Vegetation Management Act 1999

An Act about the management of vegetation

Part 1 Preliminary

1 Short title

This Act may be cited as the Vegetation Management Act 1999.

3 Purpose of Act

(1) The purpose of this Act is to regulate the clearing of vegetation in a way that—

(a) conserves remnant vegetation that is—

   (i) an endangered regional ecosystem; or

   (ii) an of concern regional ecosystem; or

   (iii) a least concern regional ecosystem; and

(b) conserves vegetation in declared areas; and

(c) ensures the clearing does not cause land degradation; and

(d) prevents the loss of biodiversity; and

(e) maintains ecological processes; and

(f) manages the environmental effects of the clearing to achieve the matters mentioned in paragraphs (a) to (e); and

(g) reduces greenhouse gas emissions; and

(h) allows for sustainable land use.
(2) The purpose is achieved mainly by providing for—
   (a) codes for the Planning Act relating to the clearing of vegetation that are applicable codes for the assessment of vegetation clearing applications under IDAS; and
   (b) the enforcement of vegetation clearing provisions; and
   (c) declared areas; and
   (d) a framework for decision making that, in achieving this Act’s purpose in relation to subsection (1)(a) to (e), applies the precautionary principle that lack of full scientific certainty should not be used as a reason for postponing a measure to prevent degradation of the environment if there are threats of serious or irreversible environmental damage; and
   (e) the phasing out of broadscale clearing of remnant vegetation by 31 December 2006; and
   (f) the regulation of particular regrowth vegetation.

(3) In this section—
   \textit{environment} includes—
   (a) ecosystems and their constituent parts including people and communities; and
   (b) all natural and physical resources; and
   (c) those qualities and characteristics of locations, places and areas, however large or small, that contribute to their biological diversity and integrity, intrinsic or attributed scientific value or interest, amenity, harmony and sense of community; and
   (d) the social, economic, aesthetic and cultural conditions affecting the matters in paragraphs (a) to (c) or affected by those matters.
4 Advancing the Act’s purpose

If, under this Act, a function or power is conferred on an entity, the entity must perform the function or exercise the power in a way that advances the purpose of this Act.

5 Definitions

The dictionary in the schedule defines particular words used in this Act.

6 Act binds all persons

(b) any of the following protected areas under the Nature Conservation Act 1992—

(i) a national park (scientific);  
(ii) a national park;  
(iii) a national park (Aboriginal land);  
(iv) a national park (Torres Strait Islander land);  
(v) a national park (Cape York Peninsula Aboriginal land);  
(vi) a conservation park;  
(vii) a resources reserve; or

(c) an area declared as a State forest or timber reserve under the Forestry Act 1959; or
(d) a forest entitlement area under the *Land Act 1994*.

(2) This Act does not prevent a local law from imposing requirements on the clearing of vegetation in its local government area.

(3) The requirements mentioned in subsection (2) are unaffected by the *Local Government Act 2009*, section 27.

(4) The *Local Government Act 2009*, section 27 is subject to subsection (3).

(5) This Act does not prevent a local planning instrument under the Planning Act from imposing requirements on the clearing of vegetation in its local government area.

(e) the chief executive decides under section 20BA is a category A area.

20AM What is a category B area

A category B area is an area, other than a category A area, category C area, category R area or category X area, shown on the regulated vegetation management map as a category B area that—

(a) contains remnant vegetation; or

(b) the chief executive decides to show on the regulated vegetation management map as a category B area; or

Note—

The chief executive may decide under section 20AH to show an area on the regulated vegetation management map as a category B area even though the vegetation is not remnant vegetation.

(c) if section 20AN does not apply to the area—

(i) is a Land Act tenure to be converted under the Land Act 1994 to another form of tenure; and

(a) contains high value regrowth vegetation; or
(b) the chief executive decides to show on the regulated vegetation management map as a category C area.

Note—
The chief executive may decide under section 20AI to show an area on the regulated vegetation management map as a category C area even though the vegetation is not high value regrowth vegetation.

20ANA What is a category R area

A category R area is an area, other than a category A area, category B area, category C area or category X area, shown on the regulated vegetation management map as a category R area that is a regrowth watercourse and drainage feature area.

