Wet Tropics World Heritage Protection and Management Act 1993

An Act to provide for the protection and management of the Wet Tropics of Queensland World Heritage Area, and for related purposes

Because—

1 The General Conference of the United Nations Education, Scientific and Cultural Organization adopted the World Heritage Convention for the purpose of assuring the protection of the world’s cultural and natural heritage of outstanding universal value.

2 Australia is a party to the convention.

3 The wet tropics area has been listed in the World Heritage list kept under the convention as forming part of the world’s natural heritage of outstanding universal value.

4 The Parliament recognises that Australia’s obligation under the convention is to ensure the protection, conservation, presentation, rehabilitation, and transmission to future generations, of the natural heritage of the area.

5 It is the intention of the Parliament that the area should be established and maintained as a world heritage area of the highest standard.

6 The Commonwealth and the State have, under the agreement, agreed to broad structural and funding arrangements in relation to the management of the area.

7 It is, therefore, the intention of the Parliament to make provision, by this Act, to ensure that effective, active measures are taken to meet Australia’s obligation under the convention.
8 It is also the intention of the Parliament to acknowledge the significant contribution that Aboriginal people can make to the future management of cultural and natural heritage within the area, particularly through joint management agreements.

Schedule 1  

Management scheme intergovernmental agreement for the Wet Tropics of Queensland World Heritage Area

schedule 3, definition agreement

Background

The broad basis for the establishment of a management scheme for the Wet Tropics of Queensland World Heritage Area was the Agreement signed by the Prime Minister and the Premier of Queensland in November 1990. This Agreement sets out broad structural and funding arrangements for the management scheme.

The *Wet Tropics World Heritage Protection and Management Act 1993* (Queensland) was subsequently developed in close cooperation with the Commonwealth and commenced (with the exception of ss.56 and 57) on 1 November 1993. Complementary Commonwealth legislation, *Wet Tropics of Queensland World Heritage Area Conservation Act 1994* (Commonwealth) commenced on 15 March 1994.

Apart from the development of legislation, a number of other changes necessitate updating of the original Agreement. These include changes to public service arrangements in Queensland, practical arrangements which have evolved in relation to the management of the Area and the expiry of the three year period to which some of the initial funding arrangements applied.

As the original Agreement forms a schedule to the Queensland Act, and is referred to in the Commonwealth Act, it is important that it be updated to reflect both practical and statutory realities.
Primary Goal

To provide for the implementation of Australia’s international duty for the protection, conservation, presentation, rehabilitation and transmission to future generations of the Wet Tropics of Queensland World Heritage Area within the meaning of the World Heritage Convention.

Structure of the Management Scheme

The elements of the management scheme are the—

- Ministerial Council, consisting of Commonwealth and State Ministers;
- Wet Tropics Management Authority consisting of a Board of Directors, an Executive Director and staff; and
- Community Consultative Committee, the Scientific Advisory Committee and such other advisory committees as the Authority considers appropriate.

With the exception of the Ministerial Council, all of these elements are established under the Queensland Act.

Wet Tropics Ministerial Council

The joint Ministerial Council will comprise four members, with two members each nominated by the Commonwealth and Queensland. The Ministerial Council will be chaired by the Minister administering the Queensland Act (a Queensland Minister).

The Executive Director of the Wet Tropics Management Authority will be Secretary to the Ministerial Council.

A quorum shall be one Minister from each Government and the Council will meet at least once a year.

The Ministerial Council’s function shall be to co-ordinate policy and funding for the Wet Tropics of Queensland between the Commonwealth and Queensland Governments at a Ministerial level and, where appropriate, to liaise with the Management Authority and the Board of Directors.
The Ministerial Council—

- shall nominate the Chairperson of the Board of the Authority for appointment under the Queensland Act by the Queensland Governor in Council;
- shall consult with the Board of the Authority and the Queensland Minister on the appointment of the Executive Director of the Authority;
- shall co-ordinate policy and funding for Wet Tropics management between the two Governments;
- shall recommend to the Queensland Governor in Council approval of management plans under the Queensland Act;
- shall approve annual and other programs for implementing approved management plans;
- may recommend financial appropriations from the respective Governments;
- shall approve or amend and approve draft budgets submitted by the Authority within 60 days of the submission being made; and
- may approve Authority annual reports for transmission to both Parliaments.

**Wet Tropics Management Authority**

The Wet Tropics Management Authority is a statutory body under the Queensland Act. The Authority has a Board of Directors, an Executive Director and staff.

**Board of Directors**

The Board will comprise six directors. The Chairperson shall be appointed on the nomination of the Ministerial Council. Two directors shall be appointed on the nomination of the Commonwealth and two on the nomination of the State. The Executive Director of the Authority is also a director of the Board but does not have any voting rights. Other than the
Executive Director, directors shall be appointed by the Queensland Governor in Council.

