(a) the minor administrative amendment has taken effect; and

(b) the minor administrative amendment and the amended provisional land use plan are published on the department’s website.

36I Other amendments

(1) This section applies if MEDQ proposes to make an amendment, other than a minor administrative amendment, of a provisional land use plan.

(2) MEDQ must—

(a) publish the proposed amendment on the department’s website; and

(b) publish, at least once in a newspaper circulating in the area of the relevant local government, a notice—

(i) stating that the proposed amendment is published on the department’s website; and

(ii) inviting persons to make submissions, within a stated period of at least 15 business days (the submission period), about the proposed amendment.

(3) Sections 36B to 36F apply in relation to the proposed amendment of the provisional land use plan as if—
(a) a reference in the sections to the draft provisional land use plan were a reference to the proposed amendment of the provisional land use plan; and

(b) a reference in the sections to the submission period were a reference to the submission period under subsection (2)(b)(ii); and

(c) the reference in section 36E(1) to the draft provisional land use plan taking effect were a reference to the notice under subsection (2)(b) being published; and

(d) a reference in section 36E(1) or (2) or 36F to the provisional land use plan were a reference to the amendment of the provisional land use plan; and

(e) a reference in section 36E(3)(b)(i) or (c) to the provisional land use plan were a reference to the amendment of the provisional land use plan and the provisional land use plan as amended by the amendment (the amended provisional land use plan).

(4) As soon as practicable after the amendment of the provisional land use plan takes effect, MEDQ must publish, at least once in a newspaper circulating in the area of the relevant local government, a notice stating that—

(a) the amendment has taken effect; and

(b) the amendment and the amended provisional land use plan are published on the department’s website.

Division 2 Declaration of other priority development areas and interim land use plans

37 Declaration

(1) A regulation (a declaration regulation) may declare a part of the State to be a priority development area.

(2) In making a declaration regulation under subsection (1), regard must be had to—
Economic Development Act 2012
Chapter 3 Planning and development

(a) the main purpose of this Act; and
(b) without limiting paragraph (a)—
   (i) any proposed development for land in the area; and
   (ii) the economic and community benefit to the State that may be gained by the proposed development; and
   (iii) the impact the Planning Act may have on the delivery of the proposed development if the declaration regulation were not made.

(3) The declaration regulation may state an expiry date, recommended by MEDQ, for—
   (a) the interim land use plan made under section 38(2) for the priority development area; or
   (b) if more than 1 interim land use plan has been made under section 38(3) for the priority development area—1 or more of the plans.

(4) The expiry date must be a date that is more than 12 months, but not more than 24 months, after the declaration regulation commences.

(5) However, MEDQ may recommend an expiry date for subsection (3) only if it considers the expiry date appropriate for the proper and orderly planning, development and management of the priority development area.

Note—
See generally section 40AB in relation to the expiry of an interim land use plan.

(6) To remove any doubt, it is declared that the declaration regulation may state different expiry dates for the interim land use plans mentioned in subsection (3)(b).

38 Interim land use plan required

(1) This section applies if the Minister proposes to recommend to the Governor in Council the making of a declaration regulation.
(2) MEDQ must make an interim land use plan regulating development in the entire area proposed to be declared under the declaration regulation as a priority development area (the *proposed area*).

(3) However, MEDQ may make more than 1 interim land use plan regulating development in the proposed area if—
   (a) each plan regulates development in a separate part of the proposed area, but the plans together regulate development in the entire proposed area; and
   (b) MEDQ considers the plans will, in an integrated way, promote the proper and orderly planning, development and management of the proposed area.

(4) An interim land use plan made under subsection (2) or (3) may provide for any matter mentioned in section 57(2), (3) or (5).

(5) The recommendation for the declaration regulation may be made only if MEDQ has made 1 or more interim land use plans under subsection (2) or (3) regulating development in the entire proposed area.

### 39 When interim land use plan takes effect

An interim land use plan made under section 38(2) or (3) takes effect on the commencement of the declaration regulation.

### 40 Notice of interim land use plan

As soon as practicable after an interim land use plan takes effect, MEDQ must—
   (a) publish the plan on the department’s website; and
   (b) publish a gazette notice stating that the plan has taken effect and is published on the department’s website; and
   (c) publish, at least once in a newspaper circulating in the area of the relevant local government, a notice to the same effect as the gazette notice.
40AA Period for which interim land use plan has effect

An interim land use plan for a priority development area has effect until the earliest of the following—

(a) if the plan regulates development in the entire priority development area—
   (i) a development scheme takes effect under section 64 for the entire area; or
   (ii) a new interim land use plan is made under section 40AC for the entire area;

(b) if the plan regulates development in part of the priority development area—
   (i) a development scheme takes effect under section 64 for that part of the area, whether or not the scheme also takes effect for any other parts of the area; or
   (ii) a new interim land use plan is made under section 40AC for that part of the area;

(c) the plan expires under section 40AB.

40AB Expiry of interim land use plan

(1) An interim land use plan for a priority development area expires 12 months after the plan takes effect.

(2) However, if the declaration regulation for the priority development area stated an expiry date for the interim land use plan under section 37(3), the plan expires on the stated expiry date.

(3) Also, if a caretaker period begins at any time before an interim land use plan would otherwise expire under subsection (1) or (2), the period before the plan expires is extended by a further period equal to the length of the caretaker period plus 20 business days.

(4) For working out the length of a caretaker period for subsection (3), the day the caretaker period ends is taken to be a whole day.
40AC Making new interim land use plan

(1) MEDQ may, before an interim land use plan for a priority development area (the current plan) expires, make a new interim land use plan for the priority development area (the new plan).

(2) The new plan—
   (a) may provide for any matter mentioned in section 57(2), (3) or (5); and
   (b) must regulate development in—
       (i) if the current plan regulates development in the entire priority development area—the entire priority development area; or
       (ii) otherwise—the part of the priority development area in which development is regulated by the current plan.

(3) If the new plan is to take effect before the current plan expires, MEDQ must—
   (a) publish the new plan on the department’s website; and
   (b) publish a gazette notice stating that the new plan is published on the department’s website.

(4) The new plan mentioned in the gazette notice published under subsection (3)(b) takes effect at the beginning of the day the gazette notice is published.

(5) If the new plan is to take effect on the expiry of the current plan, MEDQ must—
   (a) before the current plan expires, publish a gazette notice stating that a new plan has been made and will take effect on the expiry of the current plan; and
   (b) as soon as practicable after the current plan expires, publish the new plan on the department’s website.

(6) The new plan mentioned in the gazette notice published under subsection (5)(a) takes effect on the day after the day the current plan expires.
(7) As soon as practicable after a new plan takes effect under subsection (4) or (6), MEDQ must publish, at least once in a newspaper circulating in the area of the relevant local government, a notice stating that the new plan—
(a) has taken effect; and
(b) is published on the department’s website.

(8) Sections 40AA and 40AB(1), (3) and (4) apply to the new plan.

**Division 2A Declaration of PDA-associated development by MEDQ**

**40A Application of division**

This division applies to development—
(a) to be carried out other than entirely within a priority development area; and

*Example of development for paragraph (a)*—
A bridge is proposed to be constructed, extending from a landing point within the priority development area to a landing point outside the area. This division applies to development to be carried out for the part of the bridge that extends from the boundary of the priority development area to the landing point outside the area.

(b) that is not identified as PDA-associated development in the relevant development instrument for the area.

*Note*—
A relevant development instrument may identify and regulate development as PDA-associated development—see, for example, section 57(3) and (5).

**40B Consultation required before declaring PDA-associated development**

Before making a declaration under section 40C(1), MEDQ must—
(a) consult, in the way it considers appropriate, with each local government in whose area the development is proposed to be located; and

(b) make reasonable endeavours to consult, in the way MEDQ considers appropriate, with any government entity, GOC or other entity it considers will be likely to be affected by the declaration.

40C Declaration of PDA-associated development

(1) MEDQ may, by instrument (a declaration), declare development to which this division applies (the proposed development) to be PDA-associated development for a priority development area.

(2) A declaration may be made only if MEDQ is satisfied—

(a) the Planning Act may have an adverse effect on the delivery of the proposed development if the declaration were not made; and

(b) 1 of the following applies—

(i) the proposed development provides development infrastructure for the priority development area to address the impacts of any development within the area, whether or not the development infrastructure also has another function or purpose;

(ii) the proposed development—

(A) promotes the proper and orderly planning, development and management of the priority development area in accordance with the relevant development instrument for the area; and

(B) has an economic or community benefit for the State or region in which the priority development area is located; and
(C) cannot reasonably be located or accommodated entirely within the priority development area;

(iii) the proposed development satisfies another requirement prescribed by regulation.

(3) A declaration must not compromise the implementation of the relevant development instrument for the priority development area.

(4) In making a declaration, MEDQ must decide whether the PDA-associated development is—

(a) PDA assessable development; or

(b) PDA accepted development.

Note—

If the PDA-associated development is PDA assessable development, see section 84 for the requirements about public notification of a PDA development application.

(5) In this section—

*development infrastructure* see the Planning Act, schedule 2.

### 40D Content of declaration

A declaration under section 40C(1) must include the following information—

(a) the priority development area the development is for;

(b) a description of the land on which the development is proposed to be located;

(c) a description of the development, including plans and supporting documentation;

(d) any other information prescribed by regulation.
40E Notice of declaration

As soon as practicable after declaring development to be PDA-associated development under section 40C(1), MEDQ must—

(a) publish the declaration on the department’s website; and

(b) give a copy of the declaration to—

(i) each local government in whose area the development is to be located; and

(ii) the owner of the land on which the development is proposed to be located; and

(iii) each government entity or GOC consulted under section 40B before the making of the declaration.

Division 2B Minor boundary changes of priority development areas

40F Regulation may make particular boundary changes

(1) A regulation (a boundary change regulation) may amend a declaration regulation made under section 34 or 37 to make either of the following changes (each a minor boundary change) to the priority development area declared under the declaration regulation—

(a) to include additional land in the priority development area;

(b) to include additional land in the priority development area and exclude other land from the priority development area.

Note—

See chapter 3, part 2, division 3, subdivision 2 in relation to other changes to priority development areas.

(2) A boundary change regulation may be made only if—
(a) the minor boundary change is to correct an error in the boundary of the priority development area; or

   Example—
   including land so the boundary of the priority development area aligns with the intended cadastral boundary of the area

(b) MEDQ is satisfied the minor boundary change promotes the proper and orderly planning, development and management of the additional land to be included in, or the land to be excluded from, the priority development area.

   Examples—
   • including additional land in a priority development area so part of the boundary of the area aligns with a road constructed after the area was declared
   • including additional land in a priority development area so part of the boundary of the area aligns with the boundary of land that was reclaimed after the area was declared

40G  Recommendation for boundary change regulation

(1) This section applies if the Minister proposes to recommend to the Governor in Council the making of a boundary change regulation in relation to a priority development area.