20AO What is a category X area

(1) A category X area is an area, other than a category A area, category B area, category C area or category R area, shown on the regulated vegetation management map as a category X area.

(2) However, an area is not a category X area if the chief executive decides under section 20CA the area is not a category X area.
20B When chief executive may make PMAV

(1) The chief executive may make a PMAV for an area if—

(a) the area becomes a declared area; or

(g) the chief executive reasonably believes—

(i) a person has committed a vegetation clearing offence in relation to the area, whether before or after the commencement of this section, or a vegetation clearing offence is being committed in relation to the area; or
(ii) the area was cleared of vegetation in contravention of a tree clearing provision under the Land Act 1994 as in force before the commencement of the Vegetation Management and Other Legislation Amendment Act 2004, section 3; or
(iii) prohibited development under the repealed Moratorium Act, part 5 was carried out in relation to the area; or
(h) the area is a Land Act tenure that is to be converted under the Land Act 1994 to another form of tenure; or
(i) the chief executive reasonably believes there is an error in the part of the regulated vegetation management map for the area.

(2) The chief executive must give each owner of land to be included in the PMAV an information notice about the decision to make the PMAV.

20BA Chief executive may make decision about category A area

The chief executive may make an area a category A area on a PMAV if the chief executive reasonably believes—

(a) a vegetation clearing offence is being, or has been, committed in relation to the area; or

(b) the area was cleared of vegetation in contravention of a tree clearing provision under the Land Act 1994 as in force before the commencement of the Vegetation Management and Other Legislation Amendment Act 2004, section 3; or

(c) prohibited development under the repealed Moratorium Act, part 5 was carried out in relation to the area.

20C When owner may apply for PMAV

(1) An owner of land may apply to the chief executive for the making of a PMAV for the land or part of the land.

(2) The application must—

(a) be in the approved form; and

(b) state the information prescribed under a regulation; and

(3) If the owner of the land and the chief executive agree to the making of the PMAV, the chief executive must make the PMAV.
(4) The chief executive may waive the prescribed fee for the making of a PMAV if it is in the interests of the State and the owner.

(5) If the chief executive refuses to make a PMAV for the area, the chief executive must give the owner an information notice about the decision.

### 20CA Process before making PMAV

(1) This section applies if—

(a) an owner of land applies under section 20C for the making of a PMAV for the land or part of the land; and

(b) the owner proposes that the land or part of the land (the relevant area) be a category X area on the PMAV.

(2) The chief executive cannot make the relevant area a category X area on the PMAV if any of the circumstances mentioned in section 20AH or 20AI for the area have happened unless the area has later been cleared and—

(a) when the area was cleared of vegetation, the clearing was exempt development; or

(b) the clearing of vegetation has been carried out under a moratorium exemption; or

(c) the clearing of vegetation has been carried out under a development approval other than a development approval for—

(i) fodder harvesting; or

(ii) thinning; or

(iii) clearing of encroachment; or

(iv) control of non-native plants or declared pests; or

(v) necessary environmental clearing; or

(d) the chief executive has, under a self-assessable vegetation clearing code, been given a notice relating to clearing vegetation other than for—
Vegetation Management Act 1999
Part 2 Vegetation management

[s 20CA]

(i) thinning; or
(ii) clearing of encroachment; or
(iii) controlling non-native plants or declared pests; or
(iv) necessary environmental clearing that is not the diverting of existing natural channels in a way that replicates the existing form of the natural channels; or
(e) the chief executive has received a notice under an area management plan for the area and the purpose of clearing was other than clearing vegetation in the area for—
   (i) fodder harvesting; or
   (ii) thinning; or
   (iii) clearing of encroachment; or
   (iv) control of non-native plants or declared pests.

(3) Also, the chief executive can not make the relevant area a category X area on the PMAV if vegetation in the area is not remnant vegetation because of clearing that happened because of burning, flooding or natural causes.

(4) If the chief executive considers the relevant area can not be made a category X area because of subsection (2) or (3), the chief executive must, before making the PMAV, give the owner of the land a notice inviting the owner to show why the relevant area should be a category X area.

