FISHERIES REGULATION 1995

[as amended by all amendments that commenced on or before 19 January 2001]

PART 1—PRELIMINARY

Short title

1. This regulation may be cited as the *Fisheries Regulation 1995*.

PART 2—INTERPRETATION

Division 1—Words and phrases

Definitions

2. Schedule 17 defines particular words used in this regulation.

Division 2—Working out boundaries

References to latitudes and longitudes

2A.(1) Latitudes and longitudes mentioned in this regulation or a management plan are worked out using the ‘Australian Geodetic Datum 1966’, commonly called ‘AGD66’, notified in the Commonwealth Government Gazette No. 84 on 6 October 1966, at page 4984.

(2) However, subsection (1) does not apply for a management plan if it provides for another system for working out latitudes and longitudes.

References to boundaries, lines, shores and other points

3.(1) Unless otherwise stated in this regulation—

- (a) a boundary or line along a shore follows high water mark; and
- (b) a boundary or line along a shore intersected by a waterway crosses the waterway by the shortest line between its banks; and
- (c) other boundaries and lines run from point to point in a straight line.

(2) Unless otherwise stated in this regulation—

- (a) a reference to a shore is a reference to the shore at high water mark; and
- (b) a reference to the tip of a cape, island or another geographical feature, or a point on the tip, is a reference to the tip or point on the shore at high water mark.

Example of subsection (2)(b)—

If a boundary point is described as the southern tip of an island, the point is at the island's southernmost tip at high water mark.

References to waterways

4. Unless otherwise stated in this regulation, a reference to a waterway is a reference to the waterway upstream of the shortest line between its banks at their junction, at low water, with the body of water into which the waterway finally flows.

References to banks of waterways

5. Unless otherwise stated in this regulation, a reference to a bank of a waterway is a reference to the bank at its junction, at high water, with the body of water into which it finally flows.

Division 3—Other provisions aiding interpretation**References to aids to navigation**

6. A reference in this regulation to a beacon, buoy, lead, light or mark is a reference to an aid to navigation.

References to certain commercial fishing boats

7. A reference in this regulation to—

- (a) a primary commercial fishing boat's tender commercial fishing boat is a reference to a tender commercial fishing boat with a derivative of the primary commercial fishing boat's marking on it; and
- (b) a tender commercial fishing boat's primary commercial fishing boat is a reference to a primary commercial fishing boat with the tender commercial fishing boat's alphabetical marking on it.

Example—

If the primary commercial fishing boat has the marking ABC on it, its tender commercial fishing boats have the marking ABC-1, ABC-2 etc.

References to distances between nets

8. A reference in this regulation to a distance between nets is a reference to—

- (a) for nets set in a waterway—the distance between the nets measured along the centre line of the waterway; and
- (b) for nets set on a foreshore—the distance between the nets measured along the shore.

References to drops and number of meshes

9. A reference in this regulation to—

- (a) a net's drop is a reference to the distance between the top and the bottom of the net when its meshes are taut; and

- (b) a number of meshes in a net's drop is a reference to the number of rows of mesh between the top and bottom of the net.

Scientific names of fish

10.(1) The scientific names of fish mentioned in this regulation are in schedule 16.

(2) The scientific names follow—

- (a) for nonindigenous fish—Axelrod H R, Burgess W E, Pronek N and Walls J G (1989), 'Dr Axelrod's Atlas of Freshwater Aquarium Fishes', (3rd edition), T.F.H. (Australia) Pty Ltd, Box 149, Brookvale, New South Wales; and
- (b) for regulated fish (other than great white shark, grey nurse shark, small spotted grunter bream or spotted grunter bream (grunter))—
- (i) Grant E M (1982), 'Guide to Fishes', (5th edition), E M Grant Pty Limited, 19 Australia Court, Scarborough, Queensland; and

Barramundi closed season exemption for recreational fishers

15. The closed season for barramundi does not apply to a recreational fisher who possesses barramundi outside the Lake Awoonga area or the Lake Tinaroo area if the barramundi—

- (a) was taken in either area; and
- (b) is tagged in the required way.

Division 2—Closed waters**Closed waters**

16.(1) The waters described in schedules 2 and 3 are closed waters.¹

(2) Unless otherwise stated in the schedules, the waters are closed every year all year.

(3) Each schedule states the activities that are prohibited in the waters described in it.

(4) It is not unlawful for a person in closed waters—

17.(1) Schedule 2 applies only to persons taking fish for trade or commerce.

