*Stock Act 1915*

# **STOCK (CATTLE TICK) NOTICE 1993**

**Reprinted as in force on 6 October 1997  
(includes amendments up to SL No. 329 of 1997)**

**Reprint No. 3**

**This reprint is prepared by  
the Office of the Queensland Parliamentary Counsel  
Warning—This reprint is not an authorised copy**

# Information about this reprint

This notice is reprinted as at 6 October 1997. The reprint—

- shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c))
- incorporates all necessary consequential amendments, whether of punctuation, numbering or another kind (Reprints Act 1992 s 5(d)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes.

Minor editorial changes allowed under the provisions of the Reprints Act 1992 have also been made to correct minor errors (s 44).

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of earlier reprints is included in the endnotes.

**Also see endnotes for information about—**

- **when provisions commenced**
- **editorial changes made in the reprint—**
  - **table of corrected minor errors**
- **editorial changes made in earlier reprints.**

# STOCK (CATTLE TICK) NOTICE 1993

[as amended by all amendments that commenced on or before 6 October 1997]

## PART 1—PRELIMINARY

### Short title

1. This notice may be cited as the *Stock (Cattle Tick) Notice 1993*.

### Disease for which notice is made

2. This notice is made in relation to the disease cattle tick *Boophilus microplus*.

## PART 2—OBJECT OF NOTICE

### Object of notice

3. The object of this notice is to prevent the spread of cattle tick in Queensland.

### How object is to be achieved

4. The prevention of the spread of cattle tick is to be achieved by—
  - (a) declaring certain areas in Queensland to be—
    - (i) the infected area; or
    - (ii) an eradication area; or
    - (iii) a provisionally protected area; or
    - (iv) a protected area; or

- (v) the free area; and
- (b) making the movement of certain stock conditional on inspection and treatment; and
- (c) encouraging owners of stock to take measures to eradicate cattle tick and to prevent the spread of cattle tick by imposing less stringent regulatory requirements, or no regulatory requirements, in appropriate cases; and
- (d) recognising that non-chemical treatments may be effective in the prevention of the spread of cattle tick; and
- (e) requiring a person travelling stock on certain movements to obtain a travel permit for the movement.

### **PART 3—INTERPRETATION**

#### **Definitions**

5. In this notice—

**“adjacent property”**, to an infected property or area, includes—

- (a) an adjacent property or area that is a gazetted road, stock route, or drainage easement or similar reserve or easement that is fenced on both sides with a stock proof fence; and
- (b) a property or area that is only separated from the infected property by a gazetted road, stock route, or drainage easement or similar reserve or easement that is unfenced or fenced on 1 or both sides with a fence that is not stock proof.

**“approved feedlot”** means a feedlot approved by the chief inspector for part 7B.

**“approved meatworks”** means meatworks—

- (a) that—
  - (i) allow stock to be held for the entire period before slaughter on a hard standing area that is drained in a way that prevents

*Stock (Cattle Tick) Notice 1993*

---

the escape of cattle tick to another stock holding area; and

(ii) are approved by the chief inspector; or

(b) that are situated in the infected area.

**“approved program”** means a program, approved by the chief inspector, for the eradication or control of cattle tick.

**“cattle tick”** means the disease cattle tick *Boophilus microplus*.

**“cattle tick free area”** see section 46.

**“cattle tick provisionally protected area”** see section 49A.

**“central Queensland cattle tick protected area”** see section 7.

**“clean inspection”** means a manual inspection of stock by an inspector that satisfies the inspector that all of the stock should be free of cattle tick.

**“directly”**, in relation to the conveyance of stock, means without unloading the stock on the way to their destination.

**“eradication area”** means a cattle tick eradication area.

**“first removed property”** means a property—

(a) that is an adjacent property to an infected property; and

(b) on which no cattle tick has been found.

**“free area”** means the cattle tick free area.

**“hard standing area”** means an area in which stock may be contained that is free from grass or other pasture.

**“infected area”** means the cattle tick infected area.

**“infected property”** includes—

(a) a property—

(i) on which cattle tick has been found on stock depastured on the property; or

(ii) that an inspector believes, on reasonable grounds, is cattle tick infected; and

(b) the property of origin of stock that are found to be infested with cattle tick in circumstances where the age of the cattle tick infestation shows, in the chief inspector’s opinion, that the stock

became infected on the property.

**“manageable, groomed”** stock are stock that—

- (a) can be led and restrained to the satisfaction of an inspector for the purposes of examination and treatment; and
- (b) have been groomed daily for at least 7 days before presentation to an inspector.

**“north west Queensland cattle tick protected area”** see section 19.

**“preliminary treatment”**, of stock, means treatment that should ensure stock are cattle tick free when presented to an inspector.

**“protected area”** means a protected area for cattle tick declared under section 7, 19 or 31.

**“provisionally clean property”** means a property that—

- (a) is undertaking an approved program involving all stock on the property; and
- (b) has had—
  - (i) for the Central Queensland Cattle Tick Protected Area or North West Queensland Cattle Tick Protected Area—1 clean inspection under the program; or
  - (ii) for the South Queensland Cattle Tick Protected Area, a provisionally protected area or an eradication area—3 clean inspections under the program.

**“provisionally protected area”** means a cattle tick provisionally protected area.

**“second removed property”** means a property—

- (a) that is adjacent to a first removed property, but is not adjacent to an infected property; and
- (b) on which no cattle tick has been found.

**“south Queensland cattle tick protected area”** see section 31.

**“State”** includes territory.

**“stock”** means cattle, deer, sheep, goats, horses, camels, buffalo, llamas, alpacas, vicunas and guanacos.

“**stock proof fence**” means a fence that is properly maintained and appropriate for the control of stock.

