Information about this reprint

This regulation is reprinted as at 1 July 2005. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c))

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

Minor editorial changes allowed under the provisions of the Reprints Act 1992 have also been made to use aspects of format and printing style consistent with current drafting practice (s 35).

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, hard copy and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If a hard copy reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Part 1 Preliminary

1 Short title

This regulation may be cited as the *Transport Operations* (Road Use Management) Regulation 1995.

2 Commencement

This regulation commences on 1 July 1995.

3 Definitions

The dictionary in schedule 13 defines particular words used in this regulation.

4 Acts that are transport Acts

The Tow Truck Act 1973 is a transport Act.

4A Approval of random inspection program

- (1) The chief executive may only approve a program for stopping private vehicles for the Act, section 47, if the program—
 - (a) states that only an authorised officer who has successfully finished a particular course of training may exercise the powers of an authorised officer at a checkpoint; and

12

s 4B

- (b) requires an authorised officer to wear a uniform approved by the chief executive when the authorised officer is on duty at the checkpoint; and
- (c) requires a police officer in uniform to be present at the checkpoint at night; and
- (d) establishes particular objective criteria for the random selection of motor vehicles for stopping at checkpoints

Examples of objective criteria for random selection of motor vehicles—

- 1 Every fifth motor vehicle passing the checkpoint is to be checked.
- 2 Every second motor vehicle passing the checkpoint that appears to the authorised officer to be older than 5 years.
- (2) The program may include other matters the chief executive considers appropriate.
- (3) The exercise of a power under the Act, section 31(2)(a) is not invalid only because the authorised officer did not tell the driver the particular objective criterion used to select the driver's vehicle for stopping the vehicle at a checkpoint.
- (4) A training course mentioned in subsection (1) must educate authorised officers about the powers and duties of authorised officers under the Act and the appropriate way of exercising the powers and duties.

4B Regulation and control of powers of certain authorised officers

- (1) This section applies to an authorised officer, who is not a police officer, when exercising powers to stop a private vehicle.
- (2) An authorised officer may only require the driver of a private vehicle to stop the vehicle during daylight.
- (3) In addition, an authorised officer who is not wearing a uniform approved by the chief executive may only exercise the powers of an authorised officer in relation to a private vehicle that the authorised officer reasonably believes is so

dangerous as to be likely to cause loss of life or bodily injury to a person.

4C Requirement to remain at a place

- (1) This section applies if the person in control of a vehicle is required to—
 - (a) stop the vehicle under section 31 or 32 of the Act; or
 - (b) move the vehicle to a place under section 33 of the Act.
- (2) The person must ensure it remains at the place where the vehicle is stopped or moved to, for the time reasonably necessary to enable the authorised officer to perform a function or exercise a power under those sections.

Maximum penalty-

- (a) for a private vehicle—60 penalty units; or
- (b) for a heavy vehicle—80 penalty units.

4CA Way to require vehicles to stop or move in preparation for stopping

- For section 31(2) or 32(2) of the Act, an authorised officer may require the person in control of a motor vehicle to stop the vehicle or for section 32(3) to move the vehicle in preparation for stopping it—
 - (a) by signalling in a way stated in schedule 1A; or
 - (b) by a sign displayed—
 - (i) by the authorised officer; or
 - (ii) on or in the vicinity of the road.

Examples of paragraph (b)(ii)—

- A sign indicating that trucks must stop at a weighbridge when it is open
- A sign indicating that trucks must use left lane
- A sign indicating that trucks must exit
- (2) To help in attracting the attention of the person in control of the motor vehicle to the authorised officer's signal or sign, an

authorised officer who is not a police officer may, on the officer's vehicle----

- (a) display flashing magenta coloured lights; or
- (b) operate a horn.

4CB Moving loads before weighing

- (1) This section applies if the person in control of a heavy vehicle is required to—
 - (a) stop the vehicle under section 32 of the Act; or
 - (b) move the vehicle to a place, under section 33 of the Act, to enable the vehicle to be weighed.
- (2) The person must not unload or alter the position of any part of the load on the vehicle, for the time reasonably necessary to enable the authorised officer to perform a function or exercise a power under those sections.

Maximum penalty—80 penalty units.

Part 2 Fees

4F Fees generally

The fees payable under this regulation are in schedule 1.

