1) The chief executive may make a PMAV for an area if—
 - (a) the area becomes a declared area; or
 - (b) the area becomes an offset area; or

 - (g) the chief executive reasonably believes—
 - (i) a person has committed a vegetation clearing offence in relation to the area, whether before or after the commencement of this section, or a vegetation clearing offence is being committed in relation to the area; or
 - (ii) the area was cleared of vegetation in contravention of a tree clearing provision under the *Land Act 1994* as in force before the commencement of the

Vegetation Management and Other Legislation Amendment Act 2004, section 3; or

- (iii) prohibited development under the repealed Moratorium Act, part 5 was carried out in relation to the area; or
 - (h) the area is a Land Act tenure that is to be converted under the *Land Act 1994* to another form of tenure; or

- (2) The chief executive must give each owner of land to be included in the PMAV an information notice about the decision to make the PMAV.

20BA Chief executive may make decision about category A area

The chief executive may make an area a category A area on a PMAV if the chief executive reasonably believes—

- (a) a vegetation clearing offence is being, or has been, committed in relation to the area; or
- (b) the area was cleared of vegetation in contravention of a tree clearing provision under the *Land Act 1994* as in force before the commencement of the *Vegetation Management and Other Legislation Amendment Act 2004*, section 3; or
- (c) prohibited development under the repealed Moratorium Act, part 5 was carried out in relation to the area.

20C When owner may apply for PMAV

- (1) An owner of land may apply to the chief executive for the making of a PMAV for the land or part of the land.
- (2) The application must—
 - (a) be in the approved form; and

-
- (b) state the information prescribed under a regulation; and
 - (c) be accompanied by the fee prescribed under a regulation.
- (3) If the owner of the land and the chief executive agree to the making of the PMAV, the chief executive must make the PMAV.
 - (4) The chief executive may waive the prescribed fee for the making of a PMAV if it is in the interests of the State and the owner.
 - (5) If the chief executive refuses to make a PMAV for the area, the chief executive must give the owner an information notice about the decision.

20CA Process before making PMAV

- (1) This section applies if—
 - (a) an owner of land applies under section 20C for the making of a PMAV for the land or part of the land; and
 - (b) the owner proposes that the land or part of the land (the *relevant area*) be a category X area on the PMAV.
- (2) The chief executive can not make the relevant area a category X area on the PMAV if any of the circumstances mentioned in section 20AH or 20AI for the area have happened unless the area has later been cleared and—
 - (a) when the area was cleared of vegetation, the clearing did not require a development permit under the Planning Act; or
 - (b) the clearing of vegetation has been carried out under a moratorium exemption; or
 - (c) the clearing of vegetation has been carried out under a development approval other than a development approval for—
 - (i) fodder harvesting; or
 - (ii) thinning; or

- (iii) clearing of encroachment; or
 - (iv) control of non-native plants or declared pests; or
 - (v) necessary environmental clearing; or
 - (d) the chief executive has, under an accepted development vegetation clearing code, been given a notice relating to clearing vegetation other than for—
 - (i) thinning; or
 - (ii) clearing of encroachment; or
 - (iii) controlling non-native plants or declared pests; or
 - (iv) necessary environmental clearing that is not the diverting of existing natural channels in a way that replicates the existing form of the natural channels; or
 - (e) the chief executive has received a notice under an area management plan for the area and the purpose of clearing was other than clearing vegetation in the area for—
 - (i) fodder harvesting; or
 - (ii) thinning; or
 - (iii) clearing of encroachment; or
 - (iv) control of non-native plants or declared pests.
- (3) Also, the chief executive can not make the relevant area a category X area on the PMAV if vegetation in the area is not remnant vegetation because of clearing that happened because of burning, flooding or natural causes.
- (4) If the chief executive considers the relevant area can not be made a category X area because of subsection (2) or (3), the chief executive must, before making the PMAV, give the owner of the land a notice inviting the owner to show why the relevant area should be a category X area.
- (5) The notice must state the following—

