Dates shown on reprints

Reprints dated at last amendment All reprints produced on or after 1 July 2002, hard copy and electronic, are dated as at the last date of amendment. Previously reprints were dated as at the date of publication. If a hard copy reprint is dated earlier than an electronic version published before 1 July 2002, it means the legislation was not further amended and the reprint date is the commencement of the last amendment.

If the date of a hard copy reprint is the same as the date shown for an electronic version previously published, it merely means that the electronic version was published before the hard copy version. Also, any revised edition of the previously published electronic version will have the same date as that version.

Replacement reprint date If the date of a hard copy reprint is the same as the date shown on another hard copy reprint it means that one is the replacement of the other.

Chapter 2 Allocation and sustainable management

Part 1 Preliminary

10 Purpose of ch 2

- (1) The purpose of this chapter is to advance sustainable management and efficient use of water and other resources by establishing a system for the planning, allocation and use of water.

- (2) For subsection (1), *sustainable management* is management that—
- (a) allows for the allocation and use of water for the physical, economic and social well being of the people of Queensland and Australia within limits that can be sustained indefinitely; and
 - (b) protects the biological diversity and health of natural ecosystems; and
 - (c) contributes to the following—
 - (i) improving planning confidence of water users now and in the future regarding the availability and security of water entitlements;
 - (ii) the economic development of Queensland in accordance with the principles of ecologically sustainable development;
 - (iii) maintaining or improving the quality of naturally occurring water and other resources that benefit the natural resources of the State;
 - (iv) protecting water, watercourses, lakes, springs, aquifers, natural ecosystems and other resources from degradation and, if practicable, reversing degradation that has occurred;
 - (v) recognising the interests of Aboriginal people and Torres Strait Islanders and their connection with the landscape in water planning;
 - (vi) providing for the fair, orderly and efficient allocation of water to meet community needs;
 - (vii) increasing community understanding of the need to use and manage water in a sustainable and cost efficient way;
 - (viii) encouraging the community to take an active part in planning the allocation and management of water;
 - (ix) integrating, as far as practicable, the administration of this Act and other legislation dealing with natural resources.

- (3) For subsection (1), *efficient use* of water—
- (a) incorporates demand management measures that achieve permanent and reliable reductions in the demand for water; and
 - (b) promotes water conservation and appropriate water quality objectives for intended use of water; and
 - (c) promotes water recycling, including, for example, water reuse within a particular enterprise to gain the maximum benefit from available supply; and
 - (d) takes into consideration the volume and quality of water leaving a particular application or destination to ensure it is appropriate for the next application or destination, including, for example, release into the environment.

11 Meaning of *principles of ecologically sustainable development*

The following principles are *principles of ecologically sustainable development*—

- (a) decision-making processes should effectively integrate both long-term and short-term economic, environmental, social and equitable considerations;
- (b) if there are threats of serious or irreversible environmental damage, lack of full scientific certainty should not be used as a reason for postponing measures to prevent environmental degradation;
- (c) the present generation should ensure the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations;
- (d) the conservation of biological diversity and ecological integrity should be a fundamental consideration in decision making;
- (e) recognition of the need to develop a strong, growing and diversified economy that can enhance the capacity for environmental protection;

- (f) decisions and actions should provide for broad community involvement on issues affecting them.

12 Advancing chapter's purpose

If, under this chapter, a function or power is conferred on an entity, the entity must perform the function or exercise the power in a way that advances this chapter's purpose.

Part 2 Water rights

Division 1 Preliminary

19 Rights in all water vests in State

All rights to the use, flow and control of all water in Queensland are vested in the State.

20 Authorised taking of water without water entitlement

- (1) This section has effect despite section 19.
- (2) A person may take water in an emergency situation, for—
 - (a) a public purpose; or
 - (b) fighting a fire destroying, or threatening to destroy, a dwelling house.
- (3) Despite subsection (6), an owner of land adjoining a watercourse, lake or spring may take water from the watercourse, lake or spring—
 - (a) for stock purposes; or
 - (b) for domestic purposes.
- (4) Despite subsection (6), an owner of land on which there is overland flow water or overland flow water that has been collected into a dam, may take the water—

-

- (a) there is a moratorium notice, a water resource plan or a wild river declaration that limits or alters the water that may be taken or interfered with; or
 - (b) for subartesian water only—a regulation under section 1046 regulates the taking of or interfering with the water.
- (7) A regulation may declare land to be land to which subsection (3)(b) does not apply if the land is subdivided after the regulation is made.
- (8) In this section—
- land* includes any land contiguous with the land adjoining the watercourse, lake or spring if all the land is owned by the same registered owner.

21 **Beds and banks forming boundaries of land are State property**

 - (c) may bring an action against a person who trespasses on the part of the bed or bank, of the watercourse or lake, that adjoins the owner's land as if the owner were the registered owner of the bed and bank.
- (4) If part of the bed or bank is being used by the State for a purpose under this Act—
- (a) subsection (3)(a) and (b) applies only to the extent exercising the right does not interfere with the State's use of the bed or bank; and
 - (b) subsection (3)(c) does not allow the owner to bring an action against a person acting on behalf of the State.

 - (c) prohibit the taking of, or interfering with, water.
- (3) The reduction or prohibition has effect despite any authority a person has under another provision of this Act.
- (4) The regulation must state the period, not being more than 1 year, for which the regulation has effect.

- (5) A person must not take water in contravention of the regulation.

Maximum penalty for subsection (5)—1665 penalty units.

24 Limiting taking of water under s 20(3)

- (1) If there is a shortage of water, the chief executive may limit or prohibit the taking of water under section 20(3)(b) for watering a garden or under section 20(3)(a), by publishing a notice.
- (2) If the notice is for limiting the taking of water, the notice may be for either or both of the following—
- (a) the times when water may be taken;

- (3) The notice remains in force for the period stated in the notice or, if no period is stated, until the chief executive publishes another notice withdrawing the first notice.
- (4) A person must not take water in contravention of the notice.
Maximum penalty for subsection (4)—500 penalty units.

Division 2A Other water supply emergencies

Subdivision 1 Preliminary

25A Meaning of *water supply emergency*

- (1) A water supply emergency is a situation in which there is a demonstrably serious risk the State's, or a part of the State's, essential water supply needs will not be met.
- (2) The following are examples of circumstances from which a situation mentioned in subsection (1) may arise—
 - (a) failure of a large part of water supply, treatment or distribution infrastructure or wastewater infrastructure;
 - (b) extended severe drought conditions;
 - (c) contamination of a water storage used for essential water supply needs causing the water to be unfit for supply.
- (3) In this section—

demonstrably, in relation to a serious risk, means the serious risk can be demonstrated by reliable data about water supply.

essential water supply needs means water supply for—

- (a) domestic purposes; or
- (b) essential services, including the generation or distribution of electricity; or

- (c) processing or refining minerals or petroleum in the Calliope or Gladstone local government areas.