(2) The recommendation for the making of the boundary change regulation may be made only if—

(a) for the additional land proposed to be included in the priority development area (the additional land), MEDQ has—

(i) proposed an instrument amending the relevant development instrument for the priority development area to apply the relevant development instrument to the additional land (the PDA instrument change); and

(ii) consulted on the proposed instrument under section 40H(1); and

(iii) made the instrument under section 40H(2); and
(b) for any land proposed to be excluded from the priority development area (the excluded land), an instrument amending the relevant local government’s planning instruments to provide for the excluded land (the planning instrument change) has been—

(i) prepared under section 40I; and

(ii) consulted on under section 40J; and

(iii) made or approved under section 40K.

(3) However, subsection (2)(b) does not apply if MEDQ decides a planning instrument change is not required to provide for the excluded land.

(4) MEDQ may make a decision under subsection (3) only if it is satisfied that, without amendment, the relevant local government’s planning instruments adequately provide for the excluded land.

40H Consultation about proposed PDA instrument change and making of PDA instrument change

(1) Before preparing the proposed instrument for the PDA instrument change, MEDQ must—

(a) consult, in the way it considers appropriate, with the relevant local government; and

(b) make reasonable endeavours to consult, in the way it considers appropriate, with any government entity, GOC or other entity MEDQ considers will be likely to be affected by the proposed PDA instrument change.

(2) After complying with subsection (1), MEDQ must decide—

(a) to make the instrument for the PDA instrument change; or

(b) not to make the instrument for the PDA instrument change.

(3) In making the decision under subsection (2), MEDQ must consider the main purpose of this Act.
40I Preparation of proposed instrument for planning instrument change

(1) If section 40G(2)(b) applies for any excluded land, MEDQ may—

(a) prepare the proposed instrument for the planning instrument change; or

(b) ask the relevant local government to prepare the proposed instrument for the planning instrument change.

(2) The entity that prepares the proposed instrument for the planning instrument change is the proposer of the planning instrument change.

40J Consultation about proposed instrument for planning instrument change

Before preparing the proposed instrument for the planning instrument change, the proposer must—

(a) either—

(i) if MEDQ is the proposer—consult, in the way it considers appropriate, with the relevant local government; or

(ii) if the relevant local government is the proposer—consult with MEDQ; and

(b) make reasonable endeavours to consult, in the way the proposer considers appropriate, with any government entity, GOC or other entity the proposer considers will be likely to be affected by the proposed planning instrument change.

40K Making or approving planning instrument change

(1) This section applies if—

(a) section 40G(2)(b) applies for any excluded land; and
(b) the proposed instrument for the planning instrument change has been prepared under section 40I and consulted on under section 40J.

(2) If the relevant local government is the proposer of the planning instrument change, it must give MEDQ the proposed instrument for its approval.

(3) MEDQ must decide to—

   (a) approve the proposed instrument for the planning instrument change; or

   (b) approve the proposed instrument subject to conditions decided by MEDQ; or

   (c) refuse to approve the proposed instrument.

(4) In making the decision under subsection (3), MEDQ must consider the main purpose of this Act.

(5) If MEDQ decides to approve the proposed instrument for the planning instrument change, it must, by notice given to the relevant local government—

   (a) for a proposed instrument prepared by MEDQ—make the instrument for the planning instrument change in compliance with any conditions decided under subsection (3)(b); or

   (b) for a proposed instrument prepared by the relevant local government—approve the instrument for the planning instrument change subject to any conditions decided under subsection (3)(b).

(6) If MEDQ, under subsection (3)(b), approves a proposed instrument for a planning instrument change prepared by the relevant local government, the local government must amend the instrument to comply with the conditions.

40L When instruments take effect

(1) A PDA instrument change made under section 40H(2) and a planning instrument change made or approved under section 40K take effect on the commencement of the
boundary change regulation making the minor boundary changes for which the instruments provide.

(2) On giving a notice under section 40K(5), the planning instrument change is, for the Planning Act, taken to have been made by the relevant local government.

(3) However—

(a) the planning instrument change—

(i) does not create a superseded planning scheme under the Planning Act; and

(ii) is not an adverse planning change under that Act; and

(b) the Planning Act, section 16(2) and (3) does not apply in relation to the planning instrument change.

(4) The Planning Act, sections 18, 20, 22 and 23 do not apply for making the planning instrument change.

40M Notice of instruments for minor boundary change

(1) As soon as practicable after the boundary change regulation commences, MEDQ must—

(a) publish on the department’s website—

(i) the PDA instrument change made under section 40H(2); and

(ii) if section 40G(2)(b) applied for any excluded land—the planning instrument change made or approved under section 40K; and

(b) publish a gazette notice stating that the instruments mentioned in paragraph (a)(i) and (ii) have taken effect and are published on the department’s website; and

(c) publish, at least once in a newspaper circulating in the area of the relevant local government, a notice to the same effect as the gazette notice.

(2) Also, if section 40G(2)(b) applied for any excluded land, the relevant local government must publish on its website the
planning instrument change made or approved under section 40K.

Division 3 Cessation of priority development areas

Subdivision 1 Provisional priority development areas

41 Cessation of provisional priority development area

(1) A provisional priority development area ceases to be a provisional priority development area 3 years after its declaration.

(2) Before a provisional priority development area ceases under subsection (1), MEDQ may, by notice to the relevant local government—

(a) approve an amendment of the local government’s planning instruments prepared by the local government to provide for land in the provisional priority development area or any PDA-associated land for the provisional priority development area (the planning instrument change); or

(b) make an amendment of the local government’s planning instruments to provide for land in the provisional priority development area or any PDA-associated land for the provisional priority development area (also the planning instrument change).

(3) On the giving of a notice under subsection (2), the planning instrument change is, for the Planning Act, taken to have been made by the local government.

(4) However—

(a) the planning instrument change—
(i) does not create a superseded planning scheme under the Planning Act; and

(ii) is not an adverse planning change under that Act; and

(b) the Planning Act, section 16(2) and (3) does not apply in relation to the planning instrument change.

(5) The Planning Act, sections 18, 20, 22 and 23 do not apply for the making of the planning instrument change.

(6) Before making a planning instrument change under subsection (2)(b), MEDQ must—

(a) give the relevant local government the proposed planning instrument change; and

(b) invite it to, within 40 business days after it is given the proposed amendment, make submissions to MEDQ about the proposed planning instrument change; and

(c) consider any submissions made under paragraph (b).

(7) The planning instrument change takes effect at the same time as the provisional priority development area ceases under subsection (1).

Subdivision 2 Priority development areas

42 Revocation or reduction of priority development area

(1) Subsections (2) and (3) apply if the Minister proposes to recommend to the Governor in Council the making of a regulation to amend or repeal a provision of a declaration regulation made under section 34 or 37 (the PDA change) so land in a priority development area (the excluded land) will no longer be in the priority development area.

(2) The recommendation for the PDA change may be made only if an instrument amending the relevant local government’s planning instruments to provide for the excluded land (the planning instrument change) is—
(a) proposed and dealt with under sections 42A to 42I, as applicable; and
(b) approved under section 42J(2).

(3) Also, if there is PDA-associated development for the priority development area, the recommendation for the PDA change may be made only if—

(a) the Minister has considered how the development should be dealt with; and
(b) to the extent the Minister considers it appropriate, the development is provided for in the planning instrument change.

(4) However, subsection (2) does not apply if—

(a) under the regulation the subject of the Minister’s proposed recommendation—

(i) a part of the State comprising or including the excluded land is to be declared to be a priority development area under section 34 or 37; and

(ii) the declaration is to commence at the same time as the PDA change; or

(b) the excluded land—

(i) is within the master planned area for a priority port and a port overlay has effect for the master planned area; or

(ii) is strategic port land under the Transport Infrastructure Act 1994, section 286; or

(c) MEDQ is satisfied that—

(i) without amendment, the relevant local government’s planning instruments adequately provide for the excluded land; or

(ii) any amendments required to be made to the relevant local government’s planning instruments to provide for the excluded land are minor, have
been the subject of adequate consultation and have been made.

(5) Also, subsections (2) and (3) do not apply only because the Minister proposes to make a boundary change regulation to make a minor boundary change mentioned in section 40F(1)(b).

(6) In this section—

master planned area, for a priority port, see the Sustainable Ports Development Act 2015, section 6.

port overlay see the Sustainable Ports Development Act 2015, section 19(1).

priority port see the Sustainable Ports Development Act 2015, section 5.

42A Preparation of proposed planning instrument change

(1) MEDQ may decide to prepare the proposed instrument for the planning instrument change or ask the relevant local government to prepare it.

(2) The entity that prepares the proposed instrument for the planning instrument change is the proposer of the planning instrument change.

42B Consultation about proposed planning instrument change

Before preparing the proposed instrument for the planning instrument change, the proposer must—

(a) for a proposed instrument prepared by MEDQ—consult, in the way it considers appropriate, with the relevant local government; and

(b) for a proposed instrument prepared by the relevant local government—consult with MEDQ; and

(c) make reasonable endeavours to consult, in the way the proposer considers appropriate, with any of the
following it considers will be likely to be affected by the proposed planning instrument change—

(i) a government entity or GOC;

(ii) another person or entity.

42C  Approval of proposed planning instrument change by MEDQ

(1) This section applies if the proposed instrument for a planning instrument change is prepared by the relevant local government.

(2) The local government must give the proposed instrument to MEDQ for approval.

(3) MEDQ must decide to—

(a) approve the proposed instrument for the planning instrument change; or

(b) approve the instrument change subject to conditions decided by MEDQ; or

(c) refuse to approve the instrument.

(4) If MEDQ approves the proposed instrument for the planning instrument change under subsection (3)(b), the relevant local government must amend the instrument to comply with the conditions.

42D  When notification requirements do not apply

The notification requirements do not apply to the proposed instrument for the planning instrument change if MEDQ is satisfied—

(a) the consultation about the instrument under section 42B has been adequate; and

(b) the public interest would not be served by further consultation about the instrument.
42E  Public notification

(1) This section applies if—
   (a) the proposed instrument for the planning instrument change is prepared; and
   (b) for a proposed instrument prepared by the relevant local government—MEDQ has approved the instrument under section 42C(3).

(2) The proposer must—
   (a) publish the proposed instrument for the planning instrument change on the proposer’s website; and
   (b) publish, at least once in a newspaper circulating in the area of the relevant local government, a notice—
      (i) stating that the proposed instrument for the planning instrument change is published on the proposer’s website; and
      (ii) inviting persons to make submissions, within a stated period of at least 30 business days (the submission period), about the proposed instrument.

42F  Submissions on proposed planning instrument change

Anyone may make submissions to the proposer about the proposed instrument for the planning instrument change within the submission period.