“**supervised**” means supervised by an inspector.

“**treatment**”, in relation to stock, includes plunge dipping, spraying and other treatment (including non-chemical treatment) of all stock in a consignment to the satisfaction of an inspector.

“**veterinary surgeon**” means a veterinary surgeon within the meaning of the *Veterinary Surgeons Act 1936*.

“**visually clean inspection**” is a visual inspection of all stock in a consignment by an inspector during which no cattle tick are sighted by the inspector.

## **PART 4—CENTRAL QUEENSLAND CATTLE TICK PROTECTED AREA**

### *Division 1—Definition*

#### **Definition for pt 4**

6. In this part—

“**protected area**” means the central Queensland cattle tick protected area.

### *Division 2—Protected area*

#### **Declared protected area**

7.(1) The area marked ‘A’ in schedule 1 is declared to be a protected area for cattle tick.

(2) The area is to be known as the central Queensland cattle tick protected area.

(3) The exact location of the boundary of the area is held in digital electronic form.

(4) The location of the boundary is also shown on the maps held by the chief executive listed in schedule 2, part 1.<sup>1</sup>

(5) The information held in digital electronic form can be reduced or enlarged to show the detail required for a particular area.

### *Division 3—Preliminary treatment*

#### **Preliminary treatment of stock**

**8.(1)** Unless exempted by this notice, stock mentioned in sections 9, 12 and 15 must undergo preliminary treatment.

(2) An inspector may direct the owner of stock to provide further preliminary treatment to the stock before they undergo inspection if the inspector is not satisfied that the stock should be free of cattle tick—

- (a) after consultation with the owner of stock; or
- (b) on presentation of the stock.

(3) Without limiting subsection (2), an inspector is taken to be not satisfied that the stock should be free of cattle tick if—

- (a) the preliminary treatment provided to the stock is, in the inspector's opinion, inadequate to ensure that the stock should be tick free; or

---

<sup>1</sup> The boundary locations in digital electronic form can be viewed or the maps can be inspected at the department's following offices—  
Brisbane—Primary Industries Building, 80 Ann Street; and  
Animal Research Institute, 665 Fairfield Road, Yeerongpilly;  
Toowoomba—203 Tor Street, Toowoomba;  
Rockhampton—cnr Bruce Highway and Yeppoon Road, Parkhurst, via  
Rockhampton;  
Longreach—Landsborough Highway, Longreach;  
Townsville—Abbott Street, Oonoonba, Townsville.

- (b) no detail, or insufficient detail, of the preliminary treatment provided to the stock is given to the inspector to enable the inspector to assess the effectiveness of the treatment.

#### ***Division 4—Introduction of stock into protected area***

##### **General requirement**

**9.** Stock to be introduced into the protected area from the infected area must undergo a clean inspection followed immediately by a supervised treatment.

##### **Exemptions from general requirement**

**10.(1)** Stock to be introduced into the protected area need not undergo the inspection and treatment mentioned in section 9 if the stock—

- (a) for any stock—
  - (i) are to be introduced from premises or a holding considered by the chief inspector to be free of cattle tick; and
  - (ii) are conveyed directly to the protected area; or
- (b) for racehorses or trotting horses that are manageable, groomed horses—are to be conveyed directly to and from race meetings held in the protected area; or
- (c) for manageable, groomed horses—
  - (i) are conveyed directly to and from a scheduled competition event; and
  - (ii) are returned to the infected area within 5 days of entering the protected area.

#### ***Division 5—Movement of stock in protected area***

##### **Person moving stock to comply with division**

**11.** A person moving stock that are inside the protected area in a way

mentioned in section 12 or 13 must comply with the section before the stock are moved.

### **Movement of stock from infected property**

**12.** Stock that are to be moved from an infected property to another place inside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

### **Movement of stock from first removed or provisionally clean property**

**13.** Stock that are to be moved from a first removed property or provisionally clean to another place inside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

## ***Division 6—Movement of stock to outside protected area***

### **Person moving stock to comply with division**

**14.** A person moving stock that are inside the protected area in a way mentioned in section 15, 16 or 17 must comply with the section before the stock are moved.

### **Movement of stock from infected property**

**15.(1)** Stock that are to be moved from an infected property to another place outside the protected area must undergo a clean inspection followed immediately by 1 supervised treatment.

**(2)** However, if the stock are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards, the stock need not undergo the supervised treatment.

**(3)** Also, if the stock are to be conveyed directly through the free area to an approved meatworks outside the protected area, the stock may, instead of the inspection and treatment, undergo—

- (a) a visually clean inspection and a plunge dipping; or
- (b) a clean inspection.

(4) Further, if the stock from an infected property are to be conveyed directly to the infected area without passing through the free area, the stock—

- (a) are exempted from the operation of section 8;<sup>2</sup> and
- (b) need not undergo inspection or treatment.

### **Movement of stock from first removed or provisionally clean property**

**16.(1)** Stock that are to be moved from a first removed or provisionally clean property to another place outside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

(2) However, if the stock are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards, the stock need not undergo the supervised treatment.

(3) Also, the stock need not undergo any inspection or treatment if they are to be conveyed directly—

- (a) to the infected area; or
- (b) to an approved meatworks.

### **Movement of stock from second removed property**

**17.(1)** Stock that are to be moved from a second removed property to another place outside the protected area must undergo a clean inspection.

(2) Despite subsection (1), the stock need not undergo any inspection if they are to be conveyed directly—

- (a) to the infected area; or
- (b) to an approved meatworks.