Subdivision 2 Water supply emergency declaration and regulation

25B Declaration of water supply emergency

- (1) The Minister may prepare a water supply emergency declaration if the Minister is satisfied—
 - (a) there is a water supply emergency; or
 - (b) a water supply emergency is developing.
- (2) Before preparing a water supply emergency declaration, the Minister must have regard to other measures, instead of a water supply emergency declaration, that could be taken under this or another Act to deal with the water supply emergency.
- (3) The water supply emergency declaration—
 - (a) has effect when it is approved by the Governor in Council and published in the gazette; and
 - (b) remains in force until the earlier of the following—
 - (i) the commencement of a regulation dealing with the matters mentioned in the declaration;
 - (ii) the end of 15 business days after the date it is published.

25C Contents of water supply emergency declaration

- (1) A water supply emergency declaration must state—
 - (a) the water supply emergency to which the declaration applies; and
 - (b) the part of the State to which the declaration applies; and
 - (c) the service providers to which the declaration applies; and
 - (d) for dealing with the water supply emergency—

- (i) the measures each service provider is directed to carry out and the day by which the measures are to be carried out; and
 - (ii) if the measures a service provider is directed to carry out include making non-Act water available to, or operating infrastructure to allow non-Act water to be supplied to, a customer or type of customer—whether section 25K applies to the direction; and
 - (iii) if the measures a service provider is directed to carry out include imposing the restrictions mentioned in section 25D—that the service provider is directed to give the Minister for approval, within the time stated, a response (a ***water supply emergency response***) stating the way the service provider intends to ensure the restrictions are complied with; and
 - (iv) the outcomes each service provider is directed to achieve and the day by which the outcomes are to be achieved; and
 - (v) that a service provider directed to achieve outcomes is directed to give the Minister for approval, within the time stated, a response (also a ***water supply emergency response***) stating—
 - (A) the actions the service provider intends to take to achieve the outcomes; and
 - (B) if the actions include imposing the restrictions mentioned in section 25D—the way the service provider intends to ensure the restrictions are complied with.
- (2) The declaration must state, for the measures directed to be carried out or outcomes directed to be achieved—
- (a) whether the State or 1 or more service providers are to pay the cost and, if more than 1 entity is to pay the cost, the apportionment of the costs; and
 - (b) if the State is to contribute to the cost—the amount to be contributed and the way in which it is to be paid; and

- (c) the extent to which, and the service providers from whom, the State may recover any contributions made; and
 - (d) the extent to which, and the service provider's customers or other service providers from whom, a service provider may recover the contributions made by the State and the costs approved by the Minister; and
 - (e) whether, and on what, a service provider may recover a rate of return and the service provider's customers or other service providers from whom it may be recovered.
- (3) A water supply emergency declaration may authorise persons to exercise powers, including powers of decision and direction and delegated powers, to facilitate the implementation of the directions under the declaration.
- (4) If a water supply emergency declaration for a part of the State is inconsistent with a wild river declaration or the objectives of a water resource plan for the part, the water supply emergency declaration is ineffective to the extent of the inconsistency.
- (5) However—
- (a) the water supply emergency declaration may, to the extent stated in the declaration, be inconsistent with—
 - (i) the resource operations plan that implements the water resource plan; or
 - (ii) a resource operations licence for the water to which the plan applies; or
 - (iii) an interim resource operations licence; and
 - (b) to the extent of the inconsistency, the water supply emergency declaration prevails.

25D Measures mentioned in a water supply emergency declaration

The measures a service provider may, in a water supply emergency declaration, be directed to carry out are the following—

- (a) to make available, water from the service provider's authority under this Act to take or interfere with water or non-Act water, to—
 - (i) other service providers; or
 - (ii) entities responsible for generating electricity; or
 - (iii) the coordinator-general;
- (b) to operate infrastructure to allow water, including non-Act water, to be supplied to the entities mentioned in paragraph (a);
- (c) to make non-Act water available to a customer or type of customer;
- (d) to operate infrastructure to allow non-Act water to be supplied to a customer or type of customer;
- (e) to restrict, in the way stated in the declaration, the following—
 - (i) the volume of water taken by or supplied to a customer or type of customer;
 - (ii) the hours when water may be used on premises for stated purposes;
 - (iii) the way water may be used on premises;
- (f) to apply a restriction imposed under paragraph (e) to water, including non-Act water, taken from a rainwater tank connected to the service provider's reticulated water supply.

25E Requirement to comply with water supply emergency declaration

- (1) A service provider to whom a direction is given under a water supply emergency declaration must comply with the direction.
Maximum penalty—
 - (a) for a direction mentioned in section 25C(1)(d)(i)—1665 penalty units;
 - (b) for a direction mentioned in section 25C(1)(d)(iii) or (v)—1000 penalty units.

Note—

See also section 389(4) to (6).

- (2) Subsection (1) applies even if complying with the direction would be inconsistent with the service provider's current supply and infrastructure contractual arrangements and the current arrangements are ineffective—
 - (a) to the extent of the inconsistency; and
 - (b) for the period stated in the declaration.
- (3) It is a defence to a prosecution for an offence against subsection (1) to prove—
 - (a) the service provider made all reasonable efforts to comply with the direction; and
 - (b) the service provider is unable to comply with the direction because the service provider is unable to acquire, to the extent necessary to comply with the direction—
 - (i) the development and other approvals necessary for carrying out the measures or achieving the outcomes; or
 - (ii) the land on which infrastructure is to be constructed; or
 - (iii) finance to carry out the measures or achieve the outcomes.

25F Regulation about water supply emergency

- (1) This section applies if—
 - (a) there is a water supply emergency; or
 - (b) a water supply emergency is developing.
- (2) A regulation (a *water supply emergency regulation*) may state—
 - (a) the water supply emergency to which the regulation applies; and
 - (b) the part of the State to which the regulation applies; and

- (c) the service providers to which the regulation applies; and
 - (d) for dealing with the water supply emergency—
 - (i) the measures each service provider is directed to carry out and the day by which the measures are to be carried out; and
 - (ii) if the measures a service provider is directed to carry out include making non-Act water available to, or operating infrastructure to allow non-Act water to be supplied to, a customer or type of customer—whether section 25K applies to the direction; and
 - (iii) if the measures a service provider is directed to carry out include imposing the restrictions mentioned in section 25D—that the service provider is directed to give the Minister for approval, within the time stated, a water supply emergency response stating the way the service provider intends to ensure the restrictions are complied with; and
 - (iv) the outcomes each service provider is directed to achieve and the day by which the outcomes are to be achieved; and
 - (v) that a service provider directed to achieve outcomes is directed to give the Minister for approval, within the time stated, a water supply emergency response stating—
 - (A) the actions the service provider intends to take to achieve the outcomes; and
 - (B) if the actions include imposing the restrictions mentioned in section 25D—the way the service provider intends to ensure the restrictions are complied with; and
 - (vi) any works that are to be carried out by the coordinator-general.
- (3) For the matters mentioned in subsection (2)(d), the regulation must state the matters mentioned in section 25C(2).

- (4) The regulation may, to the extent stated in the regulation, continue the effect of a water supply emergency declaration.
- (5) A water supply emergency regulation may authorise persons to exercise powers, including powers of decision and direction and delegated powers, to facilitate the implementation of the directions under the regulation.
- (6) The regulation, for the part of the State to which it applies, must not be inconsistent with a wild river declaration or the objectives of a water resource plan for the part.
- (7) However—
 - (a) the regulation may, to the extent stated in the regulation, be inconsistent with—
 - (i) the resource operations plan that implements the water resource plan; or
 - (ii) a resource operations licence for the water to which the plan applies; or
 - (iii) an interim resource operations licence; and
 - (b) to the extent of the inconsistency, the regulation prevails.