(5) The notice must state the following—
   (a) the grounds for the proposed decision that the relevant area is not a category X area;
   (b) the facts and circumstances forming the basis for the grounds;
   (c) the proposed boundaries of the vegetation category areas for the PMAV;
   (d) that the owner may make submissions about the proposed decision;
(e) how to make a properly made submission;
(f) where the submission may be made or sent;
(g) a period within which the submission must be made.

(6) The stated period must be at least 15 business days after the notice is given.

(7) If, after considering any properly made submission by the owner, the chief executive still considers the relevant area is not a category X area, the chief executive may make the relevant area other than a category X area on the PMAV.

(8) The chief executive must give the owner an information notice about the decision to make the relevant area other than a category X area.

(9) In this section—

**properly made submission** means a submission that—

(2) A new PMAV may apply to—

(a) part or all of the previous area; or
(b) part or all of the previous area and another area.
(3) Subsection (1) applies only—

(a) if a matter mentioned in section 20B occurs in relation to an area mentioned in subsection (2); or

Editor’s note—

A change may only be made by amending the Vegetation Management Regulation 2012.

(3A) Despite subsection (3), the chief executive may replace a PMAV for an area if—

(a) for a PMAV made under section 20B(1)(a) for a declared area under division 4, subdivision 2—the declaration for the area ends; or

(b) for a PMAV made under section 20B(1)(b)—the offset in relation to the offset area ends; or

(c) for a PMAV made under section 20B(1)(c)—the exchange area is no longer an exchange area required under a self-assessable vegetation clearing code; or

(d) for a PMAV made under section 20B(1)(d), (e), (f) or (g)—

(i) the area contains remnant vegetation; or

(ii) the person the subject of a restoration notice, an enforcement notice under the Planning Act or a court order has complied with the conditions of the restoration notice or enforcement notice or order; or

(e) for a PMAV made under section 20B(1)(h)—the Land Act tenure over the area is not converted to another form of tenure; or
(f) for a PMAV made under section 20B(1)(i)—the regulated vegetation management map is amended to correct the error.

(4) A reference to a PMAV made under section 20B or 20C is taken to include its replacement under this section.

(5) In this section—

**affected owner** means an owner of land proposed to be included in a new PMAV if any of the following apply—

(a) the owner applied under section 20C for the making of the new PMAV;

(b) there was not a PMAV for the land or part of the land;

(c) the land, or part of the land, will be affected by a change to the boundary of a vegetation category area in the new PMAV.

### 20F Copies of PMAV given to owners

(1) If a PMAV is made or replaced, a copy must be given, free of charge, to each affected owner of land that is included in the PMAV.

(2) However, if there are 2 or more affected owners who reside at the same address, a copy of the PMAV may be sent to the owners jointly.

(3) In this section—

**affected owner**, of land included in a PMAV, means an owner of the land if all, or a part of, the land will be affected by a change to the boundary of a vegetation category area in the PMAV.

### 20H PMAV boundaries prevail

(1) This section applies if there is an inconsistency between a boundary of a vegetation category area shown on a PMAV and the boundary of the area shown on the regulated vegetation management map.
(2) The boundary shown on the PMAV prevails to the extent of the inconsistency.

**20HA Certifying vegetation management map**

The chief executive may certify a vegetation management map by certifying—

(a) a hard copy of the map; or

(b) a digital electronic form of the map.

**20HB Amending vegetation management map**

If the chief executive certifies or amends a PMAV the chief executive must amend the regulated vegetation management map in a way that reflects the certification or amendment.

**20HC When vegetation management map takes effect**

A vegetation management map or a map replacing a vegetation management map does not take effect until the map is certified by the chief executive.

(1) The chief executive may amend an area management plan if—

(a) the amendment is only to correct a minor error in the plan, or make another change that is not a change of substance; or

(b) the chief executive considers it is necessary or appropriate to amend the plan because the plan—

(i) has become inconsistent with the State policy or the regional vegetation management code for the plan area; or

(ii) will become inconsistent with the State policy or relevant regional vegetation management code if it is not amended; or
Examples—

1 An area management plan becomes inconsistent with the relevant regional vegetation management code because of a change to the code.