---

<sup>2</sup> Section 8 (Preliminary treatment of stock)

## **PART 5—NORTH WEST QUEENSLAND CATTLE TICK PROTECTED AREA**

### *Division 1—Definition*

#### **Definition for pt 5**

**18.** In this part—

“**protected area**” means the north west Queensland cattle tick protected area.

### *Division 2—Protected area*

#### **Declared protected area**

**19.(1)** The area marked ‘B’ in schedule 1 is declared to be a protected area for cattle tick.

**(2)** The area is to be known as the north west Queensland cattle tick protected area.

**(3)** The exact location of the boundary of the area is held in digital electronic form.

**(4)** The location of the boundary is also shown on the maps held by the chief executive listed in schedule 2, part 2.<sup>3</sup>

**(5)** The information held in digital electronic form can be reduced or enlarged to show the detail required for a particular area.

### *Division 3—Preliminary treatment*

#### **Preliminary treatment of stock**

**20.(1)** Unless exempted by this notice, stock mentioned in sections 21,

---

<sup>3</sup> For information about the exact location of the boundary and the maps see footnote 1.

25 and 28 must undergo preliminary treatment.

(2) An inspector may direct the owner of stock to provide further preliminary treatment to the stock before they undergo inspection if the inspector is not satisfied that the stock should be free of cattle tick—

- (a) after consultation with the owner of stock; or
- (b) on presentation of the stock.

(3) Without limiting subsection (2), an inspector is taken to be not satisfied that the stock should be free of cattle tick if—

- (a) the preliminary treatment provided to the stock is, in the inspector's opinion, inadequate to ensure that the stock should be tick free; or
- (b) no detail, or insufficient detail, of the preliminary treatment provided to the stock is given to the inspector to enable the inspector to assess the effectiveness of the treatment.

#### ***Division 4—Introduction of stock into protected area***

##### **General requirement**

**21.(1)** Stock to be introduced into the protected area from the infected area must undergo a clean inspection followed immediately by a supervised treatment.

(2) If stock are to be conveyed directly to the clearing dip in Cloncurry or Mt Isa, the stock may undergo the inspection and treatment at the dip.

##### **Exemptions from general requirement**

**22.** Stock to be introduced into the protected area need not undergo the inspection and treatment mentioned in section 21 if the stock—

- (a) for any stock—
  - (i) are to be introduced from premises or a holding considered by the chief inspector to be free of cattle tick; and
  - (ii) are conveyed directly to the protected area; or

- (b) for racehorses or trotting horses that are manageable, groomed horses—are to be conveyed directly to and from race meetings held in the protected area; or
- (c) for manageable, groomed horses—
  - (i) are conveyed directly to and from a scheduled competition event; and
  - (ii) are returned to the infected area within 5 days of entering the protected area.

### **Stock not requiring treatment or inspection**

23. Stock from the infected area that are to be conveyed directly through the protected area to destinations in the infected area need not undergo any inspection or treatment.

### *Division 5—Movement of stock inside protected area*

#### **Person moving stock to comply with division**

24. A person moving stock that are inside the protected area in a way mentioned in section 25 or 26 must comply with the section before the stock are moved.

#### **Movement of stock from infected property**

25. Stock that are to be moved from an infected property to another place inside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

#### **Movement of stock from first removed or provisionally clean property**

26.(1) Stock from a first removed or provisionally clean property that are to be moved to another place inside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

(2) However, stock that are to be conveyed directly to another first removed or provisionally clean property inside the protected area need only undergo a clean inspection.

### ***Division 6—Movement of stock to outside protected area***

#### **Person moving stock to comply with division**

27. A person moving stock that are inside the protected area in a way mentioned in section 28 or 29 must comply with the section before the stock are moved.

#### **Movement of stock from infected property**

28.(1) Stock that are to be moved from an infected property to another place outside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

(2) However, if the stock are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards, the stock need not undergo the supervised treatment.

(3) Also, if the stock from an infected property are to be conveyed directly to the infected area without passing through the free area, the stock—

- (a) are exempted from the operation of section 20;<sup>4</sup> and
- (b) need not undergo inspection or treatment.

#### **Movement of stock from first removed or provisionally clean property**

29.(1) Stock that are to be moved from a first removed or provisionally clean property to another place outside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

(2) However, if the stock are to be conveyed directly to Harristown saleyards or Wandoan saleyards, the stock need not undergo the supervised

---

<sup>4</sup> Section 20 (Preliminary treatment of stock)

treatment.

(3) Also, if the stock are to be conveyed directly to the infected area, the stock need not undergo any inspection or treatment.

## **PART 6—SOUTH QUEENSLAND CATTLE TICK PROTECTED AREA**

### *Division 1—Definition*

#### **Definition for pt 6**

30. In this part—

“**protected area**” means the south Queensland cattle tick protected area.

### *Division 2—Protected area*

#### **Declared protected area**

31.(1) The area marked ‘C’ in schedule 1 is declared to be a protected area in relation to cattle tick.

(2) The area is to be known as the south Queensland cattle tick protected area.

(3) The exact location of the boundary of the area is held in digital electronic form.

(4) The location of the boundary is also shown on the maps held by the chief executive listed in schedule 2, part 3.<sup>5</sup>

(5) The information held in digital electronic form can be reduced or enlarged to show the detail required for a particular area.

---

<sup>5</sup> For information about the exact location of the boundary and the maps see footnote 1.