42G  Consideration of submissions

(1) The proposer must consider the submissions received within the submission period.

(2) Subsection (1) does not prevent the proposer from considering a submission made to it after the submission period ends.
42H Amendment of proposed planning instrument change

(1) After complying with section 42G, the proposer may amend the proposed instrument for the planning instrument change in a way it considers appropriate.

(2) If the proposer considers the amendment significantly changes the proposed planning instrument change, it must re-comply with sections 42E(2) and 42G for the amended proposed instrument for the planning instrument change.

42I Public response report

(1) This section applies if the proposer has complied with section 42G and, if relevant, section 42H.

(2) The proposer must—

(a) prepare a report (the public response report) that—

(i) summarises the submissions considered by proposer; and

(ii) contains information about the merits of the submissions and the extent to which the proposed instrument for the planning instrument change was amended to reflect the submissions; and

(iii) contains details about any changes to the proposed instrument published under section 42E(2); and

(b) publish the report on the proposer’s website.

42J Approval of planning instrument change

(1) This section applies if, for a proposed instrument for a planning instrument change, the notification requirements—

(a) have been complied with; or

(b) do not apply under section 42D.

(2) MEDQ must decide to—

(a) approve the proposed instrument for the planning instrument change; or
(b) approve the proposed instrument subject to conditions decided by MEDQ; or

(c) refuse to approve the proposed instrument.

(3) In making the decision under subsection (2), MEDQ must consider—

(a) the main purpose of this Act; and

(b) for a proposed instrument for a planning instrument change prepared by the relevant local government to which the notification requirements apply—the public response report.

(4) If MEDQ decides to approve the proposed instrument for the planning instrument change under subsection (2), it must, by notice to the relevant local government—

(a) for a proposed instrument prepared by MEDQ—make the instrument for the planning instrument change in compliance with any conditions decided under subsection (2)(b); or

(b) for a proposed instrument prepared by the relevant local government—approve the instrument for the planning instrument change subject to any conditions decided under subsection (2)(b).

(5) If MEDQ approves an instrument for a planning instrument change prepared by the relevant local government subject to any conditions decided under subsection (2)(b), the local government must amend the instrument to comply with the conditions.

42K Effect of planning instrument change

(1) On giving a notice under section 42J(4), the planning instrument change is, for the Planning Act, taken to have been made by the relevant local government.

(2) However—

(a) the planning instrument change—
(i) does not create a superseded planning scheme under the Planning Act; and

(ii) is not an adverse planning change under that Act; and

(b) the Planning Act, section 16(2) and (3) does not apply in relation to the planning instrument change.

(3) The Planning Act, sections 18, 20, 22 and 23 do not apply for making the planning instrument change.

(4) The planning instrument change takes effect at the same time as the PDA change.

42L **Notice of planning instrument change**

As soon as practicable after the planning instrument change takes effect—

(a) MEDQ must publish the instrument for the planning instrument change on the department’s website; and

(b) the relevant local government must publish the instrument on its website; and

(c) the proposer must publish, at least once in a newspaper circulating in the area of the relevant local government, a notice stating the instrument—

(i) has been approved; and

(ii) may be inspected on the proposer’s website; and

(d) the proposer must give each person who made a submission about the proposed instrument for the planning instrument change, received within the submission period, a notice stating that—

(i) the instrument has been approved; and

(ii) the public response report about the proposed instrument may be inspected on the proposer’s website.
Subdivision 3  Other matters

42M  Implied and uncommenced rights to use premises protected

(1) This section applies if—

(a) a PDA development approval comes into effect; and

(b) immediately before the approval comes into effect, a material change of use, for a use implied by the approval, was PDA accepted development; and

(c) a planning instrument change is made before the use starts.

(2) The use is taken to be a lawful use in existence immediately before the planning instrument change is made or taken to have been made.

43 Interim local laws

(1) This section applies if land ceases to be in a priority development area and, immediately before the cessation, by-laws applied to the area.

(2) A regulation may make a local law (the interim local law) for the land, about any matter provided for under the by-laws.

(3) However, the regulation may be made only if the relevant local government has agreed to the making of the regulation.

(4) For the Local Government Act 2009 or the City of Brisbane Act 2010, the interim local law is taken to have been made under that Act by the relevant local government.

(5) The interim local law expires 12 months after it commences.
Division 4  Relationship with Planning Act

Subdivision 1  Effect of declaration of priority development areas

43A References to declaration of area as priority development area

A reference in this subdivision to the declaration of an area as a priority development area includes a reference to the inclusion, under a boundary change regulation, of an additional area in a priority development area.

44 Existing development applications and change applications under Planning Act

(1) This section applies if, immediately before the declaration of an area as a priority development area—

(a) a development application under the Planning Act had been made for land in the area; and

(b) the application was a properly made application and had not lapsed under that Act; and

(c) the application had not been decided.

(2) This section also applies if, immediately before the declaration of an area as a priority development area—

(a) a change application had been made under the Planning Act to change a development approval under that Act—

(i) that already approves development in the priority development area; or

(ii) to approve development in the priority development area, if the approval does not already approve development in the priority development area; and

(b) the application had not lapsed under that Act; and
(c) the application had not been decided.

(3) Despite the declaration, the application must be decided under the Planning Act, and that Act continues to apply, as if the land were not land in a priority development area.

45 Existing development approvals under Planning Act

If, immediately before the declaration of an area as a priority development area, a development approval under the Planning Act is in effect for land in the area, the approval continues in effect as a development approval under the Planning Act.

46 Special provision for Northshore Hamilton urban development area

(1) This section applies in relation to balance port land that is in the Northshore Hamilton urban development area.

(2) A person may apply to MEDQ to restart a use of premises on the land if—

(a) the use—

(i) is authorised under a development approval issued by the Port of Brisbane Corporation before the day the first interim land use plan had effect; or

(ii) was a lawful use of premises immediately before the taking of effect of the first interim land use plan; or

(iii) is generally consistent with a use mentioned in subparagraph (i) or (ii); and

(b) the application is made within 6 months after the use stopped.

(3) For making, dealing with and deciding the application, part 4, division 3 applies, with any necessary changes, as if it were a PDA development application.
(4) A person may, under section 99, apply to MEDQ to change a development approval for a use mentioned in subsection (2)(a)(i) or (ii) to an extent that—
   (a) only changes the configuration or layout of buildings, other structures or plant; and
   (b) does not involve an extension of the area of any buildings, other structures or plant.

(5) A person may apply to MEDQ to change a development approval issued by the Port of Brisbane Corporation before the day the first interim land use plan had effect, as if the approval were a PDA development approval.

(6) An application under subsection (4) or (5) may be made under section 99 as if it were an amendment application under that section.

Note—
Under section 99(2), an amendment application may be made only if MEDQ is satisfied the change would not result in the relevant development being substantially different.

(7) An application mentioned in this section may be made to MEDQ, and approved by MEDQ, despite any provision of the Northshore Hamilton UDA Development Scheme 2009 that prohibits the development.

(8) An application mentioned in this section may be made in relation to premises at any time until the day the term of the current lease for the premises ends.

(9) In this section—

Subdivision 2 Effect of cessation of priority development areas and PDA-associated development

48 Application of subdivision

This subdivision applies if—

(a) land (the former PDA land) ceases to be in a priority development area; or

(b) PDA-associated development (the former PDA-associated development) for a priority development area ceases to be PDA-associated development for the area.

49 References to cessation

In this subdivision—
(a) a reference to cessation in relation to the former PDA land is, if the context permits, a reference to the time the land ceases to be in the priority development area; and

(b) a reference to cessation in relation to the former PDA-associated development is, if the context permits, a reference to the time the development ceases to be PDA-associated development for the priority development area.

50 Existing PDA development approvals

(1) This section applies if, immediately before the cessation, a PDA development approval was in effect for the former PDA land or former PDA-associated development.

(2) On the cessation, the PDA development approval is taken to be a development approval under the Planning Act that took effect at the same time as the PDA development approval.

(3) However, subsection (2) does not apply to the extent the PDA development approval involves a water connection aspect.

Note—
For the effect of the cessation of a priority development area or PDA-associated development on the water connection aspect of a PDA development approval in effect immediately before the cessation, see division 4A.

51 Existing PDA development applications

(1) This section applies to a PDA development application made, but not decided, before the cessation for the former PDA land or former PDA-associated development.

(3) If a PDA development approval is given for the PDA development application, the approval is, immediately after it takes effect under this Act, taken to be a development approval under the Planning Act that took effect at the same time as the PDA development approval.

(4) However, subsection (3) does not apply to the extent the PDA development approval involves a water connection aspect.

Note—

For the effect of the cessation of a priority development area or PDA-associated development on the water connection aspect of a PDA development approval given under this section, see division 4A.

51AA Existing amendment applications

(1) This section applies if—

(a) before the cessation, an amendment application has been made, but not decided, for a PDA development approval for the former PDA land or former PDA-associated development; and

(2) The amendment application must continue to be decided under this Act as if—

(a) the cessation had not happened; and

(b) the PDA development approval were still a PDA development approval; and

(c) the amendment application were being decided immediately before the cessation.

(3) If a changed PDA development approval is given for the amendment application, the changed PDA development approval is, immediately after it takes effect under this Act, taken to be a development approval under the Planning Act.
(4) However, subsection (3) does not apply to the extent the changed PDA development approval involves a water connection aspect.

Note—
For the effect of the cessation of a priority development area or PDA-associated development on the water connection aspect of a changed PDA development approval given under this section, see division 4A.

51AB Existing applications to extend currency period

(b) on the cessation, all or part of the PDA development approval is taken, under section 50(2), to be a development approval under the Planning Act.

(2) The application must continue to be decided under this Act as if—
(a) the cessation had not happened; and
(b) the PDA development approval were still a PDA development approval; and

(4) If the decision is to refuse the extension, the development approval under the Planning Act lapses on the later of the following to happen—
(a) the currency period of the PDA development approval under this Act, including any extension of that period under section 102, ends;

(b) the person who made the application is given notice of the decision under section 102(4).

(5) Despite the Planning Act, section 229, a person may not appeal under that Act against the decision on the application.

51AC Existing appeals to Planning and Environment Court

(1) This section applies if—

(a) before the cessation, a person has appealed under section 90 against MEDQ’s decision to impose a condition on a PDA development approval for—

(2) The Planning and Environment Court must hear, or continue to hear, and decide the appeal under section 90 as if—

(a) the cessation had not happened; and

(b) the PDA development approval were still a PDA development approval.

(3) If the decision on the appeal is to give a changed or replacement PDA development approval, the changed or replacement PDA development approval is taken to be a development approval under the Planning Act.

(4) However, subsection (3) does not apply to the extent the changed or replacement PDA development approval involves a water connection aspect.
Note—
For the effect of the cessation of a priority development area or PDA-associated development on the water connection aspect of a changed or replacement PDA development approval given under this section, see division 4A.

