'In this division—

appropriate register means the appropriate register under the *Land Act 1994* or the *Land Title Act 1994*.

critical infrastructure easement means an easement registered under section 153B.

easement holder, in relation to a critical infrastructure easement, means—

- (a) the Coordinator-General; or
- (b) if the easement is transferred to another entity—the entity to which it is transferred.

registrar means the registrar of titles or another person responsible for keeping a register for dealings in land.

relevant public utility easement means an easement registered as a public utility easement under the *Land Act 1994*, chapter 6, part 4, division 8, or the *Land Title Act 1994*, part 6, division 4, or that would have been registered as a public utility easement under those provisions if it had been registered after the provisions commenced.

'153B Registration of critical infrastructure easement

- (1) This section applies to land that—
 - (a) is the subject of a critical infrastructure project; and
 - (b) is burdened by a relevant public utility easement.
- (2) On receiving an instrument of easement for the land, the registrar must record the particulars of the easement in the appropriate register if—
 - (a) the instrument—
 - (i) relates only to the land affected by the relevant public utility easement; and

- (ii) is signed by the Minister; and
 - (b) the easement is in favour of the Coordinator-General.
- ‘(3) Despite the *Land Act 1994*, section 363 or the *Land Title Act 1994*, section 83, the easement may be registered under the Acts—
- (a) without the instrument being signed by a person other than the Minister; and
 - (b) for an easement under the *Land Act 1994*—without the approval of the Minister under that Act.
- ‘(4) The easement is taken to be a public utility easement under the *Land Act 1994*, chapter 6, part 4, division 8, or the *Land Title Act 1994*, part 6, division 4.

‘153C Terms of easement

‘A critical infrastructure easement may include the following terms—

- (a) the easement holder, or a person employed, engaged or authorised in writing by the holder, may construct, maintain, repair, renew, replace or operate infrastructure in or on land burdened by the easement;
- (b) the easement holder is the owner of the infrastructure mentioned in paragraph (a);
- (c) other terms the Minister considers necessary to facilitate the construction, maintenance, repair, renewal, replacement or operation of the infrastructure.

‘153D Effect of registration of easement

- ‘(1) The registration of a critical infrastructure easement over land under section 153B does not extinguish a relevant public utility easement.
- ‘(2) However, the grantee of the relevant public utility easement can not, without the consent of the easement holder for the critical infrastructure easement, exercise any rights in relation to the relevant public utility easement to the extent the

exercise of the rights would interfere with the exercise of rights under the critical infrastructure easement.

'153E Transfer of easement

- ‘(1) With the Minister’s written approval, a critical infrastructure easement may be transferred to—
 - (a) another public utility provider; or
 - (b) a person approved by the Minister as suitable to provide a public utility service in relation to the critical infrastructure easement.
- ‘(2) On receiving an instrument evidencing the transfer, the registrar must record the transfer in the appropriate register.
- ‘(3) The transfer may be recorded in the appropriate register—
 - (a) without the approval of a person other than the Minister; and
 - (b) if the appropriate register is a register under the *Land Act 1994*—without the approval of the Minister under that Act.
- ‘(4) A person approved by the Minister under subsection (1)(b) is taken to be a public utility provider for the purposes of the critical infrastructure easement.
- ‘(5) In this section—
public utility provider means a public utility provider under—
 - (a) the *Land Act 1994*, chapter 6, part 4, division 8; or
 - (b) the *Land Title Act 1994*, part 6, division 4.

'153F Amendment of easement

- ‘(1) A critical infrastructure easement may, with the Minister’s written approval, be amended under, as appropriate—
 - (a) the *Land Act*, section 370; or
 - (b) the *Land Title Act*, section 91.
- ‘(2) However, the amendment may be registered—

- (a) without the instrument of amendment being signed by a person other than the easement holder; and
- (b) for an amendment under the *Land Act 1994*—without the approval of the Minister under that Act.

'153G Minister to give notice of registration or amendment

- ‘(1) The Minister must, as soon as practicable after a critical infrastructure easement is registered or amended under this division, give written notice of the registration or amendment to each person who has an interest in land the subject of the easement.
- ‘(2) The notice must include all of the following—
 - (a) for registration of an easement—particulars of the easement;
 - (b) for amendment of an easement—particulars of the amendment;
 - (c) information about the person’s right to claim compensation under section 153I, and the process for claiming the compensation.

'153H Application of particular provisions

‘To remove any doubt, it is declared that sections 153C to 153G continue to apply to a critical infrastructure easement even if the land the subject of the easement is no longer the subject of a critical infrastructure project.

'153I Compensation

- ‘(1) Subsection (2) applies to a person who has an interest in land burdened by a critical infrastructure easement—
 - (a) when it is registered under section 153B; or
 - (b) when its terms are amended under section 153F.
- ‘(2) The person has a right to claim compensation under the *Acquisition of Land Act 1967* in relation to the extent to which

the person's interest is affected by the registration or amendment.

- ‘(3) For claiming the compensation, the process stated in the *Acquisition of Land Act 1967* for the payment of compensation for land taken under that Act applies with any necessary changes as if the registration or amendment were a taking of land under that Act by the State.
- ‘(4) Other than as stated in this section, a person has no right to compensation for the registration or amendment of a critical infrastructure easement under this division.’’.