(2) Schedule 3 applies only to recreational fishers.

PART 5—REGULATED FISH

Division 1—Regulated fish, other than prawns

Subdivision 1—Regulated fish declarations

Regulated fish

18.(1) Fish in schedule 4 are regulated fish.

(2) However, if fish are regulated by number, only fish taken in excess of the number are regulated fish.

(3) If a regulated fish declaration under this regulation and a management plan or a regulated fish declaration under 1 or more management plans prohibits the taking or possession of a fish in excess of the same number, the total number of fish that may be taken or possessed is that number.

Example—

Under each of the following the number of barramundi that may be taken or possessed by a recreational fisher is 5—

- (a) schedule 4, part 2, division 1 of this regulation;
- (b) the *Fisheries (Freshwater) Management Plan 1999*, section 19(1) and schedule 4, section 1;
- (c) the *Fisheries (Gulf of Carpentaria Inshore Fin Fish) Management Plan 1999*, section 17.

The effect of subsection (3) is that the total number of barramundi that may be taken or possessed in the State by a recreational fisher is 5.

Application of sch 4 (Regulated fish)

19. Schedule 4 applies to the following persons—

- (a) for part 1—persons taking fish for trade or commerce;

21.(1) The size of a mud or blue swimmer crab is decided by measuring—

- (a) the widest part of its carapace; or
- (b) if its carapace is damaged or missing—the underside of its body on 1 side, from the notch at the junction of the claw with the body to the notch at the junction of the last leg with the body.

(2) The size of a trochus is decided by measuring the widest part of the base of its shell.

(3) The size of a pearl oyster is decided by measuring from the edge of its butt or hinge to the opposite edge of its shell, whether or not the shell is broken or chipped.

(4) The size of other fish is decided by measuring the distance between the front and end tips of the fish.

Measurement of weight of green snails

22. The weight of a green snail is its empty shell weight.

Subdivision 3—Exemptions**Exemption for recreational fishers about barramundi size limit**

23. The maximum size limit for barramundi stated in schedule 4 does not apply to a recreational fisher who possesses barramundi outside the Lake Awoonga area or the Lake Tinaroo area if the barramundi—

- (a) was taken in either area; and
- (b) is tagged in the required way.

Exemption for recreational fishers about certain regulated reef fish

24.(1) This section does not apply to maori wrasse, potato cod or Queensland groper.

(2) Despite section 18(2), if reef fish are regulated by number, a recreational fisher may—

- (a) take not more than twice the number of the reef fish during an extended commercial fishing tour; or
- (b) possess not more than twice the number of the reef fish if they were taken during an extended commercial fishing tour.

(3) However, subsection (1) applies only if the recreational fisher ensures a square area (each side of which is at least 3 cm) of the skin of each reef fish is kept on it.

Other exemptions

25.(1) This section applies despite section 18 or the provisions of any management plan about possessing or selling regulated fish.

(2) A person may possess regulated fish in the form of cleaned and preserved molluscs in a genuine shell collection.

(3) A person may—

- (a) possess a regulated fish if the fish is an aquarium display fish bred by the person for aquarium display; or
- (b) possess or sell a regulated fish if an inspector is reasonably satisfied the person has obtained the fish from—
 - (i) the holder of an authority allowing the holder to sell the fish; or

- (b) to prawns taken by the recreational fisher or another recreational fisher.

(2) More than a total of 10 L of prawns is regulated.

(3) Taking or possessing more than a total of 10 L of prawns is prohibited.

Measurement of volume of prawns

25B.(1) This section provides for how a total volume of prawns is measured.

(2) The volume of any of the prawns that are in a container (“**contained prawns**”) must be measured by reference to the volume of the container when it is empty.

(3) For subsection (2), a prawn is not a contained prawn if any part of it protrudes above the top of the container.

(4) The volume of any of the prawns that are not contained prawns (“**uncontained prawns**”) must be measured by—

- (a) placing them in a container or containers so that no part of any of the prawns protrudes above the top of the container or containers; and
- (b) measuring the volume of each container when it is empty; and
- (c) reference to the volume of the container or containers.

(5) The total volume is worked out by adding together the volume of all of the contained and uncontained prawns.

(6) In this section—
“prawn” includes part of a prawn.²

PART 6—QUOTAS

Quotas for commercial fisheries

26. A quota stated in a fishery provision for a commercial fishery is the quota for the fishery.

Notice of filling of certain quotas

27.(1) When the chief executive becomes aware that a quota (other than a daily or time quota) has been, or is likely to be, filled on or by a particular day, the chief executive must immediately notify a relevant authority holder, in writing, that the quota has been, or is likely to be, filled by a stated day.

