Information about this reprint

This Act is reprinted as at 5 November 2010. The reprint shows the law as amended by all amendments that commenced on or before that day (Reprints Act 1992 s 5(c)).

The reprint includes a reference to the law by which each amendment was made—see list of legislation and list of annotations in endnotes. Also see list of legislation for any uncommenced amendments.

This page is specific to this reprint. See previous reprints for information about earlier changes made under the Reprints Act 1992. A table of reprints is included in the endnotes.

Also see endnotes for information about—

- **when provisions commenced**
- **editorial changes made in earlier reprints.**

Spelling

The spelling of certain words or phrases may be inconsistent in this reprint or with other reprints because of changes made in various editions of the Macquarie Dictionary (for example, in the dictionary, ‘lodgement’ has replaced ‘lodgment’). Variations of spelling will be updated in the next authorised reprint.

Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, authorised (that is, hard copy) and unauthorised (that is, electronic), are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If an authorised reprint is dated earlier than an unauthorised version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of an authorised reprint is the same as the date shown for an unauthorised version previously published, it merely means that the unauthorised version was published before the authorised version. Also, any revised edition of the previously published unauthorised version will have the same date as that version.

Replacement reprint date If the date of an authorised reprint is the same as the date shown on another authorised reprint it means that one is the replacement of the other.

Division 1 Dictionary

4 Definitions

The dictionary in schedule 2 defines particular words used in this Act.

Division 2 Key definitions

5 What is *building work*

- (1) *Building work* is—
 - (a) building, repairing, altering, underpinning (whether by vertical or lateral support), moving or demolishing a building or other structure; or

[s 6]

- (b) excavating or filling—
 - (i) for, or incidental to, the activities mentioned in paragraph (a); or
 - (ii) that may adversely affect the stability of a building or other structure, whether on the land on which the building or other structure is situated or on adjoining land; or
 - (c) supporting, whether vertically or laterally, land for activities mentioned in paragraph (a); or
 - (d) other work regulated under the building assessment provisions, other than IDAS.
- (2) For subsection (1)(d), work includes a management procedure or other activity relating to a building or structure even though the activity does not involve a structural change to the building or structure.

Example—

a management procedure under the fire safety standard relating to a budget accommodation building

6 What is a *building development application*

A *building development application* is an application for development approval under the Planning Act to the extent it is for building work.

7 What is *building assessment work*

Building assessment work is the assessment, under the building assessment provisions, of a building development application for compliance with those provisions.

8 Who is a *building certifier*

- (1) A *building certifier* is an individual who, under chapter 6, part 3, is licensed as a building certifier.

-
- (2) A reference to building certifier includes a reference to a private certifier.
 - (3) In chapter 6, the term also includes a reference to a former building certifier.

9 Private certifiers and their classes

- (1) A *private certifier* is a building certifier whose licence has, under section 160, private certification endorsement.
- (2) A *private certifier (class A)* is a private certifier whose licence has development approval endorsement.
- (3) A *private certifier (class B)* is a private certifier whose licence does not have development approval endorsement.

10 What is a building certifying function

A *building certifying function* is doing any of the following—

- (a) carrying out building assessment work, other than a part of building assessment work that, under section 46, a concurrence agency may carry out;
- (b) the giving of a certificate (a *compliance certificate*) in the approved form that, other than for aspects of building assessment work that under section 46 must be assessed by a concurrence agency, states building work complies with the building assessment provisions;
- (c) for a building development approval—inspecting the building work to decide whether to certify the work;
- (d) for building work for a single detached class 1a building or a class 10 building or structure, the giving of—
 - (i) a certificate in the approved form for the stage of the building work that is after excavation of foundation material and before the footings for the building are laid; and

[s 11]

- (ii) a certificate (a *final inspection certificate*) in the approved form for the final stage of the building work;
- (e) the giving of a certificate of classification for a building or structure of another class.

11 Who is the *assessment manager* for a building development application

- (1) Generally, the *assessment manager* for a building development application is the assessment manager for the application under the Planning Act, section 246(1).
- (2) However, if under section 48 a private certifier (class A) is performing functions for the application, the certifier is the assessment manager for the application.

12 What is the *Building Code of Australia* (or *BCA*)

- (1) The *Building Code of Australia* (or *BCA*) is the edition, current at the relevant time, of the Building Code of Australia (including the Queensland Appendix) published by the body known as the Australian Building Codes Board.

- (2) The chief executive may amend the QDC by—
 - (a) adding another part to it; or
 - (b) amending or replacing a part, or an aspect of a part, stated in schedule 1 or added under paragraph (a), or any amendment or replacement of the part or aspect.

- (3) However, the amendment does not take effect until the chief executive publishes the amendment on the department's website and a regulation approves the amendment.
- (4) The regulation must state the day on which the amendment was published.
- (5) A reference to the QDC is taken to include any amendment under subsection (2) that has taken effect.

14 When building work *complies* with the BCA or QDC

- (1) This section applies if in this Act there is a reference to building work complying with—
 - (a) the BCA or QDC; or
 - (b) the building assessment provisions to the extent they include the BCA and QDC.
- (2) Building work *complies* with the BCA or QDC (the *code*) only if it complies with all relevant performance requirements under the code.
- (3) For subsection (2), the building work complies with a relevant performance requirement only if it achieves a relevant building solution under the code for the requirement.
- (4) For subsection (3), a relevant building solution is achieved for a performance requirement only by—
 - (a) complying with the following (the *relevant requirement*)—
 - (i) if the code is the BCA—the relevant deemed-to-satisfy provisions under the BCA for the performance requirement;

20 Building work that is assessable development for the Planning Act

All building work is assessable development, unless—

- (a) under section 22, it is exempt development; or

21 Building work that is self-assessable for the Planning Act

- (1) Subsection (2) applies to the extent a regulation made under the Planning Act, section 232(1) prescribes that, for assessing building work under this Act, this Act may declare building work to be self-assessable development.
- (2) Building work is declared to be self-assessable for the Planning Act if it—
 - (a) is prescribed under a regulation; and
 - (b) complies with—

[s 22]

- (i) generally—any relevant deemed-to-satisfy provision under the BCA or relevant acceptable solution under the QDC for the building work; or
- (ii) if alternative provisions under section 33 apply to the building work—
 - (A) the alternative provisions; and
 - (B) any relevant deemed-to-satisfy provision under the BCA or relevant acceptable solution under the QDC for the building work, other than the QDC boundary clearance and site cover provisions.
- (3) Building work that is self-assessable development under the Planning Act or subsection (2) is *self-assessable building work*.
- (4) Subsection (2) is subject to section 37.

22 Building work that is exempt development for the Planning Act

Building work prescribed under a regulation is declared to be exempt development for the Planning Act.

Chapter 3 Additional requirements for building development applications

Note—

For the general requirements for development applications, see the Planning Act, sections 260 to 264.

Part 1 Requirements for supporting documents

23 Operation of pt 1

This part imposes requirements for documents (*supporting documents*) that under the Planning Act are given or required to be given for a building development application.

24 Required information for supporting documents

- (1) Each supporting document must—
 - (a) state the following details of the person who prepared them—
 - (i) the person's name;
 - (ii) if the person is a designated person—the person's registration or licence number as a designated person; or
 - (b) be accompanied by another document that—
 - (i) states the information mentioned in paragraph (a); and
 - (ii) identifies each supporting document.

- (2) In this section—

designated person means a person who—

[s 25]

- (a) is an architect under the *Architects Act 2002*; or
- (b) is a licensed builder; or
- (c) under the *Queensland Building Services Authority Act 1991*, holds a licence of any of the following classes—
 - (i) building design—low rise;
 - (ii) building design—medium rise;
 - (iii) building design—open; or
- (d) is a registered professional engineer under the *Professional Engineers Act 2002*.

25 General requirements for supporting documents

- (1) Each supporting document must on its face demonstrate that the carrying out of the building work will comply with the building assessment provisions, other than IDAS.
- (2) Each supporting document must state each of the following—
 - (a) whether any of the following (a ***relevant authorisation***) is necessary for the application—
 - (i) the consent of a registered easement or statutory covenant holder mentioned in section 65(1);
 - (iii) a development permit, preliminary approval or concurrence agency assessment mentioned in section 83(1);
 - (b) if the application relates to relevant authorisation that has not lapsed or been withdrawn—how the application is consistent with the authorisation;
 - (c) if—
 - (i) the application relates to self-assessable development under the Planning Act because it has been declared under a planning scheme to be self-assessable development for the Planning Act; and

- (ii) the development may affect the position, height or form of the building work;
how the building work is consistent with requirements for the development under the planning scheme;
- (d) if the application requires site works—
 - (i) if they are assessable development—how they comply with the building assessment provisions; or
 - (ii) if they are self-assessable building work—their location and type.

26 Requirements if alternative solution used

If an alternative solution is used in the supporting documents, the documents must—

- (a) state—
 - (i) the performance requirements with which the building work purports to comply; and
 - (ii) how the building work complies with the performance requirements; and
- (b) contain details of—
 - (i) how the alternative solution is different from the relevant deemed-to-satisfy provisions under the BCA or acceptable solutions under the QDC; and
 - (ii) inspection or test results and other documents or information relied on to prepare the application.

Part 2 Other requirements

27 Application for building work for budget accommodation building

A building development application for a budget accommodation building must be accompanied by a fire safety management plan that will, after the building work is carried out, comply with the *Fire and Rescue Service Act 1990*, section 104FC.

28 Application to build swimming pool on residential land must include fencing

A building development application for the construction of a swimming pool on residential land must also be for the construction of fencing for the pool.

29 Application must include required site works

A building development application must include any site works that, under the building assessment provisions, must be carried out as part of or for the development.

Chapter 4 Assessment of building development applications and carrying out self-assessable building work

Part 1 Laws and other documents under which building work must be assessed

Division 1 General provisions about the laws and documents for the assessment

30 Relevant laws and other documents for assessment of building work

- (1) Building assessment work and self-assessable building work must be carried out under the following laws and documents (the *building assessment provisions*)—
- (a) IDAS;
 - (b) chapter 3 and this chapter;
 - (c) the fire safety standard;
 - (d) any provisions of a regulation made under this Act relating to building assessment work or self-assessable building work;
 - (e) any relevant local law, planning scheme provision or resolution made under section 32 or 33;
 - (f) the BCA;
 - (g) subject to section 33, the QDC.

- (2) However, for any particular building assessment work or self-assessable building work, subsection (1) is subject to—
 - (a) how, under this division, the building assessment provisions apply to the work; and
 - (b) any variation of them under division 2.

31 Building assessment provisions form a code for IDAS

- (1) For the Planning Act, each of the building assessment provisions, other than IDAS, is a code for IDAS for the carrying out of building assessment work or self-assessable building work.
- (2) However, for any particular building assessment work or self-assessable building work the provisions of each of the codes are subject to—
 - (a) how, under this division, the provisions apply to the work; and
 - (b) any variation of them under division 2.
- (3) For the Planning Act, section 233(6), each code under subsection (1) is a code that can not be changed under a local law, local planning instrument or local government resolution.
- (4) Subsection (3) is subject to sections 32 and 33.