(3) The person may appeal, and the Planning and Environment Court must hear and decide the appeal, under section 90 as if—

(a) the cessation had not happened; and

(b) the PDA development approval were still a PDA development approval.

(4) The appeal must be started within the period mentioned in section 90(3).
(5) If the decision on the appeal is to give a changed or replacement PDA development approval, that approval is taken to be a development approval under the Planning Act.

(6) However, subsection (5) does not apply to the extent the changed or replacement PDA development approval involves a water connection aspect.

Note—
For the effect of the cessation of a priority development area or PDA-associated development on the water connection aspect of a changed or replacement PDA development approval given under this section, see division 4A.

(1) This section applies if the process under section 104(2) for approving a plan of subdivision for the former PDA land had started, but not ended, before the cessation.

(2) Section 104 continues to apply in relation to the plan of subdivision as if—
(a) the cessation had not happened; and
(b) for a plan of subdivision authorised or required under the part of a PDA development permit that, under section 50(2), becomes a development approval under the Planning Act—the PDA development permit were still a PDA development permit; and

51AF Registering particular plans of subdivision approved before cessation

(1) This section applies if—

(1) A PDA development condition of the PDA development approval or part is taken to be a development condition of the Planning Act approval under the Planning Act, even if the condition could not be imposed under that Act.

(2) The enforcement authority under the Planning Act for the development the subject of the Planning Act approval is taken to be the entity that would have been the enforcement authority under that Act if—

(a) for a Planning Act approval for former PDA land—the land had never been in a priority development area; and

(b) for a Planning Act approval for former PDA-associated development—the development had never been PDA-associated development; and

(c) a development application for the Planning Act approval had been made under that Act, the repealed Sustainable Planning Act 2009 or the repealed Integrated Planning Act 1997 as in effect when the application for the PDA development approval was made.

(b) subject to—

(i) section 51AB(4); and

### 51AQ Other matters about Planning Act approvals

(1) Despite the Planning Act, section 119(2), the local government for the local government area to which the Planning Act approval relates must not give an infrastructure charges notice under that Act for the approval.

(2) However, if a change application or extension application made under the Planning Act is approved for the Planning Act approval, the local government may give an infrastructure charges notice under that Act for the Planning Act approval if the notice relates to the change to, or extension of, the Planning Act approval.

(3) Despite the Planning Act, section 139(1), a person can not make a conversion application under the Planning Act in
(4) A regulation may—

(a) for the Planning Act, provide that development on former PDA land, or that is former PDA-associated development, is accepted development under that Act if—

(i) the Planning Act approval implies the development is to be carried out; and

(ii) immediately before the land ceased to be in a priority development area, or the development ceased to be PDA-associated development, the development was PDA accepted development; and

(iii) the development complies with any requirements for the development stated in the regulation; or

(b) if a condition of the Planning Act approval requires a document or thing to be given to, or approved by, MEDQ—state the entity the document or thing must be given to, or approved by, in place of MEDQ; or

(c) make provision about another matter necessary or convenient to give effect to the transition from the PDA development approval to the Planning Act approval for which this Act does not make provision or sufficient provision.

Division 4A Relationship with South-East Queensland Water (Distribution and Retail Restructuring) Act 2009

51AR Application of division

This division applies if—

(a) either—
(i) land (the former PDA land) ceases to be in a priority development area; or
(ii) PDA-associated development (the former PDA-associated development) for a priority development area ceases to be PDA-associated development for the area; and

(b) a PDA development approval—

(i) was, immediately before the cessation, in effect for the former PDA land or former PDA-associated development; or

(ii) is given under division 4, subdivision 2 for the former PDA land or former PDA-associated development; and

(c) the PDA development approval involves an aspect (a water connection aspect) that—

(i) is in relation to a connection under the South-East Queensland Water (Distribution and Retail Restructuring) Act 2009 for which a water approval is required under that Act; and

(ii) for a PDA development approval that is prescribed by regulation and was in effect immediately before the cessation—is prescribed by a regulation that commences on or before the cessation.

51AS References to cessation

In this division—

(a) a reference to cessation in relation to the former PDA land is, if the context permits, a reference to the time the land ceases to be in the priority development area; and

(b) a reference to cessation in relation to the former PDA-associated development is, if the context permits, a reference to the time the development ceases to be PDA-associated development for the priority development area.
51AT Conversion of water connection aspects of PDA development approvals

(1) Subsection (2) applies if a water approval is in effect for the land to which the PDA development approval relates—
   (a) for a PDA development approval that was in effect for the former PDA land or former PDA-associated development immediately before the cessation—immediately before the cessation; or
   (b) otherwise—immediately before the PDA development approval is given.

(2) The water connection aspect of the PDA development approval is taken to be part of the water approval.

(3) If subsection (2) does not apply, the water connection aspect of the PDA development approval continues in effect as a PDA development approval—
   (a) as if the cessation had not happened; and
   (b) until the part of the PDA development approval that becomes, under division 4, subdivision 2, a Planning Act approval stops having effect.

(4) However, if a water approval is given for the land to which the PDA development approval relates while the water connection aspect is in effect as a PDA development approval under subsection (3), the water connection aspect is taken to be part of the water approval.

(5) To remove any doubt, it is declared that this section does not limit or otherwise affect a requirement under the South-East Queensland Water (Distribution and Retail Restructuring) Act 2009 for a water approval to be obtained for the making of a connection under that Act.

51AU Provisions about water connection aspects that are taken to be part of water approvals

(1) This section applies if the water connection aspect of the PDA development approval is taken to be part of a water approval under section 51AT(2) or (4).
(2) A PDA development condition of the water connection aspect is taken to be a water approval condition of the water approval under the *South-East Queensland Water (Distribution and Retail Restructuring) Act 2009*, even if the condition could not be imposed under that Act.

(3) Despite the *South-East Queensland Water (Distribution and Retail Restructuring) Act 2009*, chapter 4C, part 4, there is no review or appeal right under that Act in relation to—

(a) the part of the water approval that was the water connection aspect; or

(b) a decision made under this Act in relation to the part of the water approval that was the water connection aspect.

(4) To remove any doubt, it is declared that subsection (3) does not limit or otherwise affect—

(a) an appeal mentioned in section 51AC(1)(a) or brought under section 51AD; or

(b) a review or appeal right under the *South-East Queensland Water (Distribution and Retail Restructuring) Act 2009*, chapter 4C, part 4, in relation to a decision under section 99BRAK of that Act about a request to amend a water approval condition of the water approval.

(5) Despite the *South-East Queensland Water (Distribution and Retail Restructuring) Act 2009*, section 99BRCI(2), a distributor-retailer must not give an infrastructure charges notice under that Act for the part of the water approval that was the water connection aspect.

(6) However, if the part of the water approval that was the water connection aspect is amended under the *South-East Queensland Water (Distribution and Retail Restructuring) Act 2009*, section 99BRAK, an infrastructure charges notice may be given under that Act in relation to the amendment.

(7) Despite the *South-East Queensland Water (Distribution and Retail Restructuring) Act 2009*, section 99BRDE(1), a person can not make a conversion application under that Act in
relation to a condition of the water approval that was a PDA
development condition.

(8) A regulation may—

(a) if the water connection aspect requires a document or
thing to be given to, or approved by, MEDQ—state the
entity the document or thing must be given to, or
approved by, in place of MEDQ; or

(b) make provision about another matter necessary or
convenient to give effect to the transition from the water
connection aspect of the PDA development approval to
the water approval for which this Act does not make
provision or sufficient provision.

Division 5  Miscellaneous provisions

53 Relationship with the City of Brisbane Act 2010 or the Local Government Act 2009

(1) The declaration of an area as a priority development area does not affect—

(a) the operation of the City of Brisbane Act 2010 or the Local Government Act 2009 in relation to the area; or

(b) the area of the relevant local government; or

(c) the jurisdiction, under the Acts, of the relevant local government.

(2) However, the performance of the relevant local government’s functions or the exercise of its powers under the Acts is subject to MEDQ’s functions or powers under this Act.

(3) A reference in subsection (1) to the declaration of an area as a priority development area includes a reference to the inclusion, under a boundary change regulation, of an additional area in a priority development area.

(4) Subsection (1) is subject to section 54.

54 By-laws

(1) MEDQ may make by-laws under this Act for priority development areas about any matter for which a local law may be made, including the creation of offences.
(2) However, a by-law can not fix a penalty of more than—
   (a) if the by-law replaces a local law—the maximum penalty units applying to a contravention of the local law it replaces; or
   (b) otherwise—20 penalty units for an offence against the by-law.

(3) A by-law replaces a local law if—
   (a) the local law no longer applies to a matter within a priority development area because a by-law provides that the local law does not apply, or applies with stated changes, within the priority development area; and
   (b) the by-law applies to the matter within the priority development area.

(4) A by-law may provide that all or part of a stated local law does not apply, or applies with stated changes, within a priority development area.

(5) If a by-law provides that a stated local law does not apply, or applies with stated changes, within a priority development area, the local law does not apply, or applies with the stated changes, within the area.

(6) A by-law must be approved by the Governor in Council.

   Note—
   The effect of subsection (6) is that a by-law is subordinate legislation. See the Statutory Instruments Act 1992, sections 7, 8(b)(i) and 9(1)(a).

(7) A by-law prescribed by regulation is taken, for the Environmental Protection Act 1994, schedule 1, section 3(a) and (b), to be a local law.
Part 3  Development schemes

Division 1  Making development schemes

55  Application of div 1

(1) This division applies on the declaration of a priority development area.

(2) However, this division does not apply in relation to a provisional priority development area.

56  Development scheme required

(1) As soon as practicable after the priority development area is declared, MEDQ must make a development scheme, under this division, for the entire priority development area.

(2) However, MEDQ may make more than 1 development scheme, under this division, for the priority development area if—

(a) more than 1 interim land use plan was made under section 38 for the priority development area; and

(b) each development scheme is made for 1 or more parts of the priority development area in which development is regulated by a single interim land use plan; and

(c) together, the development schemes provide for the entire priority development area.

(3) A development scheme is a statutory instrument.

(4) To remove any doubt, it is declared that the development schemes mentioned in subsection (2) may be made at different times.
57 Content of development scheme

(1) A development scheme may provide for any matter that MEDQ considers will promote the proper and orderly planning, development and management of the relevant area.

(2) The development scheme must include—

(a) a land use plan regulating development in the relevant area; and

(b) a plan for infrastructure in the relevant area; and

(c) an implementation strategy to achieve the main purpose of this Act for the relevant area, to the extent it is not achieved by the land use plan or the plan for infrastructure.