9 Indivisible load permit fees

- (1) This section applies to a motor vehicle with at least 1 trailer (a *vehicle combination*) that—
 - (a) is loaded with an indivisible load; and
 - (b) has a loaded mass of more than 125t.
- (2) The fee for the grant of a permit to operate the vehicle combination is worked out using the formula—

journey length x total esa x \$0.04

(3) In this section—

average load per row means the mass (in tonnes) of the loaded trailer that is transmitted to the ground through its tyres, divided by the number of rows of tyres on the trailer.

equivalent standard axles means the number shown in schedule 2 opposite the number for the average load per row.

journey length means the number of kilometres involved in the journey for which the permit is granted.

total esa means the equivalent standard axles multiplied by the number of rows of tyres on the trailer.

Example—

For a trailer with a loaded mass of 129.5t and 7 rows of tyres, the average load per row is 18.5t (ie $129.5t \div 7$).

According to schedule 2, the equivalent standard axles of a trailer that has an average load per row of 18.5t is 4.6.

The total esa for a trailer with equivalent standard axles of 4.6 and having 7 rows of tyres is 32.2 (ie 4.6×7).

So the fee for a journey of 100km for a vehicle with a total esa of 32.2 is \$128.80 (ie 100 x 32.2 x \$0.04).

10 Axles

- (1) Schedule 3 sets out the axle load limits for each type of axle or axle group.
- (2) Two axles less than 1m apart are to be regarded as 1 axle.
- (3) Three axles not more than 2m apart are to be regarded as 2 axles.
- (4) Four axles not more than 3.2m apart are to be regarded as 3 axles.

11 Measurement of distance between axles

For this regulation, the distance between axles is measured between the centres of the wheels mounted on the axles and parallel to the length of the vehicle.

Part 2A Guidelines and permits

11A Guidelines and permits for vehicles

- (1) The chief executive may issue—
 - (a) a guideline, in an approved form, for the safe movement on a road of a type of vehicle; or
 - (b) a permit for the safe movement on a road of a particular vehicle or type of vehicle.
- (2) The commissioner may issue only a permit for the safe movement on a road of a particular oversize vehicle or type of oversize vehicle.
- (3) The chief executive or commissioner may issue a permit by phone, fax, radio or another form of communication if the chief executive or commissioner considers it necessary because of urgent circumstances.
- (4) A guideline or permit can not allow a combination to be more than—
 - (a) for a combination consisting of 1 motor vehicle—the motor vehicle's GCM; or
 - (b) for a combination consisting of more than 1 motor vehicle—the total of each motor vehicle's GCM.
- (5) The matters a guideline or permit may relate to include the following—
 - (a) the roads on which the vehicle may be driven;
 - (b) the maximum permissible dimensions of the vehicle together with any load;
 - (c) the maximum permissible mass of—
 - (i) the vehicle together with any load; or
 - (ii) parts of the vehicle;
 - (d) any permissible or requisite modifications to the vehicle;

Example of paragraph (d)—

Extra lighting may be required to be added to the side of a vehicle carrying a wide load.

- (e) the times when the vehicle may be driven;
- (f) signs and warning devices to be displayed on the vehicle;
- (g) when the vehicle must travel with a pilot vehicle or escort vehicle;
- (h) requirements for pilot vehicles and pilot vehicle drivers, and escort vehicles and escort vehicle drivers;
- (i) the maximum speeds at which the vehicle may be driven;
- (j) other matters relevant to the safe movement of the vehicle.
- (6) The roads on which the vehicle may be driven may be shown on a map in the guideline.

11AA Statutory condition on guidelines and permits for oversized vehicles

- (1) A guideline for a type of oversize vehicle or a permit for a particular oversize vehicle or type of oversize vehicle mentioned in section 11A is granted on the conditions stated in schedule 3AA for the guideline or permit.
- (2) A condition imposed under subsection (1) applies despite any other provision of the guideline or permit.

