## Part 3                      Sectioning

### 15      Firearms

A firearm, other than a pistol, may be modified to make it permanently incapable of being discharged by doing all of the following—

- (a) in relation to the bolt—
  - (i) machining away 1 side of the bolt face with a 45 degree backward facing cut to allow enough remaining material to hold the firing pin, extractor and ejector; and