The appointment of a director is for a term of up to three years. A director is eligible for reappointment unless the director has completed six consecutive years as a director. A director nominated by the Commonwealth or the Ministerial Council may be removed from office only after consultation with the Commonwealth or the Ministerial Council respectively.

Persons appointed to the Board shall have qualifications or extensive experience in a field related to the Authority’s functions, and shall not be officers of the public service of the Commonwealth or the State.

Under the Commonwealth Act at least one of the Commonwealth’s nominees must be an Aboriginal person.

The Commonwealth and Queensland will consult on their nominees prior to appointment by the Queensland Governor in Council.

The Board is responsible for the way in which the Authority performs its functions and exercises its powers. It is the Board’s role to decide the objectives, strategies and policies to be followed by the Authority and to ensure that the Authority performs its functions in a proper, effective and efficient way.

The Board may delegate its powers to an advisory committee, a director or an officer or employee of the Authority. The Board may not delegate its powers in relation to management plans or the submission of draft budgets to Ministerial Council.

The Management Authority is subject to the Ministerial Council and will report, via its Chair, to the Council. In the absence of a properly appointed Board at any time, such reporting shall be through the Authority’s Executive Director as Secretary to Council.

The Board shall meet at least four times per year. Authority resolutions and recommendations to Ministerial Council shall be made through a majority vote. The Chair shall have a casting vote as well as a deliberative vote.
Where circumstances necessitate, it shall be acceptable for the Chair of the Board, in consultation with the Executive Director, to make recommendations to the Ministerial Council on behalf of the Authority. The Secretary to the Ministerial Council may, under specific direction of the Council or Council members, present material or make recommendations directly to Council.

Observers

One official from each of the portfolios represented on Ministerial Council may attend Board meetings as an observer. These officials will be nominated by the respective Ministers of those portfolios. Chairpersons of the Community Consultative Committee and the Scientific Advisory Committee may also attend Board meetings as observers. Observers will not have voting rights.

Authority’s Powers and Functions

The Authority’s paramount function will be the responsibility for achieving the primary management goal—the implementation of Australia’s international obligations for the Area under the World Heritage Convention.

The Authority’s functions are to—

• develop and implement policies and programs in relation to the management of the Wet Tropics Area;

• formulate performance indicators for the implementation of policies and programs approved by the Ministerial Council;

• advise and make recommendations to the Queensland Minister and the Ministerial Council in relation to the management of the Area and Australia’s obligations under the World Heritage Convention;

• prepare and ensure the implementation of management plans for the Area;

• administer funding arrangements in relation to the Area;
• enter into, and facilitate the entering into, cooperative management agreements (including joint management agreements) with land-holders, Aboriginal people particularly concerned with land in the Area and other persons;

• enter into arrangements for the provision of rehabilitation and restoration works in relation to any land in the Area;

• gather, research, analyse and disseminate information on the Area;

• develop public and community education programs in relation to the Area;

• promote the Area locally, nationally and internationally;

• liaise with the Governments and authorities of the State, the Commonwealth, other States and the Territories, and international and foreign organisations and agencies;

• monitor the state of the Area; and

• advise and report to the Queensland Minister and the Ministerial Council on the state of the Area.

The functions of the Authority to advise, report to and make recommendations to the Minister and the Ministerial Council may be performed by the Authority on request or on its own initiative.

A cooperative management Agreement may make provision for financial, scientific, technical or other assistance in relation to the management of the Area.

The Authority must perform its functions in a way that is consistent with the protection of the natural heritage values of the Area. Subject to this requirement, in performing its functions, the Authority must, as far as practicable, have regard to the Aboriginal tradition of, and liaise and cooperate with, Aboriginal people particularly concerned with land in the Area.

Subject to performing its functions in a way which is consistent with the protection of the natural heritage values of the Area, the Authority must, as far as practicable, also
perform its functions in a way that is consistent with the objectives and principles of the National Strategy for Ecologically Sustainable Development and with the Intergovernmental Agreement on the Environment.

The Area is large and extremely complex in terms of tenure and use. Some people live in the Area and many live near to it. Many people and groups visit the Area, have a legitimate stake in its management, and a potentially profound effect on its future. The Authority will be mindful of this in meeting the primary goal.

In this context the Authority will work in partnership with the community as a means of building a sense of ownership and sharing both the benefits and burdens of sound management. In particular, the Authority will consult with the community, both through its committees and directly and extensively on matters with significant community impact, such as management plans.

The Authority will also endeavour, through its policies, programs and consultation, to meet the spirit of the World Heritage Convention by giving the Area a role in the life of the community.

A high priority function of the Authority will be the development of comprehensive statutory management plans for the Area which fully address Australia’s international obligations.