***Division 3—Preliminary treatment*****Preliminary treatment of stock**

**32.(1)** Unless exempted by this notice, stock mentioned in sections 33, 37 and 42 must undergo preliminary treatment.

(2) An inspector may direct the owner of stock to provide further preliminary treatment to the stock before they undergo inspection if the inspector is not satisfied that the stock should be free of cattle tick—

- (a) after consultation with the owner of stock; or
- (b) on presentation of the stock.

(3) Without limiting subsection (2), an inspector is taken to be not satisfied that the stock should be free of cattle tick if—

- (a) the preliminary treatment provided to the stock is, in the inspector's opinion, inadequate to ensure that the stock should be tick free; or
- (b) no detail, or insufficient detail, of the preliminary treatment provided to the stock is given to the inspector to enable the inspector to assess the effectiveness of the treatment.

***Division 4—Introduction of stock into protected area*****General requirement**

**33.** Stock to be introduced into the protected area from the infected area must undergo a clean inspection followed immediately by a supervised treatment.

**Alternative treatment**

**34.(1)** Stock may be introduced into the protected area from the infected area without undergoing the inspection and treatment mentioned in section 33 if the stock—

- (a) are to be conveyed directly to an approved meatworks and will receive—

*Stock (Cattle Tick) Notice 1993*

---

- (i) a visually clean inspection and plunge dipping; or
- (ii) a clean inspection; or
- (b) are cattle that—
  - (i) have undergone the clean inspection; and
  - (ii) are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards; or
- (c) come from premises or a holding considered by the chief inspector to be free of cattle tick and are to be conveyed directly to their destination; or
- (d) are manageable, groomed stock that have undergone the clean inspection and are to be conveyed directly to and from showgrounds, or another place where a scheduled competition event is to take place, approved by the chief inspector; or
- (e) are manageable, groomed racehorses or trotting horses that are to be conveyed directly to and from race meetings; or
- (ea) for manageable, groomed horses—
  - (i) are conveyed directly to and from a scheduled competition event; and
  - (ii) are returned to the infected area within 5 days of entering the protected area; or
- (f) are horses that—
  - (i) are maintained free of cattle tick by regular treatments approved by the chief inspector; and
  - (ii) are to be conveyed directly to and from holdings approved by the chief inspector; or
- (g) are manageable, groomed horses that—
  - (i) have undergone the clean inspection; and
  - (ii) are to be conveyed directly to the infected area by passing through the protected area; or
- (h) are injured horses that—
  - (i) have undergone the clean inspection; and

- (ii) are to be conveyed to a veterinary clinic for treatment; or
- (i) are manageable, groomed horses that—
  - (i) have undergone a clean inspection; and
  - (ii) a veterinary surgeon certifies, in writing, react adversely to chemical treatment.

(2) If horses mentioned in subsection (1)(h) are not returned to the infected area within 3 clear days after they are introduced into the protected area, the horses must undergo a supervised treatment.

(3) Horses mentioned in subsection (1)(i) must be returned to the infected area within 3 clear days after they are introduced into the protected area.

(4) If a veterinary surgeon certifies, by written notice to an inspector, that a horse mentioned in subsection (2) reacts adversely to chemical treatment, the horse must undergo a clean inspection instead of the supervised treatment.

### **Conditional conveyance to Taroom clearing dip**

**35A.(1)** Stock may be moved from the infected area to the Taroom clearing dip without undergoing the inspection and treatment mentioned in section 33<sup>6</sup> if the stock—

- (a) are conveyed directly through a protected area to the dip; and
- (b) use only a prescribed road to gain access to the dip; and
- (c) undergo a clean inspection and treatment at the dip.

(2) In this section—

**“prescribed road”** means—

- (a) the Theodore to Taroom section of the Leichhardt Highway; or
- (b) Cracow to Taroom Road; or
- (c) Fitzroy Development Road; or

---

<sup>6</sup> Section 33 (General requirement)

- (d) Flagstaff Road; or
- (e) Broadmere Road.

### **Conditional conveyance to Auburn clearing dip**

**35B.** Stock may be moved from the infected area to the Auburn clearing dip without undergoing the inspection and treatment mentioned in section 33<sup>7</sup> if the stock—

- (a) are conveyed directly through a protected area to the dip; and
- (b) use only Auburn Road to gain access to the dip; and
- (c) undergo a clean inspection and treatment at the dip.

### ***Division 5—Movement of stock inside protected area***

#### **Person moving stock to comply with division**

**36.** A person moving stock that are inside the protected area in a way mentioned in section 37, 38, 39 or 40 must comply with the section before the stock are moved.

#### **Movement of stock from infected property undergoing approved program**

**37.(1)** Stock that are to be moved from an infected property undergoing an approved program to another place inside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

**(2)** If stock mentioned in subsection (1) are to be moved in a way, and to a place, mentioned in subsection (3) or (4), the stock may be subjected to the requirements mentioned in the subsection instead of the inspection and treatment mentioned in subsection (1).

**(3)** Stock that are to be conveyed directly to an approved meatworks may undergo—

---

<sup>7</sup> Section 33 (General requirement)

- (a) a visually clean inspection and a plunge dipping; or
- (b) a clean inspection.

(4) Stock that are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards may undergo a clean inspection.

(5) Stock that are to be conveyed directly to a saleyard mentioned in subsection (4) may undergo the clean inspection at the saleyard.

### **Movement of stock from infected property not undergoing approved program**

38. If stock from an infected property not undergoing an approved program are to be moved to another place inside the protected area, the stock must undergo—

- (a) a supervised treatment; and
- (b) a clean inspection followed immediately by a second supervised treatment.