25G Measures mentioned in a water supply emergency regulation

The measures a service provider may, under a water supply emergency regulation, be directed to carry out are the following—

- (a) the measures mentioned in section 25D(a) to (f);
- (b) to make changes to the service provider's infrastructure, for example to improve efficiency by—
 - (i) reducing water losses from leakage from the service provider's distribution system; or
 - (ii) bringing forward maintenance programs;
- (c) to allow reasonable access, to connect to the service provider's infrastructure and to operate and maintain the connection, to—
 - (i) other service providers; or

- (ii) entities responsible for generating electricity; or
- (iii) the coordinator-general;
- (d) to implement a demand management program that, for a stated part of the State or type of customer, may include, but is not limited to, subsidising the installation by customers of water-saving devices;
- (e) to design, construct and operate new infrastructure;
- (f) to recommission and operate infrastructure that is not operating at the time the regulation is made.

25H Requirement to comply with water supply emergency regulation

- (1) A service provider to whom a direction is given under a water supply emergency regulation must comply with the direction.
Maximum penalty—
 - (a) for a direction mentioned in section 25F(2)(d)(i)—1665 penalty units;
 - (b) for a direction mentioned in section 25F(2)(d)(iii) or (v)—1000 penalty units.
- (2) Subsection (1) applies even if complying with the direction would be inconsistent with the service provider's current supply and infrastructure contractual arrangements and the current arrangements are ineffective—
 - (a) to the extent of the inconsistency; and
 - (b) for the period stated in the regulation.
- (3) It is a defence to a prosecution for an offence against subsection (1) to prove—
 - (a) the service provider made all reasonable efforts to comply with the direction; and
 - (b) the service provider is unable to comply with the direction because the service provider is unable to acquire, to the extent necessary to comply with the direction—

- (i) the development and other approvals necessary for carrying out the measures or achieving the outcomes; or
- (ii) the land on which infrastructure is to be constructed; or
- (iii) finance to carry out the measures or achieve the outcomes.

25I Approval of, or change to, response

- (1) If the Minister is satisfied a water supply emergency response is adequate for carrying out the measures or to achieve the outcomes stated in a water supply emergency declaration or a water supply emergency regulation, the Minister must—
 - (a) approve the response; and
 - (b) give the service provider notice of the approval.
- (2) If the Minister is not satisfied, the Minister must—
 - (a) change the response to make it adequate; and
 - (b) approve the changed response; and
 - (c) give the service provider notice of the approval.
- (3) The service provider must comply with the approved water supply emergency response.
Maximum penalty—1665 penalty units.
- (4) Subsection (3) applies even if complying with the approved response would be inconsistent with the service provider's current supply and infrastructure contractual arrangements and the current arrangements are ineffective—
 - (a) to the extent of the inconsistency; and
 - (b) for the period stated in the approved response.
- (5) It is a defence to a prosecution for an offence against subsection (3) to prove—
 - (a) the service provider made all reasonable efforts to comply with the approved response; and
 - (b) the service provider is unable to comply with the approved response because the service provider is

unable to acquire, to the extent necessary to comply with the response—

- (i) the development and other approvals necessary for carrying out the measures or achieving the outcomes; or
- (ii) the land on which the infrastructure is to be constructed; or
- (iii) finance to carry out the measures or achieve the outcomes.

25J When water supply emergency ends

- (1) The Governor in Council must make a regulation under this section if the Minister considers a water supply emergency has ended.
- (2) The regulation must state—
 - (a) that the water supply emergency to which it applies no longer exists; and
 - (b) the actions that may be taken, or continue to be taken, to deal with circumstances arising because of the water supply emergency including, if necessary, completing or discontinuing actions taken under a water supply emergency regulation.
- (3) The actions that may be taken or continue to be taken include giving any directions that could have been given under the water supply emergency regulation if the emergency continued to exist.
- (4) Subject to a regulation under this section, the ending of a water supply emergency has no effect on the exercise of powers under this division.

Subdivision 3 Carrying out measures and achieving outcomes

25K Supply arrangements

- (1) Subsection (3) applies if a water supply emergency declaration or a water supply emergency regulation, directs a service provider—
 - (a) to make water, including non-Act water, available; or
 - (b) to operate infrastructure to allow water, including non-Act water, to be supplied.
- (2) However, if the direction is to make non-Act water available to, or to operate infrastructure to allow non-Act water to be supplied to, a customer or type of customer, this section applies only to the extent stated in the declaration or regulation.
- (3) The service provider must, at the time the provider makes the water available or operates the infrastructure, have a supply contract with each entity to whom the service provider is directed to make water available or allow water to be supplied.
- (4) The chief executive may approve a supply contract for the supply, storage and delivery of water under a water supply emergency declaration or regulation including the price to be paid for the supply, storage and delivery.
- (5) The chief executive must gazette approval of the supply contract.
- (6) If, at any time, the service provider and an entity do not have a supply contract in compliance with subsection (3), the supply contract approved by the chief executive applies, for the time, to the supply, storage and delivery of water under the declaration or regulation.

25L Relationship with State Development and Public Works Organisation Act 1971

- (1) This section applies to facilitate—

- (a) carrying out measures mentioned in a water supply emergency declaration or a water supply emergency regulation; and

 - (c) sections 109 and 110 apply as if a statement in the water supply emergency regulation about works to be carried out by the coordinator-general were a regulation approving a recommendation to the Governor in Council; and
 - (d) section 125(1)(a) applies as if a statement in the water supply emergency regulation about works to be carried out by the coordinator-general were an authorisation to undertake works; and
 - (e) sections 125(1)(c) and 134 apply as if the service provider were a local body; and
 - (f) sections 134 and 136 apply as if the works mentioned in the water supply emergency regulation or approved water supply emergency response were authorised works; and

- (g) section 137 applies as if the reference in section 137(b) to section 136 were a reference to section 136 as it has effect under paragraph (f); and
 - (h) section 139 applies to the extent it relates to the application of section 136.
- (3) Despite the State Development Act, section 111(2)(b), the coordinator-general may delegate to a service provider a power, function or duty conferred or imposed on the coordinator-general under this division.
 - (4) If agreement is not reached under the State Development Act, section 134, a regulation may approve particulars of arrangements for the transfer, management, operation and control of the works.

Division 3 Other restrictions on taking or interfering with water

26 Moratorium notices

- (1) The Minister may publish a notice under this section, for a part of the State, (a *moratorium notice*) if the Minister is satisfied action should be taken in the part—
 - (a) to protect natural ecosystems; or
 - (b) to protect existing water entitlements and other authorities under this Act to take or interfere with water.
- (2) The notice may state that an application under this Act, or the repealed Act, will not be accepted, or will be accepted but not dealt with, while the moratorium notice has effect if granting the application would have 1 or more of the following effects on the water to which the application relates—
 - (a) increase the amount of water that may be taken;
 - (b) change the location from which water may be taken;
 - (c) increase the rate at which water may be taken;

 - (a) new works must not be physically started; and

Water Act 2000

- (b) completed works in existence must not be raised, enlarged, deepened or changed; and
 - (c) works that have been started—

 - (e) construction of works must stop if notice has not been given under paragraph (d).
- (5) Subsection (4) applies only to the extent the works would—
- (a) increase the amount of water being taken or that could be taken; or
 - (b) change the location from which water is being taken or could be taken; or
 - (c) increase the rate at which water is being taken or could be taken; or
 - (d) increase or change the interference with the water.

