200 References to particular protected areas

From the commencement, in an Act or document—

 - (i) a national park; or

- (2) A person who was, immediately before the commencement, a trustee of the area under this Act, continues to be a trustee of the area as a regional park under this Act.

- (3) The trust over the area continues as a trust under this Act over the area as a regional park.

202 Change in class does not affect instruments applying to an area

- (1) This section applies if, under this subdivision, an area is changed from an old class of protected area to another class of protected area (the *new class*).
- (2) Any of the following (each a *relevant instrument*) in force for the area immediately before the commencement continues to apply to the area as a protected area of the new class—
 - (a) a lease, agreement, licence, permit or other authority;
 - (b) a management statement;
 - (c) a management plan;
 - (d) a direction, requirement, notice or decision given or made, in writing, under this Act.
- (3) The relevant instrument continues in force for the area until it expires, is terminated or repealed or otherwise ends under its terms or this Act.

203 Particular previous use authorities continue

- (1) This section applies to a previous use authority taken to have been granted by the chief executive under section 173R(2) as in force before the commencement if the authority is still in force immediately before the commencement.

- (2) Section 173R(3) and (4) of the unamended Act continue to apply to the previous use authority as if the amendment Act had not been enacted.

204 Deciding application for lease etc. for a protected area of an old class

- (1) This section applies to an application for a lease, agreement, licence, permit or other authority (the *relevant authority*) that—
 - (a) was made, but not decided, under this Act before the commencement; and
 - (b) is for a protected area of an old class that, under this subdivision, is changed to a protected area of another class (the *new class*).
- (2) The application is to be decided, as an application for the relevant authority for a protected area of the old class, under the unamended Act, as if the amendment Act had not been enacted.
- (3) If the application is granted, the chief executive must give or grant to the applicant the relevant authority for the area as a protected area of the new class.
- (4) To remove any doubt, it is declared that subsection (3) applies even if the carrying out of the activities under the relevant authority is not consistent with the management principles for protected areas of the new class.
- (5) However, the grounds on which the chief executive may refuse an application to renew the relevant authority include the ground that the carrying out of the activities under the authority is not consistent with the management principles for protected areas of the new class.