As an important mechanism for protecting the Area and ensuring Australia's international obligations are met, the Authority will also be responsible for ensuring that otherwise prohibited activities are permitted only under appropriate circumstances.

**Executive Director**

The Executive Director is to be appointed under the *Public Service Management and Employment Act 1988* (Queensland) after consultation between the Ministerial Council and the Board.
The Executive Director is, under the Board, to manage the Authority. Anything done in the name of, or on behalf of, the Authority by the Executive Director is taken to have been done by the Authority.

The Executive Director is a director of the Board and may (subject to disclosure of interests as appropriate) take part in any of the Board’s deliberations but has no voting rights at a meeting of the Board. The Executive Director holds the position of Secretary to the Ministerial Council. The Executive Director of the Authority shall identify a suitable senior member of Authority staff to function as Secretary to the Authority.

The Executive Director will develop, co-ordinate, implement and monitor, subject to the approval of the Board and the Ministerial Council, policies, plans and programs in order to meet the primary goal.

Performance appraisal of the Executive Director shall be the responsibility of the Board. The Board may undertake performance appraisal itself or through contractual arrangements with the Department administering the Queensland Act or other suitable Department.

The principal functions and responsibilities of the Executive Director shall be in accordance with the Authority’s functions, as set out above.

In addition, the Executive Director will be responsible for—

- managing the Authority under the Board;
- administering the Queensland Act and any relevant regulations in force;
- coordinating all secretariat and operational support for the Ministerial Council, Board and official Committees;
- involving the community in the management of the World Heritage Area;
- liaising with Government agencies and Local Government authorities whose responsibilities affect or are affected by the management of the Area;
• liaising with Aboriginal people particularly concerned with the land;
• preparing and maintaining a comprehensive database of management related information concerning all aspects of the Area;
• developing mechanisms for facilitating and enhancing the appreciation and enjoyment of the Area by the public at large;
• directing all activities of Authority staff;
• exercising powers under relevant legislation including delegated powers from the Ministerial Council or from the Board; and
• preparing an annual report for the Board and the Ministerial Council.

Staff of the Authority

Staff of the Authority will be employed under Queensland legislation, and will be designated as staff of the Authority, and not staff of any other Government body.

Commonwealth, Queensland or other State public servants may be seconded to the Authority.

Staff employed by the Authority will be selected and appointed in accordance with Queensland Public Sector Management Commission procedures.

The Authority will establish supporting technical and administrative links with the Department administering the Queensland Act and/or other suitable Departments insofar as this is necessary to implement the primary goal.

The Authority will have sufficient staff with appropriate specialist expertise to ensure implementation of Australia’s international obligations under the World Heritage Convention.
Advisory Committees

The Authority will establish a Community Consultative Committee and a Scientific Advisory Committee.

The Authority should ensure advisory Committees are broadly representative of their respective communities and able to channel information and opinion effectively between the community and the Board. In particular, the Authority should ensure that Aboriginal interests are adequately represented on each of its mandatory Committees.

The Authority should, within its human resource and budget constraints, provide adequate resources to its Committees to enable them to function effectively.

The Committees shall report through their chairpersons to the Board of the Authority. Chairpersons of mandatory committees or their delegates shall be invited to attend Board meetings as observers. Chairpersons of other Authority committees shall be invited to attend Board meetings at the discretion of the Board.

Community Consultative Committee

The function of the Community Consultative Committee shall be to advise the Authority on the views of the community on the Authority’s policies and programs in relation to the Wet Tropics Area. In addition, the Community Consultative Committee shall disseminate information provided at Committee meetings on matters concerning—

- the attitudes of the various communities of interest to management objectives, plans, policies and actions undertaken by the Authority;
- provision of essential services to communities within and adjacent to the Area;
- provision for acceptable use of the Area compatible with maintaining World Heritage values and integrity; and
- the relationship of non-government agencies to the Authority.
Members of the Community Consultative Committee will have a duty to seek the views of the communities of interest that they represent on relevant issues. Committee members will be expected to advance the views of the community of interest they represent, to the best of their ability and knowledge, rather than their own personal views.

Committee members and especially the chairperson of the Committee will normally be chosen from among residents of northern Queensland. Where public servants are appointed, they will participate in their private capacity.

Scientific Advisory Committee

The function of the Scientific Advisory Committee shall be to advise the Authority on scientific research that will contribute to the protection and conservation of the Area and scientific developments relevant to the protection or conservation of the Area. In addition, the Scientific Advisory Committee shall provide advice on—

- scientific research and monitoring priorities which will contribute to the protection, conservation, rehabilitation and presentation of the Area;
- new information or developments in science relevant to protection, conservation or presentation of the Area;
- scientific basis of management principles and practices;
- appropriateness of research proposed for approval by the Authority and other relevant agencies in terms of scope, quality and relevance to management of the Area;
- maintenance of World Heritage values and integrity of the Area; and
- impacts of proposed developments on the World Heritage values of the Area.

