The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

Minor editorial changes allowed under the provisions of the Reprints Act 1992 have also been made to use aspects of format and printing style consistent with current drafting practice (s 35).

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

## Dates shown on reprints

**Reprints dated at last amendment** All reprints produced on or after 1 July 2002, hard copy and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If a hard copy reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

**Replacement reprint date** If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Revised edition indicates further material has affected existing material. For example—

- a correction
- a retrospective provision
- other relevant information.

3 See section 23(1A) (Winning wagers).

**17 Time for entering keno**

A person may not make a wager in a game of keno after the keno drawing device is activated to draw the game.

**Part 4 Drawing keno****18 Drawing equipment**

- (1) A keno drawing device must be used to select the 20 winning numbers in a game of keno.
- (2) If a keno ball drawing device is used, a keno supervisor must—
  - (a) each keno day, replace all balls in the device; and
  - (b) regularly inspect the balls for defects and ensure any defective balls are replaced.

**19 Drawing winning numbers**

- (1) As soon as a keno drawing device is activated to draw a game of keno, notice must be given in the keno gaming place to advise persons the game is being drawn.
- (2) If a keno ball drawing device is used to select the winning numbers in a game of keno, the drawing must take place in a way that enables persons in the keno gaming place to view the drawing.
- (3) If a keno random number generator is used to select the winning numbers in a game of keno, the keno random number generator must be situated in a place approved by the chief executive.
- (4) The 20 numbers selected by the keno random number generator or the numbers on the 20 balls selected by the keno ball drawing device are the winning numbers for the game.
- (5) If a keno ball drawing device is used for the drawing and numbers other than the numbers on the balls selected are

displayed, the numbers on the balls selected are the winning numbers.

## **20 How keno ball drawing device operates**

## **21 Malfunction by keno ball drawing device**

- (1) This section applies if a keno ball drawing device malfunctions during a drawing.
- (2) If the keno ball drawing device is capable of being operated by hand and in the way it is intended to operate, a keno supervisor may operate the device by hand to complete the drawing.
- (3) If the keno ball drawing device is not capable of being operated by hand or of operating in the way it is intended to operate, the drawing is not effective for deciding the winning numbers.
- (4) If a ball breaks and only part of the ball is drawn—
  - (a) the number on the part ball drawn is not a winning number; and
  - (b) the drawing must be completed; and
  - (c) at the completion of the drawing, the keno supervisor, in the presence of an inspector, must replace the balls in the keno ball drawing device.

## **22 Malfunction by keno random number generator**

If a keno random number generator malfunctions during a drawing—

- (a) any numbers selected are not winning numbers for the drawing; and
- (b) before conducting a new drawing, the keno licensee must seek an inspector's approval.

## **Part 5                      Winnings**

### **23        Winning wagers**

- (1) A winning wager in a game of keno is a wager in which—
  - (a) a number or numbers selected by a person taking part in the game matches or match a number or numbers selected by the keno drawing device as the winning numbers for the game; and
  - (b) the combination of numbers matched and numbers selected by the person is a winning wager in the schedule of prizes.
- (1A) However, a winning heads wager, tails wager or evens wager is a wager that corresponds with the distribution of numbers selected by the keno drawing device.<sup>4</sup>
- (2) Only 1 prize is payable for a winning keno wager.

*Example—*

If 6 of the numbers selected on a 7 spot wager are selected by the keno drawing device, the only prize payable is the prize stated in the schedule of prizes for a catch of 6.

- (3) However, more than 1 prize is payable if—
  - (a) the wager is a way wager; and
  - (b) more than 1 of the ways is a winning wager.
- (3A) If a lucky last wager is made with a way wager and the winning number for the lucky last wager is in more than 1 way, only 1 prize for the winning lucky last wager is payable.

---

4        See section 14A (Heads, tails and evens wagers).

- (4) If a keno ticket was issued to a person for a winning wager in a game of keno and the wager was made by cash, chips, keno dollars or promotional keno dollars, payment will be made for the winning wager only if the ticket is presented.
- (5) However, if a keno ticket was not issued for an entry in a game of keno, payment will be made only if the information about the entry in a keno computer system matches information about a winning wager in the schedule of prizes.

## **24 Way winning wagers may be paid**

- (1) A winning wager may be paid by 1 or more of the following—

- (2) An appointed agent must give notice in the keno gaming place of the maximum amount that may be paid in cash by the agent for a prize.
- (3) Payment of an amount above an appointed agent's cash payment limit must be made by the keno licensee.

## **25 Major prizes**

- (1) If the total value of major prizes that would be payable for a game of keno (not including jackpot prizes) is more than \$1200000, the payout for each major prize of more than \$1000 is to be abated proportionately, so that the total payout for major prizes for the game is not more than \$1200000.

*Example—*

If the major prizes that would be payable in a game of keno are prizes of \$700000, \$490000 and \$210000, the payouts will abate respectively to \$600000, \$420000 and \$180000 so that the total payout for major prizes is \$1200000.

- (2) However, a major prize will not be abated to less than \$1000 even though the total payout for major prizes for the game would be more than \$1200000.

## Part 6                      Miscellaneous

### 26              **Jackpot keno**

- (1) A person who enters a game of keno by making a 7, 8, 9 or 10 spot wager is automatically entered in jackpot keno.

- (4) If 2 or more persons are eligible for the same jackpot, the jackpot is shared by the eligible persons.
- (5) Despite subsections (1) and (3), the chief executive, in the schedule of prizes, may approve—