- (8) For this section, and for section 27, works are not started unless—
- (a) construction of the works has physically started, or if construction has not physically started, a contract has been entered into to start construction, and construction is started, within 60 days after the day the notice is published; and
 - (b) an independently verifiable construction program exists for progressive construction towards completion of the works; and
 - (c) detailed design plans exist showing, among other things, the extent of the works; and
 - (d) if a permit under the *Local Government Act 1993*, section 940¹ is required for the works—the permit has been issued; and

- (9) In this section—
- moratorium notice*** includes a moratorium notice the effect of which has been amended or continued under a water resource plan.

27 Application to vary effect of moratorium notice

- (1) Subsection (2) applies to an owner of land a moratorium notice affects if—
- (a) the owner is completing works that had been started at the time the notice was published; and
 - (b) the works will not be completed by the day stated in the notice (the ***completion day***); and
 - (c) the owner wishes to apply for an extension of the completion day.
- (2) The owner—

¹ *Local Government Act 1993*, section 940 (Issue of permit)

- (a) must stop construction of the works by the completion day; and
 - (b) may apply to the Minister for an extension of the completion day if—
 - (i) the works are substantially completed; or
 - (ii) the works will not be completed by the completion day because of a change in circumstances beyond the applicant's control including, for example, construction difficulties, extreme bad weather or the applicant's ill health.
- (3) The application must—
- (a) be in the approved form; and
 - (b) be accompanied by the prescribed fee; and
 - (c) be made before the completion day; and
 - (d) show that the works were started before the notice was published; and
 - (e) show the extent to which the works are completed and the extent to which the applicant anticipates the works will be completed by the completion day; and
 - (f) state the day by which the applicant anticipates the works will be completed; and
 - (g) if the works are not completed because of circumstances mentioned in subsection (2)(b)(ii)—state the circumstances.
- (4) The Minister must refer the application to a referral panel established under section 1004A.
- (5) When the Minister receives the referral panel's recommendation, the Minister must—
- (a) decide the application, taking into account the panel's recommendation; and

 - (c) publish the decision in the gazette.
- (6) If the Minister grants the application, the moratorium notice, for the applicant, is varied in the following way—

- (a) the completion day, for the works, is the day stated in the Minister's notice;
- (b) the works may be completed to the extent stated in the notice.

28 Reviewing moratorium notices

- (1) If the Minister is satisfied a moratorium notice should have effect for more than 1 year, the Minister must review the notice within 1 year after the day the notice was published and during each year the notice has effect.
- (2) If, on the review, the Minister is satisfied the notice should be amended, the Minister must amend the notice.

29 Amending moratorium notices

- (1) The Minister may amend the moratorium notice by publishing a notice (the *amending notice*) amending the moratorium notice.
- (2) The amending notice may amend the moratorium notice to provide for any matter for which the moratorium notice could have made provision.
- (4) On and after the day the amending notice is published, the moratorium notice, as amended by the amending notice, is the moratorium notice.
- (5) The moratorium notice, as amended by this section, applies to an application mentioned in section 26(2), even if the application was made before the amending notice was published.

30 Exceptions to ss 26 and 29

Sections 26 and 29 do not apply to the following—

- (a) the issuing of water permits;
- (b) the taking of water under section 20(2), (3), (4) or (5);

Part 3 Water planning

Division 1 Preliminary

35 Information recording and planning

For advancing the purposes of this chapter—

- (a) the Minister must plan for the allocation and sustainable management of water to meet Queensland's future water requirements, including, for example, for the protection of natural ecosystems and security of supply to water users; and
- (b) the chief executive must provide information for planning purposes by—
 - (i) regularly measuring and keeping publicly available records of the volume and quality of water in Queensland; and
 - (ii) collecting information on the water requirements of, and impacts of water management on, natural ecosystems, including, for example, from the department responsible for administering the *Environmental Protection Act 1994*; and
 - (iii) collecting information about future water requirements; and
- (c) the chief executive must plan for the sustainable management of water use to minimise adverse impacts of water use on land and water.

36 Obtaining water information

- (1) For advancing the purposes of this chapter, the chief executive may give a person who is authorised, or has an entitlement, to take, or interfere with, water under this Act a notice requiring information—
 - (a) the person is required to keep under a condition of the person's authority; or
 - (b) about the person's water use; or

- (c) about the use of water managed, taken or supplied under the person's authority; or
 - (d) about any use of water that was managed, taken or supplied through water infrastructure to which a person's authority now applies; or
 - (e) about the taking or supplying of water by the person under the person's authority.
- (2) The notice—
- (a) may be given at any time; and
 - (b) must state the reasonable time by which the information must be given to the chief executive.
- (3) The person must comply with the notice, unless the person has a reasonable excuse.
- Maximum penalty—200 penalty units.
- (4) However, this section does not require the person to give information if giving the information might tend to incriminate the person.

36A Obtaining information from a service provider

- (1) For the purposes of part 2, division 2A, the chief executive may give a service provider a notice requiring information about 1 or more of the following—
- (a) current and projected future water consumption by the service provider's customers or a class of the customers;
 - (b) water restrictions the service provider has imposed or intends to impose;
 - (c) the events that would cause the service provider to impose the restrictions, for example, the available water supply falling to a stated level;
 - (d) the actions the service provider intends to take to ensure compliance with the restrictions;
 - (e) the demand management program the service provider proposes to implement;

- (f) other measures the service provider proposes to take, for example, constructing new infrastructure or making changes to existing infrastructure.
- (2) The notice may be given at any time and must state the reasonable time by which the information must be given to the chief executive.
- (3) The service provider must comply with the notice, unless the service provider has a reasonable excuse.
Maximum penalty—200 penalty units.
- (4) It is a reasonable excuse for a service provider who is an individual not to comply with the notice if complying with the notice might tend to incriminate the individual.