(2) The authority holder must immediately tell persons acting under the authority that the quota has been, or is likely to be, filled on or by the stated day.

(3) A person given notice under subsection (1) or (2) must not take fish to which the notice relates after the day stated in the notice or, if the stated day has passed, the day after the notice is received.

(4) In this section—

“relevant authority holder” means an authority holder to whom the quota applies.

Fishery symbols to be written on authorities

41.(1) If an authority (other than a tender commercial fishing boat licence) allows a person to do something in a commercial fishery, the chief executive must write the fishery symbol for the commercial fishery on the authority.

Example—

If the authority allows fishing for trade or commerce in the net fishery (ocean beach), the chief executive must write ‘N4’ on the authority.

(2) Also, the chief executive may write a fishery symbol on a tender commercial fishing boat licence.

- (b) for a primary commercial fishing boat licence with the fishery symbol 'L3' on it—1.

(2) However, the chief executive may renew a tender commercial fishing boat licence allowing the use of a boat in the line fishery (reef), if the licence was in force immediately before the commencement and has the fishery symbol 'L2' or 'L3' on it.

(3) Also, the chief executive may issue a tender commercial fishing boat licence with the fishery symbol 'L2' or 'L3' on it, allowing the use of a boat in the line fishery (reef), but only if—

- (a) the boat is a replacement for a boat identified in another tender commercial fishing boat licence; and
- (b) the other tender commercial fishing boat licence was in force immediately before the commencement and has the fishery symbol on it.

(4) Subject to the provisions of a management plan, the chief executive must not write more than 1 of the same fishery symbol on an authority.

Restrictions on writing fishery symbols on authorities allowing the use of boats of certain lengths in commercial fisheries

43.(1) The chief executive may write a fishery symbol on an authority allowing the use of a boat in a commercial fishery only if the boat is not longer than the length permitted under a fishery provision for the fishery.

- (b) has a fishery symbol for the fishery on it.

(3) Also, the chief executive may issue an authority with a fishery symbol on it allowing the use of a boat in a commercial fishery even though

the boat is longer than the length stated in a fishery provision relating to the boat's use in the fishery, but only if—

- (a) the boat is a replacement for a boat identified in another authority; and

(3) Also, the person may take fish in the commercial fishery only by using fishing apparatus—

- (a) permitted by a fishery provision for the fishery; and
- (b) in accordance with a fishery provision for the fishery.

(4) If a fishery provision for the commercial fishery does not state how many of a particular type of fishing apparatus a person may use, the person may use only 1 of each type at a time.

(5) Subsection (4) applies even if more than 1 person is acting under the authority.

Restriction on things authorised by an authority with more than 1 fishery symbol on it

45.(1) If an authority has more than 1 fishery symbol on it, persons acting under the authority can not take fish in more than 1 commercial fishery at a time.

⁵ See however the fisheries offences in part 5, division 4 of the Act and part 8 of this regulation.

- (a) the Joint Authority endorses the authority to extend its operation to activities over which the Joint Authority has powers under the Act; and
- (b) taking the fish is an activity over which the Joint Authority has powers under the Act.

When effect of certain fishery symbols end

47.(1) The effect of the fishery symbol ‘L7’ written on an authority ends if the boat identified in the authority can not be used to take fish for trade or commerce under New South Wales law.⁶

(2) In addition, the effect of a fishery symbol for any of the following commercial fisheries written on an authority ends when the authority is transferred—

- (a) line fishery (multiple hook—East Coast);
- (b) line fishery (multiple hook—Queensland Fisheries Joint Authority);
- (c) net fishery (bait No. 2).

(3) Further, if the effect of the fishery symbol for the net fishery (bait No. 2) written on an authority ends, the effect of a fishery symbol for the net fishery (bait No. 1) written on the authority also ends.

(4) Nothing in subsection (1) prevents the chief executive issuing an

(4) A tender commercial fishing boat licence holder may use the tender boat as a primary commercial fishing boat if—

- (a) its primary commercial fishing boat is able to be used by the holder, but is not also being used to take fish for trade or commerce; and
- (b) the primary commercial fishing boat licence is kept on board the tender boat while it is used as the primary commercial fishing boat.

(5) While a tender commercial fishing boat is used as a primary commercial fishing boat, it is taken to be the primary commercial fishing boat.