32 Local laws, planning schemes and local government resolutions that may form part of the building assessment provisions

- (1) A local government may make or amend—
 - (a) a local planning instrument that designates, for the BCA or QDC, matters prescribed under a regulation; or
Example of a matter that may be prescribed—
designated bush fire prone areas for the BCA
 - (b) a provision of a local law or planning scheme or a resolution about an aspect of, or matter related or

incidental to, building work prescribed under a regulation; or

Examples of aspects that may be prescribed—

swimming pool fencing or land liable to flooding

- (c) alternative provisions under section 33.
- (2) To remove any doubt, it is declared that subsection (1) does not prevent a local government from, under the Planning Act, making or amending a provision in a planning scheme that deals with building work for matters not within the scope of the building assessment provisions.

33 Alternative planning scheme provisions to QDC boundary clearance and site cover provisions for particular buildings

- (1) This section applies for work (*relevant work*) that—
- (a) is building assessment work or self-assessable building work; and
- (b) is for a single detached class 1 building or a class 10 building or structure located on the same allotment as a single detached class 1 building.
- (2) A planning scheme may include provisions (*alternative provisions*) that, for relevant work, are alternative or different to the QDC boundary clearance and site cover provisions.
- (3) However, a planning scheme may include alternative provisions only if the provisions are a qualitative statement or quantifiable standard.
- (4) If there are alternative provisions for relevant work, the QDC boundary clearance and site cover provisions only apply to the extent the alternative provisions do not apply to the work.
- (5) Alternative provisions can not be made other than under a planning scheme.
- (6) In this section—

qualitative statement means a statement about a performance or outcome sought to be achieved when applicable buildings or structures are completed.

quantifiable standard means a standard that achieves a performance or outcome sought under a qualitative statement.

34 Relationship between IDAS and other building assessment provisions

IDAS applies to building assessment work and self-assessable building work subject to the other building assessment provisions mentioned in section 30(1).

34A Decision for building development application that complies with building assessment provisions

- (1) This section applies subject to section 83 and the Planning Act, chapter 6.
- (2) If the assessment manager for a building application is satisfied the application complies with the building assessment provisions, the assessment manager must approve the application.

35 Relationship between the BCA and the QDC

If the BCA is inconsistent with a part of the QDC, the part prevails to the extent of the inconsistency.

36 When building assessment provisions must be applied

- (1) This section applies subject to sections 37 and 61.
- (2) Building assessment work, other than building assessment work carried out under section 46, must comply with the building assessment provisions in force when the application is approved.

37 Provision for changes to building assessment provisions

- (1) This section applies to building work if—
- (a) the lawful carrying out of the work starts before a building assessment provision is amended; or
 - (b) the building development approval was given before a building assessment provision is amended, but the work does not start before the amendment commences; or
 - (c) a building development application is made for the work before a building assessment provision is amended, but the application is not decided before the amendment commences; or
 - (d) planning for carrying out the work started before a building assessment provision is amended and the building certifier for the building development approval certifies in writing that—
 - (i) substantial progress was made on the design of the building, or the design was completed, before the amendment; and
 - (ii) the design would need to be changed to comply with the amended provision; and
 - (iii) the changes needed under subparagraph (ii) are not minor changes, having regard to the amendment and the nature of the building work.

Example of a change to a design that is not a minor change—

the removal of floors from a design to comply with an amended building assessment provision requiring the installation of water tanks in a building

- (2) Despite the amendment, a building development approval for the work may be given if the approval is given under the building assessment provisions in force immediately before the amendment, and IDAS.
- (3) For subsection (1)(a) the work is lawfully carried out if it is carried out under the building assessment provisions in force immediately before the amendment.

- (4) For subsections (1) and (3), an amendment of the building assessment provisions includes an amendment of a document adopted by, or to which a reference is made in, any of the provisions.
- (5) In this section—
building assessment provisions does not include IDAS.

Division 2 Variation of how particular building assessment provisions apply

38 Applying to vary how particular building assessment provision applies

- (1) If—
 - (a) building work is proposed to be carried out, is being carried out or has been carried out; and
 - (b) the building work will not, or does not, comply with a provision of any of the building assessment provisions, other than IDAS;

a person may apply (the *variation application*) to the chief executive to vary how the provision applies to the building work.

- (2) However, the variation application can not be made if the provision permits an assessment manager to exercise discretion about the matter for which the variation is sought.

Example of a provision mentioned in subsection (2)—

part 3

- (3) The variation application must be made in the approved form and be accompanied by the fee prescribed under a regulation.

39 Applying for fast-track decision

- (1) The applicant under the variation application, may, in the application, ask the chief executive to decide the application within 2 business days after making the application.
- (2) A request made under subsection (1) must be accompanied by the fee prescribed under a regulation.
- (3) The chief executive may grant or refuse the request.
- (4) If the chief executive grants the request, the chief executive may, as a condition of granting the request, require the applicant to pay any reasonable additional costs that would be incurred by the chief executive in deciding the variation application within the 2 business days.

40 Effect of variation application on IDAS process

If the variation application is about building work proposed to be carried out for which work a building development application has been made, the process under IDAS for the building development application—

- (a) stops on the day the variation application is received by the chief executive; and
- (b) starts again the day the chief executive gives the applicant under the variation application notice under section 43.

41 Deciding variation application

- (1) If the building work is being or is to be carried out by or for someone other than the State, the chief executive must consult with the assessment manager about the variation application before deciding it.
- (2) The chief executive may consult with any other person about the variation application before deciding it.

- (3) After considering the variation application, the chief executive must decide to vary or refuse to vary how the provision applies to the building work.
- (4) The chief executive must decide the variation application within 20 business days after the application is made.

42 Criteria for decision

- (1) In making the decision the chief executive must consider all relevant matters, including for example—
 - (a) whether the building work substantially complies with the other building assessment provisions, other than IDAS; and
 - (b) whether compliance with the provision is unnecessary in the particular circumstances; and
 - (c) whether the proposed variation is as effective as, or more effective than, compliance with the provision.
- (2) However, the chief executive may vary how the provision applies to the building work only if the chief executive considers the general safety and structural standards of the relevant building or structure would not be at risk.

43 Notice of decision

- (1) The chief executive must, within 5 business days after deciding the variation application, give the applicant and the assessment manager for the building work notice of the decision.
- (2) If the decision is to refuse to vary how the provision applies to the building work, the notice must be an information notice.

Note—

For appeals against a decision for which an information notice must be given under this section, see the Planning Act, section 532.

44 Effect of variation

- (1) This section applies if the chief executive decides to vary how the provision applies to the building work.
- (2) Subject to any appeal against the chief executive's decision, the provision, as varied by the decision, applies to the building work.
- (3) An assessment manager must not refuse to approve a building development application to which the chief executive's decision relates only on the ground that the building work does not comply with the provision without the variation.

Part 2 Persons responsible for assessing building development applications

Division 1 Who carries out building assessment work

45 Generally a building certifier must assess

Subject to section 46, building assessment work must be carried out by a building certifier.

46 Concurrence agencies may carry out building assessment work within their jurisdiction

- (1) This section applies if, under the Planning Act, a concurrence agency has jurisdiction for a part of building assessment work.
- (2) Only the concurrence agency may assess the part.
- (3) Assessment of the part by the concurrence agency must be done under the building assessment provisions.

- (4) Subject to sections 37 and 61, the assessment must be carried out under the building assessment provisions in force when the assessment is made.
- (5) If the part is assessing compliance with the fire safety standard, the concurrence agency must appoint or employ a building certifier to carry out the assessment.

Notes—

- 1 For a list of the concurrence agencies and the parts of building assessment work that they decide, see the regulation made under the Planning Act, sections 250 and 254.
- 2 For the treatment of matters within a concurrence agency's jurisdiction under the Planning Act, see the Planning Act, sections 254, 282, 287, 288, 290 and 325.

Division 2 Functions of private certifiers

47 Operation of div 2

- (1) This division confers functions on private certifiers for building development applications.
- (2) The functions are in addition to the building certifying functions that private certifiers may perform as building certifiers.
- (3) The additional functions, together with building certifying functions, are *private certifying functions*.

48 Functions of private certifier (class A)

- (1) A private certifier (class A) may—
 - (a) receive and assess a building development application; and
 - (b) decide the application and grant or refuse the building development approval applied for as if the certifier were the person, who, under the Planning Act, section 246(1), is the assessment manager; and

- (c) decide whether enforcement action under this Act or the Planning Act ought to be taken for a building development approval granted by—
 - (i) the private certifier (class A); or
 - (ii) another private certifier (class A) employed by the same private certifier employer when the decision to take the enforcement action is made.
- (2) For the Planning Act, chapter 7, part 3, divisions 2 and 3, a reference to an assessing authority includes a reference to a private certifier (class A) performing functions under subsection (1)(c).
- (3) For section 248, a reference to a local government includes a reference to a private certifier (class A) performing functions under subsection (1)(c).
- (4) However, subsection (1)(c), (2) and (3) apply only until the giving of a final inspection certificate for the building work or a certificate of classification for the building.
- (5) To remove any doubt, it is declared that subsection (1)(c), (2) and (3) do not limit the local government's functions or powers under this Act or the Planning Act, chapter 7, part 3, divisions 2 and 3.
- (6) If—
 - (a) under this section a private certifier (class A) gives a person an enforcement notice under this Act or the Planning Act; and
 - (b) the person does not comply with the notice;the certifier must ensure the local government is given notice of that fact.

Note—

See also section 132.

49 Functions of private certifier (class B)

A private certifier (class B) may—

- (a) receive a building development application; and
- (b) carry out all building assessment work for the application other than in relation to the QDC boundary clearance and site cover provisions.

50 Restrictions on building certifying functions that a private certifier (class B) can perform

- (1) A private certifier (class B) can not give a final inspection certificate or certificate of classification.
- (2) A private certifier (class B) can only give a compliance certificate about whether building work complies with the BCA or a provision of the QDC, other than the QDC boundary clearance and site cover provisions.

Division 3 Functions of local government

51 Function to act on building development application or development approval unless private certifier (class A) engaged

- (1) This section applies if—
 - (a) a person wishes to make a building development application to the local government; and
 - (b) if the application were made, it would be a properly made application; and
 - (c) a private certifier (class A) is not engaged for the application; and
 - (d) if a private certifier (class B) is engaged for the application—the private certifier (class B) has not entered into an agreement mentioned in section 140(3) for the proposed application.

- (2) The local government must do the following—
- (a) under IDAS, receive, assess and decide the application;
 - (b) appoint or employ a private certifier or another building certifier to perform building certifying functions for—
 - (i) the application; and
 - (ii) if the building development approval applied for is granted—the building work.

Note—

If a private certifier is appointed or employed, the functions can not include private certifying functions that are not also building certifying functions. See section 138.

- (3) If—
- (a) a private certifier (class A) has granted a building development approval; and
 - (b) the engagement of a private certifier to inspect and certify the building work is discontinued; and
 - (c) the building work has not been certified;
- the local government for the approval must, if asked in writing by the nominated owner of the building, appoint or employ a building certifier to perform building certifying functions for the building work.
- (4) This section is subject to sections 30 and 52.
- (5) In this section—

nominated owner, of a building, means the person who, under the most recent building development application for the building, was nominated on the approved form under the Planning Act, section 260(2), as the person to receive the inspection documentation for building work for the building.

