Current as at 1 August 2017

Reprint note

The National Gas Law is applied (with modifications) as a law of Queensland by the *National Gas (Queensland) Act 2008*. This version is the Law as it applies in Queensland—see the *National Gas (Queensland) Act 2008*, section 7. It is intended a new reprint of the National Law will be prepared by the Office of the Queensland Parliamentary Counsel when any change in the National Law takes effect.

National scheme legislation may not be entirely consistent with Queensland's current drafting style.

- (1) This section applies to a person who owns a scheme pipeline but does not provide or intend to provide pipeline services by means of that pipeline.
- (2) The person is, for the purposes of this Law, deemed to provide or intend to provide pipeline services by means of that pipeline even if the person does not, in fact, do so.

10 Things done by 1 service provider to be treated as being done by all of service provider group

- (1) This section applies if—

-
- (a) more than 1 service provider (a service provider group) carries out a controlling pipeline activity in respect of a pipeline (or a part of a pipeline); and
 - (b) under this Law or the Rules a service provider is required or allowed to do a thing.
 - (2) A service provider of the service provider group (the complying service provider) may do that thing on behalf of the other service providers of the service provider group if the complying service provider has the written permission of all of the service providers of that group to do that thing on behalf of the service provider group.
 - (3) Unless this Law or the Rules otherwise provide, on the doing of a thing referred to in subsection (2) by a complying service provider, the service providers of the service provider group on whose behalf the complying service provider does that thing, must, for the purposes of this Law and the Rules, each be taken to have done the thing done by the complying service provider.

12 Commissioning of a pipeline

A pipeline is commissioned when the pipeline is first used for the haulage of natural gas, on a commercial basis.

13 Pipeline classification criterion

- (1) The pipeline classification criterion is whether the primary function of the pipeline is to—
 - (a) reticulate gas within a market (which is the primary function of a distribution pipeline); or
 - (b) convey gas to a market (which is the primary function of a transmission pipeline).
- (2) Without limiting subsection (1), in determining the primary function of the pipeline, regard must also be had to whether the characteristics of the pipeline are those of a transmission pipeline or distribution pipeline having regard to—
 - (a) the characteristics and classification of, as the case requires, an old scheme transmission pipeline or an old scheme distribution pipeline;
 - (b) the characteristics of, as the case requires, a transmission pipeline or a distribution pipeline classified under this Law;
 - (c) the characteristics and classification of pipelines specified in the Rules (if any);
 - (d) the diameter of the pipeline;
 - (e) the pressure at which the pipeline is or will be designed to operate;
 - (f) the number of points at which gas can or will be injected into the pipeline;

- (g) the extent of the area served or to be served by the pipeline;
- (h) the pipeline's linear or dendritic configuration.

14 Jurisdictional determination criteria—cross boundary distribution pipelines

The pipeline jurisdictional determination criteria are—

- (a) whether more gas is to be delivered by a cross boundary distribution pipeline in the jurisdictional area of 1 participating jurisdiction than in the jurisdictional area of any other participating jurisdiction;
- (b) whether more customers to be served by a cross boundary distribution pipeline are resident in the jurisdictional area of 1 participating jurisdiction than in the jurisdictional area of any other participating jurisdiction;
- (c) whether more of the network for a cross boundary distribution pipeline is in the jurisdictional area of 1 participating jurisdiction than in the jurisdictional area of any other participating jurisdiction;
- (d) whether 1 participating jurisdiction has greater prospects for growth in the gas market served or to be served by a cross boundary distribution pipeline than any other participating jurisdiction;
- (e) whether the regional economic benefits from competition are likely to be greater for 1 participating jurisdiction than for any other participating jurisdiction.

15 Pipeline coverage criteria

The pipeline coverage criteria are—

- (a) that access (or increased access) to pipeline services provided by means of the pipeline would promote a material increase in competition in at least 1 market

- (whether or not in Australia), other than the market for the pipeline services provided by means of the pipeline;
- (b) that it would be uneconomic for anyone to develop another pipeline to provide the pipeline services provided by means of the pipeline;
 - (c) that access (or increased access) to the pipeline services provided by means of the pipeline can be provided without undue risk to human health or safety;
 - (d) that access (or increased access) to the pipeline services provided by means of the pipeline would not be contrary to the public interest.