11B Permit contents and conditions

- (1) A permit, other than a permit issued under alternative arrangements under section 11BA, must state—
 - (a) if the permit relates to a particular vehicle, the registration number of the vehicle it relates to; and
 - (b) the name and address of the person the permit is issued to; and
 - (c) how long the permit is in force for; and

- (d) the conditions of the permit.
- (2) The conditions of a permit may include a condition requiring the permit holder—
 - (a) to pay the reasonable costs incurred by the State in relation to the issue of the permit, including for example, the costs of—
 - (i) assessing the roads the vehicle is to be driven on; or
 - (ii) preparing any relevant plans and cost estimates; or
 - (iii) preparing or strengthening road transport infrastructure; or
 - (iv) repairing, replacing or reconstructing road transport infrastructure; or
 - (v) ensuring the permit conditions are observed; or
 - (b) to deposit an amount reasonably required by the chief executive as security for the costs mentioned in paragraph (a).
- (3) If, no later than 28 days after the permit ends, the chief executive decides an amount deposited as a condition of the permit is not sufficient security for the costs, the chief executive may require a further amount to be deposited within a reasonable stated time.
- (4) The chief executive must, within 28 days after the permit ends—
 - (a) calculate the costs incurred by the State; and
 - (b) if the costs incurred are less than the amount deposited as security for costs, refund the difference to the permit holder.

11BA Alternative arrangements for permits

- (1) The chief executive may enter into arrangements with persons for the issue to them of permits other than in accordance with the requirements of sections 11A and 11B.
- (2) The arrangements—

- (a) may only be made in circumstances in which it is impracticable for the requirements of sections 11A and 11B to be fully complied with; and
- (b) must provide for compliance with sections 11A and 11B to the greatest practicable extent.

Example of arrangements under subsections (1) and (2)—

The issue of a permit for a particular journey using a 2 stage process for the issue of the permit that involves—

- (a) the identification, in a document of general application, of the contents of permits to apply for all journeys of a particular type; and
- (b) completing the issue of the permit for the particular journey by the electronic issue of a ticket.

11C Driving under guideline or permit

- (1) A person who is—
 - (a) driving a vehicle in accordance with a current guideline, or a permit, issued for the vehicle; and
 - (b) if a permit has been issued for the vehicle, carrying the permit in the vehicle;

is exempt from complying with the provisions of this regulation for which the guideline or permit states it is a means of alternative compliance.

- (2) However, a guideline or permit that is a means of alternative compliance for section 62B need not state that fact.
- (3) A person must ensure a sign or warning device that is required under a guideline or permit is not displayed on a vehicle being driven by the person unless the person is driving the vehicle for the purpose for which the guideline or permit was issued.

Maximum penalty—30 penalty units.

Part 2B Vehicle dimensions

11CA Meaning of *rear overhang* and *rear overhang line* for pt 2B

- (1) This section defines *rear overhang* and *rear overhang line* for this part.
- (2) The *rear overhang* of a vehicle is the distance between the rear of the vehicle and the rear overhang line of the vehicle.
- (3) For a vehicle with an axle group at the rear comprising only 1 axle, the *rear overhang line* is a line running along the centre of the axle.
- (4) For a vehicle with an axle group at the rear comprising 2 axles, 1 of which is fitted with twice the number of tyres as the other, the *rear overhang line* is a line running parallel to the axles that is—
 - (a) closer to the axle carrying the greater number of tyres than it is to the other axle; and
 - (b) located at one-third of the distance between the 2 axles.
- (5) For a vehicle with an axle group at the rear that is not an axle group mentioned in subsection (3) or (4), the *rear overhang line* is a line running parallel to the axles down the centre of the axle group.
- (6) For applying subsection (3), (4) or (5) to a vehicle—
 - (a) an axle group is taken to comprise only the fixed and retractable axles in contact with the ground at the particular time the subsection is applied to the vehicle; and
 - (b) an axle group is taken not to comprise any steerable axle unless—
 - (i) the group comprises only 1 axle and that axle is a steerable axle; or
 - (ii) all the axles in the group are steerable axles.

11D Load and other things are part of vehicle's dimensions for pt 2B

In this part, a vehicle is taken to include anything on the vehicle, unless otherwise stated.

11E Length—motor vehicles

A person must not drive a vehicle longer than—

- (a) for a combination (other than a B-double or road train)—19m; or
- (b) for an articulated bus—18m; or
- (c) for any other vehicle—12.5m.

Maximum penalty—30 penalty units.

11F Width

(1) A person must not drive a vehicle wider than 2.5m.

Maximum penalty—30 penalty units.

- (2) When measuring the width of a vehicle for subsection (1), any of the following items that may be fitted to the vehicle are to be disregarded—
 - (a) anti-skid devices mounted on wheels;
 - (b) central tyre inflation systems;