The Scientific Advisory Committee will have powers to co-opt specialist advice.
Other Committees

The Authority may establish such other committees as it considers appropriate. The Authority may specify the functions of such committees, which may include advising the Authority on the suitability of management plans, or on matters generally relating to the management of the Area (including its management having regard to the Aboriginal tradition of Aboriginal people particularly concerned with land in the Area).

On Ground Management

Day to day land management operations including conservation, protection, rehabilitation and interpretation will be coordinated by the Authority, and generally carried out by land-holders and land managers including relevant Queensland agencies. Government agencies will carry out such management in accordance with plans, programs and policies approved by the Ministerial Council. The Authority will do everything in its power to ensure that non-Government land-holders and managers also manage in accordance with such plans, programs and policies.

Coordination of on-ground management operations of Queensland Government agencies will be undertaken through a principal agencies’ forum. This will comprise senior regional officers from the Queensland Departments of Environment and Heritage, Primary Industries (Forest Service) and Lands, and other Queensland Government agencies at the discretion of the Executive Director of the Authority. This forum will be chaired by the Executive Director.

The Authority will undertake monitoring of the effectiveness of on-ground operations with reference to Ministerial Council policy and the primary management goal of implementing Australia’s international obligations under the World Heritage Convention, and report on these to the Ministerial Council.
Management Plans

The Authority must prepare a management plan for the entire Area (the Wet Tropics Plan) as soon as practicable after the commencement of the Act. The Authority is also empowered to prepare such other management plans as it considers appropriate. A management plan may divide the area in respect of which it is made into management zones.

The Authority must undertake public consultation during the development of management plans and draft plans must be exhibited for public comment. When preparing a draft or final management plan the Authority must consider all submissions properly made to it. The Authority must give a copy of the final plan and a report on all submissions properly made in relation to the plan to the Ministerial Council.

The Queensland Governor in Council may, by regulation, approve a final management plan prepared by the Authority. The approval of the Governor in Council may be made only on the recommendation of the Ministerial Council.

The Authority must review the operation of each management plan not later than seven years after its approval.

The preparation, implementation and review as required of the Wet Tropics Plan and such other plans as it considers necessary will be a high priority for the Authority.

Management plans will take full account of Australia’s international obligations, will be based on a comprehensive data base of management-oriented information, and will incorporate recognised scientific and conservation principles.

Management plans will prevail over Local Government planning schemes to the extent of any inconsistency. A local authority must not issue or give any approval, consent, permit or other authority, in relation to a development on land in the Area, that is inconsistent with a management plan.
Prohibited Acts

A person must not do or attempt to do a prohibited act in relation to land within the Area unless the person is the holder of a licence, permit or other authority—

- issued or given by the Authority under a regulation; or
- issued or given under the Mineral Resources Act 1989 (Queensland); or
- issued or given by the Governor in Council under another Queensland Act; or

Prohibited acts will include—

- in relation to a forestry operation
  (a) destruction of forest products (i.e. a native plant, or part thereof); or
  (b) construction or establishment of a road or vehicular track; or
  (c) carrying out excavation works; or
- destroying a forest product unless exempted under a regulation.

Legislative Arrangements

The management scheme will be based on the Queensland Act and the Commonwealth Act.

This Agreement is scheduled to the Queensland Act and referred to in the Commonwealth Act. To remove any doubt, the Agreement referred to in each of these Acts is the currently most up-to-date version of this Agreement, notwithstanding any reference in either Act specifically to the original Agreement.
Review of Management Arrangements

The Ministerial Council may conduct reviews at three yearly intervals (or such other period as it deems appropriate) of the effectiveness of the management scheme and this Agreement in meeting the primary goal. The Ministerial Council may agree on changes to the scheme or this Agreement to improve their effectiveness.

In conducting any such reviews, the Ministerial Council will have particular regard to—

- progress in the development and implementation of any statutory management plans;
- land tenure issues; and
- other relevant matters drawn to its attention by the Authority and the principal land-holders.

Funding Arrangements

Funding arrangements will continue under an exchange of letters by the State and Commonwealth Environment Ministers until such time that the new Financial Agreement has been signed by those Ministers. Funds will be appropriated to the Authority in accordance with programs and budgets approved by the Ministerial Council.

