section 3

Part 1 Preliminary

1 Definition for schedule

In this schedule—

dispensary means an area dedicated to storing and dispensing medicines.

Part 2 Standards

- 1 The premises must be a building or other structure, or a part of a building or other structure, and must not, for example, be a caravan or vehicle.
- 2 The premises must be appropriately lit, temperature-controlled and ventilated to ensure the following are not compromised—
 - (a) the integrity of medicines kept at the premises;
 - (b) the standard of pharmacy services provided at the premises;
 - (c) the safety and comfort of persons at the premises.
- 3 The premises must be kept appropriately organised and uncluttered to ensure the following are not compromised—
 - (a) the standard of pharmacy services provided at the premises;
 - (b) the safety and comfort of persons at the premises.
- 4 The premises must—
 - (a) be clean and hygienic; and

- (b) have appropriate measures in place to ensure—
 - (i) the premises are kept clean and hygienic; and
 - (ii) the risk of contamination of medicines at the premises is minimised; and
 - (iii) the risk of infection at the premises is minimised.

Examples of measures for paragraph (b)—

hand washing facilities, sharps disposal, clinical waste disposal, cleaning arrangements

- 5 The premises must have a sink that—
 - (a) is supplied with hot and cold running water; and
 - (b) has an integrated drainer.
- 6 The premises must have a dispensary that—
 - (a) is of an appropriate size and design to ensure the standard of dispensing medicines and tasks associated with dispensing medicines are not compromised; and
 - (b) has a refrigerator dedicated to storing medicines with an internal temperature capable of being monitored and controlled at all times; and
 - (c) has all other equipment necessary for dispensing medicines or performing tasks associated with dispensing medicines, including, for example, a barcode scanner; and
 - (d) is constructed in a way that minimises the risk of unauthorised access to the dispensary.
- 7 The premises must have an area, for conducting private consultations with customers of the pharmacy business carried on at the premises, that—
 - (a) is separate from the dispensary at the premises; and
 - (b) is of an appropriate size and design to ensure—
 - (i) the comfort of persons involved in the consultation, including, for example, by including appropriate seating; and

- (ii) the risk of the consultation being seen or heard by someone who is not involved in the consultation is minimised; and
- (iii) the area contains all equipment necessary for conducting the consultation; and
- (iv) the standard of the consultation is not compromised.

- 8 The premises must be constructed in a way that minimises the risk of unauthorised access to the premises.
- 9 Each means of access to the premises must be able to be secured in a way that minimises the risk of unauthorised access to the premises.

Examples of a means of access—

door, window, skylight

- 10 The premises must have equipment that detects unauthorised access to the premises at all times an authorised pharmacist for the pharmacy business carried on at the premises, or a person under the direction or control of the authorised pharmacist, is not at the premises.

Examples—

alarm system, security cameras

- 11 If the premises are licensed premises, the premises must have the following information on display to customers of the pharmacy business carried on at the premises—
- (a) the name of each holder of the pharmacy business licence for the business;
 - (b) if the authorised pharmacist for the business is not a person mentioned in paragraph (a)—the name of the authorised pharmacist.