(3) Without limiting subsection (2)(a), the land use plan may—

(a) provide for any matter about which a planning instrument may provide for an area; or

(b) identify any PDA assessable development or PDA accepted development in the relevant area; or

(c) identify development, other than development that is to be carried out entirely within the priority development area, as PDA-associated development for the priority development area; or

(d) prohibit the carrying out of particular PDA assessable development; or

(e) state that particular development is consistent or inconsistent with the plan; or

(f) require public notice of PDA development applications for stated PDA assessable development.

(4) However, the land use plan may, under subsection (3)(c), identify development as PDA-associated development for the priority development area only if MEDQ is satisfied—

(a) the Planning Act may have an adverse effect on the delivery of the development if the development were not
identified as PDA-associated development for the area; and

(b) 1 of the following applies—

(i) the development provides development infrastructure for the priority development area to address the impacts of any development within the area, whether or not the development infrastructure also has another function or purpose;

(ii) the development—

(A) promotes the proper and orderly planning, development and management of the priority development area in accordance with the relevant development instrument for the area; and

(B) has an economic or community benefit for the State or for the region in which the priority development area is located; and

(C) can not reasonably be located or accommodated entirely within the priority development area;

(iii) the development satisfies another requirement prescribed by regulation; and

(c) the development does not compromise the implementation of the relevant development instrument for the priority development area.

(5) If the land use plan identifies development as PDA-associated development for the priority development area, the plan must also—

(a) identify whether the development is PDA assessable development or PDA accepted development; and

(b) include a description of the land on which the development is proposed to be located; and

(c) include a description of the development, including plans and supporting documentation.
(6) Despite subsections (1) and (2), the development scheme is subject to part 4, division 2.

(7) In this section—

relevant area, in relation to a development scheme for a priority development area, means—

(a) if the scheme applies for the entire priority development area—the priority development area; or

(b) otherwise—the part of the priority development area for which the scheme applies.

58 Preparation of proposed development scheme

(1) MEDQ must, as soon as practicable, prepare a proposed development scheme for the entire priority development area, or part of the priority development area, as mentioned in section 56(1) or (2).

(2) However, before preparing the proposed scheme, MEDQ—

(a) must consult, in the way it considers appropriate, with the relevant local government; and

(b) must make reasonable endeavours to consult, in the way it considers appropriate, with any of the following MEDQ considers will be likely to be affected by the proposed development scheme—

(i) a government entity or GOC;

(ii) another person or entity.

(3) In preparing the proposed development scheme, MEDQ—

(a) must consider any relevant State interests; and

(b) must consider, but is not bound by, a requirement under any of the following relevant to the area the subject of the proposed development scheme—

(i) a planning instrument;

(ii) assessment benchmarks prescribed by regulation under the Planning Act;
(iii) assessment benchmarks made under another Act for the Planning Act.

59 Public notification

After preparing the proposed development scheme, MEDQ must—

(a) publish the proposed scheme on the department’s website; and

(b) publish, at least once in a newspaper circulating in the area of the relevant local government, a notice—

(i) stating that the proposed scheme is published on the department’s website; and

(ii) inviting persons to make submissions, within a stated period of at least 30 business days (the **submission period**), about the proposed scheme.

60 Submissions on proposed scheme

Anyone may make submissions about the proposed development scheme within the submission period.

61 Consideration of submissions

(1) MEDQ must consider any submissions received within the submission period.

(2) Subsection (1) does not prevent MEDQ from considering a submission made to it after the submission period has ended.

62 Amendment of proposed scheme

(1) After complying with section 61, MEDQ may amend the proposed development scheme in any way it considers appropriate.
(2) If MEDQ considers the amendment significantly changes the proposed scheme, it must re-comply with sections 59 to 61 for the amended scheme.

63 Making of development scheme

(1) MEDQ must, as soon as practicable after complying with sections 61 and 62—
   (a) make the development scheme; and
   (b) prepare a report that—
       (i) summarises the submissions considered by MEDQ; and
       (ii) contains information about the merits of the submissions and the extent to which the proposed development scheme was amended to reflect the submissions; and
       (iii) contains details about any changes to the proposed development scheme published under section 59.

Note—
See also the Sustainable Ports Development Act 2015, section 29 for additional requirements for making a development scheme.

(2) MEDQ must publish the report on the department’s website.

(3) Also, MEDQ must—
   (a) publish, on the department’s website, the development scheme made under subsection (1)(a); and
   (b) publish a gazette notice stating that the development scheme is published on the department’s website.

64 When development scheme takes effect

The development scheme takes effect at the beginning of the day the gazette notice under section 63(3)(b) is published.
65 Notice of development scheme

MEDQ must, as soon as practicable after the development scheme takes effect—

(a) publish, at least once in a newspaper circulating in the area of the relevant local government, a notice stating that—

(i) the scheme has been approved; and

(ii) it may be inspected on the department’s website; and

(b) give the relevant local government, and each person who made a submission received within the submission period about the scheme, a notice that—

(i) the scheme has been approved; and

(ii) MEDQ’s report about the scheme can be inspected on the department’s website.

Division 2 Amendment of development schemes

66 General power to amend

MEDQ may amend a development scheme if—

(a) the amendment does not change the land use plan for the relevant priority development area in the scheme; or

(b) the amendment is a minor administrative amendment.

Note—

See also the Sustainable Ports Development Act 2015, section 29 for additional requirements for amending a development scheme.

67 Power to amend to change land use plan

(1) MEDQ may amend a development scheme to change the land use plan for the relevant priority development area in the
scheme only if procedures under division 1 for making development schemes have been followed.

(2) Division 1 applies to the amendment as if—

(a) a reference in the division to making a development scheme were a reference to the making of the amendment; and

(b) a reference in the division to a proposed development scheme were a reference to the proposed amendment; and

(c) a reference in section 59(b)(ii) to 30 business days were a reference to 15 business days.

(3) To remove any doubt, it is declared that an amendment mentioned in subsection (1) may be made even if it is materially detrimental to someone’s interests.

(4) In this section—

\textit{change}, a land use plan, includes replace the land use plan.

68 \hspace{1cm} \textbf{When amendment takes effect}

An amendment of a development scheme takes effect at the beginning of the day the gazette notice under section 63(3)(b), as applied under section 67(2), is published in relation to the amendment.

69 \hspace{1cm} \textbf{Notice of amendment}

As soon as practicable after an amendment of a development scheme takes effect, MEDQ must publish, at least once in a newspaper circulating in the area of the relevant local government, a notice stating that—

(a) the scheme has been amended; and

(b) the amended scheme is published on the department’s website.
Division 3  Miscellaneous provisions

71  Development instruments prevail over particular instruments

(1) If there is a conflict between a development instrument and any of the following instruments, the development instrument prevails to the extent of the inconsistency—

(a) a planning instrument;
(b) assessment benchmarks prescribed by regulation under the Planning Act;
(c) assessment benchmarks made under another Act for the Planning Act.

(2) In this section—

development instrument means—

(a) a draft provisional land use plan; or
(b) a provisional land use plan; or
(c) an interim land use plan; or
(d) a development scheme.

Part 4  Development and uses in or for priority development areas

Division 1  PDA development offences

72  Application of div 1

This division applies subject to division 2.
73 **Carrying out PDA assessable development without PDA development permit**

(1) A person must not carry out PDA assessable development without a PDA development permit for the development.

Maximum penalty—1,665 penalty units.

*Note—*

See also section 164 in relation to the liability of an executive officer of a corporation for an offence against this subsection committed by the corporation.

(2) Despite subsection (1), the maximum penalty is 17,000 penalty units if the PDA assessable development is—

(a) the demolition of a building identified in a relevant development instrument as a building of cultural heritage significance; or

(b) on a Queensland heritage place under the *Queensland Heritage Act 1992*.

75 **Compliance with PDA development approval**

A person must not contravene a PDA development approval.

Maximum penalty—1,665 penalty units.

*Note—*

See also section 164 in relation to the liability of an executive officer of a corporation for an offence against this section committed by the corporation.

76 **Offence about use of premises**

A person must not use premises in a priority development area, or premises subject to PDA-associated development for a priority development area, unless the use is a lawful use of the premises.

Maximum penalty—1,665 penalty units.
Note—
See also section 164 in relation to the liability of an executive officer of a corporation for an offence against this section committed by the corporation.

Division 2 Protection of particular uses and rights

77 Exemption for particular development approvals and designations under Planning Act

(1) This section applies to—
(a) a development approval under the Planning Act for land in a priority development area—
   (i) granted under section 44(2); or
   (ii) continued in force under section 45; and
(b) a designation under the Planning Act of premises in, or partly in, a priority development area.

(2) The carrying out of development or the use of premises under the approval or designation is not a PDA development offence.

78 Lawful uses of premises protected

(1) This section applies if—
(a) a relevant development instrument, or an amendment of a relevant development instrument, takes effect for a priority development area; and
(b) immediately before the instrument or amendment took effect, either of the following was a lawful use of premises—
   (i) a use of premises in the priority development area;
Economic Development Act 2012
Chapter 3 Planning and development

(ii) a use of premises as a consequence of a material change of use that was PDA-associated development for the priority development area.

(2) Neither the relevant development instrument nor the amendment can—
(a) stop the use from continuing; or
(b) further regulate the use; or
(c) require the use to be changed.

79 Lawfully constructed buildings and works protected
To the extent a building has been lawfully constructed or works lawfully carried out, neither a relevant development instrument nor an amendment of a relevant development instrument can require the building or works to be altered or removed.

80 Amendment of relevant development instrument does not affect existing development approval under Planning Act or PDA development approval
(1) This section applies if—
(a) a PDA development approval, or a development approval under the Planning Act for premises in a priority development area, is in effect; and
(b) after the approval is given, the relevant development instrument for the area is amended.
(2) To the extent the approval has not lapsed, the amendment does not stop or further regulate the relevant development, or otherwise affect the approval.

81 Development or use carried out in emergency
(1) A person does not commit a PDA development offence if—
(a) the person carries out development or a use of premises because of an emergency endangering—
(i) the life or health of a person; or
(ii) the structural safety of a building; or
(iii) the operation or safety of infrastructure that is not a building; and

(b) the person gives notice of the development or use that would otherwise be a PDA development offence to MEDQ as soon as practicable after starting the development or use.

(2) However, subsection (1) does not apply if the person is required by an enforcement order to stop carrying out the development or use.

(3) In this section—

emergency means an event or situation that involves an imminent and definite threat requiring immediate action (whether before, during or after the event or situation), other than routine maintenance due to wear and tear.

Example of an action not done because of an emergency—

the carrying out, in winter, of a use or of building or operational work in anticipation of the next cyclone season

Division 3 PDA development applications

Subdivision 1 Making application

82 How to make application

(1) Each PDA development application must—

(a) be made to MEDQ in the approved form; and
(b) contain, or be accompanied by, the consent of the owner of the relevant land, other than to the extent the application is for operational work; and
(c) be accompanied by the application fee decided by MEDQ.
Note—
A single application may be made for both a PDA preliminary approval and a PDA development permit.