Schedule 2 World heritage convention

section 4 (definition World Heritage Convention)

Convention for the protection of the world cultural and natural heritage

The General Conference of the United Nations Educational, Scientific and Cultural Organization meeting in Paris from 17 October to 21 November 1972, at its seventeenth session,

Noting that the cultural heritage and the natural heritage are increasingly threatened with destruction not only by the traditional causes of decay, but also by changing social and economic conditions which aggravate the situation with even more formidable phenomena of damage or destruction,

Considering that deterioration or disappearance of any item of the cultural or natural heritage constitutes a harmful impoverishment of the heritage of all the nations of the world,

Considering that protection of this heritage at the national level often remains incomplete because of the scale of the resources which it requires and of the insufficient economic, scientific and technical resources of the country where the property to be protected is situated,

Recalling that the Constitution of the Organization provides that it will maintain, increase and diffuse knowledge, by assuring the conservation and protection of the world's heritage, and recommending to the nations concerned the necessary international conventions,

Considering that the existing international conventions, recommendations and resolutions concerning cultural and natural property demonstrate the importance, for all the peoples of the world, of safeguarding this unique and irreplaceable property, to whatever people it may belong,
Considering that parts of the cultural or natural heritage are of outstanding interest and therefore need to be preserved as part of the world heritage of mankind as a whole,

Considering that, in view of the magnitude and gravity of the new dangers threatening them, it is incumbent on the international community as a whole to participate in the protection of the cultural and natural heritage of outstanding universal value, by the granting of collective assistance which, although not taking the place of action by the State concerned, will serve as an effective complement thereto,

Considering that it is essential for this purpose to adopt new provisions in the form of a convention establishing an effective system of collective protection of the cultural and natural heritage of outstanding universal value, organized on a permanent basis and in accordance with modern scientific methods,

Having decided, at its sixteenth session, that this question should be made the subject of an international convention,

Adopts this sixteenth day of November 1972 this Convention.

I. Definitions of the cultural and the natural heritage

Article 1

For the purposes of this Convention, the following shall be considered as cultural heritage:

monuments: architectural works, works of monumental sculpture and painting, elements or structures of an archaeological nature, inscriptions, cave dwellings and combinations of features, which are of outstanding universal value from the point of view of history, art or science;

groups of buildings: groups of separate or connected buildings which, because of their architecture, their homogeneity or their place in the landscape, are of outstanding universal value from the point of view of history, art or science;
sites: works of man or the combined works of nature and of man, and areas including archaeological sites which are of outstanding universal value from the historical, aesthetic, ethnological or anthropological points of view.

Article 2
For the purposes of this Convention, the following shall be considered as natural heritage;

natural features consisting of physical and biological formations or groups of such formations, which are of outstanding universal value from the aesthetic or scientific point of view;

geological and physiographical formations and precisely delineated areas which constitute the habitat of threatened species of animals and plants of outstanding universal value from the point of view of science or conservation;

natural sites or precisely delineated natural areas of outstanding universal value from the point of view of science, conservation or natural beauty.

Article 3
It is for each State Party to this Convention to identify and delineate the different properties situated on its territory mentioned in Articles 1 and 2 above.

II. National protection and international protection of the cultural and natural heritage

Article 4
Each State Party to this Convention recognizes that the duty of ensuring the identification, protection, conservation, presentation and transmission to future generations of the cultural and natural heritage referred to in Articles 1 and 2 and
situated on its territory, belongs primarily to that State. It will do all it can to this end, to the utmost of its own resources and, where appropriate, with any international assistance and co-operation, in particular, financial, artistic, scientific and technical, which it may be able to obtain.

Article 5

To ensure that effective and active measures are taken for the protection, conservation and presentation of the cultural and natural heritage situated on its territory, each State Party to this Convention shall endeavour, in so far as possible, and as appropriate for each country:

(a) to adopt a general policy which aims to give the cultural and natural heritage a function in the life of the community and to integrate the protection of that heritage into comprehensive planning programs;

(b) to set up within its territories, where such services do not exist, one or more services for the protection, conservation and presentation of the cultural and natural heritage with an appropriate staff and possessing the means to discharge their functions;

(c) to develop scientific and technical studies and research and to work out such operating methods as will make the State capable of counteracting the dangers that threaten its cultural or natural heritage;

(d) to take the appropriate legal, scientific, technical, administrative and financial measures necessary for the identification, protection, conservation, presentation and rehabilitation of this heritage; and

(e) to foster the establishment or development of national or regional centres for training in the protection, conservation and presentation of the cultural and natural heritage and to encourage scientific research in this field.
Article 6

1 Whilst fully respecting the sovereignty of the States on whose territory the cultural and natural heritage mentioned in Articles 1 and 2 is situated, and without prejudice to property rights provided by national legislation, the States Parties to this Convention recognize that such heritage constitutes a world heritage for whose protection it is the duty of the international community as a whole to co-operate.

2 The States Parties undertake, in accordance with the provisions of this Convention, to give their help in the identification, protection, conservation and preservation of the cultural and natural heritage referred to in paragraphs 2 and 4 of Article 11 if the States on whose territory it is situated so request.

3 Each State Party to this Convention undertakes not to take any deliberate measures which might damage directly or indirectly the cultural and natural heritage referred to in Articles 1 and 2 situated on the territory of other States Parties to this Convention.

