Part 3 Consolidated fund and Treasurer's responsibilities

Division 1 The consolidated fund

16 Consolidated fund

The consolidated fund established under the *Financial Administration and Audit Act 1977* is continued in existence under this Act.

17 Accounts for consolidated fund

- (1) The Treasurer must keep ledger accounts for the consolidated fund (the *consolidated fund account*) consisting of—
 - (a) the Treasurer's consolidated fund operating account; and
 - (b) the Treasurer's consolidated fund investment account.
- (2) All moneys received by the Treasurer from accountable officers must be recorded as received in the Treasurer's consolidated fund operating account, including the following—
 - (a) all administered receipts;
 - (b) all moneys received as repayment of advances or loans, or payment of interest on advances or loans, from the consolidated fund;

[s 18]

- (c) all moneys required under this Act, or another Act or law, to be paid into the consolidated fund;
 - (d) amounts paid by departments as equity withdrawals.
- (3) Only the following may be charged to the Treasurer's consolidated fund operating account—
- (a) moneys for expenditures authorised to be made by the Treasurer under—
 - (i) this Act; or
 - (ii) an appropriation Act; or
 - (iii) an Act that appropriates public moneys, other than an appropriation Act;
 - (b) refunds of moneys incorrectly recorded in the consolidated fund account.

18 Treasurer's consolidated fund bank account

- (1) The Treasurer must keep at a bank an account for the consolidated fund (the *Treasurer's consolidated fund bank account*).
- (2) All public moneys received by the Treasurer must be paid daily to the credit of the Treasurer's consolidated fund bank account.
- (3) Moneys may be withdrawn from the Treasurer's consolidated fund bank account only for—

 - (c) making an investment under section 50; or

- (d) refunding moneys incorrectly paid into the bank account.
- (4) The Treasurer has power to do all things necessary or convenient to be done for keeping the Treasurer's consolidated fund bank account.

19 Overdrawn accounts

- (1) This section applies if—
 - (a) the net credit balance of the Treasurer's consolidated fund bank account and all the departmental financial institution accounts is overdrawn unintentionally; and
 - (b) the overdrawing is rectified as soon as is practicable.
- (2) The overdrawing is authorised by this section and a Treasurer's approval is not needed.
- (3) This section has effect despite section 18.

Example of unintentional overdrawing of accounts—

Each morning departments give the treasury department a forecast of their cash flow for the day. Officers of the treasury department add the total of the departmental forecasts to the net credit balance of the Treasurer's consolidated fund bank account and all the departmental financial institution accounts, including the treasury offset bank account, to decide the surplus or deficit of moneys on the day. If there is a surplus, it is invested. If the forecasts are incorrect because a department receives less or withdraws more on the day than the department forecast, the net credit balance may be unintentionally overdrawn.

20 Entries in Treasurer's consolidated fund operating account

- (1) Subsection (2) applies if the Treasurer, in a financial year, pays to a department an amount other than unforeseen expenditure from the consolidated fund.
- (2) The Treasurer must—

[s 21]

- (b) allocate the amount entered to 1 or more of the department's headings for which the amount was paid.

Note—

Entries for unforeseen expenditure are dealt with under section 36.

21 Write-off of losses

The Treasurer may write off losses relating to the consolidated fund account.

Division 2 Consolidated fund reporting

22 Quarterly statement by Treasurer

- (1) As soon as practicable after the end of each quarter of a financial year, the Treasurer must prepare a statement for the quarter (the *quarterly statement*) of—
 - (a) the amounts received in the quarter by the Treasurer (the *received amounts*) that must be recorded as received in the Treasurer's consolidated fund operating account; and
 - (b) for each department—the amounts paid by the Treasurer in the quarter from the department's vote (the *paid amounts*) from the Treasurer's consolidated fund operating account, including the amounts allocated to the department's headings (the *heading amounts*); and
 - (c) the opening and closing balances for the quarter of the Treasurer's consolidated fund bank account and Treasurer's consolidated fund investment account.
- (2) A quarterly statement must not include a controlled receipt appropriated under section 28.

-
- (3) A quarterly statement for the second, third or fourth quarter of a financial year must also include the received amounts, paid amounts and heading amounts for the financial year up to and including the end of the quarter.
 - (4) Also, a quarterly statement must include comparative figures for—
 - (a) received amounts, paid amounts, heading amounts and quarterly balances for the corresponding quarter of the immediately preceding financial year; and
 - (b) for a quarterly statement for the second, third or fourth quarter—the cumulative received amounts, paid amounts and heading amounts for the immediately preceding financial year.
 - (5) As soon as practicable after a quarterly statement is prepared for the first, second or third quarter of a financial year, the Treasurer must make the statement publicly available.

Example of making the statement publicly available—

publishing the statement on the treasury department's website

- (6) If the Treasurer pays an amount from, or receives an amount into, the consolidated fund account within the further 2 weeks for the financial year to which the payment or receipt relates, the Treasurer must ensure the amount is included in—
 - (a) the quarterly statement for the fourth quarter of the financial year; and
 - (b) the consolidated fund financial report for the financial year if the received amount is—
 - (i) the return of appropriation paid in excess of the appropriation authorised for the financial year for a department; or
 - (ii) an equity withdrawal from a department for the financial year.