16 Form of regulation factors

The form of regulation factors are—

- (a) the presence and extent of any barriers to entry in a market for pipeline services;
- (b) the presence and extent of any network externalities (that is, interdependencies) between a natural gas service provided by a service provider and any other natural gas service provided by the service provider;
- (c) the presence and extent of any network externalities (that is, interdependencies) between a natural gas service provided by a service provider and any other service provided by the service provider in any other market;
- (d) the extent to which any market power possessed by a service provider is, or is likely to be, mitigated by any countervailing market power possessed by a user or prospective user;
- (e) the presence and extent of any substitute, and the elasticity of demand, in a market for a pipeline service in which a service provider provides that service;

- (f) the presence and extent of any substitute for, and the elasticity of demand in a market for, electricity or gas (as the case may be);
- (g) the extent to which there is information available to a prospective user or user, and whether that information is adequate, to enable the prospective user or user to negotiate on an informed basis with a service provider for the provision of a pipeline service to them by the service provider.

17 Effect of separate and consolidated access arrangements in certain cases

- (1) This section applies despite anything to the contrary in this Law.
- (2) If, under this Law and the Rules, separate access arrangements are approved in an applicable access arrangement decision for pipeline services provided, or to be provided, by means of different parts of a covered pipeline, each part of the covered pipeline—
 - (a) by which pipeline services are provided; and
 - (b) to which each separate applicable access arrangement applies,must to be taken to be a separate covered pipeline for the purposes of this Law.
- (3) If under this Law and the Rules, a single access arrangement is approved in an applicable access arrangement decision for pipeline services provided, or to be provided, by means of 2 or more covered pipelines, those pipelines must be taken to be a single covered pipeline for the purposes of this Law.

18 Certain extensions to, or expansion of the capacity of, pipelines to be taken to be part of a covered pipeline

For the purposes of this Law—

- (a) an extension to, or expansion of the capacity of, a covered pipeline must be taken to be part of the covered pipeline; and
- (b) the pipeline as extended or expanded must be taken to be a covered pipeline,

if, by operation of the extension and expansion requirements under an applicable access arrangement, the applicable access arrangement will apply to pipeline services provided by means of the covered pipeline as extended or expanded.

19 Expansions of and extensions to covered pipeline by which light regulation services are provided

For the purposes of this Law, an extension to, or expansion of the capacity of, a covered pipeline by means of which light regulation services (and in respect of which there is no limited access arrangement) are provided, must be taken to be part of the covered pipeline unless the AER determines otherwise in writing.

- (1) A person must not participate in a regulated retail gas market in a registrable capacity unless registered (or exempted from registration) in accordance with the Rules.
- (2) A person may also be exempted from registration by or under jurisdictional gas legislation.
- (3) A person who participates in a regulated retail gas market in 2 or more registrable capacities must be registered (or exempted from registration) in both or all those capacities.
- (4) For performing statutory functions, AEMO is not required to be registered.

91LC Certificates of registration etc

- (1) A certificate signed by an authorised officer certifying that a person named in the certificate is registered, or exempted from registration, is evidence of the registration or exemption.
- (2) For this section, an authorised officer is AEMO's CEO or a person authorised by the CEO to issue certificates under this section.

Division 2 Retail Market Procedures

91M Retail Market Procedures

AEMO may, in accordance with the Rules, make Retail Market Procedures.

91MA Nature of Retail Market Procedures

- (1) Retail Market Procedures are a form of statutory instrument directed at the regulation of a retail gas market.
- (2) The Retail Market Procedures may deal with the following matters:
 - (a) the matters specified by the Rules;