### **Movement of stock from first removed or provisionally clean property**

39.(1) Stock that are to be moved from a first removed or provisionally clean property to another place inside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

(2) If stock mentioned in subsection (1) are to be moved in a way, and to a place, mentioned in subsection (3) or (4), the stock may be subjected to the requirements (if any) mentioned in the subsection instead of the inspection and treatment mentioned in subsection (1).

(3) Stock that are to be conveyed directly to an approved meatworks need not undergo inspection and treatment.

(4) Stock that are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards may undergo a clean inspection.

(5) Stock that are to be conveyed directly to a saleyard mentioned in subsection (4) may undergo the clean inspection at the saleyard.

**Movement of stock from second removed property**

**40.(1)** Stock that are to be moved from a second removed property to another place inside the protected area must undergo a clean inspection.

**(2)** Despite subsection (1), if the stock are to be conveyed directly to an approved meatworks or Harristown Saleyards or Wandoan Saleyards, the stock need not undergo a clean inspection.

***Division 6—Movement of stock to outside protected area*****Person moving stock to comply with division**

**41.** A person moving stock that are inside the protected area in a way mentioned in section 42, 43, 44 or 45 must comply with the section before the stock are moved.

**Movement of stock from infected property undergoing approved program**

**42.(1)** Stock that are to be moved from an infected property undergoing an approved program to another place outside the protected area must undergo a clean inspection followed immediately by a supervised treatment.

**(2)** If stock mentioned in subsection (1) are to be moved in a way, and to a place, mentioned in subsection (3), (4), (5) or (6), the stock may be subjected to the requirements (if any) mentioned in the subsection instead of the inspection and treatment mentioned in subsection (1).

**(3)** Stock that are to be conveyed directly to the infected area without passing through the free area—

- (a) are exempted from the operation of section 32; and
- (b) need not undergo inspection or treatment.

**(4)** Stock that are to be conveyed directly to the infected area by passing through the free area may undergo a clean inspection.

**(5)** Stock that are to be conveyed directly to an approved meatworks may undergo—

- (a) a visually clean inspection and plunge dipping; or

(b) a clean inspection.

(6) Stock that are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards by passing through the free area may undergo a clean inspection.

### **Movement of stock from infected property not undergoing approved program**

**43.(1)** Stock that are to be moved from an infected property not undergoing an approved program to another place outside the protected area must undergo—

- (a) a supervised treatment; and
- (b) a clean inspection followed immediately by a second supervised treatment.

(2) If stock mentioned in subsection (1) are to be moved in a way, and to a place, mentioned in subsection (3) or (4), the stock may be subjected to the requirements (if any) mentioned in the subsection instead of the inspection and treatment mentioned in subsection (1).

(3) Stock that are to be conveyed directly to the infected area without passing through the free area may undergo a clean inspection.

(4) Stock that are to be moved to an adjacent infected area without passing through any other property in the protected area—

- (a) are exempted from the operation of section 32; and
- (b) need not undergo inspection or treatment.

### **Movement of stock from first removed or provisionally clean property**

**44.(1)** This section—

- (a) applies to stock that are to be moved—
  - from a first removed or provisionally clean property
  - to somewhere outside the protected area; but
- (b) does not apply to stock that are to be conveyed directly to an approved meatworks or to the infected area.

(2) The stock must undergo a clean inspection followed immediately by a supervised treatment.

(3) However, stock that are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards need only undergo a clean inspection.

### **Movement of stock from second removed property**

**45.(1)** Stock that are to be moved from a second removed property to another place outside the protected area must undergo a clean inspection.

(2) Despite subsection (1), stock need not undergo a clean inspection if the stock are to be conveyed directly to—

- (a) the infected area; or
- (b) an approved meatworks; or
- (c) Harristown Saleyards or Wandoan Saleyards.

## **PART 7—CATTLE TICK FREE AREA**

### *Division 1—Cattle tick free area*

#### **Declared cattle tick free area**

**46.(1)** The area marked ‘D’ in schedule 1 is declared to be an area free of cattle tick.

(2) The area is to be known as the cattle tick free area.

(3) The exact location of the boundary of the area is held in digital electronic form.

(4) The location of the boundary is also shown on the maps held by the chief executive listed in schedule 2, part 4.<sup>8</sup>

---

<sup>8</sup> For information about the exact location of the boundary and the maps see footnote 1.

(5) The information held in digital electronic form can be reduced or enlarged to show the detail required for a particular area.

### *Division 2—Preliminary treatment*

#### **Preliminary treatment of stock**

**47.(1)** Unless exempted by this notice, stock mentioned in section 48 must undergo preliminary treatment.

(2) An inspector may direct the owner of stock to provide further preliminary treatment to the stock before they undergo inspection if the inspector is not satisfied that the stock should be free of cattle tick—

- (a) after consultation with the owner of stock; or
- (b) on presentation of the stock.

(3) Without limiting subsection (2), an inspector is taken to be not satisfied that the stock should be free from cattle tick if—

- (a) the preliminary treatment provided to the stock is, in the inspector's opinion, inadequate to ensure that the stock should be tick free; or
- (b) no detail, or insufficient detail, of the preliminary treatment provided to the stock is given to the inspector to enable the inspector to assess the effectiveness of the treatment.

### *Division 3—Introduction of stock into free area*

#### **General requirement**

**48.** Stock to be introduced into the free area from the infected area must undergo a clean inspection followed immediately by a supervised treatment.