52 Restriction on local government issuing building development approval

The local government for a building development application may issue the building development approval applied for only if—

- (a) a local government building certifier has carried out the building assessment work for the application; and
- (b) the building certifier is appropriately licensed to carry out the building assessment work.

53 Local government may rely on particular compliance certificates and other documents

(1) This section applies if—

- (a) a building certifier gives the local government for a building development application (the *original application*) a compliance certificate or other document; and
- (b) the certificate or other document was made by or given to the building certifier to carry out building assessment work under the original application.

(2) The local government may, in carrying out functions under this Act for the following, accept and, without further checking, rely and act on the certificate or other document—

- (a) the original application;
- (b) another building development application for all or part of the building work under the original application.

54 Local government may rely on documents private certifier gives it for inspection or purchase

If—

- (a) under this Act, a private certifier gives the local government for a building development application a document; and

- (b) under the Planning Act, the local government must make the document available for inspection or purchase; the local government may accept and, without further checking, rely and act on the document for the purpose of making it available for inspection or purchase.

Division 4 Power of particular replacement assessment managers to decide status under IDAS

55 Power to decide what stage of IDAS application is to resume or start

- (1) This section applies if—
 - (a) a private certifier (class A) is engaged to assess or decide a building development application; and
 - (b) the engagement is discontinued; and
 - (c) the application has not been decided; and
 - (d) a new private certifier (class A) is engaged for the application.
- (2) This section also applies if—
 - (a) a building development approval lapses under part 7; and
 - (b) the owner of the land to which the approval attached immediately before it lapsed makes a new building development application for all or part of the building work under the lapsed approval.
- (3) The assessment manager for the application or new application may resume or start the application process at any stage of IDAS the assessment manager considers appropriate.

Part 3

Discretionary matters in the assessment of building development applications

56 Building certifier's discretion—BCA

- (1) This section applies for a building certifier carrying out building assessment work for a building development application if—
 - (a) the BCA allows a discretionary decision about a building design or specification for building work; and
Example of discretionary decision—
the BCA uses the word 'suitable' or 'adequate'
 - (b) the application proposes the use of the discretion.
- (2) The building certifier must—
 - (a) consider the objectives and functional statements of the BCA in relation to the design or specification; and
 - (b) decide whether the design or specification complies with—
 - (i) generally—the BCA; or
 - (ii) if, for the application, the BCA is varied under part 1, division 2—the BCA as varied.
- (3) The building certifier must not make the decision in a way that conflicts with the objectives or functional statements.

57 Building certifier's or concurrence agency's discretion—QDC

- (1) This section applies for a building certifier or concurrence agency carrying out building assessment work for a building development application if—
 - (a) a part of the QDC applies to the application; and

- (b) the part allows a discretionary decision about a building design or specification; and

Example of discretionary decision—

QDC uses the word ‘suitable’ or ‘adequate’

- (c) the application proposes the use of the discretion.
- (2) The building certifier or concurrence agency must decide whether the design or specification complies with—
 - (a) generally—the QDC; or
 - (b) if, for the application, the QDC is varied under part 1, division 2—the QDC as varied.

58 Survey certificate

- (1) A building certifier may, before assessing a building development application, require that a cadastral survey, including a survey commonly called in the surveying profession an identification survey, be carried out to show—
 - (a) the boundaries of the allotment on which the building work is proposed; and
 - (b) the location of any proposed or existing buildings or structures on the allotment.
- (2) The absence of a requirement under subsection (1) does not prevent the requirement being made by a condition of the building development approval, under section 78.

59 Discretion for building development applications for particular budget accommodation buildings

- (1) This section applies to the assessment of a building development application to the extent it is for building work required to ensure the building complies, under section 220, with the fire safety standard.

- (2) The decision on the application may compromise the achievement of the strategic outcomes in a relevant planning scheme.

Example—

A desired environmental outcome in a relevant planning scheme is that the building does not affect the amenity and aesthetics of the neighbourhood of the building. An external stairway required under the site safety standard does not comply with the outcome. The application may be approved despite the noncompliance.

60 Building certifier may rely on particular compliance certificates and other documents

- (1) This section applies if—
- (a) a building certifier has given anyone else a compliance certificate or other document; and
 - (b) the certificate or other document made by or given to the building certifier to carry out building assessment work for a building development application (the *original application*).
- (2) Another building certifier may, in carrying out functions under this Act for the following, accept and, without further checking, rely and act on the certificate or other document—
- (a) the original application;
 - (b) another building development application for all or part of the building work under the original application.

61 Alterations to safe existing work may be approved on basis of earlier building assessment provisions

- (1) This section applies for a building development application if—
- (a) the building work is alterations to an existing building or structure; and

- (b) the building certifier is satisfied the general safety and structural standards of the building or structure would not be at risk if the alterations were to be carried out under earlier building assessment provisions.
- (2) The building certifier may carry out building assessment work for the application on the basis that the building work is to be carried out under the earlier building assessment provisions.
- (3) Subsection (4) applies if the building's BCA classification as shown on the certificate of classification for the building has changed only because of an amendment to building classifications under the BCA made after the certificate was given.
- (4) Without limiting subsection (2), the building certifier may carry out building assessment work for the application on the basis that the building work is to be carried out under the building assessment provisions applying for the BCA classification shown on the certificate of classification.
- (5) In this section—

building assessment provisions includes the former Standard Building By-laws and Standard Building Law under this Act and the repealed *Standard Building Regulation 1993*.

earlier building assessment provisions means the building assessment provisions as they were in force at a particular time before the application was made.

Part 4

Requirements for and restrictions on assessing or approving building development applications

62 Requirement to consider any advice agency response

- (1) This section applies if, under the Planning Act, an advice agency for a building development application has jurisdiction for a part of building assessment work for the application.
- (2) The assessment manager must not approve the application unless the Planning Act, section 313(3)(a) or 314(3)(a) has been complied with.

Notes—

- 1 For what are the advice agencies for building development applications and the issues they may advise on, see the regulation made under the Planning Act, sections 250 and 254.
- 2 For the treatment of matters within an advice agency's jurisdiction under the Planning Act, see the Planning Act, sections 254, 282 and 292.

63 Restriction on granting building development application for budget accommodation building

If a building development application is for a budget accommodation building, the assessment manager must not approve the application unless the assessment manager is satisfied—

- (a) the fire safety management plan accompanying the application complies with the *Fire and Rescue Service Act 1990*, section 104FC; or
- (b) the building work involves an alternative solution, for performance requirements under the BCA, that includes a fire safety management procedure as a condition of the occupation and use of the building and the fire safety management plan adequately reflects the procedure.

64 Required report before assessing application for temporary building or structure with special fire service

- (1) This section applies to a building development application for a temporary building or structure that is proposed to have a special fire service.
- (2) Before carrying out building assessment work for the application, the building certifier must obtain from QFRS a report on the suitability of the proposed service.

65 Land subject to registered easement or statutory covenant

- (1) This section applies if a building development application is for land subject to—
 - (a) a registered easement; or
 - (b) a registered statutory covenant for which the registered holder of the covenant is—
 - (i) the State; or
 - (ii) a statutory body representing the State; or
 - (iii) a local government.
- (2) The assessment manager must not approve the application unless each registered holder of the easement or covenant has consented to the building work.
- (3) However, subsection (2) does not apply to a building development application for a class 1, 2, 3 or 4 building on land subject to a noise covenant if a building assessment provision is expressed to apply specifically for the reduction in a class 1, 2, 3 or 4 building of noise coming from outside the building.
- (4) In this section—

noise covenant means a registered statutory covenant—

 - (a) for which the registered holder of the covenant is the State; and

- (b) for the reduction in a class 1, 2, 3 or 4 building of noise coming from outside the building.

registered means registered under the *Land Act 1994* or *Land Title Act 1994*.

66 Special structures

- (1) This section applies to a building development application for a building that, under section 120, is classified as a special structure.
- (2) The assessment manager must not approve the application unless the special structure—
 - (a) complies with the building assessment provisions; and
 - (b) reasonably provides for all of the following—
 - (i) the safety of persons using the structure if there is a fire (including, for example, means of egress);
 - (ii) the prevention and suppression of fire;
 - (iii) the prevention of the spread of fire;
 - (iv) the health and amenity of persons using the structure.

67 Temporary building or structures

- (1) A building development approval for any temporary building or structure must include a condition that—
 - (a) limits the period during which the temporary building or structure may remain in place; and
 - (b) requires removal or demolition of the temporary building or structure at the end of the period.
- (2) Subsection (3) applies to a building development application for a temporary building or structure if—
 - (a) no building assessment provision is expressed to apply specifically to temporary buildings or structures

-
- generally or to temporary buildings or structures of the same type as the temporary building or structure; and
- (b) the building or structure, would not otherwise comply with the building assessment provisions.
- (3) The assessment manager must not approve the application unless the building certifier has decided the temporary building or structure—
- (a) is structurally sound and capable of withstanding the loadings likely to arise from its use; and
- (b) reasonably provides for all of the following—
- (i) the safety of persons to be accommodated in the building or structure if there is a fire (including, for example, means of egress);
- (ii) the prevention and suppression of fire;
- (iii) the prevention of the spread of fire;
- (iv) the health and amenity of persons to be accommodated in the building or structure.

68 Particular alterations not permissible

- (1) This section applies to a building development application for alterations to an existing building or structure.
- (2) However, this section does not apply if—
- (a) the alterations are for a budget accommodation building, to which chapter 7, part 3, applies; and
- (b) the purpose of the alterations is to ensure the building or structure complies with the fire safety standard.
- (3) The assessment manager must not approve the application unless the building certifier has decided the alterations do not unduly reduce the following—
- (a) the existing level of fire protection for persons accommodated in, or using, the building or structure;

- (b) the existing level of resistance to fire of the building or structure;
- (c) the existing safeguards against spread of fire to adjoining buildings or structures;
- (d) the existing level of emergency egress from the building or structure.

68A Statement of reasons for approving alternative solution

- (1) This section applies if—
 - (a) an alternative solution is used in the supporting documents for a building development application; and
 - (b) the assessment manager decides to approve the application on the basis of the alternative solution.
- (2) The assessment manager must prepare a written statement of reasons for the decision.
- (3) The statement must contain details of—
 - (a) how the alternative solution is different from the relevant deemed-to-satisfy provisions under the BCA or acceptable solutions under the QDC; and
 - (b) inspection or test results and other documents or information relied on to make the decision.

- (a) supporting documents for a building development application are in the form of engineer's drawings or other engineering details; and
 - (b) the drawings or details were not included with the application; and
 - (c) the application is approved.
- (2) Work on any footings for the building work must not start until the drawings and details for the footings have been approved by the building certifier.
- (3) A stage of the building work must not be started until the drawings and details for the stage have been approved by the building certifier.

71 When demolition, removal and rebuilding must start and be completed

- (1) This section applies to a building development approval for building work to—
- (a) demolish or remove a building or structure; or
 - (b) rebuild, after removal, a building or structure.
- (2) The building work must substantially start within 2 months after the giving of the approval.
- (3) Within 6 months after the giving of the approval—
- (a) the building work must be completed; and
 - (b) if the building work is rebuilding, after removal, of a building or structure, either—
 - (i) if, under the approval or a regulation, the building work must be inspected, a final inspection showing that the building work complies with the approval or regulation is carried out; or
 - (ii) under chapter 5, a certificate of classification must be given for the building.

