(3) In this section—

“**Standard Building Regulation**” includes any variation, exception or exemption to the Standard Building Regulation permitted by this Act.¹⁰

5 Variation of how Standard Building Regulation may apply

(1) This section applies if building work is proposed to be carried out, is being carried out or has been carried out, and the building work will not, or does not, comply in all respects with the Standard Building Regulation.

(2) A person may apply to the chief executive to vary how the Standard Building Regulation applies to the building work.

¹⁰ Under the *Acts Interpretation Act 1954*, section 7, reference to the Act includes reference to the Standard Building Regulation.

- (b) starts again the day the chief executive gives the applicant written notice under section 6(5).

6 Deciding application to vary how Standard Building Regulation will apply

(1) If there is an assessment manager or a private certifier for the building work, the chief executive must consult with the assessment manager or the private certifier about the application before deciding it.

(2) The chief executive may consult with any other person about the application before deciding it.

(3) After considering the application, the chief executive must decide to—

 - (i) the stage the planning has reached;
 - (ii) the nature of the work;
 - (iii) the means and circumstances of the person.

(2) For subsection (1)—

- (a) the work is lawfully carried out if the work is carried out in accordance with the Standard Building Regulation in force immediately before the amendment; and

(3) For subsections (1) and (2), an amendment of the Standard Building Regulation includes an amendment of a document adopted by, or to which a reference is made in, the Standard Building Regulation.

11 Alterations to safe existing work

(1) If an application for building work is for adding to or altering a building or other structure, the work must comply with the Standard Building Regulation in force at the time the application for the work is approved.

(2) However, if the person approving the application is satisfied the general safety and structural standards of the building or structure would not be at risk if the addition or alteration were carried out in accordance with the Standard Building Regulation or a local law in force in a local

government area at a particular time before the application was made, the person may approve that the work be carried out in accordance with the Standard Building Regulation or local law in force at that time.

12 Alterations to unsafe existing work

(1) This section applies if an application for building work is for adding to or altering a building or other structure and the person approving the application is satisfied the building or structure is unsafe or structurally unsound.

- (b) invite the building certifier to make, within the time stated in the notice, representations to BSA about the complaint.

(2) The time stated in the notice must be at least 5 business days after the notice is given.

(3) If BSA makes a decision about the complaint under section 40, BSA must have regard to the representations when making the decision.

34A BSA may recommend mediation to resolve complaint

(1) If BSA considers a complaint about a building certifier is capable of resolution by mediation, BSA must give the complainant and the building certifier a written notice stating—

- (a) that BSA considers the complaint is capable of resolution by mediation; and

Division 2—Investigations

36 BSA may require documents to be produced

(1) For investigating a complaint or conducting an audit, BSA may, by written notice given to a building certifier, require the building certifier to produce a document to BSA, or a person authorised by BSA (an “**auditor**”).

(4) The application must be sworn and state the grounds on which it is sought.

(5) If the magistrate requires further information about the grounds on which the warrant is sought, the magistrate must not issue the warrant unless the auditor or some other person has given the information to the magistrate in the form (either orally or by affidavit) that the magistrate requires.

(6) The magistrate may issue the warrant only if the magistrate is satisfied there is a proper reason for entering and inspecting the building.

(7) The warrant must state—

- (a) that the auditor may, with necessary and reasonable help and force, enter and inspect the building; and
- (b) the hours of the day when entry may be made; and

(3) In a proceeding for an offence against subsection (1), it is enough to state that the document was, without specifying which, false or misleading.

40 Decision after investigation or audit completed