Article 7

For the purpose of this Convention, international protection of the world cultural and natural heritage shall be understood to mean the establishment of a system of international co-operation and assistance designed to support States Parties to the Convention in their efforts to conserve and identify that heritage.

III. Intergovernmental committee for the protection of the world cultural and natural heritage

Article 8

1 An Intergovernmental Committee for the Protection of the Cultural and Natural Heritage of Outstanding Universal
Value, called the World Heritage Committee, is hereby established within the United Nations Educational, Scientific and Cultural Organization. It shall be composed of 15 States Parties to the Convention, elected by States Parties to the Convention meeting in general assembly during the ordinary session of the General Conference of the United Nations Educational, Scientific and Cultural Organisation. The number of States members of the Committee shall be increased to 21 as from the date of the ordinary session of the General Conference following the entry into force of this convention for at least 40 States.

2 Election of members of the Committee shall ensure an equitable representation of the different regions and cultures of the world.

3 A representative of the International Centre for the Study of the Preservation and Restoration of cultural Property (Rome Centre), a representative of the International Council of Monuments and Sites (ICOMOS) and a representative of the International Union for Conservation of Nature and Natural Resources (IUCN), to whom may be added, at the request of States Parties to the Convention meeting in general assembly during the ordinary sessions of the General Conference of the United Nations Educational, Scientific and Cultural Organization, representatives of other intergovernmental or non-governmental organizations, with similar objectives, may amend the meetings of the Committee in an advisory capacity.

Article 9

1 The term of office of States members of the World Heritage Committee shall extend from the end of the ordinary session of the General Conference during which they are elected until the end of its third subsequent ordinary session.

2 The term of office of one-third of the members designated at the time of the first election shall, however, cease at the end of the first ordinary session of the General Conference following that at which they were elected; and the term of office of a further third of the members designated at the same time shall cease at the end of the second ordinary session of the General
Conference following that at which they were elected. The names of these members shall be chosen by lot by the President of the General Conference of the United Nations Educational, Scientific and Cultural Organization after the first election.

3 States members of the Committee shall choose as their representatives persons qualified in the field of the cultural or natural heritage.

Article 10
1 The World Heritage Committee shall adopt its Rules of Procedure.

2 The Committee may at any time invite public or private organisations or individuals to participate in its meetings for consultation on particular problems.

3 The Committee may create such consultative bodies as it deems necessary for the performance of its functions.

Article 11
1 Every State Party to this Convention shall, in so far as possible, submit to the World Heritage Committee an inventory of property forming part of the cultural and natural heritage, situated in its territory and suitable for inclusion in the list provided for in paragraph 2 of this Article. This inventory, which shall not be considered exhaustive, shall include documentation about the location of the property in question and its significance.

2 On the basis of the inventories submitted by States in accordance with paragraph 1, the Committee shall establish, keep up to date and publish, under the title of World Heritage List, a list of properties forming part of the cultural heritage and natural heritage, as defined in Articles 1 and 2 of this Convention, which it considers as having outstanding universal value in terms of such criteria as it shall have established. An updated list shall be distributed at least every two years.
3 The inclusion of a property in the World Heritage List requires the consent of the State concerned. The inclusion of a property situated in a territory, sovereignty or jurisdiction over which is claimed by more than one State shall in no way prejudice the rights of the parties to the dispute.

4 The Committee shall establish, keep up to date and publish, whenever circumstances shall so require, under the title of *List of World Heritage in Danger*, a list of the property appearing in the World Heritage list for the conservation of which major operations are necessary and for which assistance has been requested under this Convention. This list shall contain an estimate of the cost of such operations. The list may include only such property forming part of the cultural and natural heritage as is threatened by serious and specific dangers, such as the threat of disappearance caused by accelerated deterioration, large-scale public or private projects or rapid urban or tourist development projects; destruction caused by changes in the use or ownership of the land; major alterations due to unknown causes; abandonment for any reason whatsoever; the outbreak or the threat of an armed conflict; calamities and cataclysms; serious fires, earthquakes, landslides; volcanic eruptions; changes in water level, floods, and tidal waves. The Committee may at any time, in case of urgent need, make a new entry in the List of World Heritage in Danger and publicize such entry immediately.

5 The Committee shall define the criteria on the basis of which a property belonging to the cultural or natural heritage may be included in either of the lists mentioned in paragraphs 2 and 4 of this article.

6 Before refusing a request for inclusion in one of the two lists mentioned in paragraphs 2 and 4 of this article, the Committee shall consult the State Party in whose territory the cultural or natural property in question is situated.

7 The Committee shall, with the agreement of the States concerned, co-ordinate and encourage the studies and research needed for the drawing up of the lists referred to in paragraphs 2 and 4 of this article.
Article 12
The fact that a property belonging to the cultural or natural heritage has not been included in either of the two lists mentioned in paragraphs 2 and 4 of Article 11 shall in no way be construed to mean that it does not have an outstanding universal value for purposes other than those resulting from inclusion in these lists.