(2) The application is a properly made application only if—
(a) it complies with subsection (1); or
(b) MEDQ receives and, after considering any noncompliance with subsection (1), accepts the application.

(3) A provision of this division applies to a PDA development application only if it is a properly made application.

Subdivision 2 Processing application

83 Information requests to applicant
(1) MEDQ may, by notice (an information request), ask the applicant to, within a stated period of at least 20 business days, give further stated information relevant to the application that MEDQ needs to decide the application.

(2) However, an information request can not be made more than 20 business days after the making of the application.

(3) If the applicant does not comply with the request within the stated period or a longer period agreed between the applicant and MEDQ, MEDQ may refuse the application.

(4) However, MEDQ may refuse the application only if it has given the applicant at least 10 business days notice of its intention to do so.

84 Notice of application
(1) This section applies only if—
(a) the relevant development instrument for the relevant priority development area requires public notice of PDA development applications for the relevant development; or
(b) the relevant development is—

(i) PDA-associated development declared for the relevant priority development area by MEDQ under section 40C(1); and

(ii) PDA assessable development; or

(c) MEDQ, within 20 business days after the making of the application, gives the applicant notice that the applicant must comply with this section.

(2) The applicant must—

(a) publish a notice about the application in a newspaper circulating in the area of the relevant local government; and

(b) place the notice on the relevant land in the way prescribed under a regulation; and

(c) give a copy of the notice to—

(i) MEDQ; and

(ii) the owners of all land that adjoins the relevant land; and

(iii) each entity MEDQ requires the applicant to give a copy to.

(3) However, if an information request has been given for the application, the steps under subsection (2) must not start until the applicant has complied with the request.

(4) The notice must—

(a) state that—

(i) the applicant has made a PDA development application; and

(ii) the application may be inspected on the department’s website; and

(b) describe the relevant land; and

(c) generally describe the relevant development; and
(d) invite anyone to make submissions to MEDQ about the application within a stated period (the submission period); and
(e) state that the making of a submission does not give rise to a right of appeal against a decision about the application.

(5) The submission period—
(a) must not start before subsection (2) is complied with; and
(b) must be at least 20 business days; and
(c) must not include any business day from 20 December in a particular year to 5 January in the following year, both days inclusive.

(6) A requirement under subsection (2)(c)(iii) may be made only if MEDQ considers the entity has an interest in the outcome of the application.

85 Deciding application generally

(1) MEDQ can not decide the application unless MEDQ is satisfied—
(a) if an information request has been made for the application—the request has been complied with; and
(b) if section 84 applies for the application—the applicant has complied with the section; and
(c) the submission period for the application has ended; and
(d) if the relevant development is in a provisional priority development area for which the relevant development instrument is a draft provisional land use plan—
   (i) the development is categorised under a relevant local categorising instrument as accepted development; or
   (ii) both of the following apply—
(A) the development is categorised under a relevant local categorising instrument as assessable development requiring code assessment;

(B) if the development were assessed against the assessment benchmarks applying for the development under the relevant local categorising instrument, it would comply with all the assessment benchmarks.

(2) Subject to section 83(3), MEDQ must decide the application within 40 business days after it is satisfied as mentioned in subsection (1).

(3) However, a failure to comply with subsection (2) does not prevent MEDQ from deciding the application.

(4) MEDQ must decide to—

(a) grant all or part of the PDA development approval applied for; or

(b) grant all or part of the PDA development approval applied for subject to conditions decided by MEDQ (each a PDA development condition); or

(c) refuse to grant a PDA development approval.

(5) To remove any doubt, it is declared that—

(a) MEDQ may give a PDA preliminary approval even though the applicant sought a PDA development permit; and

(b) if MEDQ approves only part of an application, the balance of the application is taken to have been refused.

(6) In this section—

relevant local categorising instrument, in relation to relevant development in a provisional priority development area, means a local categorising instrument within the meaning of the Planning Act that applies for the area to which the application relates.
86 Restrictions on granting approval

(1) MEDQ can not grant the PDA development approval applied for if the relevant development would be inconsistent with the relevant development instrument for the relevant priority development area unless—

(a) a preliminary approval under the Planning Act is in force for the relevant land and the relevant development would be consistent with the preliminary approval; or

(b) a PDA preliminary approval is in force for the relevant land and the relevant development would be consistent with the preliminary approval; or

(c) for a priority development area other than a provisional priority development area—there is a proposed development scheme and the relevant development would be consistent with the proposed development scheme.

(2) To remove any doubt, it is declared that subsection (1) does not require MEDQ to grant the PDA development approval only because subsection (1)(a), (b) or (c) applies.

(2A) If PDA-associated development is declared for a priority development area under section 40C(1), the development is not inconsistent with the relevant development instrument for the area only because the instrument does not identify the development or adequately provide for its assessment.

(3) In this section—

proposed development scheme, for the relevant priority development area, means a proposed development scheme, or a proposed amendment of a development scheme, for the area published under section 59, or section 59 as applied under section 67, that has not taken effect.

87 Matters to be considered in making decision

(1) In deciding the application, MEDQ must consider—

(a) the main purpose of this Act; and
(b) any relevant State interest; and

(c) any submissions made to it about the application, during the submission period; and

(d) the following instruments—

(i) for an application for development in, or PDA-associated development for, a provisional priority development area—

(A) if a provisional land use plan is in effect for the area when the application is decided—the provisional land use plan; or

(B) otherwise—the draft provisional land use plan for the area;

(ii) for an application for development in, or PDA-associated development for, another priority development area—

(A) if a development scheme is in effect for the area when the application is decided—the development scheme; or

(B) if a development scheme is not in effect for the area when the application is decided, but there is a proposed development scheme for the area—the interim land use plan for the area and the proposed development scheme; or

(C) if a development scheme is not in effect for the area when the application is decided and there is no proposed development scheme for the area—the interim land use plan for the area; and

(e) any PDA preliminary approval in force for the relevant land; and

(f) any preliminary approval under the Planning Act in force for the relevant land.
(2) Also, in deciding an application for development in, or PDA-associated development for, a priority development area other than a provisional priority development area, if—

(a) there is—

(i) a development scheme or interim land use plan for the area; and

(ii) a proposed development scheme for the area; and

(b) the proposed development scheme was prepared after the development scheme or interim land use plan took effect;

MEDQ may, subject to section 86, give the weight it considers appropriate to the proposed scheme.

(3) In deciding an application for PDA-associated development for a priority development area, MEDQ may, subject to section 86, give the weight it considers appropriate to any of the following instruments that would, under the Planning Act, have regulated the development if it were not PDA-associated development for the area—

(a) a planning instrument that applies to the relevant land;

(b) assessment benchmarks for the development prescribed by regulation under the Planning Act;

(c) assessment benchmarks for the development made under another Act for the Planning Act.

(4) Subsection (1)(c) does not prevent MEDQ from considering a submission about the application made to it after the submission period has ended.

(5) Subsection (6) applies for deciding an application for development in, or PDA-associated development (other than PDA-associated development declared under section 40C(1)) for, a priority development area if—

(a) more than 1 development scheme, or more than 1 interim land use plan, is in effect for the area; or

(b) 1 or more development schemes and 1 or more interim land use plans are in effect for the area.
(6) A reference in subsection (1)(d)(ii) or (2) to the development scheme, proposed development scheme or interim land use plan for the priority development area is—

(a) for an application for development in the priority development area—a reference to the development scheme, proposed development scheme or interim land use plan that applies or is proposed for the part of the area in which the development is to be carried out; or

(b) for an application for PDA-associated development (other than PDA-associated development declared under section 40C(1)) for the priority development area—a reference to the development scheme, proposed development scheme or interim land use plan that identifies the development as PDA-associated development.

(7) In this section—

proposed development scheme, for a priority development area, means a proposed development scheme, or a proposed amendment of a development scheme, for the area published under section 59, or section 59 as applied under section 67, that has not taken effect.

88 PDA development conditions

Without limiting section 85(4), a PDA development condition may—

(a) nominate a stated entity to be the nominated assessing authority for the condition; or

(b) relate to infrastructure, and the payment of charges or the surrender of land for infrastructure, for any priority development area; or

(c) require compliance with an infrastructure agreement that relates to the relevant land; or

(d) require the making of stated improvements to the relevant land; or
(e) impose a condition or restriction on a disposal of the relevant land.

89 Decision notice

(1) MEDQ must, within 5 business days after deciding the application, give notice of the decision (the decision notice) to—
   (a) the applicant; and
   (b) the relevant local government; and
   (c) if the decision was to grant a PDA development approval—any nominated assessing authority.

(2) The decision notice must—
   (a) be in the approved form; and
   (b) state the decision; and
   (c) state any PDA development conditions decided.

(3) If the decision was to refuse to grant an approval, the decision notice must state the reasons for the refusal.

(4) If the decision was to grant a PDA development approval, MEDQ must, when giving the decision notice to an entity mentioned in subsection (1), also give the entity a copy of any plans and specifications approved by MEDQ concerning the approval.

Subdivision 3 Appeals

90 Right of appeal against particular conditions

(1) This section applies if a PDA development condition includes a nominated assessing authority (the entity).

(2) The person who made the relevant PDA development application may appeal to the Planning and Environment Court against MEDQ’s decision to impose the condition.
(3) An appeal under subsection (2) must be started within 20 business days after the day the applicant is given notice of the decision.

(4) An appellant starts an appeal by lodging, with the registrar of the Planning and Environment Court, a written notice of appeal that—
   (a) is in the approved form; and
   (b) succinctly states the grounds of the appeal.

(5) The Planning and Environment Court Act 2016, part 5 applies, with necessary changes, to the appeal as if—
   (a) the appeal were a Planning Act appeal under that Act; and
   (b) the entity were the only other party to the appeal.

(6) However—
   (a) the appellant must, as soon as practicable after giving the entity the notice of appeal, give MEDQ a copy of the notice; and
   (b) MEDQ may, by lodging a notice of election with the registrar of the court, elect to become a party to the appeal.

(7) MEDQ must give the other parties a copy of the notice of election as soon as practicable after it is lodged.

Subdivision 4 Miscellaneous provisions

91 Approved material change of use required for particular developments

(1) This section applies if, when a PDA development application is made—
   (a) a structure or works, the subject of the application, may not be used unless a PDA development permit exists for the material change of use of premises for which the structure is, or works are, proposed; and
(b) there is no PDA development permit for the change of use; and
(c) approval for the material change of use has not been applied for in the application or a separate application.

(2) The application is taken also to be for the change of use.

92 Changing application

(1) A PDA development application may be changed by the applicant only if—
(a) the applicant has given MEDQ a notice stating details of the proposed change; and
(b) MEDQ has agreed in writing to the making of the change.

(2) The agreement under subsection (1)(b) may be given only if MEDQ is satisfied the change would not result in the relevant development being substantially different.