2 An area management plan consisting of an accredited existing planning document becomes inconsistent with the relevant regional vegetation management code because of an amendment of the document.

(c) for an area management plan consisting of an accredited existing planning document—

(i) the document has been, or is expected to be, amended; and

(ii) the chief executive considers that, because of the amendment, the document no longer satisfies or will no longer satisfy a criterion under section 20P(b) to (d).

(3) If the chief executive amends an area management plan under subsection (1), the chief executive must ensure the amendment is clearly shown on—

(a) for an area management plan consisting of an approved draft plan—the area management plan; or

(b) for an area management plan consisting of an accredited existing planning document—the accreditation notice for the plan.

(4) If the chief executive amends an area management plan under subsection (1)(a), the chief executive must give the applicant written notice of the amendment.

(b) for an area management plan consisting of an accredited existing planning document—the person who applied for the accreditation.

### 20ZC Amendment application for particular plans

(1) This section applies to an area management plan consisting of an approved draft plan if—

(a) a change in circumstances significantly affects, or could significantly affect, the operation of the plan; or

*Example*—

The applicant for an area management plan wants to use a new and improved method for clearing vegetation that has become available since the plan was approved but is not provided for, or allowed, under the plan.

(b) an owner of land applies under this section to include the land in the plan area of the plan.

(2) The applicant may apply to the chief executive to approve an amendment of the area management plan.

(3) However, the applicant can not apply for an approval of an amendment of—

(a) the plan period for the plan; or

(b) a mandatory condition.

(3A) Also, if the applicant is an owner of land whose land is not included in the plan area of the plan, the application can only be to include the applicant’s land or a part of the land in the plan area.

(4) The application (the *amendment application*) must be accompanied by—
(a) a draft amended management plan (the *draft amended plan*) that clearly shows the amendment; and

(b) the fee prescribed under a regulation.

(5) However, the chief executive may waive the fee if the chief executive considers the waiver is in the interest of the State.

(a) a reference in the applied provisions to the application were a reference to the amendment application; and

(b) a reference in the applied provisions to the applicant were a reference to the applicant for the amendment application; and

(c) a reference in the applied provisions to the draft plan were a reference to the draft amended plan.

(7) However, the chief executive may approve the amendment of the area management plan only if—

(a) subject to paragraph (c), the chief executive considers the draft amended plan is consistent with the management intent and management outcomes stated in the area management plan (the *original plan*) to which the amendment application relates; and

(b) the draft amended plan does not remove or further restrict a condition on clearing vegetation stated in the original plan; and

(c) for a draft amended plan that amends the original plan by enlarging the plan area, the enlargement is no more than 10% of the plan area; and

(d) if the applicant is the owner of land whose land is not already included in the approved draft plan, the chief executive is satisfied—

(i) the original applicant has given consent to the amendment application; and
(ii) the land is appropriate for inclusion in the plan.

Example—
The owner’s land has similar vegetation types and characteristics to other landholders’ land covered by the area management plan.

(8) In this section—

applicant means—

(a) the original applicant; or

(b) the owner of land whose land is not included in the approved draft plan.

original applicant means the person who applied for approval of the approved draft plan.

21 Modifying effect on vegetation clearing applications

(1) This section applies for a vegetation clearing application.

(2) If the chief executive is the assessment manager for the application, a property vegetation management plan is a mandatory requirement in addition to the requirements stated in the Planning Act, section 260(2)(a).

(3) If the chief executive is a concurrence agency for the application, the applicant must give the chief executive a property vegetation management plan in addition to the things mentioned in section 272(1) of that Act.

(4) For the aspect of the application relating to the clearing of vegetation—

(a) section 326 of that Act does not apply; and

(b) the assessment manager’s decision must comply with the applicable code.
22 Declarations for the Planning Act

(1) To remove any doubt, it is declared that for the Planning Act, section 9, a use of premises does not include clearing vegetation that is assessable development.

(2) Subsection (3) applies if the chief executive is the assessment manager for a vegetation clearing application and is satisfied there is commercial timber on the land the subject of the application.