Article 13
1 The World Heritage Committee shall receive and study requests for international assistance formulated by States Parties to this Convention with respect to property forming part of the cultural or natural heritage, situated in their territories, and included or potentially suitable for inclusion in the lists referred to in paragraphs 2 and 4 of Article 11. The purpose of such requests may be to secure the protection, conservation, presentation or rehabilitation of such property.

2 Requests for international assistance under paragraph 1 of this article may also be concerned with identification of cultural or natural property defined in Articles 1 and 2, when preliminary investigations have shown that further inquiries would be justified.

3 The Committee shall decide on the action to be taken with regard to these requests, determine where appropriate, the nature and extent of its assistance, and authorize the conclusion, on its behalf, of the necessary arrangements with the government concerned.

4 The Committee shall determine an order of priorities for its operations. It shall in so doing bear in mind the respective importance for the world cultural and natural heritage of the property requiring protection, the need to give international assistance to the property most representative of a natural environment or of the genius and the history of the peoples of the world, the urgency of the work to be done, the resources available to the States on whose territory the threatened property is situated and in particular the extent to which they are able to safeguard such property by their own means.
5 The Committee shall draw up, keep up to date and publicize a list of property for which international assistance has been granted.

6 The Committee shall decide on the use of the resources of the Fund established under Article 15 of this Convention. It shall seek ways of increasing these resources and shall take all useful steps to this end.

7 The Committee shall co-operate with international and national governmental and nongovernmental organizations having objectives similar to those of this Convention. For the implementation of its programs and projects, the Committee may call on such organizations, particularly the International Centre for the Study of the Preservation and Restoration of Cultural Property (the Rome Centre), the International Council of Monuments and Sites (ICOMOS) and the International Union for Conservation of Nature and Natural Resources (IUCN), as well as on public and private bodies and individuals.

8 Decisions of the Committee shall be taken by a majority of two-thirds of its members present and voting. A majority of the members of the Committee shall constitute a quorum.

Article 14

1 The World Heritage Committee shall be assisted by a Secretariat appointed by the Director-General of the United Nations Educational, Scientific and Cultural Organization.

2 The Director-General of the United Nations Educational, Scientific and Cultural Organization, utilizing to the fullest extent possible the services of the International Centre for the Study of the Preservation and the Restoration of Cultural Property (the Rome Centre), the International Council of Monuments and Sites (ICOMOS) and the International Union for Conservation of Nature and Natural Resources (IUCN) in their respective areas of competence and capability, shall prepare the Committee’s documentation and the agenda of its meetings and shall have the responsibility for the implementation of its decisions.
IV. Fund for the protection of the world cultural and natural heritage

Article 15

1 A Fund for the Protection of the World Cultural and Natural Heritage of Outstanding Universal Value, called the World Heritage Fund, is hereby established.

2 The Fund shall constitute a trust fund, in conformity with the provisions of the Financial Regulations of the United Nations Educational, Scientific and Cultural Organization.

3 The resources of the Fund shall consist of:

   (a) compulsory and voluntary contributions made by the States Parties to this Convention,

   (b) contributions, gifts or bequests which may be made by:

      (i) other States;

      (ii) the United Nations Educational, Scientific and Cultural Organization, other organizations of the United Nations system, particularly the United Nations Development Program or other intergovernmental organizations;

      (iii) public or private bodies or individuals;

   (c) any interest due on the resources of the Fund;

   (d) funds raised by collections and receipts from events organized for the benefit of the Fund; and

   (e) all other resources authorized by the Fund’s regulations, as drawn up by the World Heritage Committee.

4 Contributions to the Fund and other forms of assistance made available to the Committee may be used only for such purposes as the Committee shall define. The Committee may accept contributions to be used only for a certain programme or project, provided that the Committee shall have decided on the implementation of such programme or project. No
political conditions may be attached to contributions made to the Fund.

Article 16

1 Without prejudice to any supplementary voluntary contribution, the States Parties to this Convention undertake to pay regularly, every two years, to the World Heritage Fund, contributions, the amount of which, in the form of a uniform percentage applicable to all States, shall be determined by the General Assembly of States Parties to the Convention, meeting during the sessions of the General Conference of the United Nations Educational, Scientific and Cultural Organization. This decision of the General Assembly requires the majority of the States Parties present and voting, which have not made the declaration referred to in paragraph 2 of this Article. In no case shall the compulsory contribution of States Parties to the Convention exceed 1% of the contribution to the Regular Budget of the United Nations Educational, Scientific and Cultural Organization.