93 Withdrawing application

(1) A PDA development application may be withdrawn by the applicant by notice given to MEDQ at any time before the application is decided.

(2) MEDQ may refund all or part of any fee paid for the application.

Division 4 PDA development approvals

94 Types of PDA development approvals

(1) A PDA preliminary approval is a PDA development approval that—
(a) approves development, but does not authorise PDA assessable development to take place; and
(b) approves development—
   (i) to the extent stated in the approval; and
   (ii) subject to the conditions of the approval.

(2) A PDA development permit is a PDA development approval that authorises the carrying out of PDA assessable development—
   (a) to the extent provided for under the permit; and
   (b) subject to—
      (i) the conditions of the permit; and
      (ii) any PDA preliminary approval relating to the development the permit authorises, including any conditions of the PDA preliminary approval.

(3) There is no requirement to get a PDA preliminary approval for development.

   Note—
   PDA preliminary approvals assist in the staging of approvals.

95 Duration of approval

(1) A PDA development approval has effect from when the decision notice for the relevant PDA development application is given.

(2) The relevant development may, subject to any relevant PDA development conditions, start when the approval takes effect.

(3) However, the approval ceases to have effect if it—
   (a) is cancelled under section 98; or
   (b) lapses under section 100 or 102.

96 Approval attaches to the relevant land

(1) A PDA development approval attaches to the relevant land, and binds its owner, the owner’s successors in title and any occupier of the land.
(2) To remove any doubt, it is declared that subsection (1) applies even if later development, including reconfiguring a lot, is approved for the land, or the land as reconfigured under the PDA development approval.

97 Provision for enforcement of PDA development conditions

(1) If there is a nominated assessing authority for a PDA development condition imposed on a PDA development approval, the Planning Act, chapter 5, part 3, and any other Act mentioning a development approval under the Planning Act, applies to the condition as if—

(a) the PDA development approval were a development approval under the Planning Act; and

(b) the nominated assessing authority were an enforcement authority under the Planning Act for development under the PDA development approval; and

(c) a reference in the Planning Act, chapter 5, part 3, or the other Act, to a development offence under the Planning Act were a reference to a PDA development offence.

(2) To remove any doubt, it is declared that this section does not limit or otherwise affect MEDQ’s ability to apply for an enforcement order or to start a proceeding under this Act relating to the condition.

98 Cancellation

(1) MEDQ may cancel a PDA development approval only if the owner of the relevant land consents in writing to the cancellation.

(2) However, MEDQ can not cancel the PDA development approval if the relevant development has substantially commenced.

(3) MEDQ may refund all or part of any fee paid for the relevant PDA development application.
99 Application to change PDA development approval

(1) A person may apply (the amendment application) to MEDQ to change a PDA development approval.

(2) However, the amendment application may be made only if MEDQ is satisfied the change would not result in the relevant development being substantially different.

(3) Division 3 applies for the amendment application as if—
   (a) a reference in the division to a PDA development application were a reference to the amendment application; and
   (b) a reference in the division to a PDA development approval were a reference to a changed PDA development approval; and
   (c) a reference in the division to the granting of a PDA development approval were a reference to the making of the change.

(4) Despite subsection (3), section 84(2) to (6) applies for the amendment application only in a circumstance mentioned in section 84(1)(c).

(5) If the person is not the owner of the relevant land for the PDA development approval, the amendment application must be accompanied by the owner’s consent.

100 When approval lapses generally

(1) This section applies subject to section 102(5) and any extension granted under section 102.

(2) A PDA development approval lapses at the end of its currency period unless—
   (a) for development that is a material change of use—the change of use happens before the currency period ends; or
   (b) for development that is reconfiguring a lot—the plan for the reconfiguration of the lot is given to MEDQ for its approval before the currency period ends; or
(3) To the extent the PDA development approval is for development other than a material change of use or reconfiguring a lot, its currency period is—
(a) generally—2 years from the day the approval takes effect (the day of effect); or
(b) if the approval states a different period—the stated period.

(4) To the extent the PDA development approval is for development that is a material change of use, its currency period is—
(a) 6 years from the day of effect; or
(b) if the approval states a different period—the stated period.

(5) To the extent the PDA development approval is for development that is reconfiguring a lot, its currency period is—
(a) 4 years from the day of effect; or
(b) if the approval states a different period—the stated period.

101 Application to extend currency period

(1) Before a PDA development approval lapses under section 100(2), a person having an interest in the relevant land may apply to MEDQ to extend the approval’s currency period applying under section 100.

(2) However, an application under subsection (1) can not be made for a PDA development approval for a provisional priority development area.

(3) The application must be—
(a) in the approved form; and
(b) made before the currency period ends; and
(c) accompanied by the application fee decided by MEDQ.

102 Deciding extension application

(1) This section applies if an application for an extension is made under section 101.

(2) Before granting or refusing the extension, MEDQ must consult with each nominated assessing authority under the PDA development approval.

(3) MEDQ must grant or refuse the extension within—
(a) generally—20 business days after the making of the application; or
(b) if, during the 20 business days, MEDQ and the applicant agree on a longer period—the longer period.

(4) MEDQ must, within 5 business days after making the decision, give notice of the decision to the applicant and each nominated assessing authority under the PDA development approval.

(5) Despite section 100, the PDA development approval does not lapse until MEDQ has given the applicant the notice under subsection (4).

(6) If the decision was to refuse the extension, the notice must state the reasons for the refusal.

Division 5 Miscellaneous provisions

103 Restriction on particular land covenants

A covenant under the Land Title Act 1994, section 97A(3)(a) or (b) or the Land Act 1994, section 373A(4) for land in a priority development area is of no effect to the extent the covenant is inconsistent with the relevant development instrument for the area.
104 Plans of subdivision

(1) This section applies to a plan of subdivision if, under another Act, the plan requires MEDQ’s approval, in whatever form, before the plan can be registered or otherwise recorded under that Act.

(2) In deciding whether to approve the plan of subdivision, MEDQ must comply with the process prescribed by regulation for approving plans of subdivision.

(3) In this section—

(b) if MEDQ has started a proceeding under this section for an enforcement order and the court has not decided the proceeding—for an order under section 106.

(2) A proceeding for an enforcement order may be started whether or not anyone’s right has been, or may be, infringed by, or because of, the commission of the offence.
106 Making interim enforcement order

(1) The Planning and Environment Court may make an order pending a decision of a proceeding for an enforcement order if the court is satisfied it would be appropriate to make the order.

(2) The court may make the order subject to conditions.

(3) However, a condition can not require MEDQ to give an undertaking about damages.

107 Making enforcement order

(1) The Planning and Environment Court may make an enforcement order if the court is satisfied the relevant offence—

(a) is being, or has been, committed; or

(b) will be committed unless the enforcement order is made.

(2) If the court is satisfied the offence is being or has been committed, it may make the order whether or not there has been a prosecution for the offence.

108 Effect of enforcement order

(1) An enforcement order may direct a party to the proceeding for the order—

(a) to stop an activity that constitutes, or will constitute, a PDA development offence; or

(b) not to start an activity that will constitute a PDA development offence; or

(b) whether or not the relevant person has previously failed to do a thing of the same type; and

(c) whether or not there is danger of substantial damage to property or the environment or injury to another person if the relevant person fails, or continues to fail, to do the thing.
(3) The court may cancel or change an enforcement order on the application of MEDQ or the person against whom the order is made.

(4) The court’s powers under this section are in addition to, and do not limit, its other powers.

Maximum penalty—1,665 penalty units or 1 year’s imprisonment.

Note—See also section 164 in relation to the liability of an executive officer of a corporation for an offence against this section committed by the corporation.

Division 3 Other provisions relating to court orders or proceedings

113 MEDQ’s power to remedy stated public nuisance

(1) This section applies if an enforcement order or an order under section 111 states that contravention of the order is a public nuisance.
(2) If the order is not complied with, MEDQ may undertake any work necessary to remove the nuisance.

(3) If MEDQ carries out works under subsection (2), it may recover from the person against whom the order was made the reasonable cost of the works, as a debt.

114 Planning and Environment Court may make declarations

(1) MEDQ may bring a proceeding in the Planning and Environment Court for a declaration about—
   (a) a matter done, to be done or that should have been done for this chapter or the repealed ULDA Act; or
   (b) the construction of this chapter or the repealed ULDA Act; or
   (c) the lawfulness of land use or development relating to a priority development area.

(2) The court may make an order about a declaration made under subsection (1).

(3) Subsection (4) applies to a proceeding mentioned in subsection (1) if the land to which the proceeding relates ceases to be in, or to be PDA-associated land for, a priority development area.

(4) To remove any doubt, it is declared that the proceeding is not affected only because the land has ceased to be in, or to be PDA-associated land for, a priority development area.

Part 6 Particular charges

Division 1 Special rates or charges

115 Levying special rates or charges

(1) MEDQ may make and levy on owners or occupiers of rateable land in a priority development area, or rateable land that is
PDA-associated land for a priority development area, a special rate or charge on the land if—

(a) the rate or charge is for a service, facility or activity provided by MEDQ, or by a local government or someone else at MEDQ’s request; and

(b) in MEDQ’s opinion—

(i) the land, or the owner or occupier of the land, has or will specially benefit from, or has or will have special access to, the service, facility or activity; or

(ii) the owner or occupier of the land, or the use made or to be made of the land, has, or will, specially contribute to the need for the service, facility or activity.

(2) The special rate or charge may be made and levied on the bases MEDQ considers appropriate.

Note—
See also section 117 in relation to the recovery of a special rate or charge.

(3) MEDQ may fix a minimum amount of the special rate or charge.

(4) Without limiting subsection (2), the amount of the special rate or charge may vary according to the extent to which, in MEDQ’s opinion—

(a) the land, or the owner or occupier of the land, has or will specially benefit from, or has or will have special access to, the service, facility or activity; or

(b) the owner or occupier of the land, or the use made or to be made of the land, has, or will, specially contribute to the need for the service, facility or activity.

(5) MEDQ’s instrument making the special rate or charge must identify—

(a) the rateable land to which the rate or charge applies; and

(b) the overall plan for the supply of the service, facility or activity.
(6) The overall plan must—
   (a) be adopted by MEDQ either before, or at the same time as, MEDQ first makes the special rate or charge; and
   (b) identify the rateable land to which the rate or charge applies; and
   (c) describe the service, facility or activity; and
   (d) state the estimated cost of implementing the overall plan; and
   (e) state the estimated time for implementing the overall plan.

(7) MEDQ may identify parcels of rateable land to which the rate or charge applies in any way MEDQ considers appropriate.

(8) Subsection (1) is taken to have been complied with if the special rate or charge is made and levied on—
   (a) all rateable land that, at the time of making and levying the rate or charge, could reasonably be identified as land on which the rate or charge may be made and levied; or
   (b) all rateable land on which the rate or charge may be made and levied, other than land accidentally omitted.