37 Notice of works and water use

- (1) This section applies to works for taking or interfering with water under section 20(6).²
- (2) A regulation may require the owner of land on which the works are, or are to be, constructed to notify the chief executive of the works and the water use or, for works to be constructed, proposed water use, in relation to the works.
- (3) The regulation—
 - (a) may require the notice to be in the approved form; and
 - (b) must state—
 - (i) the part of the State to which the regulation applies; and
 - (ii) the type of works required to be notified, including the purpose and size of the works; and
 - (iii) whether the notice relates to 1 or more of the following—
 - (A) existing works;
 - (B) works that have been under construction for more than a stated period of time;

² Section 20 (Authorised taking of water without water entitlement)

- (a) if there is an existing water resource plan—there is a risk that taking overland flow water in the area may significantly impact on the plan’s outcomes; or
 - (b) there is a risk that taking overland flow water in the area may significantly affect—
 - (i) the availability of water for existing water entitlement holders; or
 - (ii) the water requirements of natural ecosystems; or
 - (iii) beneficial flooding; or
 - (c) changes in land use activities or intensification of land use in the area are significantly affecting overland flow water; or
 - (d) there is a risk that proposed changes in land use activities in the area are likely to significantly affect overland flow water.
- (5) The plan must also regulate the taking of subartesian water if the Minister is satisfied that—
- (a) if there is an existing water resource plan—there is a risk that taking, or interfering with, subartesian water in the area may significantly impact on the plan’s outcomes; or
 - (b) there is a risk that taking, or interfering with, subartesian water in the area may significantly affect—
 - (i) the availability of water for existing water entitlement holders; or
 - (ii) the water requirements of natural ecosystems; or

198 Effect of disposal of part of land to which interim water allocation attaches

- (1) This section applies if—

- (a) an interim water allocation is attached to land; and
 - (b) the registered owner of the land disposes of part of the land.
- (2) On the day the owner disposes of the part, the interim water allocation is taken to be held jointly by all owners of the land to which the interim water allocation related before the disposal.
- (3) However, within 60 business days after the owner disposes of the part, 1 or more of the owners of the land to which the interim water allocation relates may, with the consent of the other owners, apply for 1 or more interim water allocations to replace the jointly held interim water allocation.
- (4) The application must be—
- (a) in the approved form; and
 - (b) accompanied by the fee prescribed under a regulation.
- (5) The chief executive must grant the application if—
- (a) the application relates only to land to which the jointly held interim water allocation relates; and

- (6) If an application is not made under subsection (3), the chief executive may give notice to the joint holders of the interim water allocation about replacing the allocation.
- (7) The notice must state—
- (a) that a written submission may be made about the details of replacing the allocation; and

- (1) This section applies to an interim water allocation if part of the land to which the allocation attaches is taken under the *Acquisition of Land Act 1967*.
- (2) If the acquisition includes an acquisition of the allocation, section 222 applies for transferring the allocation to the entity that acquired the land as if the allocation were a water licence.
- (3) If the acquisition does not include an acquisition of the allocation, sections 199 to 199B apply.

199 Effect of acquisition of part of land adjoining a watercourse, lake or spring

- (1) This section applies if part of the land, adjoining a watercourse, lake or spring, to which an interim water allocation is attached is taken under the *Acquisition of Land Act 1967*.
- (2) If the remaining part of the land continues to adjoin the watercourse, lake or spring from which water may be taken under the interim water allocation—
 - (a) section 198 does not apply to the interim water allocation; and
 - (b) the interim water allocation may be amended under section 192 so it attaches to the remaining part of the land.
- (3) Subsection (4) applies if—

- (2) If the remaining part of the land is above the aquifer from which water may be taken under the allocation, and the conditions of the allocation allow water to be taken from the remaining part—
- (a) section 198 does not apply to the allocation; and
 - (b) the allocation may be amended under section 219, as if the allocation were a water licence, so it attaches to the remaining part of the land.
- (3) Subsection (4) applies if—
- (a) the remaining part of the land is not above the aquifer, or the conditions of the allocation do not allow water to be taken from the remaining part; and
 - (b) the holder of the allocation does not, within 60 business days after the acquisition, satisfy the chief executive that the requirements of section 206(3)(b) have been met in relation to the allocation.
- (4) The allocation is taken to be surrendered and the chief executive must deal with the allocation under section 197(3).

199B Effect of acquisition of part of other land

- (1) This section applies to an interim water allocation granted in response to an application mentioned in section 206(3), as if the allocation were a water licence, if part of the land to which the allocation attaches is taken under the *Acquisition of Land Act 1967*.
- (2) If water taken under the allocation can still be delivered to the remaining part of the land—
- (a) section 198 does not apply to the allocation; and
 - (b) the allocation may be amended under section 192 so it attaches to the remaining part of the land.
- (3) Subsection (4) applies if—
- (a) water taken under the allocation can not still be delivered to the remaining part of the land; and
 - (b) the holder of the allocation does not, within 60 business days after the acquisition, satisfy the chief executive that the requirements of section 206(3)(b) have been met in relation to the allocation.
- (4) The allocation is taken to be surrendered and the chief executive must deal with the allocation under section 197(3).

Subdivision 2 Contents and conditions of water licences

213 Contents of water licence

A water licence—

- (a) must be granted for a stated period; and
- (b) must state the water to which the licence relates; and

 - (ii) limit the licensee's charges for supply to the priority group members to an amount that is no more than the cost of the supply and the cost of treating the water to make it fit for the purpose for which it is supplied.
- (3) However, a stated volume or rate of supply to a priority group member must, as nearly as practicable, be the volume or rate that would have been allowed to the member had the member's water licence application been granted.
- (4) If section 206(3) applies to the licence, the licensee must, within 40 business days after receiving the licence, register the instrument of lease or easement under the *Land Title Act 1994*.

- (3) If an application for the reinstatement of a water licence is made, the expired licence is taken to have been in force from the day the application was made until the applicant has been notified of the chief executive's decision on the application.
- (4) For deciding the application, section 220(4) to (8) applies—
 - (a) as if a reference in the section to the renewal of a licence were a reference to the reinstatement of a licence; and
 - (b) with any other necessary changes.

222 Transferring water licence to another person

- (1) The licensee of a water licence may apply to transfer the licence to—
 - (a) any owner of the land to which the licence attaches; or

 - (c) if the licensee is an entity mentioned in section 206(4)—another entity mentioned in section 206(4).
- (2) However, if the licensee is a petroleum tenure holder, the licensee may apply to transfer the licence only in a way that reflects a change in the holding of the petroleum tenure.
- (2A) Subsection (2B) applies if the licensee is—
 - (a) an entity mentioned in subsection 206(4); and
 - (b) the owner of land to which the licence attached at the time the licensee became the owner of the land.

- (3) An application under this section must be—

- (a) made to the chief executive in the approved form; and

- (a) who, immediately before the transfer takes effect, is being supplied with water from the land to which the licence will attach at the time the transfer takes effect; and
 - (b) who will be the owner of the land at the time the transfer takes effect.
- (4) The chief executive must give the transferee a new licence on conditions that have the same effect as the conditions on the previous licence, other than for the change of name of the licensee—
- (a) for an application made under subsection (1)(a) or (c)—within 30 business days after receiving the application; or
 - (b) for an application made under subsection (1)(b) or (2B)—within 30 business days after the transferee gives the chief executive notice that the transferee has become an owner of the land; or
 - (c) for a transfer under subsection (3A)—as soon as practicable after the person becomes the owner of the land.
- (4A) A new licence given under subsection (4) for a transfer mentioned in subsection (2B) or (3A) attaches to the land of the transferee.
- (5) The new licence has effect on the day the transferee is given the licence.

223 Transferring water licence to other land

- (1) This section applies only if a regulation provides for all or part of the authority to take water in relation to land to be

transferred so that the authority attaches to other land, whether in or outside Queensland.

- (2) The licensee may apply to the chief executive to transfer all or part of the authority in accordance with the regulation.

224 Amalgamating water licences

 - (a) made to the chief executive in the approved form; and
 - (b) accompanied by the fee prescribed under a regulation.
- (3) The application must be dealt with under division 2, subdivisions 1 and 2, as if it were an application for a licence.
- (4) If the applicant is given a new licence, the original licences expire on the day the new licence is given.