- (a) the grounds for the proposed decision that the relevant area is not a category X area;
 - (b) the facts and circumstances forming the basis for the grounds;
 - (c) the proposed boundaries of the vegetation category areas for the PMAV;
 - (d) that the owner may make submissions about the proposed decision;
 - (e) how to make a properly made submission;
 - (f) where the submission may be made or sent;
 - (g) a period within which the submission must be made.
- (6) The stated period must be at least 15 business days after the notice is given.
- (7) If, after considering any properly made submission by the owner, the chief executive still considers the relevant area is not a category X area, the chief executive may make the relevant area other than a category X area on the PMAV.
- (8) The chief executive must give the owner an information notice about the decision to make the relevant area other than a category X area.
- (9) In this section—

properly made submission means a submission that—

- (a) is written; and
- (b) is signed by each person (a ***signatory***) who made the submission; and
- (c) states the name and address of each signatory; and
- (d) states the grounds of the submission and the facts and circumstances relied on in support of the grounds; and
- (e) is made to the person stated in the notice inviting the submission; and
- (f) is received on or before the last day for the making of the submission.

20D When PMAV may be replaced

- (1) The chief executive may replace a PMAV for an area (the *previous area*) with 1 or more PMAVs (each a *new PMAV*).
- (2) A new PMAV may apply to—
 - (a) part or all of the previous area; or
 - (b) part or all of the previous area and another area.
- (3) Subsection (1) applies only—
 - (a) if a matter mentioned in section 20B occurs in relation to an area mentioned in subsection (2); or
 - (b) to reflect a change to an endangered, of concern or a least concern regional ecosystem in an area mentioned in subsection (2); or

Editor's note—

A change may only be made by amending the *Vegetation Management Regulation 2012*.

 - (c) for a matter other than a matter mentioned in paragraph (a) or (b), if each of the affected owners agrees to the replacement.
- (3A) Despite subsection (3), the chief executive may replace a PMAV for an area if—
 - (a) for a PMAV made under section 20B(1)(a) for a declared area under division 4, subdivision 2—the declaration for the area ends; or
 - (b) for a PMAV made under section 20B(1)(b)—the offset in relation to the offset area ends; or
 - (c) for a PMAV made under section 20B(1)(c)—the exchange area is no longer an exchange area required under an accepted development vegetation clearing code; or
 - (d) for a PMAV made under section 20B(1)(d), (e), (f) or (g)—
 - (i) the area contains remnant vegetation; or

-
- (ii) the person the subject of a restoration notice, an enforcement notice under the Planning Act or a court order has complied with the conditions of the restoration notice or enforcement notice or order;
or
 - (e) for a PMAV made under section 20B(1)(h)—the Land Act tenure over the area is not converted to another form of tenure; or
 - (f) for a PMAV made under section 20B(1)(i)—the regulated vegetation management map is amended to correct the error.
- (4) A reference to a PMAV made under section 20B or 20C is taken to include its replacement under this section.
- (5) In this section—
- affected owner*** means an owner of land proposed to be included in a new PMAV if any of the following apply—
- (a) the owner applied under section 20C for the making of the new PMAV;
 - (b) there was not a PMAV for the land or part of the land;
 - (c) the land, or part of the land, will be affected by a change to the boundary of a vegetation category area in the new PMAV.

20F Copies of PMAV given to owners

- (1) If a PMAV is made or replaced, a copy must be given, free of charge, to each affected owner of land that is included in the PMAV.
- (2) However, if there are 2 or more affected owners who reside at the same address, a copy of the PMAV may be sent to the owners jointly.
- (3) In this section—
affected owner, of land included in a PMAV, means an owner of the land if all, or a part of, the land will be affected by a

change to the boundary of a vegetation category area in the PMAV.

20H PMAV boundaries prevail

- (1) This section applies if there is an inconsistency between a boundary of a vegetation category area shown on a PMAV and the boundary of the area shown on the regulated vegetation management map.
- (2) The boundary shown on the PMAV prevails to the extent of the inconsistency.