#### **Alternative treatment**

**49.(1)** Stock may be introduced into the free area from the infected area

*Stock (Cattle Tick) Notice 1993*

---

without undergoing the inspection and treatment mentioned in section 48<sup>9</sup> if the stock—

- (a) are to be conveyed directly to an approved meatworks and will receive—
  - (i) a visually clean inspection and plunge dipping; or
  - (ii) a clean inspection; or
- (b) come from premises or a holding considered by the chief inspector to be free from cattle tick and are to be conveyed directly to their destination; or
- (c) are manageable, groomed stock that have undergone the clean inspection and are to be conveyed directly to and from showgrounds, or another place where a scheduled competition event is to take place, approved by the chief inspector; or
- (d) are manageable, groomed racehorses or trotting horses that are to be conveyed directly to and from race meetings; or
- (da) for manageable, groomed horses—
  - (i) are conveyed directly to and from a scheduled competition event; and
  - (ii) are returned to the infected area within 5 days of entering the free area; or
- (e) are horses that—
  - (i) are maintained free of cattle tick by regular treatments approved by the chief inspector; and
  - (ii) are to be conveyed directly to and from holdings approved by the chief inspector; or
- (f) are injured horses that—
  - (i) have undergone the clean inspection; and
  - (ii) are to be conveyed to a veterinary clinic for treatment; or
- (g) are manageable, groomed horses that—
  - (i) have undergone a clean inspection; and

---

<sup>9</sup> Section 48 (General requirement)

(ii) a veterinary surgeon certifies, by written notice to an inspector, react adversely to chemical treatment.

(2) If horses mentioned in subsection (1)(f) are not returned to the infected area within 3 clear days after they are introduced into the free area, the horses must undergo a supervised treatment.

(3) Horses mentioned in subsection (1)(g) must be returned to the infected area within 3 clear days after they are introduced into the free area.

(4) If a veterinary surgeon certifies, by written notice to an inspector, that a horse mentioned in subsection (2) reacts adversely to chemical treatment, the horse must undergo a clean inspection instead of the supervised treatment.

## **PART 7A—CATTLE TICK PROVISIONALLY PROTECTED AREAS**

### *Division 1—Provisionally protected areas*

#### **Declared provisionally protected areas**

**49A.(1)** The areas marked ‘F’ in schedule 1 are declared to be provisionally protected areas for cattle tick.

(2) The areas are to be known as cattle tick provisionally protected areas.

(3) The exact location of the boundaries of each provisionally protected area is held in digital electronic form.

(4) The location of the boundary is also shown on maps listed in schedule 2, part 5<sup>10</sup> held by the chief executive.

(5) The information held in digital electronic form can be reduced or enlarged to show the detail required for a particular area.

---

<sup>10</sup> For information about the exact location of the boundary and the maps see footnote 1.

### ***Division 2—Preliminary treatment***

#### **Preliminary treatment of stock**

**49B.(1)** This section applies if stock must undergo preliminary treatment under this part.

(2) An inspector may direct the owner of stock to provide further preliminary treatment to the stock before they undergo inspection if the inspector is not satisfied that the stock should be free of cattle tick—

- (a) after consultation with the owner of stock; or
- (b) on presentation of the stock.

(3) Without limiting subsection (2), an inspector is taken to be not satisfied that the stock should be free of cattle tick if—

- (a) the preliminary treatment provided to the stock is, in the inspector's opinion, inadequate to ensure that the stock should be tick free; or
- (b) no detail, or insufficient detail, of the preliminary treatment provided to the stock is given to the inspector to enable the inspector to assess the effectiveness of the treatment.

### ***Division 3—Introduction of stock from the infected area***

#### **Application of div 3**

**49C.** This division applies if stock are to be introduced into a provisionally protected area from the infected area.

#### **Treatment and inspection requirements**

**49D.(1)** Stock must undergo preliminary treatment and a clean inspection followed immediately by a supervised treatment.

(2) However, the stock are exempt from subsection (1) if they are conveyed directly through a provisionally protected area to—

- (a) a destination in the infected area; or

- (b) a clearing dip that is—
  - (i) in a protected area or a provisionally protected area; and
  - (ii) approved by the chief inspector; or
- (c) a meatworks in a provisionally protected area.

(3) Also, manageable, groomed horses are exempt from subsection (1) if they—

- (a) for racehorses and trotting horses—are conveyed directly to and from race meetings; or
- (b) for any horse—
  - (i) are conveyed directly to and from a scheduled competition event; and
  - (ii) are returned to the infected area within 5 days of entering the provisionally protected area.

#### ***Division 4—Moving stock within a provisionally protected area***

#### **Application of div 4**

**49E.** This division applies to stock that are to be moved from an infected property in a provisionally protected area to another place in the area.

#### **Movement from property undergoing approved program**

**49F.(1)** This section applies if stock are to be moved from a property undergoing an approved program.

(2) The stock must undergo preliminary treatment and a clean inspection followed immediately by a supervised treatment.

- (3) However, the following stock are exempt from subsection (2)—
- (a) stock that are to be conveyed directly to a meatworks;
  - (b) horses.

**Movement from property not undergoing approved program**

**49G.(1)** This section applies if stock are to be moved from a property not undergoing an approved program.

**(2)** The stock must undergo—

- (a) a supervised treatment; and
- (b) a clean inspection followed immediately by a second supervised treatment at—
  - (i) a clearing dip approved by the chief inspector; or
  - (ii) a dip approved by an inspector.

**(3)** However, the stock are exempt from subsection (2) if they are to be conveyed directly to a meatworks.

***Division 5—Moving stock to outside a provisionally protected area*****Application of div 5**

**49GA.** This division applies to stock that are to be moved from a provisionally protected area to a place outside the area.