- (4) The condition under subsection (3) is the *demolition/removal completion condition*.

72 Building work in erosion prone area

- (1) This section applies to a building development approval for an erosion prone area under the *Coastal Protection and Management Act 1995*.
- (2) All material excavated from land for the building work must be placed, levelled and stabilised against wind erosion—
- (a) on the land seaward of the building or structure; or
 - (b) at another location, stated in the approval, within the erosion prone area.
- (3) If the building work includes the erection or alteration of a roof drainage system or stormwater drain for the building or other structure, the system or drain must not be erected or altered in a way that is likely to cause erosion of the area.
- (4) However, the conditions under subsections (2) and (3) do not apply if the approval states that the person carrying out the building assessment work for the application is satisfied the conditions are not necessary for coastal management, including, in particular, the prevention of erosion or tidal inundation.

73 Obligation to make current drawing available for inspection

The applicant for a building development approval must ensure 1 legible set of the current drawings for the building is, while the building work is being carried out, available for inspection by anyone who, under an Act, is entitled to inspect the relevant building site.

74 Inspection and testing of special fire service installation

- (1) This section applies to a building development approval for a building served by a special fire service.
- (2) The person installing the service must—
 - (a) give QFRS—
 - (i) while the installation of the service is being carried out but before it is finished—a notice to inspect the installation; and
 - (ii) after the installation of the service but before interior surface finishes are applied—a notice to test the service; and
 - (b) give a copy of the notices to the assessment manager when they are given to QFRS.
- (3) QFRS may inspect and test the building work only about special fire services.

75 Earthworks and retaining walls

If soil conditions, ground levels, excavation or filling make it necessary to protect land, buildings or structures in the neighbourhood of building work—

- (a) retaining walls must be built, or other suitable methods used, to prevent soil movement; and
- (b) drainage of the land, buildings or structures must be provided.

76 Drainage of buildings or land

If a building development approval permits a building or land to be drained, the drainage must be carried out in a way that protects land, buildings and structures in the neighbourhood of the building or land.

77 Building work over existing sanitary drainage

Building work over or adjacent to existing sanitary drainage must comply with the Standard Plumbing and Drainage Regulation.

Division 2 Conditions that may be imposed

78 Survey certificate

- (1) A building development approval may include a condition that the building certifier must be given a cadastral survey, including a survey commonly called in the surveying profession an identification survey, showing—
 - (a) the boundaries of the allotment; and
 - (b) the actual location of the building or structure on the allotment.
- (2) A survey under subsection (1) must be given—
 - (a) as soon as the actual location of the building or structure on the allotment can be established; or
 - (b) at a later time the building certifier allows.

79 Hazardous buildings

- (1) This section applies to a building development approval for a class 5, 6, 7 or 8 building—
 - (a) with a total floor area greater than 36000m²; or
 - (b) for which the building certifier considers special provision should be made to restrict or combat the spread of fire within or from the building because of the purpose or purposes for which the building is being or is to be used.

- (2) The building development approval may include conditions the building certifier considers appropriate about restricting or combating the spread of fire in or from the building.
- (3) However, the conditions may be imposed only if the building certifier has consulted QFRS about their appropriateness.

80 Alterations to unsafe existing work

- (1) This section applies to a building development approval if—
 - (a) the building work is alterations to an existing building or structure; and
 - (b) the building certifier decides the building or structure is unsafe or structurally unsound.
- (2) The building development approval may include a condition that all, or a stated part, of the building or structure must comply with the building assessment provisions in force—
 - (a) when the approval was granted; or
 - (b) at another stated time that the building certifier considers will ensure the building or structure is made safe and structurally sound.

81 Building development approval for particular alterations may require existing building or structure to comply with building assessment provisions

- (1) This section applies to a building development approval for alterations to an existing building or structure if—
 - (a) the total of the following represents more than half the total volume of the existing building or structure, measured over its roof and external walls—
 - (i) the alterations;
 - (ii) any previous structural alterations to it approved or completed in the previous 3 years; or

-
- (b) the building certifier has decided the alterations pose a risk—
 - (i) to the safety of persons accommodated in or using the building or structure; or
 - (ii) of spreading fire to adjoining buildings or structures.
 - (2) However, this section does not apply if—
 - (a) the alterations are for a budget accommodation building, to which chapter 7, part 3, applies; and
 - (b) the purpose of the alterations is to ensure the building or structure complies with the fire safety standard.
 - (3) The building development approval may include a condition that all, or a stated part, of the existing building or structure must comply with all or a stated part of the building assessment provisions as if it were a new building or structure.
 - (4) This section does not limit chapter 5, part 3.

Part 6

Regulation of building assessment work and the issuing of building development approvals by private certifiers

82 Application of pt 6

This part applies if, under section 48, a private certifier (class A) is assessing a building development application or deciding and issuing the decision notice.

83 General restrictions on granting building development approval

(1) The private certifier must not grant the building development approval applied for—

- (a) if the building development application includes development other than building work—until, under the Planning Act, all necessary development permits and SPA compliance permits are effective for the other development; and

Example—

A proposal involves building work, a material change of use and reconfiguring a lot, under the Planning Act. The private certifier is engaged to carry out the building assessment work and decide the building development application. The application must not be decided until all necessary development permits and SPA compliance permits are effective for the change of use and reconfiguring of the lot.

- (b) until all necessary preliminary approvals under the Planning Act are effective for other assessable parts of the development; and

Example—

A proposal requires building assessment work against a planning scheme under the Planning Act and the building assessment provisions. The private certifier is engaged to carry out the building assessment work and decide the building development application. The application must not be decided until all necessary preliminary approvals are effective for the assessment of the building work against the planning scheme.

- (c) until the building assessment work for the application has been carried out under the building assessment provisions; and

(d) if, under the Planning Act, a concurrence agency has jurisdiction for a part of building assessment work—

- (i) that part has been assessed by the concurrence agency, under the building assessment provisions; and

- (ii) if the concurrence agency is the local government—any security it has required for the carrying out of the building work has been given; and
- (e) if proposed works relating to the development include installing or changing on premises an on-site sewerage facility under the *Plumbing and Drainage Act 2002*—until a compliance permit under that Act has been given for the installation or change; and
- (f) if the building work is over or adjacent to a sewer or water main—until consent under the *Water Supply (Safety and Reliability) Act 2008*, section 192 has been granted for the work to be over or adjacent to the sewer or water main.

Maximum penalty—165 penalty units.

- (2) For subsection (1)(f), building work over or adjacent to a sewer includes building work in which the offset of the nearest point of the work from the centre line of the sewer is a distance less than the depth to the invert of the sewer.
- (3) If the private certifier receives the application before all other assessments for permits and approvals mentioned in subsection (1) are completed, for timings under IDAS, the application is taken not to have been received until the day all other assessments under IDAS have been completed.
- (4) This section does not limit part 4.

84 Approval must not be inconsistent with particular earlier approvals or self-assessable development

- (1) The private certifier must not approve the application if—
 - (a) the building development application relates to an earlier development approval granted by the local government or an SPA compliance permit; and
 - (b) the earlier approval or permit has not lapsed; and

- (c) the application is inconsistent with the earlier approval or permit.

Maximum penalty—165 penalty units.

- (2) Also, the private certifier must not approve the application if—
 - (a) the building development application relates to self-assessable development under the Planning Act; and
 - (b) the development may affect the position, height or form of building work; and
 - (c) a local planning instrument declared the development to be self-assessable development; and
 - (d) the application is inconsistent with the local planning instrument.

Maximum penalty—165 penalty units.

85 Additional requirement for decision notice

The private certifier must, when issuing the decision notice, include in the notice details of any self-assessable code under the Planning Act that the applicant may need to comply with for the building work.

86 Requirements on approval of application

- (1) If the private certifier approves the application, the certifier must—
 - (a) within 5 business days, give the local government a copy of each of the following documents, identified in the way stated in subsection (2)—
 - (i) the application;
 - (ii) the approval documents for the application; and

-
- (b) give the local government the approved form for the documents mentioned in paragraph (a); and
 - (c) pay the fee fixed by the local government under the *Local Government Act 2009* for accepting the application and the approval documents.

Maximum penalty—40 penalty units.

- (2) For subsection (1)(a), the documents must be identified by—
 - (a) marking each of them as documents that relate to the application and that have been approved by the private certifier; or
 - (b) giving them to the local government with another document that—
 - (i) identifies each of the documents; and
 - (ii) states their edition number, if any; and
 - (iii) states that they relate to the application and that they have been approved by the private certifier.

Note—

Under the Planning Act, section 729, the assessment manager must make the documents required to be given to it under this section available for public inspection and purchase.

87 Local government acknowledgement

The local government must, when the private certifier complies with section 86(1), immediately give the certifier a document acknowledging the fee mentioned in subsection 86(1)(c) has been received.

88 Giving approval documents to applicant

- (1) This section applies only if the private certifier approves the application.

- (2) The private certifier must not give the applicant any approval documents for the application unless the certifier has complied with section 86(1).

Maximum penalty—50 penalty units.

- (3) Subsection (4) applies if the private certifier—
- (a) receives an acknowledgement under section 87 from the local government for the application; and
 - (b) has not given the approval documents to the applicant.
- (4) The private certifier must give the approval documents to the applicant within 5 business days after receiving the acknowledgement.

Note—

See also section 132 (Effect of building certifier not complying with Act if no penalty provided).

- (5) Subsection (6) applies if the private certifier—
- (a) gives the approval documents to the applicant; and
 - (b) has not received an acknowledgement under section 87 from the local government for the application.
- (6) The private certifier must, for at least 5 years after giving the approval documents, keep written evidence that the fee mentioned in section 86(1)(c) for the application was paid to the local government.

Maximum penalty for subsection (6)—20 penalty units.

Part 7 Provisions about lapsing of building development approvals and related matters

Division 1 Building work for demolition or removal

89 Application of div 1

This division applies to a building development approval for building work to which the demolition/removal completion condition applies.

90 Relevant period under the Planning Act, s 341 for development approval

- (1) For the Planning Act, the period under the demolition/removal completion condition is taken to be the relevant period under the Planning Act, section 341 for the development approval.
- (2) The period can not be extended under the Planning Act.

91 Lapsing of building development approval

- (1) This section applies despite the Planning Act, section 341.
- (2) The building development approval lapses if the demolition/removal completion condition has not been complied with by the end of the period under the demolition/removal completion condition.
- (3) However, if section 92 applies, the approval does not lapse until the local government decides not to take any action under that section.

92 Local government may complete particular work if condition not complied with

- (1) This section applies if the building development approval lapses and the building work is other than demolition.
- (2) The local government may take the action it considers necessary to complete the building work.
- (3) If the local government takes action under subsection (2), until the local government completes the action—
 - (a) the approval is taken not to have lapsed; and
 - (b) the local government is taken to be the person entitled to the benefit of the approval.
- (4) The action is taken to have been authorised under the approval.
- (5) In taking the action the local government may use all or part of any security given to it for the carrying out of the building work.