20HA Certifying vegetation management map

The chief executive may certify a vegetation management map by certifying—

- (a) a hard copy of the map; or
- (b) a digital electronic form of the map.

20HB Amending vegetation management map

If the chief executive certifies or amends a PMAV the chief executive must amend the regulated vegetation management map in a way that reflects the certification or amendment.

20HC When vegetation management map takes effect

A vegetation management map or a map replacing a vegetation management map does not take effect until the map is certified by the chief executive.

Subdivision 2A Plans made by chief executive

20UA Chief executive may make area management plans

- (1) The chief executive may make an area management plan for an area (an *area plan (chief executive)*) that provides for any matter about clearing vegetation the chief executive considers necessary or desirable for achieving the purpose of this Act.
- (2) An area plan (chief executive) must—

- (a) include enough information to allow the chief executive to map the boundary of—
 - (i) the plan area; and
 - (ii) if the conditions for clearing vegetation relate to different zones within the plan area—each of the zones; and

Subdivision 3 Keeping plans

20V Register of area management plans

- (1) The chief executive must—
 - (a) give each area management plan a unique identifying number (the *identifying number*); and
 - (b) keep a register of area management plans.
- (2) The register must include details of each notice the chief executive considers appropriate.

Subdivision 5 Duration of plans

20Z When area management plan ends

- (1) An area management plan consisting of an approved draft plan, or an area plan (chief executive), remains in force until the end of the plan period for the plan.
- (2) An area management plan consisting of an accredited existing planning document remains in force until the first of the following happens—

Subdivision 6 Amending particular plans

20ZA Application of sdiv 6

This subdivision applies to an area management plan mentioned in section 20J(1)(a) or (b).

20ZB Amendment by chief executive

- (1) The chief executive may amend an area management plan if—
- (a) the amendment is only to correct a minor error in the plan, or make another change that is not a change of substance; or
 - (b) the chief executive considers it is necessary or appropriate to amend the plan because the plan—
 - (i) has become inconsistent with the State policy; or
 - (ii) has become inconsistent with the clearing assessment benchmarks or referral matter; or
 - (iii) will become inconsistent with the State policy, the clearing assessment benchmarks or a referral matter if the plan is not amended; or

Examples—

- 1 An area management plan becomes inconsistent with the clearing assessment benchmarks because of a change to the clearing assessment benchmarks.
 - 2 An existing planning document accredited as an area management plan becomes inconsistent with the clearing assessment benchmarks because of an amendment of the document.
- (c) for an area management plan consisting of an accredited existing planning document—
- (i) the document has been, or is expected to be, amended; and
 - (ii) the chief executive considers that, because of the amendment, the document no longer satisfies or

will no longer satisfy a criterion under section 20P(b) to (d).

- (2) However, the amendment of an area management plan consisting of an accredited existing planning document may relate only to a criterion under section 20P(b) to (e) for vegetation management or clearing vegetation under the plan.
- (3) If the chief executive amends an area management plan under subsection (1), the chief executive must ensure the amendment is clearly shown on—
 - (a) for an area management plan consisting of an approved draft plan—the area management plan; or
 - (b) for an area management plan consisting of an accredited existing planning document—the accreditation notice for the plan.
- (4) If the chief executive amends an area management plan under subsection (1)(a), the chief executive must give the applicant written notice of the amendment.
- (5) If the chief executive decides to amend an area management plan under subsection (1)(b) or (c), the chief executive must give the applicant—

 - (b) an information notice about the decision.
- (6) In this section—

applicant means—

 - (a) for an area management plan consisting of an approved draft plan—the person who applied for the approval; or
 - (b) for an area management plan consisting of an accredited existing planning document—the person who applied for the accreditation.