(3) The chief executive may—
   (a) refuse the application to the extent the development will affect the commercial timber; or
   (b) grant the vegetation clearing application but impose conditions on the development approval in relation to the commercial timber.

(4) Subsection (5) applies if the chief executive is a concurrence agency for a development application and is satisfied there is commercial timber on the land the subject of the application.

(5) Consideration of the application by the chief executive, in relation to the existence of the timber, is taken to be within the limits of the chief executive’s jurisdiction for the Planning Act, section 282.

22A Particular vegetation clearing applications may be assessed

(1) This section provides for when a vegetation clearing application is for a relevant purpose for the Planning Act, schedule 1, item 3.

(2) A vegetation clearing application is for a relevant purpose under this section if the applicant satisfies the chief executive that the development applied for is—
   (a) a project declared to be a coordinated project under the State Development and Public Works Organisation Act 1971, section 26; or
(b) necessary to control non-native plants or declared pests; or

(c) to ensure public safety; or

(d) for relevant infrastructure activities and the clearing can not reasonably be avoided or minimised; or

(e) a natural and ordinary consequence of other assessable development for which a development approval was given under the repealed Integrated Planning Act 1997, or a development application was made under that Act, before 16 May 2003; or

(f) for fodder harvesting; or

(g) for thinning; or

(h) for clearing of encroachment; or

(i) for an extractive industry; or

(j) for necessary environmental clearing; or

(k) for high value agriculture clearing; or

(l) for irrigated high value agriculture clearing.

(2AA) Also, a vegetation clearing application is for a relevant purpose under this section if, under the CYPH Act, the Minister is satisfied the development applied for is for a special indigenous purpose.

(2B) However, a vegetation clearing application is not for a relevant purpose under this section if the development applied for is—

(a) clearing in a category C area; or

(b) clearing in a category R area if the land the subject of the application is freehold land, indigenous land or a lease issued under the Land Act 1994 for agriculture or grazing purposes; or

(c) mentioned in subsection (2)(e), (f) or (i) or (2AA) and the land the subject of the application is an area declared to be a declared area under division 4, subdivision 2.
(2C) Also, a vegetation clearing application is not for a relevant purpose under this section if the development applied for is—
(a) mentioned in subsection (2)(e), (f) or (i) or subsection (2AA); and
(b) proposed for an area declared to be a declared area under division 4, subdivision 2.

22B Modifying Planning Act effect for delegations and appointment of referees

(1) For a vegetation clearing application for which the chief executive is the assessment manager, the Planning Act, sections 570(1) and 761(1) apply as if a reference to the Minister in those sections were a reference to the Minister for this Act.

(2) For a vegetation clearing application for which the chief executive is the assessment manager, the Planning Act, chapter 7, part 2 applies as if a reference to the chief executive in that part were a reference to the chief executive for this Act.

22C Modifying Planning Act effect of appeal rights on particular applications (assessment manager)

(1) This section applies for a vegetation clearing application that is for a relevant purpose under section 22A if the chief executive is the assessment manager for the application.

(2) An appeal about an application for which this section applies may only be made to the Planning and Environment Court under the Planning Act, section 461.

(3) However, an appeal, other than for a deemed refusal, may not be made unless the applicant has made representations about the matter.

Note—
See the Planning Act, chapter 6, part 8, division 1 (Changing decision notices and approvals during applicant’s appeal period).

(4) The representations may also be about a refusal.
(5) The Planning Act, sections 361 to 365, applies for the representations, including representations about a refusal.

22D Modifying Planning Act effect of appeal rights on particular applications (concurrence agency)

(1) This section applies for a vegetation clearing application that is for a relevant purpose under section 22A if the chief executive is a concurrence agency for the application.

(2) Before an appeal may be made in relation to the application, the applicant must make representations under the Planning Act, section 320 about the matter being appealed.

Subdivision 1A Particular vegetation clearing applications

22DAA Application of subdivision

This subdivision applies if a vegetation clearing application for particular land is for high value agriculture clearing or irrigated high value agriculture clearing.

22DAB Requirements for making application

(1) The application must be accompanied by a development plan (the development plan).