23 Consolidated fund financial report

- (1) This section applies to the quarterly statement the Treasurer must prepare under section 22 for the fourth quarter of a financial year (the *consolidated fund financial report*).
- (2) In addition to the matters included under section 22, the Treasurer must include the following, for each department, in the consolidated fund financial report for the financial year—
 - (a) the department's vote, and the amounts for application to the department's headings, under the annual appropriation Acts for the financial year;
 - (b) any change under this Act to the department's vote or the amounts for application to 1 or more of the department's headings;
 - (c) the total amount paid to the department for the financial year and the amounts allocated to the department's headings;
 - (d) amounts paid to the department as unforeseen expenditure and particulars of the amounts;
 - (e) amounts appropriated to the department for the financial year that have lapsed under section 29(3);
 - (f) amounts written off by the Treasurer under section 21 as losses relating to the consolidated fund account.
- (3) The consolidated fund financial report must not include a controlled receipt appropriated under section 28.
- (4) The Treasurer must, under section 24, sign the consolidated fund financial report and give it to the auditor-general for a report by the auditor-general.
- (5) Within 14 days after the auditor-general returns the consolidated fund financial report to the Treasurer with the auditor-general's report, the Treasurer must table the reports in the Legislative Assembly.

24 Timing for giving consolidated fund financial report to auditor-general

- (1) For section 23(4), the Treasurer must sign the consolidated fund financial report and give it to the auditor-general by a date agreed between the Treasurer and the auditor-general.
- (2) The agreed date must be one that allows the audit of the consolidated fund financial report, and auditor-general's report for the consolidated fund financial report, to be completed no later than 3 months after the end of the financial year to which the consolidated fund financial report relates.
- (3) However, if the Treasurer considers there is a whole-of-government reason that makes it impracticable to give the consolidated fund financial report for the financial year to the auditor-general by the date agreed under subsection (1), the Treasurer may give it to the auditor-general by a later date agreed with the auditor-general.

Example of a whole-of-government reason—

complex end of financial year changes to the machinery of government

- (4) The later date must allow the audit of the consolidated fund financial report, and the auditor-general's report for the consolidated fund financial report, to be completed no later than 6 months after the end of the financial year to which the consolidated fund financial report relates.

25 Consolidated whole-of-government financial statements

- (1) The Treasurer must prepare, under the prescribed requirements, the following financial statements for each financial year (together the ***consolidated whole-of-government financial statements***)—
 - (a) financial statements for the whole of government;
 - (b) financial statements for the general government sector.
- (2) The consolidated whole-of-government financial statements must be prepared within 6 months after the end of each financial year or a later date agreed between the Treasurer and the auditor-general.

[s 26]

- (3) The Treasurer, the under-Treasurer and the most senior officer of the department responsible for preparing the statements (the *officers*) must each sign the statements and certify on the statements whether, in the opinion of each of them, the statements have been properly drawn up, under the prescribed requirements, to present a true and fair view of—
 - (a) the financial operations and cash flows of the State for the financial year; and
 - (b) the financial position at the end of the financial year to which the statements relate.
- (4) As soon as practicable after the statements have been prepared and certified by the officers, the Treasurer must send the statements to the auditor-general for a report by the auditor-general.
- (5) Within 14 days after the auditor-general returns the statements to the Treasurer with the auditor-general's report, the Treasurer must table the statements and report in the Legislative Assembly.
- (6) In this section—

general government sector means the institutional sector comprising all government units and non-profit institutions controlled and mainly financed by government, as defined in Australian Accounting Standard AASB 1049.

Editor's note—

The standard is available on the Australian Accounting Standards Board website at www.aasb.gov.au.

26 Information for preparing consolidated whole-of-government financial statements

- (1) The Treasurer may exercise a power under this section only if the Treasurer considers it is necessary to do so—
 - (a) for preparing the consolidated whole-of-government financial statements for a financial year; or
 - (b) for whole-of-government budgeting or monitoring purposes.

-
- (2) The Treasurer may, by notice given to the accountable officer of a department or to a statutory body, ask the officer or body to give information to the Treasurer.
 - (3) The notice must state the following—
 - (a) particulars of the information that must be given;
 - (b) the date by which the information must be given.
 - (4) The accountable officer or statutory body must comply with the notice.

Division 3 Appropriations

27 Annual appropriation Acts

For each financial year, the Treasurer must present to the Legislative Assembly—

- (a) a Bill for an ordinary annual appropriation Act for the financial year; and
- (b) a Bill for a parliamentary annual appropriation Act for the financial year.

28 Appropriation of particular controlled receipts

- (1) A department's controlled receipts may be retained by the department.

- (1) The total amount appropriated for a department for a financial year under an annual appropriation Act (the *available amount*) is available for the Treasurer to pay to the department in the financial year or within the further 2 weeks.
- (2) The Treasurer may pay an amount from the available amount for a department if the payment is made for a departmental service, administered item or equity adjustment—
 - (a) delivered in the financial year or the previous financial year; or
 - (b) to be delivered in the financial year or in the next financial year.
- (3) If all of the available amount for a financial year is not paid to the department under this section in the financial year or within the further 2 weeks, the unpaid amount of the appropriation lapses at the end of the further 2 weeks.

 - (b) credit the amount to the heading in the ledger for equity adjustment.

31 Supply before ordinary annual appropriation Act for financial year

- (1) This section applies if, before the enactment of the ordinary annual appropriation Act for a financial year, the Legislative Assembly authorises the payment of an amount (the *ordinary supply amount*) from the consolidated fund to departments, other than the Legislative Assembly and parliamentary service, but does not appropriate a total amount for each of the departments for the financial year.
- (2) The Treasurer must prepare a statement setting out—
 - (a) the total amount available for each of the departments from the ordinary supply amount; and
 - (b) the way the total amount available for each of the departments is to be applied.
- (3) As soon as practicable after preparing the statement, the Treasurer must give notice to the accountable officer of each of the departments about—