**Movement from infected property undergoing approved program**

**49GB.(1)** This section—

- (a) applies to stock that are to be moved—
  - from an infected property undergoing an approved program
  - to somewhere outside the provisionally protected area; but
- (b) does not apply to stock that are to be conveyed directly to the infected area without passing through the free area.

**(2)** The stock must undergo—

- (a) preliminary treatment; and
- (b) a clean inspection followed immediately by a supervised treatment at a dip approved by an inspector.

**(3) However—**

- (a) stock that are to be conveyed directly to an approved meatworks need only undergo—
  - (i) a visually clean inspection and plunge dipping; or
  - (ii) a clean inspection; and
- (b) stock that are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards need only undergo a clean inspection.

**Movement of stock from infected property not undergoing approved program****49GBA.(1) This section—**

- (a) applies to stock that are to be moved—
  - from an infected property not undergoing an approved program
  - to somewhere outside the provisionally protected area; but
- (b) does not apply to stock that are to be moved to an adjacent infected area without passing through any other property in the provisionally protected area.

**(2) The stock must undergo—**

- (a) a supervised treatment; and
- (b) a clean inspection followed immediately by a second supervised treatment.

**(3) However,** stock that are to be conveyed directly to the infected area without passing through a protected area, or the free area, need only undergo a clean inspection.

**Movement from provisionally clean property**

**49GC.(1)** Stock that are to be moved from a provisionally clean property must undergo a clean inspection, followed immediately by a supervised treatment.

(2) However, stock are exempt from subsection (1) if they are to be conveyed directly to—

- (a) the infected area; or
- (b) an approved meatworks; or
- (c) Harristown Saleyards or Wandoan Saleyards by passing through a protected area or the free area and they undergo a clean inspection.

## **PART 7AA—CATTLE TICK ERADICATION AREA**

### *Division 1—Eradication area*

#### **Declared eradication area**

**49GD.(1)** The area marked ‘G’ in schedule 1 is declared to be an eradication area for cattle tick.

(2) The areas are to be known as cattle tick eradication areas.

(3) The exact location of the boundaries of each eradication area is held in digital electronic form.

(4) The location of the boundary is also shown on maps held by the chief executive listed in schedule 2, part 7.<sup>11</sup>

(5) The information held in digital electronic form can be reduced or enlarged to show the detail required for a particular area.

---

<sup>11</sup> For information about the exact location of the boundary and the maps see footnote 1.

***Division 2—Preliminary treatment*****Preliminary treatment of cattle**

**49GE.(1)** This section—

- (a) applies to cattle—
  - (i) to be introduced into an eradication area from the infected area; or
  - (ii) that are to be moved—
    - from an infected property in an eradication area
    - to somewhere outside the eradication area; but
- (b) does not apply to cattle that are to be conveyed directly to the infected area without passing through a protected area or the free area.

**(2)** The cattle must undergo preliminary treatment.

**(3)** An inspector may direct the owner of cattle to provide further preliminary treatment to the cattle before they undergo inspection if the inspector is not satisfied the cattle are free of cattle tick after—

- (a) consulting the owner; or
- (b) presentation of the cattle.

**(4)** Without limiting subsection (3), an inspector is taken to be not satisfied the cattle are free of cattle tick if—

- (a) the inspector considers the preliminary treatment provided to the cattle is inadequate to ensure the cattle are tick free; or
- (b) no detail, or insufficient detail, of the preliminary treatment provided to the cattle is given to the inspector to enable the inspector to assess the treatment's effectiveness.

***Division 3—Introduction of cattle into an eradication area*****General requirement**

**49GF.(1)** Cattle to be introduced into an eradication area from the infected area must undergo a clean inspection followed immediately by a supervised treatment.

**(2)** Subsection (1) does not apply to cattle that are conveyed directly through the eradication area—

- (a) to the infected area; or
- (b) to a clearing dip approved by the chief inspector.

***Division 4—Movement of stock to outside eradication area*****Movement of stock from infected property**

**49GG.(1)** This section—

- (a) applies to stock that are to be moved—
  - from an infected property in an eradication area
  - to somewhere outside the eradication area; but
- (b) does not apply to stock that are to be conveyed directly to the infected area without passing through a protected area or the free area.

**(2)** The person moving the stock must ensure the stock undergo a clean inspection followed immediately by a supervised treatment.

**(3)** However—

- (a) stock that are to be conveyed directly to an approved meatworks need only undergo—
  - (i) a visually clean inspection and plunge dipping; or
  - (ii) a clean inspection; or
- (b) stock that are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards need only undergo a clean inspection.

**Movement of stock from provisionally clean property**

**49GH.(1)** This section—

- (a) applies to stock that are to be moved—
- from a provisionally clean property in an eradication area
  - to somewhere outside the eradication area; but
- (b) does not apply to stock that are to be conveyed directly to the infected area or an approved meatworks.

(2) The person moving the stock must ensure the stock undergo a clean inspection followed immediately by a supervised treatment.

(3) However, stock that are to be conveyed directly to Harristown Saleyards or Wandoan Saleyards need only undergo a clean inspection.

## **PART 7B—MOVEMENT OF STOCK FROM APPROVED FEEDLOTS**

### *Division 1—Preliminary*

#### **Definitions for pt 7B**

**49H.** In this part—

**“approved interstate meatworks”** means meatworks in another State approved under arrangements entered into between the chief inspector and a corresponding authority.

**“corresponding authority”** means an authority of another State whose functions under the other State’s law correspond to the functions of the chief inspector.

#### **Copy of approved interstate meatworks list must be available**

**49I.(1)** A person may ask for a list of approved interstate meatworks at any office of the department dealing with stock.