(2) The development plan must include the following—

- the extent and location of the proposed clearing;
- particulars of the clearing, including when it is expected the clearing will be completed;
- evidence that—
  - the land is suitable for agriculture having regard to topography, climate and soil attributes; and
  
  Example of a soil attribute—
  
  the sodicity and salinity of the soil
(ii) there is no suitable alternative site on the land for the clearing;
(d) details of a business plan, for activities related to the clearing, showing information about the viability of the activities;
(e) if the clearing involves irrigated high value agriculture clearing, evidence that the owner of the land is an eligible owner who has, or may have, access to enough water for establishing, cultivating and harvesting the crops to which the clearing relates;
(f) evidence that the clearing will comply with all restrictions prescribed under a regulation and relevant to the clearing;
(g) evidence that the application does not involve the clearing of native vegetation to plant a high risk species.

(3) For subsection (2)(f), a regulation may prescribe restrictions on any or all of the following for high value agriculture clearing or irrigated high value agriculture clearing—
(a) the type of crops for which the clearing is to be carried out;
(b) the size of land that can be subject to a vegetation clearing application;
(c) for an area of the State—the total amount of land that may be cleared in the area.

22DAC Matters for deciding application

(1) The chief executive may be satisfied that, having regard to the development plan, the vegetation clearing application is for high value agriculture clearing or irrigated high value agriculture clearing only if—
(a) the clearing is likely to be economically viable; and
(b) the clearing is limited to the extent necessary to establish and cultivate the crops to which the clearing relates; and
(c) the land is suitable for establishing, cultivating and harvesting the crops to which the clearing relates; and

(d) there is no suitable alternative site for establishing, cultivating and harvesting crops on the land that is reasonably available and would not require the clearing of native vegetation; and

(e) the clearing will comply with all restrictions prescribed under section 22DAB(2)(f) and relevant to the clearing; and

(f) the application does not involve the clearing of native vegetation to plant a high risk species; and

(g) if the clearing is for irrigated high value agriculture clearing, the volume of water the eligible owner is, or may be, able to access is enough for establishing, cultivating and harvesting the crops to which the clearing relates.

(2) In this section—

eligible owner means an owner of land who—

(a) is authorised under the Water Act 2000, section 20 to take overland flow water or subartesian water for any purpose; or

Subdivision 2 Referral agency assessment and responses

22DA Requirement for property vegetation management plan

The applicant for a concurrence agency application must give the chief executive a property vegetation management plan for the area to which the application relates in addition to the things mentioned in the Planning Act, section 272(1).

22DB Compliance with concurrence agency policy

The chief executive must, for assessing and giving its referral agency’s response to a concurrence agency application, comply with—

(b) if both the concurrence agency policies are applicable to the referral—each of the concurrence agency policies.
22DC  Refusal of particular concurrence agency application

(1) The chief executive may in its referral agency’s response to a concurrence agency application tell the assessment manager to refuse the application or impose a condition—

(b) any conditions in relation to the commercial timber that must attach to the development approval.

22DE Development not for a relevant purpose under s 22A

(1) This section applies if the chief executive is not satisfied the development applied for under a concurrence agency application is for a relevant purpose under section 22A.

(2) For applying section 22A, a reference to a vegetation clearing application is taken to be a reference to a concurrence agency application.

(3) The chief executive must in its referral agency’s response to the application tell the assessment manager to refuse the application to the extent the development is not for a relevant purpose under section 22A other than subsection (2B) of that section.

22DF Clearing vegetation on adjoining lot for firebreaks and fire management lines

(1) This section applies if the location of proposed infrastructure for a concurrence agency application would enable the applicant to clear vegetation on adjoining land for a purpose that is essential management for the Planning Act, definition essential management, paragraph (a) or (b).

Note—
See the Sustainable Planning Regulation 2009, schedule 26.

(2) In assessing and responding to the part of the application giving rise to the referral, the chief executive must consider any clearing of vegetation that may be required on the adjoining land for—

### Division 7  Broadscale applications and ballots

#### 22E Application of div 7

This division applies for a broadscale application.