20ZC Amendment application for particular plans

- (1) This section applies to an area management plan consisting of an approved draft plan if—
 - (a) a change in circumstances significantly affects, or could significantly affect, the operation of the plan; or
Example—

The applicant for an area management plan wants to use a new and improved method for clearing vegetation that has become available since the plan was approved but is not provided for, or allowed, under the plan.
 - (b) an owner of land applies under this section to include the land in the plan area of the plan.
- (2) The applicant may apply to the chief executive to approve an amendment of the area management plan.
- (3) However, the applicant can not apply for an approval of an amendment of—
 - (a) the plan period for the plan; or
 - (b) a mandatory condition.
- (3A) Also, if the applicant is an owner of land whose land is not included in the plan area of the plan, the application can only be to include the applicant's land or a part of the land in the plan area.
- (4) The application (the *amendment application*) must be accompanied by—
 - (a) a draft amended management plan (the *draft amended plan*) that clearly shows the amendment; and
 - (b) the fee prescribed under a regulation.
- (5) However, the chief executive may waive the fee if the chief executive considers the waiver is in the interest of the State.
- (6) Sections 20M(2), 20N, 20O(1) and (2), 20P, 20Q, 20R, 20S(1)(c)(i), (2) and (3) and 20U (the *applied provisions*) apply to the amendment application and draft amended plan as if—

- (a) a reference in the applied provisions to the application were a reference to the amendment application; and
 - (b) a reference in the applied provisions to the applicant were a reference to the applicant for the amendment application; and
 - (c) a reference in the applied provisions to the draft plan were a reference to the draft amended plan.
- (7) However, the chief executive may approve the amendment of the area management plan only if—
- (a) subject to paragraph (c), the chief executive considers the draft amended plan is consistent with the management intent and management outcomes stated in the area management plan (the *original plan*) to which the amendment application relates; and
 - (b) the draft amended plan does not remove or further restrict a condition on clearing vegetation stated in the original plan; and
 - (c) for a draft amended plan that amends the original plan by enlarging the plan area, the enlargement is no more than 10% of the plan area; and
 - (d) if the applicant is the owner of land whose land is not already included in the approved draft plan, the chief executive is satisfied—
 - (i) the original applicant has given consent to the amendment application; and
 - (ii) the land is appropriate for inclusion in the plan.

Example—

The owner's land has similar vegetation types and characteristics to other landholders' land covered by the area management plan.

- (8) In this section—

applicant means—

- (a) the original applicant; or

- (b) the owner of land whose land is not included in the approved draft plan.

original applicant means the person who applied for approval of the approved draft plan.

Subdivision 1 Relevant purposes

22A Particular vegetation clearing applications may be assessed

- (1) This section provides for when a vegetation clearing application is for a relevant purpose.

 - (a) a project declared to be a coordinated project under the *State Development and Public Works Organisation Act 1971*, section 26; or
 - (b) necessary to control non-native plants or declared pests; or
 - (c) to ensure public safety; or

- (2AA) Also, a vegetation clearing application is for a relevant purpose under this section if, under the CYPH Act, the Minister is satisfied the development applied for is for a special indigenous purpose.
- (2B) However, a vegetation clearing application is not for a relevant purpose under this section if the development applied for is—
- (a) clearing in a category C area; or
 - (b) clearing in a category R area if the land the subject of the application is freehold land, indigenous land or a lease issued under the *Land Act 1994* for agriculture or grazing purposes; or

- (3) If the authorised officer enters the place with a warrant, the authorised officer may seize the evidence for which the warrant was issued.
- (4) The authorised officer may seize anything else at the place if the authorised officer reasonably believes—

47 Return of seized things

- (1) If a seized thing is not forfeited, the authorised officer must return it to its owner—

 - (b) if a proceeding for a vegetation clearing offence involving the thing is started within 6 months—at the end of the proceeding and any appeal from the proceeding.
- (2) Despite subsection (1), unless the thing is forfeited, the authorised officer must immediately return a thing seized to its owner if the authorised officer stops being satisfied—
- (a) its continued retention as evidence is necessary; or
 - (b) its continued retention is necessary to prevent the thing being used to continue, or repeat, the offence.

48 Access to seized things

- (1) Until a seized thing is forfeited or returned, an authorised officer must allow its owner to inspect it and, if it is a document, to copy it.