93 Releasing security

- (1) The local government may at any time, having regard to the progress of the building work, refund or release part of any security given to it for the carrying out of the building work.
- (2) The local government must release all or any remaining part of the security if—
 - (a) the demolition/removal completion condition is complied with; or
 - (b) the building development approval lapses.

Division 2 Other building work

94 Application of div 2

- (1) This division applies if a condition of a building development approval requires the development, or an aspect of the development, to be completed by a particular time (the *condition time*).
- (2) However, this division does not apply to a building development approval for building work to which the demolition/removal completion condition applies.

Note—

For general provisions about when a development approval lapses, what conditions may be imposed and when a condition of a building development approval may be amended, see the Planning Act, chapter 6, part 5, divisions 5 and 6 and part 8, divisions 2 to 5.

95 Reminder notice requirement for lapsing

- (1) Despite the Planning Act, chapter 6, part 5, divisions 5 and 6 and the condition, the approval only lapses if—
 - (a) the assessment manager has, under this section, given the owner of the building a reminder notice about the lapsing; and
 - (b) the time (the *lapsing time*) chosen by the assessment manager and stated in the reminder notice for the completion of the development or aspect has passed; and
 - (c) the development or aspect was not completed before the lapsing time.
- (2) The lapsing time may be after, but must not be before, the condition time.
- (3) The reminder notice must—
 - (a) be given no more than 6 months, but at least 3 months, before the lapsing time; and

- (b) state each of the following—
 - (i) the condition;
 - (ii) the lapsing time;
 - (iii) that the approval will lapse unless the development or aspect is completed by the lapsing time;
 - (iv) that if, under the Planning Act, the relevant period under the Planning Act, section 341 for the building development approval is extended past the lapsing time stated in the notice the lapsing time will, under section 96, be taken to be when the extended period ends.
- (4) Only 1 reminder notice may be given under this section.
- (5) Subject to section 96, the assessment manager can not change the lapsing time.

96 Extension of lapsing time because of application to extend relevant period under the Planning Act, s 341

- (1) This section applies if—
 - (a) a reminder notice has been given under section 95; and
 - (b) before the lapsing time stated in the notice, a request is made under the Planning Act to extend the relevant period under the Planning Act, section 341 for the relevant building development approval.
- (2) For section 95—
 - (a) the lapsing time is taken to have been extended until the request has been decided; and
 - (b) if the relevant period is extended past the lapsing time stated in the notice, the lapsing time is taken to be when the extended period ends.

97 Restriction on private certifier (class A) extending relevant period under the Planning Act, s 341 more than once

- (1) This section applies if the assessment manager is a private certifier (class A) and, under the Planning Act, the relevant period under the Planning Act, section 341 for the building development approval has already been extended.
- (2) The private certifier may further extend the period only if the private certifier has consulted with the local government.
- (3) Subsection (2) applies despite the Planning Act, chapter 6, part 5, divisions 5 and 6.

Chapter 5 Inspections, building classification and the use of buildings

Part 1 Giving of inspection documentation for single detached class 1a buildings and class 10 buildings or structures

98 Application of pt 1

This part applies to a building certifier for a building development approval who is a local government building certifier or a private certifier (class A), if the building is—

- (a) a single detached class 1a building;
- (b) a class 10 building or structure.

99 **Obligation to give owner inspection documentation on final inspection**

- (1) This section applies if at the inspection of the final stage of building work, the building certifier is satisfied, on an inspection carried out under best industry practice, that the work complies with the building development approval.

Note—

There is a right of appeal to a building and development dispute resolution committee against a decision by a building certifier about inspection of building work the subject of a building development approval. See section 124 and the Planning Act, section 532.

- (2) The building certifier must ensure the owner of the building is, within the required period, given—
- (a) a final inspection certificate for the building work; and
 - (b) a copy of any other inspection documentation for inspection of the building work.

Maximum penalty—40 penalty units.

- (3) In this section—

required period means the period that ends 5 business days after—

- (a) if the inspection documentation includes any certificates relied on by the building certifier—the certifier accepts the certificates; or
- (b) otherwise—all of the building work is inspected.

Part 2 Certificates of classification for other buildings

Division 1 Preliminary

100 Application of pt 2

This part applies to a building certifier for a building development approval who is a local government building certifier or a private certifier (class A), unless the building is—

- (a) a single detached class 1a building;
- (b) a class 10 building or structure.

101 Meaning of *substantially completed*

- (1) A building has been *substantially completed* when—
- (a) all wet areas are waterproof as required under the building assessment provisions; and
 - (b) reticulated water is connected to and provided throughout the building; and
 - (c) all sanitary installations are installed as required under the building assessment provisions; and
 - (d) the local government has issued a compliance certificate under the *Plumbing and Drainage Act 2002* stating the plumbing work, drainage work and on-site sewerage work for the building has been completed under that Act; and
 - (e) all fire safety installations are operational and installed as required under the building assessment provisions; and
 - (f) all health and safety matters relating to the building comply with the building assessment provisions; and

[s 102]

- (g) electricity supply is connected to the building to the extent necessary for it to be used under the BCA classification sought; and
 - (h) the building is weatherproof as required under the building assessment provisions; and
 - (i) the building is structurally adequate as required under the building assessment provisions; and
 - (j) all means of access and egress to the building comply with the building assessment provisions; and
 - (k) if the relevant development approval includes conditions advised or required by a referral agency and the conditions are about the building work for the building—the conditions have been complied with.
- (2) In this section—
- building* includes alterations to all or part of an existing building.

Division 2 Giving of certificate

102 Obligation to give certificate of classification on inspection after particular events

- (1) This section applies if—
- (a) the building certifier has inspected the building and—
 - (i) decided that it has been substantially completed; or
 - (ii) given written consent to the occupation of part of the building before all of it has been substantially completed; or
 - (iii) if the development is alterations to an existing building—decided that they have been substantially completed; and

- (b) if there is any fire safety installation installed in the building—the applicant has given the building certifier—
 - (i) a list of all of the installations; and
 - (ii) drawings showing their location; and
 - (c) any requirement under the building assessment provisions or a condition of the building development approval for a referral agency inspection of the building has been complied with or has ceased to apply.
- (2) The building certifier must, as soon as practicable, ensure the owner of the building is given a certificate of classification by a building certifier that complies with the requirements under section 103 for a certificate of classification (the *certificate requirements*).

Maximum penalty—20 penalty units.

- (3) If a requirement mentioned in subsection (1)(c) applies, the certificate must not be given until the requirement has been complied with or it has ceased to apply.

Notes—

- 1 There is a right of appeal to a building and development dispute resolution committee against a decision by a building certifier to whom this part applies not to give a certificate of classification because the relevant building has not been substantially completed. See section 124 and the Planning Act, section 532.
- 2 See also section 132.

103 Certificate requirements

A certificate of classification must—

- (a) be signed in the approved form; and
- (b) state the building's classification, having regard to—
 - (i) the class of the building stated in the decision notice for the development; and

- (ii) the use for which the building was designed, built or adapted; and
- (c) briefly describe the type of building or the use for which the building was designed, built or adapted, having regard to—
 - (i) any particular categories of uses under the classification; and
 - (ii) restrictions about the use of the building under the BCA or QDC; and

Examples of descriptions for paragraph (c)—

- retail showroom for sale of goods
- manufacturing – plastic goods production, not to be used for hazardous processes under the BCA
- motel – sole occupancy units

Example of restriction about the use of a building under the QDC—

a requirement under the QDC for a floating building to be permanently moored and not used for navigational purposes

- (d) if a part of the building is classified differently to another part—state the part to which each classification relates; and
- (e) if the development uses a building solution under the BCA or QDC and the solution restricts the use or occupation of the building—state the restriction; and
- (f) if the development uses alternative solutions—state the materials, systems, methods of building, procedures, specifications and other things required under the alternative solutions.

Examples of possible alternative solution requirements relating to materials—

- a limitation on the use of finishes with fire hazard properties as defined under the BCA
- a prohibition on storing hazardous materials above a stated height
- a limitation on storing or using stated materials.

Examples of possible alternative solution requirements relating to systems or procedures—

- a requirement that all of the building's final exit doors be unlocked before it is occupied on the start of any day
- a requirement to implement stated evacuation strategies or procedures
- a restriction on the number and the distribution of the building's occupants
- a requirement that evacuation routes be kept clear of fittings and furnishings or be kept sterile
- a prohibition on carrying out any hazardous processes or storage mentioned in BCA, part E1.5, table E1.5, note 3, paragraph (a).

104 Interim certificate if building is remote

- (1) This section applies if, because of the remoteness of the building's location, it is not practicable for the building certifier to inspect the building to decide whether it has been substantially completed.
- (2) The building certifier may give the owner of the building an interim certificate of classification for the building pending the carrying out of the inspection.
- (3) The interim certificate must—
 - (a) comply with the certificate requirements; and
 - (b) state that it is an interim certificate; and
 - (c) state when it will expire under subsection (5).
- (4) The interim certificate may be based on information given to the building certifier by or for the owner of the building.
- (5) The interim certificate expires when the earlier of the following happens—
 - (a) the inspection is carried out and the owner is, under section 102 given a certificate of classification;
 - (b) the end of 6 months after the interim certificate is given;
 - (c) its cancellation by the building certifier.

[s 105]

- (6) For subsection (5)(c), the interim certificate may be cancelled only on the ground that the basis on which it was issued was incorrect.

105 Certificates for a building occupied in stages

- (1) This section applies if—
 - (a) the building is unfinished; and
 - (b) its owner has been given a certificate of classification for part of it; and
 - (c) the building certifier has consented to the occupation of a further part of the building.
- (2) The building certifier must ensure the owner is given a further certificate of classification for the further part.
- (3) The further certificate must comply with the certificate requirements.

Note—

See also section 132.

Division 3 Miscellaneous provisions about certificates of classification

106 Term of certificate of classification

A certificate of classification for the building, other than an interim certificate given under section 104, continues in force until and unless it is replaced under section 113.

107 Building certifier's obligation to give referral agency certificate and other documents

- (1) This section applies if—
 - (a) under a building development approval a referral agency must be given a notice to inspect a building; and

-
- (b) a building certifier gives a certificate of classification for the building.
 - (2) The building certifier must, within 10 business days after giving the certificate, give the referral agency—
 - (a) a copy of the certificate; and
 - (b) a copy of plans and specifications showing the aspects of the completed building work within the agency's jurisdiction other than plans and specifications given to the agency under the Planning Act, section 336(b); and
 - (c) if the agency is QFRS—
 - (i) a list of all fire safety installations installed in the building; and
 - (ii) drawings showing the location of the fire safety installations.

Maximum penalty—40 penalty units.

108 Additional obligations if certificate of classification given by private certifier (class A)

If a private certifier (class A) gives a certificate of classification the certifier must—

- (a) give the local government for the building development application a copy within 5 business days; and
- (b) keep a copy for at least 5 years.

Maximum penalty—40 penalty units.

108A Owner's obligations about access to certificate of classification

- (1) This section applies to the owner of a building if—
 - (a) a certificate of classification has been given for the building; and
 - (b) the certificate was given on or after 1 July 1997; and

[s 108A]

(c) all or part of the building is occupied.