2 However, each State referred to in Article 31 or in Article 32 of this Convention may declare, at the time of the deposit of its instruments of ratification, acceptance or accession, that it shall not be bound by the provisions of paragraph 1 of this Article.

3 A State Party to the Convention which has made the declaration referred to in paragraph 2 of this Article may at any time withdraw the said declaration by notifying the Director-General of the United Nations Educational, Scientific and Cultural Organization. However, the withdrawal of the declaration shall not take effect in regard to the compulsory contribution due by the State until the date of the subsequent General Assembly of States Parties to the Convention.

4 In order that the Committee may be able to plan its operations effectively, the contributions of States Parties to this Convention which have made the declaration referred to in paragraph 2 of this Article, shall be paid on a regular basis, at least every two years, and should not be less than the
contributions which they should have paid if they had been bound by the provisions of paragraph 1 of this Article.

5 Any State Party to the Convention which is in arrears with the payment of its compulsory or voluntary contribution for the current year and the calendar year immediately preceding it shall not be eligible as a Member of the World Heritage Committee, although this provision shall not apply to the first election. The terms of office of any such State which is already a member of the Committee shall terminate at the time of the elections provided for in Article 8, paragraph 1 of this Convention.

Article 17

The States Parties to this Convention shall consider or encourage the establishment of national, public and private foundations or associations whose purpose is to invite donations for the protection of the cultural and natural heritage as defined in Articles 1 and 2 of this Convention.

Article 18

They shall facilitate collections made by the bodies mentioned in paragraph 3 of Article 15 for this purpose.

V. Conditions and arrangements for international assistance

Article 19

Any State Party to this Convention may request international assistance for property forming part of the cultural or natural heritage of outstanding universal value situated within its territory. It shall submit with its request such information and
Article 20

Subject to the provisions of paragraph 2 of Article 13, sub-paragraph (c) of Article 22 and Article 23, international assistance provided for by this Convention may be granted only to property forming part of the cultural and natural heritage which the World Heritage Committee has decided, or may decide, to enter in one of the lists mentioned in paragraphs 2 and 4 of Article 11.

Article 21

1 The World Heritage Committee shall define the procedure by which requests to it for international assistance shall be considered and shall specify the content of the request, which should define the operation contemplated, the work that is necessary, the expected cost thereof, the degree of urgency and the reasons why the resources of the State requesting assistance do not allow it to meet all the expenses. Such requests must be supported by experts' reports whenever possible.

2 Requests based upon disasters or natural calamities should, by reasons of the urgent work which they may involve, be given immediate, priority consideration by the Committee, which should have a reserve fund at its disposal against such contingencies.

3 Before coming to a decision, the Committee shall carry out such studies and consultations as it deems necessary.

Article 22

Assistance granted by the World Heritage Committee may take the following forms:

(a) studies concerning the artistic, scientific and technical problems raised by the protection, conservation,
presentation and rehabilitation of the cultural and natural heritage, as defined in paragraphs 2 and 4 of Article 11 of this Convention;

(b) provision of experts, technicians and skilled labour to ensure that the approved work is correctly carried out;

(c) training of staff and specialists at all levels in the field of identification, protection, conservation, presentation and rehabilitation of the cultural and natural heritage;

(f) the granting, in exceptional cases and for special reasons, of non-repayable subsidies.

Article 23

The World Heritage Committee may also provide international assistance to national or regional centres for the training of staff and specialists at all levels in the field of identification, protection, conservation, presentation and rehabilitation of the cultural and natural heritage.

Article 24

International assistance on a large scale shall be preceded by detailed scientific, economic and technical studies. These studies shall draw upon the most advanced techniques for the protection, conservation, presentation and rehabilitation of the natural and cultural heritage and shall be consistent with the objectives of this Convention. The studies shall also seek means of making rational use of the resources available in the State concerned.

Article 25

As a general rule, only part of the cost of work necessary shall be borne by the international community. The contribution of
the State benefiting from international assistance shall constitute a substantial share of the resources devoted to each program or project, unless its resources do not permit this.

**Article 26**

The World Heritage Committee and the recipient State shall define in the agreement they conclude the conditions in which a programme or project for which international assistance under the terms of this Convention is provided, shall be carried out. It shall be the responsibility of the State receiving such international assistance to continue to protect, conserve and present the property so safeguarded, in observance of the conditions laid down by the agreement.

**VI. Educational programs**

**Article 27**

1. The States Parties to this Convention shall endeavour by all appropriate means, and in particular by educational and information programmes, to strengthen appreciation and respect by their peoples of the cultural and natural heritage defined in Articles 1 and 2 of the Convention.

2. They shall undertake to keep the public broadly informed of the dangers threatening this heritage and of activities carried on in pursuance of this Convention.

**Article 28**

States Parties to this Convention which receive international assistance under the Convention shall take appropriate measures to make known the importance of the property for which assistance has been received and the role played by such assistance.