225 Subdividing water licence

- (1) The licensee of a water licence (the *original licence*) may apply to replace the original licence with 2 or more new licences.
- (2) The application must be—
 - (a) made to the chief executive in the approved form; and
 - (b) accompanied by the fee prescribed under a regulation.
- (3) The application must be dealt with under sections 206 to 215 as if it were an application for a licence.
- (4) If the chief executive approves the application, the chief executive must ensure that each new licence attaches only to land to which the original licence related.
- (5) The original licence expires on the day the new licences are given.

226 Surrendering water licence

- (1) A licensee may surrender a water licence by giving the chief executive a notice of surrender.
- (2) The surrender—
 - (a) takes effect on the date on which the surrender notice is received by the chief executive; and
 - (b) does not affect in any way a duty under this Act about works imposed on the licensee before the surrender.

227 Cancelling water licence

- (1) The chief executive may cancel a water licence if the chief executive is satisfied the licence should be cancelled.
- (2) Without limiting subsection (1), the chief executive may cancel a water licence granted to a petroleum tenure holder if—
 - (a) the petroleum tenure ends; or
 - (b) if the petroleum tenure is a petroleum tenure under the *Petroleum and Gas (Production and Safety) Act 2004*—the licensee ceases to carry out, under that Act, any of the following and has not stored an appropriate amount of associated water under that Act—
 - (i) approved testing for petroleum production;
 - (ii) petroleum production for commercial purposes; or
 - (c) if the petroleum tenure is an authority to prospect under the *Petroleum Act 1923*, the licensee—
 - (i) ceases to carry out, under that Act, testing for petroleum production in accordance with the instrument for the authority to prospect; and
 - (ii) has not stored an appropriate amount of associated water under that Act; or
 - (d) if the petroleum tenure is a petroleum lease under the *Petroleum Act 1923*, the licensee—
 - (i) ceases to carry out, under that Act, petroleum production for commercial purposes; and

- (ii) has not stored an appropriate amount of associated water under that Act.
- (3) Section 218 applies to the cancellation—
- (a) as if a reference in the section to an amendment of the licence were a reference to the cancellation of the licence; and
 - (b) with any other necessary changes.

Subdivision 5 Effects of land dealings on water licences

228 Effect of licensee ceasing to be an owner of land

- (1) Subsection (2) applies if—
- (a) a water licence attaches to land; and

 - (c) before ceasing to be an owner of the land the licensee applied, in accordance with section 222, to transfer the licence to another person.
- (2) On the day the licensee ceases to be an owner of the land—
- (a) the licensee ceases to be the holder of the licence; and
 - (b) the other person becomes the new licensee.
- (3) However, subsection (4) applies if—
- (a) a water licence attaches to land; and
 - (b) the licensee ceases to be an owner of the land; and
 - (c) before ceasing to be an owner of the land the licensee did not apply, in accordance with section 222, to transfer the licence to another person.
- (4) On the day the licensee ceases to be an owner of the land—
- (a) the licensee ceases to be the holder of the licence; and
 - (b) the registered owner of the land becomes the new licensee.

- (5) Within 30 business days after becoming the new licensee, the new licensee must give the chief executive notice that the previous licensee has ceased to be the licensee.
- (6) Within 30 business days after receiving the notice, the chief executive must give the new licensee a new licence on conditions that have the same effect as the conditions on the previous licence, other than for the change of name of the licensee.
- (7) In this section—

owner, of land, includes an occupier of the land who was the holder of an entitlement to take water in relation to the land—

 - (a) in force under the repealed Act immediately before the commencement of this section; and
 - (b) that is, under section 1048(5), taken to be a water licence.

229 Effect of disposal of part of land to which water licence to take water attaches

- (1) Subsection (2) applies if—
 - (a) a water licence to take water is attached to land; and
 - (b) the registered owner of the land disposes of part of the land.
- (2) The licence expires on the day the owner disposes of the part.
- (3) However, 1 or more of the owners of the land to which the expired licence related may apply for 1 or more licences to replace the expired licence—
 - (a) within 60 business days after the owner disposes of the part; or
 - (b) if, in a particular case, the chief executive extends the period for making the application—within the extended period.
- (4) An application must be—
 - (a) made to the chief executive in the approved form; and
 - (b) accompanied by the fee prescribed under a regulation.

- (5) If an application is made to replace a licence, the expired licence is taken to have been in force until—

 - (b) the registered owner of the land disposes of part of the land.
- (2) If the location at which water may be interfered with is on, under or adjoining either the part of the land disposed of or the part retained by the owner, the licence attaches to the part and may be amended under section 219 to show the change.
- (3) However, if the location at which water may be interfered with is on, under or adjoining both the part of the land

disposed of and the part retained, the licence must be amended by the chief executive under section 219 so that it is held jointly by both the owner of the part retained and the owner of the part disposed of.

Subdivision 6 Effects of acquisition of land on water licences

229B Application of sdiv 6

 - (a) does not expire under section 229; and
 - (b) may be amended under section 219 so it attaches to the remaining part of the land.
- (3) If the remaining part of the land no longer adjoins the watercourse, lake or spring, section 229 applies as if the acquisition were a disposal.

229D Effect of acquisition of part of land above an aquifer

- (1) This section applies to a water licence to take water from an aquifer under the land to which the licence attaches, if part of the land is taken under the *Acquisition of Land Act 1967*.
- (2) If the remaining part of the land is above the aquifer from which water may be taken under the licence, and the conditions of the licence allow water to be taken from the remaining part, the licence—
 - (a) does not expire under section 229; and
 - (b) may be amended under section 219 so it attaches to the remaining part of the land.
- (3) If the remaining part of the land is not above the aquifer, or the conditions of the licence do not allow water to be taken from the remaining part, section 229 applies as if the acquisition were a disposal.

229E Effect of acquisition of part of other land

- (1) This section applies to a water licence granted in response to an application mentioned in section 206(3), if part of the land to which the licence attaches is taken under the *Acquisition of Land Act 1967*.
- (2) If water taken under the licence can still be delivered to the remaining part of the land, the licence—
 - (a) does not expire under section 229; and
 - (b) may be amended under section 219 so it attaches to the remaining part of the land.
- (3) If water taken under the licence can not still be delivered to the remaining part of the land, section 229 applies as if the acquisition were a disposal.

- (3) The specific principles are—
 - (a) for water sharing—the principle that water is a scarce resource that is to be shared across the region; and
 - (b) for water sources—the principle that water quality should be managed from its source to its end-users in a way that—
 - (i) ensures the health of catchments, aquifers and their ecosystems; and
 - (ii) delivers water of a quality desired by the end-users at the lowest overall cost; and
 - (c) for water supply operations—the principle that water supply arrangements should maximise efficient and cost-effective service delivery and the efficient use of water as defined under section 10(3), including, for example, appropriate connectivity between supply sources, and in accordance with desired levels of service objectives for the water; and
 - (d) for cost sharing and pricing, the principles that—
 - (i) the cost of water sources should be shared among users who benefit from them; and
 - (ii) pricing should be consistent with commitments of the State under intergovernmental agreements to which it is a party; and
 - (e) for planning—the principle that assessments of regional water supply should—
 - (i) consider environmental, social and economic factors; and

- (ii) include the application of ‘least cost planning’ to ensure proper economic comparison of all supply-side and demand-side options; and
 - (f) for commission water restrictions—the principle that they should—
 - (i) help the achievement of the region’s objectives for long-term demand management for water; and
 - (ii) enable the appropriate management of any significant threat to the region having a sustainable and secure water supply; and
 - (g) for flood mitigation and dam safety—the principle that these issues should be considered in the preparation of assessments of regional water supply.
- (4) Subsection (3)(f) is in addition to, and does not limit, section 360ZD(1).²⁰

- (3) The water service provider must comply with the notice, unless the provider has a reasonable excuse.

