Health and Hospitals Network Act 2011

Act No. 32 of 2011

An Act to provide for the delivery of public sector health services and other health services in Queensland and to make amendments to the Tobacco and Other Smoking Products Act 1998 for particular purposes and consequential amendments of the Acts mentioned in part 15 and schedule 1

[Assented to 28 October 2011]

The Parliament of Queensland enacts—

Part 1 Preliminary

Division 1 Introduction

1 Short title

This Act may be cited as the *Health and Hospitals Network Act 2011*.

2 Commencement

This Act commences on a day to be fixed by proclamation.

3 Act binds all persons

This Act binds all persons, including the State and, so far as the legislative power of the Parliament permits, the Commonwealth and all the other States.

4 Principles and objectives of national health system

This Act recognises and gives effect to the principles and objectives of the national health system agreed by Commonwealth, State and Territory governments, namely—

(a) the following Medicare principles—

- (i) eligible persons are to be given the choice to receive, free of charge as public patients, health and emergency services of a kind or kinds that are currently, or were historically, provided by hospitals;

- (ii) access to these services by public patients free of charge is to be on the basis of clinical need and within a clinically appropriate period;
 - (iii) arrangements are to be in place to ensure equitable access to the services for all eligible persons, regardless of their geographic location; and
- (b) the health system principles—Australia’s health system should—
 - (i) be shaped around the health needs of individual patients, their families and communities; and
 - (ii) focus on the prevention of disease and injury and the maintenance of health and not simply on the treatment of illness; and
 - (iii) support an integrated approach to the promotion of healthy lifestyles, prevention of illness and injury, and diagnosis and treatment of illness across the continuum of care; and
 - (iv) provide all Australians with timely access to quality health services based on their needs, not ability to pay, regardless of where they live in the country; and
- (c) the following long-term objectives for Australia’s health system—
 - (i) prevention—Australians are born and remain healthy;
 - (ii) primary and community health—Australians receive appropriate high quality and affordable primary and community health services;
 - (iii) hospital and related care—Australians receive appropriate high quality and affordable hospital and hospital-related care;
 - (iv) aged care—older Australians receive appropriate high quality and affordable health and aged care services;

[s 5]

- (v) patient experience—Australians have positive health and aged care experiences which take account of individual circumstances and care needs;
- (vi) social inclusion and Indigenous health—Australia’s health system promotes social inclusion and reduces disadvantage, especially for Indigenous Australians;
- (vii) sustainability—Australians have a sustainable health system.

- (1) To enable a thing to be seized, an inspector may require the person in control of it—

- (a) the inspector reasonably believes there is no-one apparently in possession of the thing or it has been abandoned; or
- (b) because of the condition, nature and value of the thing it would be unreasonable to require the inspector to comply with this section.

(2) The inspector must, as soon as practicable after seizing the thing, give an owner or person in control of the thing before it was seized—

- (a) a receipt for the thing that generally describes the thing and its condition; and
- (b) an information notice about the decision to seize it.

- (3) However, if an owner or person from whom the thing is seized is not present when it is seized, the receipt and information notice may be given by leaving them in a conspicuous position and in a reasonably secure way at the place at which the thing is seized.
- (4) The receipt and information notice may—
 - (a) be given in the same document; and
 - (b) relate to more than 1 seized thing.
- (5) The inspector may delay giving the receipt and information notice if the inspector reasonably suspects giving them may frustrate or otherwise hinder an investigation by the inspector under this Act.
- (6) However, the delay may be only for so long as the inspector continues to have the reasonable suspicion and remains in the vicinity of the place at which the thing was seized to keep it under observation.

236 Access to seized thing

- (1) Until a seized thing is forfeited or returned, the inspector who seized the thing must allow an owner of the thing—

 - (b) if a proceeding for an offence involving the thing is started within the 6 months—at the end of the proceeding and any appeal from the proceeding.
- (3) Despite subsection (2), if the thing was seized as evidence, the inspector must return the thing seized to an owner as soon as practicable after the inspector is satisfied—
 - (a) its continued retention as evidence is no longer necessary; and
 - (b) its continued retention is not necessary to prevent it being used to continue, or repeat, an offence against this Act; and
 - (c) it is lawful for the owner to possess it.
- (4) Nothing in this section affects a lien or other security over the seized thing.

Subdivision 4 Forfeiture

6 Conduct of meetings

- (1) A question at a meeting of the governing council is decided by a majority of the votes of the members present.
- (2) Each member present at the meeting has a vote on each question to be decided and, if the votes are equal, the member presiding also has a casting vote.
- (3) A member present at the meeting who abstains from voting is taken to have voted for the negative.