- (b) any other matter relevant to a regulated retail gas market on which this Law or the Rules contemplate the making of Procedures.
- (3) The Retail Market Procedures—
- (a) may apply to regulated retail gas markets generally or any 1 or more of the regulated retail gas markets; and
 - (b) may vary according to the persons, times, places or circumstances to which they are expressed to apply; and
 - (c) may confer functions or powers on, or leave any matter or thing to be decided by, AEMO; and
 - (d) may confer rights or impose obligations on Registered participants, exempted participants, users, end users or other persons; and
 - (e) may require a Registered participant or an exempted participant to give an indemnity against injury, damage or loss arising from the participant's failure to comply with requirements imposed by the Procedures; and
 - (f) may confer power on AEMO to make or issue guidelines, tests, standards and other documents of an administrative nature; and
 - (g) may confer power on AEMO to require a person on whom a right is conferred, or an obligation imposed, under the Procedures—
 - (i) to comply with a guideline, standard or other document of an administrative nature; or
 - (ii) to conduct, or submit to, a test designed by AEMO under the Procedures; and
 - (h) may exempt, or confer a power of exemption, from the application of the Procedures or specified provisions of the Procedures; and
 - (i) may contain provisions of a savings or transitional nature.
- (4) AEMO must not, without the consent of the MCE, make Retail Market Procedures that confer a right or function, or

impose an obligation, on the MCE or a Minister of a participating jurisdiction.

- (5) The Retail Market Procedures cannot—
 - (a) create an offence; or
 - (b) provide for a criminal or civil penalty.

91MB Compliance with Retail Market Procedures

- (1) AEMO and each person to whom the Retail Market Procedures are applicable must comply with the Procedures.
- (2) However, if there is an inconsistency between an applicable access arrangement and the Retail Market Procedures, a person is, to the extent of the inconsistency, not required to comply with the Procedures.
- (3) If AEMO has reasonable grounds to suspect a breach of the Retail Market Procedures, it must, after making such inquiries and investigation as it considers appropriate, make a decision as to whether the breach is a material breach.
- (4) If AEMO decides the breach is material, AEMO—
 - (a) must publish the decision and the reasons for it on its website; and
 - (b) may direct the person suspected of the breach to rectify it or to take specified measures to ensure future compliance (or both); and
 - (c) may refer the breach to the AER.
- (5) A direction by AEMO under subsection (4)(b) must—
 - (a) specify the breach; and
 - (b) specify the date by which the direction is to be complied with; and
 - (c) be addressed to, and given to, the person suspected of the breach.
- (6) A person to whom a direction is given under subsection (4)(b) must comply with the direction.

-
- (7) AEMO must give a copy of its decision under subsection (3), its reasons for the decision and (if relevant) any direction under subsection (4)(b) to the AER.
- (8) If AEMO decides the breach is not material, AEMO must—
- (a) publish the decision and the reasons for it on its website; and
 - (b) give a copy of the decision and the reasons for it to the AER.

Note—

AEMO may provide the AER with relevant information (including protected information) related to a suspected breach of the Procedures. (For disclosure of protected information, see section 91GC(2)(b).)

Chapter 3 Coverage and classification of pipelines

Part 1 Coverage of pipelines

Division 1 Coverage determinations

92 Application for recommendation that a pipeline be a covered pipeline

- (1) Any person may apply for a determination that a pipeline be a covered pipeline (a coverage determination).
- (2) An application for a coverage determination—
- (a) is to be made to the NCC in accordance with the Rules; and
 - (b) must contain the information required by the Rules; and

- (c) must be accompanied by the fee prescribed by the Regulations (if any).

93 Application to be dealt with in accordance with the Rules

Subject to section 94, on receiving an application under section 92 the NCC must deal with it in accordance with the Rules.

94 NCC may defer consideration of application in certain cases

- (1) This section applies if an application under section 92 is made in relation to a proposed pipeline after—
 - (a) an application has been made to the AER under the Rules for the approval, by the AER, of the tender process for the construction and operation of the proposed pipeline as a competitive tender process; or
 - (b) a tender approval decision has been made in respect of the tender process for the construction and operation of the proposed pipeline.
- (2) The NCC may defer consideration of whether to make a recommendation in respect of the application until—
 - (a) the application for the approval, by the AER, of the tender process for the construction and operation of the proposed pipeline as a competitive tender process has been rejected by the AER under the Rules; or
 - (b) the tender approval decision—
 - (i) has been revoked under the Rules; or
 - (ii) has lapsed as provided under the Rules.