Maximum penalty—200 penalty units.

- (4) However, if the water service provider is an individual, this section does not require the individual to give information if giving the information might tend to incriminate the individual.

Division 2 System operating plans

Subdivision 1 Making system operating plans

360U Application of sdiv 1

This subdivision applies if there is a regional water security program for the SEQ region or a designated region.

360V Commission to make system operating plan for region

The commission must make a system operating plan for existing water supply works the subject of the program and other measures provided for under the program.

360W Content of plan

- (1) The system operating plan must—
- (a) give effect to the program in relation to the existing or proposed water supply works the subject of the program and the other measures provided for under the program; and
 - (b) state each of the following—
 - (i) the plan area for the plan;
 - (ii) the water supply works in the plan area;
 - (iii) the water service providers for the water supply works;

- (iv) the share of water available under the plan to each of the water service providers;
 - (v) the desired levels of service objectives and other obligations, requirements and other regulatory provisions imposed on the water service providers under the plan.
- (2) However, the plan must be consistent with any water resource plan applying to the plan area for the system operating plan.
 - (3) Subsection (1) does not limit what may be included in the system operating plan.

360X Consultation for plan

- (1) Before making the system operating plan the commission must make reasonable endeavours to consult with each proposed water service provider for the plan area.
- (2) A failure to comply with subsection (1) does not invalidate or otherwise affect the plan.

360Y Publication and taking effect of plan

- (1) As soon as practicable after making the system operating plan the commission must publish the plan and give a copy to each water service provider for water supply works in the plan area.
- (2) The plan does not have effect until it is published.
- (3) Despite subsection (1), the commission may decide not to publish or allow inspection of any part of the plan that the commission is reasonably satisfied contains sensitive security information.

Subdivision 2 Amendment of system operating plans

360Z Amendment of plan

- (1) The commission must amend a system operating plan if—

- (a) a water resource plan is made or amended and the water resource plan applies to the plan area for the system operation plan; or
 - (b) under section 360Q,²⁶ a preferred entity is designated for proposed water supply works in the plan area; or
 - (c) water supply works in the plan area not the subject of the existing system operating plan are commissioned.
- (2) For subsection (1)(c), works are commissioned when, under the relevant contract to build the works, they reach a stage under which the building of the works is, in a practical sense, complete.
 - (3) If subsection (1)(a) applies, the system operating plan must be amended so that it is consistent with the water resource plan.
 - (4) If subsection (1)(b) or (c) applies, the system operating plan must be amended so that the plan complies with section 360W²⁷ in relation to the works.
 - (5) The commission may amend the plan to provide for proposed water supply works in the plan area for the plan.
 - (6) Subdivision 1 applies, with necessary changes, for an amendment under this section as if a reference in the sections to the plan were a reference to the amendment.

Subdivision 3 Compliance with system operating plans

360ZA Water service providers must comply with system operating plan

Each water service provider for water supply works in the plan area for a system operating plan must ensure the plan is complied with to the extent it applies to the provider.

²⁶ Section 360Q (Designation of preferred entity for works)

²⁷ Section 360W (Content of plan)

360ZB Publication requirements

- (1) This section applies to a water service provider for water supply works in the plan area for a system operating plan.
- (2) The commission may, by notice (the *commission's notice*), require the water service provider to publish a notice (the *provider's notice*) about the extent to which the provider has, during a stated period, complied with the plan in relation to—
 - (a) all matters under the plan; or
 - (b) if the commission's notice states a particular matter under the plan—that matter.
- (3) The commission's notice must state a reasonable period for the water service provider to publish the provider's notice.
- (4) The water service provider must comply with the requirement.
Maximum penalty—1665 penalty units.
- (5) In this section—

publish means publish in a newspaper circulating generally in the plan area.

360ZC Derivative use immunity for compliance with publication requirement

- (1) It is not a defence to a proceeding for an offence against section 360ZB that complying with the requirement might tend to incriminate the water service provider.
- (2) However, if the water service provider is an individual evidence of, or directly or indirectly derived from complying with the requirement or information it contains that might tend to incriminate the individual is not admissible in evidence against the individual in a civil or criminal proceeding, other than for an offence for which the falsity or misleading nature of the information is relevant.

- (4) Also, the restriction may be made even if a service provider water restriction applies to a matter the subject of the restriction.

360ZE Notice of commission water restriction must be given

- (1) The commission must give notice of a commission water restriction to anyone affected by it in the way the commission considers appropriate having regard to the circumstances in which the restriction is imposed.
- (2) If, because of section 360ZF(2), a service provider water restriction will not apply while the commission water restriction continues in force, the notice must state that while the commission water restriction continues in force the service provider water restriction does not apply to the matter.
- (2A) Before it gives the notice the commission must consult with water service providers for water supply works in the region the subject of the commission water restriction.
- (2B) However, subsection (2A) does not apply if the commission considers that there is an urgent need for the commission water restriction.
- (2C) A failure to consult under subsection (2A) does not invalidate or otherwise affect the validity of the notice.
- (3) The commission water restriction does not have effect until the day after the notice is given.
- (4) A person must not contravene a commission water restriction.
Maximum penalty for subsection (4)—200 penalty units.

360ZF Relationship with service provider water restrictions

- (1) The making of a commission water restriction does not of itself invalidate a service provider water restriction that applies to a matter the subject of the commission water restriction.
- (2) However, if the commission water restriction states that while it continues in force it is to be the only restriction for the matter, while the commission water restriction continues in

force, the service provider water restriction does not apply to the matter.

360ZG Delegation of particular functions for commission water restrictions

- (1) The commission may delegate to a relevant water service provider its functions of—
 - (a) giving notices under section 360ZE about commission water restrictions; or
 - (b) monitoring and enforcing compliance with commission water restrictions.

 - (b) the regulator has given a compliance notice to the transferor before registration takes effect under subsection (2); and
 - (c) the transferor has not complied with the notice.
- (5) The transferee is taken to have been the service provider given the notice.

376 Notice of intention to stop operating as a service provider

Subdivision 2 Failure impact assessing dams

483 When a dam must be failure impact assessed

- (1) A person who proposes to construct a dam must have the dam failure impact assessed if the dam, after its construction, will be—
- (a) more than 8m in height and have a storage capacity of more than 500ML; or
 - (b) more than 8m in height and have a storage capacity of more than 250ML and a catchment area that is more than 3 times its maximum surface area at full supply level.

Maximum penalty—1665 penalty units.