- (2) If the building is not a class 1a building, the owner must ensure the certificate is conspicuously displayed as near as practicable to the building's main entrance.

Maximum penalty—165 penalty units.

Notes—

- 1 See, however, section 284 (Transitional provision for s 108A).
- 2 A certificate of classification is not required to be given for a single detached class 1a building or a class 10 building or structure. See section 100.

- (3) An authorised officer may require the owner to produce the certificate for inspection at the building.

- (4) The owner must comply with the requirement.

Maximum penalty—165 penalty units.

- (5) Subsections (3) and (4) do not apply if the certificate is displayed as mentioned in subsection (2).

- (6) For subsections (2) to (5), a reference to the certificate includes a reference to a copy of the certificate.

- (7) In this section—

authorised officer means—

- (a) a fire service officer under the *Fire and Rescue Service Act 1990*; or
- (b) an authorised person under the *Local Government Act 2009* carrying out functions in relation to this Act.

Part 3 **Changes to BCA classification or use within classification**

109 What is a **BCA classification or use change** to a building

- (1) A **BCA classification or use change** to a building is—
- (a) a change to the use for which the building was designed, built or adapted to be used if—
 - (i) the change of use alters its BCA classification; or
 - (ii) the change of use does not alter its BCA classification but the new use requires building work to be carried out for the building to comply with any relevant building assessment provisions applying to the new use; or

Example of BCA classification or use change for paragraph (a)(ii)—

a change in the use of a class 7b warehouse to an occupancy of excessive hazard by storing combustible cartons above 4m in height or more than 1000m³ of combustible cartons

- (b) if, under section 103(e), a certificate of classification for the building states a restriction on its use or occupation—a change in circumstances that affects the way the building complies with the restriction.

Example of BCA classification or use change for paragraph (b)—

a change in the nature or quantity of materials displayed, stored or used in a building that increases the risk to life or safety, requiring building work to be carried out to comply with the BCA

- (2) However, a **BCA classification or use change** does not include a change of use that alters a building's BCA classification if the alteration happens only because of an amendment to building classifications under the BCA made after—

[s 110]

- (a) if there is a certificate of classification for the building—the certificate was given; or
- (b) otherwise—the building was first used or occupied.

110 Restriction on making BCA classification or use change

The owner of a building must ensure a BCA classification or use change is not made to the building unless—

- (a) a building certifier who is either of the following has approved the change and the building as changed complies with the building assessment provisions—
 - (i) a local government building certifier;
 - (ii) a private certifier (class A); or
- (b) the change has been approved under section 112.

Maximum penalty—165 penalty units.

111 Provision for applying to local government to obtain approval for BCA classification or use change

- (1) The owner of a building may apply to the local government for an approval mentioned in section 110(a).
- (2) The application must—
 - (a) be in the approved form; and
 - (b) include enough information about the proposed change to allow a local government building certifier to comply with the certificate requirements.
- (3) The local government building certifier must decide to grant or refuse the approval.
- (4) This section does not prevent a private certifier (class A) engaged by the owner from granting an approval mentioned in section 110(a).
- (5) Subject to section 112, a local government building certifier or private certifier (class A) must not approve a BCA

classification or use change to a building unless the building as changed complies with the building assessment provisions.

- (6) Despite subsections (3) and (4), if the building assessment provisions or a condition of a building development approval provide for a referral agency inspection of the building about the BCA classification or use change, the approval must not be granted until the requirement has been complied with or it has ceased to apply.

112 Concessional approval for particular existing buildings

- (1) This section applies only to a building in existence before 14 December 1993.
- (2) A building certifier who is either of the following may approve a BCA classification or use change for the building or part of the building without the building or part as changed having to comply with the building assessment provisions, other than the BCA, parts E1 and E4—
- (a) a local government building certifier;
 - (b) a private certifier (class A).
- (3) However, the change may be approved only if the building certifier considers that the building or part—
- (a) will be structurally sound and capable of withstanding the loadings likely to arise from its use under any new BCA classification or use; and
 - (b) will reasonably provide for—
 - (i) the safety of persons in the building if there is a fire, including, for example, means of egress; and
 - (ii) the prevention and suppression of fire; and
 - (iii) the prevention of the spread of fire.
- (4) Also, if the building contains a special fire service the building certifier must not approve the change unless the certifier has first received from QFRS a report on the suitability of the service.

[s 113]

- (5) The approval may impose the conditions the building certifier considers necessary about any of the matters mentioned in—
 - (a) the BCA, part E1 or E4; or
 - (b) subsection (3).

113 Obligation of building certifier approving BCA classification or use change to give new certificate of classification

- (1) This section applies if a building certifier approves a BCA classification or use change to a building.
- (2) The building certifier must ensure the owner of the building is given a certificate of classification for the building that complies with the certificate requirements.

Note—

See also section 132.

- (3) The certificate replaces any existing certificate of classification for the building.

Part 4 Restrictions on the use of buildings

114 No occupation or use of particular buildings without certificate of classification

- (1) This section applies if—
 - (a) the building the subject of a building development approval is not—
 - (i) a single detached class 1a building; or
 - (ii) a class 10 building or structure; and

- (b) a certificate of classification has not been given for the building.
- (2) A person must not occupy or use the building unless the person has a reasonable excuse.
Maximum penalty—165 penalty units.
- (3) The owner of the building must, unless the owner has a reasonable excuse, ensure the building is not occupied or used by someone else.
Maximum penalty—165 penalty units.

114A Owner's obligation to comply with certificate of classification

- (1) This section applies if—
 - (a) a certificate of classification has been given for a building; and
 - (b) the certificate states a restriction mentioned in section 103(e) or a requirement of a type mentioned in section 103(f).
- (2) The owner of the building must, unless the owner has a reasonable excuse, ensure the requirement or restriction is complied with.
Maximum penalty—165 penalty units.

115 Compliance with relevant BCA and QDC provisions for occupation and use of building

- (1) A person must not, unless the person has a reasonable excuse, occupy or use a building if the building does not comply with the following for the occupation or use—
 - (a) any relevant BCA provisions for its class of building;
 - (b) any relevant QDC provisions for the building.Maximum penalty—165 penalty units.

[s 115]

- (2) Subsection (3) applies if, under a performance requirement for a building under any relevant BCA provisions for its class of building or any relevant QDC provisions for the building, a person must carry out work to maintain the building for occupation and use.
- (3) The person must comply with the requirement unless the person has a reasonable excuse.
Maximum penalty—165 penalty units.
- (4) For subsections (1) and (2), the relevant BCA provisions for the class of building and the relevant QDC provisions for the building are—
 - (a) if there is a building development approval for the building, the provisions of the BCA for the class and the provisions of the QDC for the building in force—
 - (i) generally—when the approval was granted; or
 - (ii) if, under this Act, the provisions, as they were in force at an earlier time applied to building assessment work for the approval—at the earlier time; or
 - (b) otherwise, any provisions of the BCA for the class and the provisions of the QDC for the building in force when building work for the building started.
- (5) However, the provisions are subject to—
 - (a) any variation of them under this Act; and
 - (b) any local law or local planning instrument that, under this Act, applied to the building work for the building.

- (a) it is cancelled or suspended;
 - (b) it is amended under this subdivision.
- (2) As soon as practicable after the happening of the event, BSA must give notice of the event to the authority in any other State or New Zealand of which it is aware the building certifier has a licence (however called) that is the same, or substantially the same, as a licence under this part.
- (3) Also, BSA may give notice of the event to all or any of the following—
- (a) each accreditation standards body;
 - (b) any employer of or person who has appointed the building certifier to perform building or private certifying functions;
 - (c) if the building certifier is a pool safety inspector—PSC;

- (4) A notice under this section may include the information BSA considers appropriate in the circumstances.

Subdivision 2 Show cause notice procedure

175 Show cause notice

- (1) If BSA believes grounds exist to act under subdivision 1, it must, before taking the action, give the relevant building certifier a notice (a *show cause notice*).
- (2) The show cause notice must state each of the following—
 - (a) the proposed action;
 - (b) the grounds for taking the proposed action;
 - (c) the facts and circumstances forming the basis for the grounds;
 - (d) if the proposed action is to the licence—the proposed amendment;
 - (e) if the proposed action is to suspend—the proposed suspension period;
 - (f) that the building certifier may, within a stated period (the *show cause period*), make submissions about why the proposed action should not be taken.
- (3) The show cause period must end at least 20 business days after the building certifier is given the show cause notice.
- (4) The proposed suspension period may be fixed by reference to the happening of a stated event.

Example—

If the ground for taking the proposed action is a failure to carry out a statutory obligation relating to a building or private certifying functions, the proposed suspension period could be until the obligation is complied with.

176 Submissions about show cause notice

- (1) The building certifier may, within the show cause period, make submissions to BSA about the show cause notice.
- (2) BSA must consider the submissions.

177 Decision on proposed action

- (1) After considering the submissions for the show cause notice, BSA must decide whether to take the proposed action.
- (2) If the proposed action is to cancel the building certifier's licence, BSA may instead decide to suspend it for a stated period.

178 Notice and taking effect of decision

- (1) If BSA decides not to take the proposed action, it must give the building certifier notice of the decision.
- (2) If BSA decides to take the proposed action, it must give the building certifier an information notice about the decision.
- (3) A decision to take the proposed action takes effect when the information notice is given.

Division 6 General provisions about licences

179 Register of building certifiers

- (1) BSA must keep a register of building certifiers.
- (2) The register may be kept in the way BSA considers appropriate, including, for example, in an electronic form.
- (3) The register must contain the following particulars for each building certifier—
 - (a) their name, licence number and business contact details;

 - (i) details of the decision; and
 - (ii) if the decision was that the building certifier has engaged in unsatisfactory conduct—details of the further decision required under section 204(4);
 - (e) if the tribunal makes an order about the building certifier—details of the order, other than any details identified in the order as details not to be included in the register.
- (4) Particulars recorded under subsection (3)(d) must be removed from the register 5 years after they were recorded in the register.
- (5) Particulars recorded under subsection (3)(e) must be removed from the register at the end of the period during which the order states the details are to be included in the register.

180 Access to register

BSA must—

- (a) make the register available for inspection by anyone while its office is open for business; and
- (b) give, on payment of any reasonable fee requested by it, anyone who asks for it a copy of all or part of the information held in the register; and
- (c) place, on its website, a link to the register.

181 Surrendering licence

- (1) A building certifier may surrender the certifier's licence by notice to BSA.
- (2) The surrender takes effect—
 - (a) on the day the notice is given to BSA; or
 - (b) if a later day of effect is stated in the notice—on the later day.
- (3) The building certifier must, unless the certifier has a reasonable excuse, return the licence to BSA within 10 business days after the day the surrender takes effect.

Maximum penalty for subsection (3)—10 penalty units.

182 Obtaining replacement licence

- (1) A building certifier may apply to BSA in the approved form for the replacement of the certifier's licence if it has been damaged, destroyed, lost or stolen.
- (2) If BSA is satisfied the licence has been damaged, destroyed, lost or stolen, BSA must—
 - (a) replace it with another licence; and
 - (b) give the applicant the replacement licence.