(2) An officer of the department at the office must comply with the request as soon as practicable.

### *Division 2—Movement of stock*

#### **Movement of stock from approved feedlot**

**49J.(1)** This section applies to stock that are cattle or sheep only if the stock have been kept at an approved feedlot for a continuous period of at least 35 days.

(2) Cattle may be conveyed directly without inspection or treatment to—

- (a) approved meatworks; or
- (b) Harristown saleyards or Wandoan saleyards; or
- (c) subject to any requirements of the other State, approved interstate meatworks.

(3) Sheep may be conveyed directly without inspection or treatment to—

- (a) approved meatworks; or
- (b) Harristown saleyards.

(4) Also, the sheep may be conveyed directly to another destination in the State if the sheep undergo a clean inspection.

(5) However, this section does not apply to a movement of cattle or sheep from an approved feedlot in the infected area to a destination in the infected area if the movement is wholly within the infected area.

(6) This section applies despite parts 4 to 7A.

## **PART 7C—MOVEMENT OF MANAGEABLE GROOMED STOCK INTO NEW SOUTH WALES**

### **Definitions for pt 7C**

**49K.** In this part—

“**border**” means the Queensland and New South Wales border.

“**stock**” means alpacas, goats, horses, llamas and sheep.

### **Conveying manageable, groomed stock into New South Wales**

**49L.(1)** This section applies to manageable, groomed stock to be conveyed directly into New South Wales through the free area, a protected area or a provisionally protected area from—

- (a) the infected area; or
- (b) an infected property, first removed or second removed property, or provisionally clean property, in a protected area; or
- (c) a provisionally protected area; or
- (d) an eradication area.

**(2)** Despite parts 4 to 7AA, if an inspector is satisfied the stock meet the entry conditions imposed under New South Wales law, the stock need not be inspected or treated.

## **PART 8—CATTLE TICK INFECTED AREA**

### **Declared tick infected area**

**50.(1)** The area marked ‘E’ in schedule 1 is declared to be an area infected with cattle tick.

**(2)** The area is to be known as the cattle tick infected area.

**(3)** The exact location of the boundary of the area is held in digital electronic form.

**(4)** The location of the boundary is also shown on the maps held by the chief executive listed in schedule 2, part 6.<sup>12</sup>

---

<sup>12</sup> For information about the exact location of the boundary and the maps see footnote 1.

(5) The information held in digital electronic form can be reduced or enlarged to show the detail required for a particular area.

## **PART 9—GENERAL**

### **Time between treatments**

**51.(1)** If stock are required under this notice to undergo more than 1 treatment or supervised treatment, the time between the treatments must not be less than 3 days.

(2) Subject to subsection (1), an inspector may direct that the time between the treatments be a specified number of days.

### **Movement of stock after inspection and treatment**

**52.** Unless otherwise provided, or where an extension of time is granted by an inspector, stock that are required under this notice to undergo inspection or supervised treatment must be moved—

- (a) if only an inspection is required—within 24 hours after the inspection; or
- (b) if supervised treatment is required—within 24 hours after the final supervised treatment.

### **General dispensation of treatment requirements**

**53.(1)** If the chief inspector is satisfied in relation to a movement of stock that the risk of spreading cattle tick because of the movement is minimal, the chief inspector may—

- (a) dispense with the inspection and treatment requirements mentioned in this notice for the stock; or
- (b) require the stock to undergo another less stringent form of inspection or treatment that is appropriate in the circumstances.

(2) Without limiting subsection (1)(a), the chief inspector may dispense with the inspection and treatment requirements for stock conveyed directly—

- from the infected area or an eradication area
- through a protected area on certain roads or railways approved by the chief inspector
- to the infected area.

### **Stock movements requiring a travel permit**

54.(1) A travel permit under section 21<sup>13</sup> of the Act must be obtained for a movement of stock mentioned in parts 4 to 7C.

(2) If cattle are to be moved on a journey from a place in the infected area to or through a place outside the infected area, a travel permit must be obtained for the movement of the cattle from the place the journey starts to the inspection point.

(3) A permit required by subsection (2) is in addition to a permit required by subsection (1).

(3A) This section does not apply to stock conveyed directly from the infected area to the infected area through—

- (a) a protected area on certain roads or railways approved by the chief inspector; or
- (b) a provisionally protected area; or
- (c) an eradication area; or
- (d) the North West Queensland Cattle Tick Protected Area.

(4) In this section—

“**inspection point**” means the place where an inspector inspects the cattle before deciding whether to allow them to be moved outside the infected area.

---

<sup>13</sup> Section 21 of the Act (Some stock movements require a travel permit)

**Area maps and information are public documents**

**55.(1)** This section applies to the following records about the boundaries of infected areas, eradication areas, provisionally protected areas, protected areas or the free area—

- (a) information in digital electronic form showing the exact location of the boundaries;
- (b) maps held by the chief executive listed in schedule 2 on which the location of the boundaries areas are also shown.

**(2)** The chief executive must keep the records and make them available for inspection by members of the public.

**SCHEDULE 1****QUEENSLAND CATTLE TICK AREAS**sections 7, 19, 31, 46, 49A, 49GD and 50<sup>14</sup>

- A Central Queensland Cattle Tick Protected Area
- B North West Queensland Cattle Tick Protected Area
- C South Queensland Cattle Tick Protected Area
- D Cattle Tick Free Area
- E Cattle Tick Infected Area
- F Cattle Tick Provisionally Protected Area
- G Cattle Tick Eradication Area

<sup>14</sup> This map is from digital electronic information held by the chief executive under section 55.