- (2) Also, the chief executive may give the owner of an existing dam, or a dam being constructed, a notice to have the dam failure impact assessed.
- (3) The chief executive may give the notice only if the chief executive reasonably believes the dam, or the dam after its construction, would have a category 1 or category 2 failure impact rating.

accepted by the chief executive under section 487, before construction of the dam begins.

- (i) the last failure impact assessment for the dam, carried out under subsection (2) or (8), has not given the dam a category 1 or category 2 failure impact rating; and
- (ii) the dam does not meet the criteria stated in subsection (1)(a) or (b).

484 Failure impact ratings for dams

- (1) An existing dam has, or a proposed dam after its construction will have, the following failure impact rating if a failure impact assessment, accepted by the chief executive under section 487, for the dam, or the proposed dam after its construction, states that the population at risk is—

- (a) for a category 1 failure impact rating—2 or more persons and not more than 100 persons;
 - (b) for a category 2 failure impact rating—more than 100 persons.
- (2) In subsection (1)—

population at risk means the number of persons, calculated under the guidelines mentioned in section 482(1)(b), whose safety will be at risk if the dam, or the proposed dam after its construction, fails.

485 Offences about failure impact assessments

- (1) A person must not certify a failure impact assessment containing information the person knows is false or misleading.

Maximum penalty—1665 penalty units.

- (b) if the person has, or can reasonably obtain, the correct information—gives the correct information.

- (5) It is enough for a complaint for an offence against subsection (1) or (3) to state the assessment or information given to the person certifying the assessment was false or misleading to the person's knowledge, without stating which.

486 Cost of failure impact assessment

- (1) For a failure impact assessment required under section 483(1), the owner of the dam must pay the cost of preparing and certifying the failure impact assessment.
- (2) For a failure impact assessment required under section 483(2)—
 - (a) if the dam, or the proposed dam, is assessed as not having a category 1 or category 2 failure impact rating—the chief executive must pay the reasonable cost of preparing and certifying the assessment; and
 - (b) in any other case—the owner of the dam must pay the cost of preparing and certifying the assessment.
- (3) For subsections (1) and (2), the cost of preparing and certifying the assessment includes the cost of any review of the assessment under section 489.

487 Accepting, rejecting or reviewing failure impact assessment

- (1) The chief executive may accept, reject or require a review of a failure impact assessment.

- (3) Without limiting subsection (2), the chief executive may require the preparation of documents including a comprehensive report, by a registered professional engineer, on the design and operation of the dam.

488 Notice accepting failure impact assessment

If the chief executive accepts a failure impact assessment, the chief executive must give notice of the acceptance to the owner of the dam within 30 business days after the acceptance.

Subdivision 3 Chief executive's powers**494 Emergency powers**

- (1) This section applies if the chief executive is satisfied, or reasonably believes—
 - (a) there is danger of the failure of—
 - (i) a referable dam; or

554 Changing, and republishing, establishment proposal

- (1) The chief executive may change an establishment proposal whether because of a properly made submission about the

³⁵ Section 717 (Recovering water authority's establishment costs)

proposal or for another reason the chief executive considers appropriate.

- (2) If the chief executive changes an establishment proposal, the chief executive must publish notice of the changed proposal under section 552.

 - (b) is not a change of substance.

557 Considering submissions on amending establishment regulation

The chief executive must consider each properly made submission about amending an establishment regulation before the regulation is amended.

Part 3 Functions and powers of water authorities

Division 1 Functions

569 Main function of water authority

- (1) A water authority's main function is to carry out the water activities decided by the authority.
- (2) If the authority has an authority area, its main function is to carry out the water activities for the authority area.
- (3) However, a water authority with an authority area may carry out water activities outside its authority area if carrying out the activity—
 - (a) does not—
 - (i) limit the authority's ability to perform its main function; or
 - (ii) financially prejudice the authority or its ratepayers or customers; and
 - (b) for a category 1 authority—is in accordance with the authority's performance plan.

570 Other functions of water authority

- (1) A water authority may carry out 1 or more of the following functions decided by it—
 - (a) riverine area protection;
 - (b) soil erosion control;
 - (c) land degradation treatment and prevention;
 - (d) the management of recreational areas on land owned by the authority or under its control.
- (2) If a water authority has an authority area, it may carry out a function mentioned in subsection (1) either inside or outside its authority area.

571 Establishment as a water authority is not a right to water entitlement or resource operations licence

To remove any doubt, it is declared that the establishment of a water authority to carry out water activities does not, of itself, entitle the authority to a water entitlement or a resource operations licence.

Division 2 Powers**Subdivision 1 Rates and charges****572 Power to make and levy rates and charges**

- (1) A category 1 water authority, for carrying out its functions under this Act, may make and levy charges on its customers.
- (2) A category 2 water authority, for carrying out its functions under this Act, may make and levy on its customers or ratepayers—
 - (a) charges; and
 - (b) if the authority has an authority area—rates.

- (3) Without limiting subsection (1) or (2)(a), the authority may make and levy a charge for providing connections to its works.
- (4) A charge may be made and levied on a volumetric basis for water activities carried out.
- (5) A rate may be made and levied, if the authority has an authority area, on a property basis for land in the authority area.
- (6) Subsections (4) and (5) do not limit the ways in which a charge or rate may be made or levied.

573 Exemption from rates

Despite section 572(2)(b), a water authority can not make and levy rates for water activities for the following land—

- (a) unoccupied State land;
- (b) unallocated State land reserved for a public purpose;
- (c) land occupied by the State, other than land leased by the State from a person;
- (d) land prescribed under a regulation for this section.

574 Interest on overdue rates and charges

- (1) An overdue rate or charge made or levied by a water authority under section 572 bears interest at the annual rate, decided by the authority, of not more than—
 - (a) 15%; or
 - (b) if another percentage is prescribed under a regulation—the other percentage.
- (2) The interest must be calculated as simple interest.
- (3) In this section—

overdue charge means the amount of the charge that is not paid when it becomes payable.

overdue rate means the amount of the rate that is not paid when it becomes payable.

 - (d) to cancel or change an enforcement order or interim enforcement order.
- (2) If the order sought under subsection (1) is for an offence against—

 - (b) section 389, 393, 432 or 433—the proceeding may be brought only by the service provider.

Conditions imposed may, for example, relate to payment of an amount, or surrendering a passport, to the court.

788 Making enforcement order

- (1) The court may make an enforcement order if the court is satisfied the offence—
 - (a) has been committed; or
 - (b) will be committed unless restrained.

 - (b) any effect on a watercourse, lake, spring, aquifer or water quality; and
 - (c) any financial saving or other benefit the person who committed the offence received or is likely to receive because of the commission of the offence.

 - (a) works for taking or interfering with water or other resources; or
 - (b) a referable dam.
- (3) An enforcement order or an interim enforcement order—
 - (a) may be in terms the court considers appropriate to secure compliance with this Act; and

- (b) must state the time by which the order is to be complied with.

790 Court's powers about orders

- (1) The court's power to make an enforcement order or interim enforcement order to stop, or not to start, an activity may be exercised whether or not—
 - (a) it appears to the court the person against whom the order is made intends to engage, or to continue to engage, in the activity; or
 - (b) the person has previously engaged in an activity of the kind; or

- (1) Each party to a proceeding in a court under division 2 must bear the party's own costs for the proceeding.