95 NCC coverage recommendation

- (1) Subject to sections 94 and 96, the NCC must recommend to the relevant Minister that the pipeline the subject of the application—

- (a) be a covered pipeline; or
- (b) not be a covered pipeline.

Note—

See also Chapter 3 Part 2 Division 1 Subdivision 1.

- (2) A recommendation under this section must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) be made within the time specified by the Rules; and
 - (c) contain the information required by the Rules; and
 - (d) be given to the persons specified by the Rules; and
 - (e) be made publicly available in accordance with the Rules.
- (3) A recommendation under this section may recommend an outcome different from the outcome sought in the application under section 92.

Example—

An applicant may apply for a determination that the whole of a pipeline be a covered pipeline. The NCC may recommend that only a part of the pipeline the subject of the application be covered or may recommend that the pipeline not be covered.

- (4) A recommendation under this section must be delivered to the relevant Minister without delay.

96 NCC must not make coverage recommendation if tender approval decision becomes irrevocable

Despite anything to the contrary in this Division, the NCC—

- (a) must not make a recommendation under section 95 if the pipeline is the subject of a tender approval decision that—
 - (i) has not lapsed as provided under the Rules; or
 - (ii) is not revoked under the Rules; and
- (b) must, for the purposes of paragraph (a), treat the application as having never been made.

97 Principles governing the making of a coverage recommendation

- (1) In making a coverage recommendation, the NCC—
 - (a) must give effect to the pipeline coverage criteria; and
 - (b) in deciding whether or not the pipeline coverage criteria are satisfied must have regard to the national gas objective.
- (2) The NCC gives effect to the pipeline coverage criteria as follows:
 - (a) if the NCC is satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline—the recommendation must be in favour of the pipeline being a covered pipeline;
 - (b) if the NCC is not satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline—the recommendation must be against the pipeline being a covered pipeline.

98 Initial classification decision to be made as part of recommendation

- (1) The NCC must, as part of a coverage recommendation, classify the pipeline the subject of an application under section 92 as a transmission pipeline or a distribution pipeline (an *initial classification decision*). In doing so, the NCC must apply the pipeline classification criterion.
- (2) The NCC must as part of an initial classification decision—
 - (a) if it classifies the pipeline the subject of the application as a transmission pipeline—determine whether the transmission pipeline is also a cross boundary transmission pipeline;
 - (b) if it classifies the pipeline the subject of the application as a distribution pipeline—determine whether the distribution pipeline is also a cross boundary distribution pipeline.

- (3) The NCC must also determine, as part of an initial classification decision, the participating jurisdiction with which the pipeline the subject of the application under section 92 is most closely connected if the NCC determines the pipeline is also a cross boundary distribution pipeline. In doing so, the NCC must apply the jurisdictional determination criteria.

99 Relevant Minister's determination on application

- (1) On receiving a coverage recommendation, the relevant Minister must decide whether to make a coverage determination in respect of the pipeline to which the recommendation relates.
- (2) The relevant Minister must use his or her best endeavours to make the decision within 20 business days after receiving the coverage recommendation.
- (3) If the relevant Minister is unable to make the decision within the period specified under subsection (2), he or she must make the decision as soon as reasonably practicable after the end of the specified period.
- (4) The relevant Minister, for the purpose of making the decision, may request submissions or comments in relation to an application under section 92.
- (5) A coverage determination or a decision not to make a coverage determination must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules.
- (6) In the case of a coverage determination, the determination must specify the date the determination takes effect.
- (7) A coverage determination may have an outcome different to the outcome—

- (a) sought in the application under section 92; or
- (b) of the coverage recommendation.

Example—

An applicant may apply for a determination that the whole of a pipeline be a covered pipeline. The NCC may recommend that only a part of the pipeline the subject of the application be covered. The relevant Minister may determine that different parts of the pipeline to those recommended by the NCC be covered.