116 Application of special rate or charge

(1) A special rate or charge collected for a particular service, facility or activity must be used for that purpose.

(2) However, the special rate or charge need not be held in trust.

Division 2 Infrastructure expenses recoupment charges

116A Definitions for div 2

In this division—
charge area means 1 of the following identified in an
authorising instrument—
(a) a single priority development area;
(b) a part of a single priority development area;
(c) an area consisting of 2 or more priority development
areas, or parts of 2 or more priority development areas,
in the same local government area;
(d) PDA-associated land for a priority development area.

provision, of infrastructure, includes coordination of the
provision of the infrastructure.

116B Making and levying charge

(1) Subsection (2) applies if MEDQ incurs, or reasonably expects
to incur, an expense for the provision of infrastructure in
relation to land in a charge area.

(2) MEDQ may, by instrument (the authorising instrument),
make and levy on owners of rateable land in the charge area a
charge (an infrastructure expenses recoupment charge) on
the rateable land to recoup, or provide for payment of, the
expense.

(3) However, subsection (2) does not apply if—
(a) the infrastructure is a facility or service for which a
special rate or charge has been made and levied; or
(b) the expense is recouped or provision is made for
payment of the expense, other than by levying the
charge.

(4) Subsection (2) is taken to have been complied with if the
charge is made and levied on—
(a) all rateable land that, at the time of making and levying
the charge, could reasonably be identified as land on
which the charge may be made and levied; or
(b) all rateable land on which the charge may be made and
levied, other than land accidentally omitted.
(5) To remove any doubt, it is declared that subsection (2) applies even if MEDQ incurred, or reasonably expected to incur, the expense for the provision of infrastructure in relation to the land before the land was in a charge area.

### 116C Requirements for authorising instrument

(1) The authorising instrument for an infrastructure expenses recoupment charge must—

(a) identify—

(i) the charge area to which the charge relates; and

(ii) the rateable land to which the charge applies; and

(iii) the overall plan for the provision of the infrastructure to which the charge relates; and

(b) state—

(i) the amount of the charge for the residential land in the charge area; and

(ii) the way the amount of the charge for the non-residential land in the charge area is worked out; and

(iii) the rate, by reference to a stated index that is relevant to the estimated cost of the provision of infrastructure, by which the amount of the charge can be increased; and

(iv) the intervals at which the amount of the charge can be increased.

(2) The overall plan must—

(a) describe the infrastructure to which the charge relates; and

(b) state the estimated expenses and time for the provision of the infrastructure.

(3) MEDQ may identify parcels of rateable land to which the charge applies in any way MEDQ considers appropriate.
(4) In this section—

non-residential land means rateable land other than residential land.

residential land means rateable land for which a residential use under a development scheme is provided.

116D Basis and amount of charge

(1) An infrastructure expenses recoupment charge may be made and levied on the bases MEDQ considers appropriate.

Note—

See also section 117 in relation to the recovery of the charge.

(2) Without limiting subsection (1), MEDQ may—

(a) fix a minimum amount of the charge; or

(b) decide whether a discount for payment of the charge applies and the amount and terms of any discount.

(3) However, an infrastructure expenses recoupment charge may be increased by no more than the rate, and only at the intervals, stated in the authorising instrument for the charge.

116E Making and levying of charge by superseding public sector entity

(1) This section applies if—

(a) MEDQ has made and levied an infrastructure expenses recoupment charge to recoup an incurred expense, or provide for the payment of an expected expense, for the provision of infrastructure (the planned infrastructure) in relation to land (the relevant land) in a charge area consisting of the whole or part of a priority development area or PDA-associated land for a priority development area; and

(b) the relevant land ceases to be in, or to be PDA-associated land for, a priority development area.
(2) However, this section does not apply for an expense that MEDQ has recouped.

(3) On and after the cessation—

(a) the infrastructure expenses recoupment charge is taken to have been made and levied by the superseding public sector entity for the infrastructure; and

(b) the superseding public sector entity may continue to make and levy the infrastructure expenses recoupment charge.

(4) For subsection (3)(b), this division, other than section 116B(1) and (5) and this section, applies as if a reference in the division to MEDQ were a reference to the superseding public sector entity.

(5) However, to remove any doubt, it is declared that subsections (3)(b) and (4) do not authorise the superseding public sector entity to make and levy an infrastructure expenses recoupment charge to recoup or provide for an expense, other than for the provision of the planned infrastructure.

Division 3  Recovery of relevant charges

116F Definitions for div 3

In this division—

charge notice see section 116G(1).

charging entity means—

(a) for an infrastructure expenses recoupment charge made and levied, or taken to have been made and levied, by a superseding public sector entity—the public sector entity; or

(b) otherwise—MEDQ.

relevant charge means—
(a) a special rate or charge; or
(b) an infrastructure expenses recoupment charge.

116G Charge notice

(1) The charging entity must give the owner of each parcel of rateable land on which a relevant charge is levied notice of the charge (a charge notice).

(2) The charge notice must state—
   (a) the rateable land and the relevant charge; and
   (b) the amount of the charge payable; and
   (c) the due date for payment of the charge; and
   (d) if a discount for the charge applies—
      (i) the terms of the discount; and
      (ii) the last day of the discount period; and
   (e) the ways in which the charge may be paid.

(3) The charge notice may form part of another notice given by the charging entity to the owner of the land.

   Example of another notice given by a charging entity—
   a rate notice given by a local government

117 Recovery of relevant charge

(1) A relevant charge does not become owing until 20 business days after the owner of the land on which the charge is levied is given a charge notice for the charge.

(2) If there is more than 1 owner of the land, all the owners are jointly and severally liable to pay the amount.

(3) If the amount becomes owing under subsection (1), the charging entity may recover it from the owner as a debt.

(4) Also, the charging entity may recover the amount from the owner for the time being of the land.
(5) If the charging entity may recover the amount under this section, the local government overdue rates or charges provisions apply for the amount as if—

(a) the relevant charge were a rate or charge under the *Local Government Act 2009* or the *City of Brisbane Act 2010* on the land to which the relevant charge applies; and

(b) a reference in the provisions to overdue rates and charges were a reference to the amount; and

(c) a reference in the provisions to a local government or the council were a reference to the charging entity; and

(d) a reference in the provisions to the chief executive officer of a local government or the council were a reference to the following—

(i) if the charging entity is MEDQ—MEDQ;

(ii) if the charging entity is a superseding public sector entity—the chief executive or chief executive officer of the entity.

(6) For land on which a special rate or charge is levied, a reference in subsection (1), (2) or (3) to the owner of the land includes a reference to the occupier of the land.

(7) In this section—

*local government overdue rates or charges provisions* means—

(a) for land outside the City of Brisbane—the following provisions—

(i) the *Local Government Act 2009*, section 95;

(ii) each provision of a regulation made under the *Local Government Act 2009*, section 96; or

(b) for land in the City of Brisbane—the following provisions—

(i) the *City of Brisbane Act 2010*, section 97;

(ii) each provision of a regulation made under the *City of Brisbane Act 2010*, section 98.
Part 7  Infrastructure agreements relating to priority development areas

118 Application of pt 7

This part applies to an infrastructure agreement to which MEDQ is a party if it relates to land that is or was—

(a) in a priority development area; or
(b) PDA-associated land for a priority development area.

119 Exercise of discretion unaffected by infrastructure agreements

The infrastructure agreement is not invalid merely because its fulfilment depends on the exercise of a discretion by MEDQ about—

(a) a draft provisional land use plan or provisional land use plan for a provisional priority development area; or
(b) an interim land use plan or development scheme for another priority development area; or
(c) an existing or future PDA development application.

120 When infrastructure agreements under Planning Act apply instead of particular approvals

(1) This section applies if the infrastructure agreement is made under the Planning Act.

(2) The infrastructure agreement applies instead of a PDA development approval to the extent of any inconsistency.

(3) Subsections (4) and (5) apply if—

(a) land to which the infrastructure agreement relates ceases to be in, or to be PDA-associated land for, a priority development area; and
120A When water infrastructure agreements apply instead of particular approvals

(1) This section applies if the infrastructure agreement is a water infrastructure agreement.

(2) If the water infrastructure agreement is made on or after the commencement, the agreement applies instead of a PDA development approval to the extent of any inconsistency.

(3) Subsection (4) applies if—

(a) land to which the water infrastructure agreement relates ceases to be in, or to be PDA-associated land for, a priority development area; and

(b) part of a PDA development approval for the land becomes part of a water approval.

(4) Despite the South-East Queensland Water (Distribution and Retail Restructuring) Act 2009, section 99BRDO, the water infrastructure agreement prevails over the part of the water approval to the extent of any inconsistency only if the agreement is made on or after the commencement.
121 Infrastructure agreement continues beyond cessation of priority development area

(1) This section applies if—

(a) land ceases to be in, or to be PDA-associated land for, a priority development area; and

(b) an infrastructure agreement in relation to the land was in force immediately before the land ceased to be in, or to be PDA-associated land for, the priority development area; and

(c) MEDQ has elected not to continue to be a party to the agreement.

(2) A superseding public sector entity for infrastructure that is the subject of the infrastructure agreement, and that is being provided in relation to the land, is taken to be a party to the agreement.

(3) MEDQ's rights and responsibilities under the infrastructure agreement for the infrastructure become the rights and responsibilities of the superseding public sector entity.

(4) To remove any doubt, it is declared that sections 119, 120 and 120A continue to apply to the infrastructure agreement.

122 Consultation with public sector entities before entering into particular infrastructure agreements

(1) This section applies if a proposed infrastructure agreement would, if entered into, likely continue to apply in relation to land after the land ceases to be in, or to be PDA-associated land for, a priority development area.

(2) Before entering into the proposed infrastructure agreement, MEDQ must consult about the terms of the agreement with the entities MEDQ considers will be superseding public sector entities for infrastructure the subject of the agreement.
Part 8 MEDQ’s powers relating to priority development areas and PDA-associated development

123 Application of local government entry powers for MEDQ’s functions or powers

(1) This section applies to—

(a) land in, or a structure on, a priority development area or a lot adjoining the priority development area; or

(b) land or a structure the subject of PDA-associated development for a priority development area or a lot adjoining the land or structure.

(2) The local government entry powers provisions apply to MEDQ and each authorised employee or agent of MEDQ as if—

(a) MEDQ were a local government; and

(b) the authorised employee or agent were an employee or agent of a local government; and

(c) a reference to the local government were a reference to MEDQ; and

(d) a reference to an employee or agent of the local government were a reference to an authorised employee or agent of MEDQ; and

(e) a reference in the sections to any of the following were a reference to the performance of MEDQ’s functions or the exercise of its powers—

(i) the exercise of the jurisdiction of local government;

(ii) the exercise of a power under a local government Act;