183 Obligation of building certifier to give notice of change in particular circumstances

- (1) This section applies if a building certifier—
 - (a) changes address; or
 - (b) holds, in another State or New Zealand, a licence (however called) that is the same, or substantially the same, as a licence under this part and the licence is cancelled or suspended; or
 - (c) is, after the issuing of the building certifier's licence under this part, convicted of a relevant offence.

[s 184]

- (2) The building certifier must give BSA notice of the change, cancellation, suspension or conviction within 20 business days after it happened.

Maximum penalty—

Division 7 Miscellaneous provisions

184 Accreditation standards bodies

- (1) An *accreditation standards body* is—
- (a) AIBS; and
- (b) any other entity prescribed under a regulation to be an accreditation standards body.
- (2) An entity may be prescribed under subsection (1)(b) only if it has identifiable competence and expertise in issuing accreditation to building certifiers.

185 Function of accreditation standards body

- (1) The function of an accreditation standards body is to issue accreditation to individuals proposing to apply to be building certifiers.
- (2) For subsection (1), an accreditation standards body must—
- (a) for each level of licensing as a building certifier, set educational and experiential standards approved by the chief executive; and
- (b) if the standards are within the scope of the national accreditation framework for building certifiers—ensure the standards comply with the framework; and

(c) establish a professional development scheme approved by the chief executive.

(3) In this section—

national accreditation framework means the framework, as amended from time to time, approved by the body known as the Australian Building Codes Board.

186 Criteria for deciding suitability of applicants and licensees

(1) This section applies if, under this part, BSA is considering whether an applicant for, or for the renewal of, a licence or a licence holder is a suitable person to hold a licence.

(2) BSA must consider each of the following—

(a) whether the applicant or holder has been convicted of a relevant offence;

(b) whether the applicant or holder has previously been refused a licence, or has had a licence suspended or cancelled, under this Act or another relevant Act;

(c) whether the applicant or holder has, under another relevant Act, been disqualified from holding a licence under that Act;

(d) dealings in which the applicant or holder has been involved and the standard of honesty and integrity demonstrated in the dealings;

(e) any failure by the applicant or holder to carry out statutory obligations relating to building or private certifying functions, and the reasons for the failure;

(f) whether the applicant or holder holds a current accreditation issued by an accreditation standards body;

(g) all other relevant circumstances.

187 BSA may seek information from applicants about suitability

- (1) This section applies to an application for, or to renew, a licence.
- (2) BSA may, by notice to the applicant, require the applicant to give it, within a stated reasonable period, documents or information BSA reasonably considers is needed to establish that the applicant is a suitable person to hold a licence.
- (3) The applicant is taken to have withdrawn the application if, within the stated period, the applicant does not comply with the requirement.

188 Refund of particular licence fees accompanying applications

If an application for, or to renew, a licence is refused or withdrawn, BSA must refund the applicant the licence fee that accompanied the application.

189 Reviews by tribunal of decisions under pt 3

- (1) This section applies if a person is given, or is entitled to be given, an information notice about a decision of BSA under this part.
- (2) The person may apply, as provided under the QCAT Act, to the tribunal for a review of the decision.

Part 4 Complaints, investigations and disciplinary proceedings relating to building certifiers

Division 1 Complaints

190 Making a complaint against a building certifier

- (1) A person may make a complaint to BSA about a building certifier if the person believes the building certifier has engaged in unsatisfactory conduct or professional misconduct.
- (2) A complaint must—
 - (a) be in writing; and
 - (b) contain particulars of the allegations on which it is founded; and
 - (c) be verified by statutory declaration.
- (3) BSA may require the complainant to give further particulars of the complaint.
- (4) BSA may dismiss any complaint without taking further action under this division if the further particulars are not given or if the complaint or the further particulars are not verified by statutory declaration.
- (5) BSA must not disclose to another person unproved complaints against a building certifier.

191 Building certifier must be advised of complaint

- (1) After receiving the complaint, BSA must, by notice—
 - (a) inform the building certifier of the nature of the complaint; and

[s 192]

- (b) invite the building certifier to make, within the time stated in the notice, representations to BSA about the complaint.
- (2) The time stated in the notice must be at least 5 business days after the notice is given.
- (3) If BSA makes a decision about the complaint under section 204, BSA must have regard to the representations when making the decision.

192 BSA may recommend mediation to resolve complaint

- (1) If BSA considers a complaint about a building certifier is capable of resolution by mediation, BSA must give the complainant and the building certifier a notice stating—
 - (a) that BSA considers the complaint is capable of resolution by mediation; and
 - (b) attendance at, and participation in, mediation is voluntary; and
 - (c) that either party may withdraw from the mediation at any time; and
 - (d) when the mediation ends; and
 - (e) the effect of giving BSA a certificate about the mediation.
- (2) BSA may recommend the complainant and the building certifier enter into a process of mediation to resolve the complaint as soon as practicable and before BSA investigates the complaint.

193 Mediation process

- (1) If, at mediation, the parties agree to a resolution to the complaint, the agreement must be signed by, or for, each party and by the mediator (the *mediation agreement*).
- (2) Mediation ends on the earlier of the following—

-
- (a) if a party withdraws from mediation—the day the party withdraws;
 - (b) if the parties agree the mediation has ended—the day the parties agree mediation has ended;
 - (c) if there is a mediation agreement—the day the agreement is signed;
 - (d) unless BSA extends the period and advises parties in writing of the extension—20 business days after notice is given under section 192.
- (3) As soon as practicable after mediation has ended, the mediator must give BSA a certificate about the mediation in the approved form.
 - (4) If the parties sign an agreement, the complaint is taken to be withdrawn.

194 Investigation of complaint

- (1) This section applies if—
 - (a) BSA does not recommend the complainant and the building certifier enter into mediation; or
 - (b) BSA recommends the complainant and the building certifier enter into mediation and the complaint is not resolved when the mediation ends.
- (2) BSA must conduct an investigation into the complaint as soon as practicable.
- (3) BSA may deal with 1 or more complaints about a building certifier in the same investigation.
- (4) If during an investigation BSA is satisfied there is a matter about which another complaint could have been made against the building certifier, BSA may deal with the matter in its investigation as if a complaint had been made about the matter.

Division 2 Investigations

195 BSA may require documents to be produced

- (1) For investigating a complaint or conducting an audit, BSA may, by notice given to a building certifier, require the building certifier to produce a document to BSA, or a person authorised by BSA (an *auditor*).
- (2) The notice may also state—
 - (a) a time and place by which the document must be produced; or
 - (b) that the document must be verified by statutory declaration.
- (3) The time for compliance stated in the notice must be a reasonable time.
- (4) The building certifier must comply with the notice, unless the building certifier has a reasonable excuse.

Maximum penalty for subsection (4)—50 penalty units.

196 Issue of identity card to auditor

- (1) BSA must issue an identity card to each auditor.
- (2) The identity card must—
 - (a) contain a recent photo of the auditor; and
 - (b) contain a copy of the auditor's signature; and
 - (c) identify the person as an approved auditor under this Act; and
 - (d) state an expiry date for the card.
- (3) This section does not prevent the issue of a single identity card to a person for this Act and other purposes.

197 Production or display of identity card

- (1) In exercising a power under this Act in relation to another person, an auditor must—
 - (a) produce his or her identity card for the person's inspection before exercising the power; or
 - (b) have the identity card displayed so it is clearly visible to the person when exercising the power.
- (2) However, if it is not practicable to comply with subsection (1), the auditor must produce the identity card for the person's inspection at the first reasonable opportunity.

198 Inspection of documents

An auditor may inspect any document produced to BSA and copy it or any part of it.

199 Power to enter and inspect building site relating to complaint or audit

- (1) For investigating a complaint or conducting an audit, an auditor may enter and inspect a building site to which the complaint or audit relates.
- (2) The entry and inspection must be—
 - (a) made with the consent of the person in control of the building site; or
 - (b) authorised by warrant of a magistrate; or
 - (c) done when building work is being carried out at the building site.
- (3) However, an entry and inspection carried out only under subsection (2)(c) must not include a part of a building in which a person resides.
- (4) For the purpose of asking the person in control of the building site for consent to enter, the auditor may, without the person's

[s 200]

consent or a warrant enter the site to the extent that is reasonable to contact the person.

- (5) An auditor may apply to a magistrate for a warrant under this section for a particular building site.
- (6) The application must be sworn and state the grounds on which it is sought.
- (7) If the magistrate requires further information about the grounds on which the warrant is sought, the magistrate must not issue the warrant unless the auditor or some other person has given the information to the magistrate in the form (either orally or by affidavit) that the magistrate requires.
- (8) The magistrate may issue the warrant only if the magistrate is satisfied there is a proper reason for entering and inspecting the building site.
- (9) The warrant must state—
 - (a) that the auditor may, with necessary and reasonable help and force, enter and inspect the building site; and
 - (b) the hours of the day when entry may be made; and
 - (c) the day (not more than 14 days after the issue of the warrant) on which the warrant ceases to have effect.

200 Procedure before entry

- (1) This section applies if an auditor is, under section 199, intending to enter a building site, other than to the extent mentioned in section 199(4).
- (2) Before entering the building site, the auditor must do or make a reasonable attempt to do each of the following things—
 - (a) identify himself or herself to a person present at the building site who is an occupier of the building site, in the way stated in section 197;
 - (b) if the entry is being made under a warrant—give the person a copy of the warrant;

- (c) tell the person the auditor is, under section 199, permitted to enter the building site;
 - (d) give the person an opportunity to allow the auditor immediate entry to the building site without using force.
- (3) However, the auditor need not comply with subsection (2) if the auditor believes on reasonable grounds that complying with the subsection may frustrate or otherwise prevent the investigation of the complaint or the conduct of the audit.

201 Cooperating with investigation or audit

- (1) A building certifier who is being investigated or audited by BSA must assist in and cooperate with the investigation or audit.
- (2) A building certifier engages in professional misconduct if the building certifier, without reasonable excuse—
 - (a) fails to comply with subsection (1) or section 195; or
 - (b) misleads or obstructs BSA in the exercise of any function under this division.

202 False or misleading statements

- (1) A person must not, in relation to an investigation or audit under this part, state anything to BSA that the person knows is false or misleading in a material particular.
Maximum penalty—165 penalty units.
- (2) In a proceeding for an offence against subsection (1), it is enough to state that the statement made was, without specifying which, false or misleading.

203 False or misleading documents

- (1) A person must not, in relation to an investigation or audit under this part, give BSA a document containing information

[s 204]

the person knows is false or misleading in a material particular.

Maximum penalty—165 penalty units.

- (2) Subsection (1) does not apply to a person if the person, when giving the document—
 - (a) tells BSA, to the best of the person's ability, how it is false or misleading; and
 - (b) if the person has, or can reasonably obtain, the correct information—gives the correct information to BSA.
- (3) In a proceeding for an offence against subsection (1), it is enough to state that the document was, without specifying which, false or misleading.