#### 22F Exception to s 22A(1)

(1) Section 22A(1) does not apply to a broadscale application if the application is—

(a) only for land in a single region prescribed under section 22G(1)(a); and

(b) properly made during the ballot application period.

(2) The chief executive must, for each region of the State for which a ballot must be conducted, conduct a ballot for all broadscale applications for that region that comply with subsection (1).

(3) If, during the ballot application period, another broadscale application mentioned in subsection (1) is made for clearing land already included in a ballot, section 22A(1) applies to the other application to the extent the other application includes land already included in a ballot.

#### 22G Regions and ballots

(1) A regulation may prescribe—

(a) the regions of the State for which a ballot must be conducted; and
(b) the way, and the time at which, each ballot must be conducted; and

(c) the clearing allocation for each region; and

(d) the matters a broadscale application must contain.

(2) The purpose of conducting the ballot for a region is to decide the priority in which applications included in the ballot will be assessed under subsection (3) for receiving part of the clearing allocation for the region until the allocation is exhausted.

(3) After the ballot for a region is conducted—

(a) the applications for the ballot must be assessed in their priority against the regional vegetation management codes; and

(b) subject to the finalisation of any appeals, development approvals may be given only until the clearing allocation for the region is exhausted.

(4) When the clearing allocation for a region has been exhausted, any applications not assessed from the ballot for the region must be refused and need not be assessed, despite the Planning Act, section 326.

22H Modifying Planning Act effect on changing broadscale application

Despite the Planning Act, a broadscale application included in the ballot for a region—

(a) may only be changed under the Planning Act, section 351(1) until 20 business days after an information request has been made for the application; and

(b) can not be changed after the ballot application period has ended in a way that increases the size of the area proposed to be cleared.
22I **Modifying Planning Act time frames**

For a broadscale application included in the ballot for a region, each of the following sections of the Planning Act applies as if—

(a) in section 276(5), there were no time limit within which the assessment manager must make the request; and

(b) in section 278, if the applicant did not respond within 20 business days, the assessment manager may assess the application as if the applicant had sent a notice under the Planning Act, section 278(1)(c); and

(c) in section 318(1), there were no time limit within which the assessment manager must decide the application; and

(d) in section 366(3) and (4), the period were 10 business days; and

(e) in section 527(2), the period were 10 business days.

22J **Modifying Planning Act effect on changing development approval**

Despite the Planning Act, a development approval for the application can not be changed to extend the currency period.

22K **Modifying Planning Act effect of appeal rights on broadscale applications**

(1) Subject to section 22L(c), an appeal may only be made to a building and development dispute resolution committee under the Planning Act, section 527.

(2) However, an appeal, other than for a deemed refusal, may not be made unless the applicant has made representations about the matter.

*Note*—

See the Planning Act, chapter 6, part 8, division 1 (Changing decision notices and approvals during applicant’s appeal period).

(3) The representations may also be about a refusal.
(4) The Planning Act, sections 361 to 365, applies for the representations, including representations about a refusal.

22L Appeals

A person can not appeal under any Act against—

(a) the ballot process or result; or
(b) a refusal under section 22G(4); or
(c) the length of the currency period; or
(d) the decision of a building and development dispute resolution committee under the Planning Act.

(b) the area of remnant vegetation for the regional ecosystem is—

(i) 10% to 30% of the pre-clearing extent of the regional ecosystem; and

22LC Least concern regional ecosystems

(1) A regulation may declare a stated regional ecosystem to be a least concern regional ecosystem.

(2) The Minister must not recommend to the Governor in Council the making of a regulation under subsection (1) unless the Minister is satisfied the area of remnant vegetation for the regional ecosystem is—

(3) However, the authorised officer need not comply with subsection (2) if the authorised officer reasonably believes that immediate entry to the place is required to ensure the effective execution of the warrant is not frustrated.

(4) If there is no person present at the place who is an occupier of the place, or it is vacant land, it is sufficient compliance with subsection (2) for the officer, before entering the place, to do or make a reasonable attempt to do the following things—
(a) contact an owner or occupier of the place;
(b) tell the owner or occupier the authorised officer is permitted by the warrant to enter the place;