204 Decision after investigation or audit completed

- (1) After investigating a complaint or conducting an audit, BSA must decide whether or not the building certifier has engaged in unsatisfactory conduct or professional misconduct.
- (2) BSA must give the building certifier and the complainant (if any) an information notice about the decision taken under subsection (1).
- (3) If BSA is aware that the building certifier is employed or has been appointed by someone else to perform building or private certifying functions, it must give the employer or appointor a copy of the notice.
- (4) If BSA decides the building certifier has engaged in unsatisfactory conduct, BSA must decide to do 1 or more of the following—
 - (a) reprimand the building certifier;
 - (b) impose the conditions it considers appropriate on the building certifier's licence;
 - (c) direct the building certifier to complete to the satisfaction of BSA the educational courses stated by BSA;

- (d) direct the building certifier to report on his or her practice as a building certifier at the times, in the way and to the persons stated by BSA;
 - (e) require the building certifier to take all necessary steps to ensure the certification of building work—
 - (i) complies with this Act; or
 - (ii) for other assessable development related to the building work—is not inconsistent with all other necessary development approvals that apply to the work; or
 - (iii) for self-assessable development that may affect the position, height or form of building work—is not inconsistent with the requirements for the self-assessable development; or
 - (iv) for development or work requiring compliance assessment under the Planning Act that relates to the building work—is not inconsistent with an SPA compliance permit or SPA compliance certificate for the development or work;
 - (f) direct the building certifier to take necessary enforcement action under this or another Act, including, for example, by requiring the building certifier to issue an enforcement notice to the builder of the building work or owner of the building;
 - (g) if BSA is satisfied the building certifier is generally competent and diligent—advise the building certifier it does not intend to take any further action.
- (5) BSA must—
- (a) give an information notice about its decision under subsection (4) to the building certifier; and
 - (b) if the decision is made after investigating a complaint—give the complainant a copy of the notice.

[s 205]

- (6) If BSA decides the building certifier has engaged in professional misconduct, BSA must apply to the tribunal to start a disciplinary proceeding against the building certifier.
- (7) Subsection (4) does not prevent BSA taking the matter the subject of the investigation into consideration at a later time as part of a pattern of conduct that may result in a disciplinary proceeding against the building certifier.
- (8) Subsections (4) and (6) do not prevent BSA from starting a proceeding to prosecute the building certifier for an offence against this Act.
- (9) In this section—

assessable development see the Planning Act, schedule 3.

self-assessable development means all development declared under a local planning instrument to be self-assessable development.

205 Review of BSA's decision

- (1) This section applies if a building certifier or complainant is dissatisfied with BSA's decision under section 204(1) or (4).
- (2) The building certifier or complainant may apply, as provided under the QCAT Act, to the tribunal for a review of the decision.

Division 3 Show cause notice for disciplinary proceedings

206 Show cause notice

- (1) If a local government reasonably believes proper grounds exist for applying to the tribunal to start a disciplinary proceeding against a building certifier, the local government must before making the application give the building certifier a notice (a *show cause notice*).

-
- (2) The show cause notice must—
 - (a) state the grounds for making the application; and
 - (b) outline the facts and circumstances forming the basis for the grounds; and
 - (c) invite the building certifier to show within a stated period (the *show cause period*) why the application should not be made.
 - (3) The show cause period must be a period ending not less than 20 business days after the show cause notice is given to the building certifier.

207 Representations and decision

- (1) The building certifier may make written representations about the show cause notice to the local government in the show cause period.
- (2) After considering the representations for the show cause notice, the local government must decide to—
 - (a) take no further action; or
 - (b) apply to the tribunal to start a disciplinary proceeding against the building certifier.
- (3) The local government must give the building certifier notice of its decision and the reasons for the decision.

Division 4 Disciplinary proceedings

208 Tribunal may conduct disciplinary proceeding

- (1) The tribunal may, on application by BSA or the local government, conduct a disciplinary proceeding to decide whether proper grounds for taking disciplinary action against a building certifier are established.

[s 209]

- (2) For subsection (1), proper grounds exist for taking disciplinary action if the building certifier has behaved in a way that constitutes professional misconduct.
- (3) An application under subsection (1) must be made as provided under the QCAT Act.

209 Constitution of tribunal for disciplinary proceeding

- (1) For a proceeding under section 208, if the president of the tribunal under the QCAT Act considers it appropriate, the president may choose the following persons to constitute the tribunal—
 - (a) 1 legally qualified member under the QCAT Act;
 - (b) 1 senior member or ordinary member who has special knowledge of the building certification industry and the administration of this Act;
 - (c) 1 other senior member or ordinary member.
- (2) In this section—

ordinary member means an ordinary member under the QCAT Act.

senior member means a senior member under the QCAT Act.

210 Notification of disciplinary proceeding

- (1) If BSA makes the application, BSA must notify the local government of the application.
- (2) If the local government makes the application, it must notify BSA of the application.
- (3) The applicant must file a copy of the notification in the tribunal.

211 Orders relating to current building certifier

- (1) If the tribunal decides that proper grounds exist for taking disciplinary action against a building certifier who is licensed at the time of the decision, the tribunal may make 1 or more of the orders mentioned in subsections (2) to (7).
- (2) The tribunal may make an order—
 - (a) reprimanding the building certifier; or
 - (b) imposing conditions it considers appropriate on the building certifier's licence; or

 - (b) to direct necessary enforcement action be taken under this or another Act, for example, by requiring the building certifier to issue an enforcement notice to the builder of the building works or owner of the building.

[s 211]

- (4) The tribunal may, in relation to building work that is defective or incomplete as a result of the professional misconduct, make an order that the building certifier—

214 Recording details of orders

An order may state—

- (a) the period in which the details of the order are to be included in the register for the person; and

246N Application of pt 2

- (1) This part applies to a relevant instrument—
 - (a) even if it were made or entered into before 1 January 2010; and
 - (b) despite any provision of an Act mentioned in section 246M, definition *relevant instrument*.

- (1) This section applies to a relevant instrument that, but for this section, would have the effect of—
 - (a) prohibiting the use of a colour for the roof of a class 1a building or an enclosed class 10a building attached to a class 1a building, if using the colour would achieve a solar absorptance value for the upper surface of the roof of not more than 0.55; or
 - (b) prohibiting—
 - (i) the use in a prescribed building of a window that is energy efficient; or
 - (ii) the treatment of a window in a prescribed building to ensure the window is energy efficient; or
 - (c) requiring—
 - (i) a minimum floor area for a class 1a building, but not a minimum frontage unless the requiring of a

-
- minimum frontage has the effect of construction of a less energy efficient building; or
- (ii) a minimum number of bathrooms or bedrooms for a class 1a building; or
 - (iii) a class 1a building or an enclosed class 10a building attached to a class 1a building to be orientated on a parcel of land in a particular way, if orientating the building in the particular way would have the effect of construction of a less energy efficient building; or
- (d) prohibiting the installation of a solar hot water system or photovoltaic cells on the roof or other external surface of a prescribed building.
- (2) For a prohibition or requirement mentioned in subsection (1)(a) to (c), the relevant instrument has no force or effect to the extent of the prohibition or requirement.
- (3) For a prohibition mentioned in subsection (1)(d), the relevant instrument has no force or effect to the extent the prohibition applies merely to enhance or preserve the external appearance of the building.

Example of prohibition applying for other than a purpose mentioned in subsection (3)—

The installation of a solar hot water system with a roof storage tank on a roof might be prohibited because an engineering report shows the system would be too heavy for the roof.

246P Restrictions that have no force or effect—roof colours and windows

- (1) This section applies to a relevant instrument that, but for this section, would have the effect of—
- (a) restricting the use of a colour for the roof of a class 1a building or an enclosed class 10a building attached to a class 1a building, if using the colour would achieve a solar absorptance value for the upper surface of the roof of not more than 0.55; or

[s 246Q]

- (b) restricting—
 - (i) the use in a prescribed building of a window that is energy efficient; or
 - (ii) the treatment of a window in a prescribed building to ensure the window is energy efficient.
- (2) For a restriction mentioned in subsection (1), the relevant instrument has no force or effect to the extent the restriction prevents a person—

246Q Restrictions that have no force or effect—other restrictions

- (1) This section applies to a relevant instrument that, but for this section, would have the effect of restricting the location on the roof or other external surface of a prescribed building where a solar hot water system or photovoltaic cells may be installed.

-
- (2) For a restriction mentioned in subsection (1), the relevant instrument has no force or effect to the extent the restriction—
- (a) applies merely to enhance or preserve the external appearance of the building; and
 - (b) prevents a person from installing a solar hot water system or photovoltaic cells on the roof or other external surface of the building.

Example of restriction applying for other than a purpose mentioned in subsection (2)—

The installation of a solar hot water system at a particular location on a roof may be restricted to maximise available space for the installation of other hot water systems or to prevent noise from piping associated with the system causing unreasonable interference with a person's use or enjoyment of the building.

246R When requirement to obtain consent for particular activities can not be withheld—roof colours and windows

- (1) This section applies if, under a relevant instrument, the consent of an entity is required to—
- (a) use a colour for the roof of a class 1a building or an enclosed class 10a building attached to a class 1a building; or
 - (b) use in a prescribed building a window that is energy efficient or treat a window in a prescribed building to ensure the window is energy efficient.
- (2) The entity can not withhold consent for an activity mentioned in subsection (1)(a) if use of the colour—
- (a) achieves a solar absorptance value for the upper surface of the roof of not more than 0.55; and
 - (b) minimises potential adverse effects on the external appearance of the building; and
 - (c) does not unreasonably prevent or interfere with a person's use and enjoyment of the building or another building.

[s 246S]

- (3) The entity can not withhold consent for an activity mentioned in subsection (1)(b) if the type of window to be used or the treatment—
 - (a) minimises potential adverse effects on the external appearance of the building; and
 - (b) does not unreasonably prevent or interfere with a person's use and enjoyment of the building or another building.
- (4) A requirement under this section to not withhold consent—
 - (a) is taken to be a requirement under the relevant instrument; and
 - (b) applies to the relevant instrument despite any other provision of the instrument.

246S When requirement to obtain consent for particular activities can not be withheld—other matters

- (1) This section applies if, under a relevant instrument, the consent of an entity is required to install a solar hot water system or photovoltaic cells on the roof or other external surface of a prescribed building.
- (2) The entity can not withhold consent for an activity mentioned in subsection (1) merely to enhance or preserve the external appearance of the building, if withholding the consent prevents a person from installing a solar hot water system or photovoltaic cells on the roof or other external surface of the building.
- (3) A requirement under this section to not withhold consent—
 - (a) is taken to be a requirement under the relevant instrument; and
 - (b) applies to the relevant instrument despite any other provision of the instrument.

Division 3 Miscellaneous provisions

246T Particular limitation on operation of pt 2

- (1) This section applies if, under this part and in relation to the installation of a solar hot water system or photovoltaic cells on the roof or other external surface of a prescribed building—
 - (a) a provision of a relevant instrument has no force or effect; or
 - (b) an entity can not withhold consent for the installation.
- (2) The operation of this part does not give rise to any entitlement to install a solar hot water system or photovoltaic cells on the roof or other external surface of the building in a way that unreasonably prevents or interferes with a person's use and enjoyment of any part of the building.

246U No compensation payable

To remove any doubt, it is declared that no compensation is payable by the State or another person for any loss or expense arising out of the operation of this part or its effect on a relevant instrument.