100 Principles governing the making of a coverage determination or decision not to do so

- (1) In deciding whether to make a coverage determination under this Division, the relevant Minister—
 - (a) must give effect to the pipeline coverage criteria; and
 - (b) in deciding whether or not the pipeline coverage criteria are satisfied in relation to the pipeline—
 - (i) must have regard to the national gas objective; and
 - (ii) must have regard to the coverage recommendation; and
 - (iii) must take into account any submissions or comments he or she receives on a request under section 99(4); and
 - (iv) may take into account any relevant submissions and comments made to the NCC by the public under the Rules in relation to the application.
- (2) The relevant Minister gives effect to the pipeline coverage criteria as follows:
 - (a) if the relevant Minister is satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline—the Minister must make a coverage determination;
 - (b) if the relevant Minister is not satisfied that all the pipeline coverage criteria are satisfied in relation to the

pipeline—the Minister must not make a coverage determination.

101 Operation and effect of coverage determination

The pipeline the subject of a coverage determination becomes a covered pipeline—

- (a) when the coverage determination takes effect; and
- (b) continues to be a covered pipeline while the coverage determination remains in effect.

Division 2 Coverage revocation determinations

102 Application for a determination that a pipeline no longer be a covered pipeline

- (1) Any person may apply for a determination that a covered pipeline no longer be a covered pipeline (a *coverage revocation determination*).
- (2) An application for a coverage revocation determination—
 - (a) is to be made to the NCC in accordance with the Rules; and
 - (b) must contain the information required by the Rules; and
 - (c) must be accompanied by the fee prescribed by the Regulations (if any).

103 Application to be dealt with in accordance with the Rules

On receiving an application under section 102, the NCC must deal with it in accordance with the Rules.

104 NCC coverage revocation recommendation

- (1) The NCC must make a recommendation to the relevant Minister as to whether the covered pipeline the subject of the application should continue to be a covered pipeline.

Note—

See also section 119.

- (2) A recommendation under this section must—
- (a) be made in accordance with this Law and the Rules; and
 - (b) be made within the time specified by the Rules; and
 - (c) contain the information required by the Rules; and
 - (d) be given to the persons specified by the Rules; and
 - (e) be made publicly available in accordance with the Rules.
- (3) A recommendation under this section may recommend an outcome different from the outcome sought in the application under section 102.

Example—

A service provider may apply for a determination that revokes the coverage of the covered pipeline by means of which the provider provides pipeline services. The NCC may recommend that the coverage of the covered pipeline be only partly revoked or not be revoked.

- (4) A recommendation under this section must be delivered to the relevant Minister without delay.

105 Principles governing the making of a coverage revocation recommendation

- (1) In making a coverage revocation recommendation, the NCC—
- (a) must give effect to the pipeline coverage criteria; and
 - (b) in deciding whether or not the pipeline coverage criteria are satisfied must have regard to the national gas objective.

-
- (2) The NCC gives effect to the pipeline coverage criteria as follows:
- (a) if the NCC is satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline—the recommendation must be in favour of the pipeline continuing to be a covered pipeline;
 - (b) if the NCC is not satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline—the recommendation must be in favour of the pipeline no longer being a covered pipeline.

106 Relevant Minister’s determination on application

- (1) On receiving a coverage revocation recommendation, the relevant Minister must decide whether to make a coverage revocation determination in respect of the pipeline to which the recommendation relates.
- (2) The relevant Minister must use his or her best endeavours to make the decision within 20 business days after receiving the coverage revocation recommendation.
- (3) If the relevant Minister is unable to make the decision within the period specified under subsection (2), he or she must make the decision as soon as reasonably practicable after the end of the specified period.
- (4) The relevant Minister, for the purpose of making the decision, may request submissions or comments in relation to an application under section 102.
- (5) A coverage revocation determination or a decision not to make a coverage revocation determination must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules.

- (6) In the case of a coverage revocation determination, the determination must specify the date the determination takes effect.
- (7) A coverage revocation determination may have an outcome different to the outcome—
 - (a) sought in the application under section 102; or
 - (b) of the coverage revocation recommendation.

Example—

A service provider may apply for a determination that revokes the coverage of the covered pipeline by means of which the provider provides pipeline services. The NCC may recommend that the coverage of the covered pipeline be only partly revoked. The relevant Minister may make a determination that revokes coverage of different parts of the covered pipeline to those parts in relation to which the NCC recommended coverage be revoked.

107 Principles governing the making of a coverage revocation determination or decision not to do so

- (1) In deciding whether to make a coverage revocation determination under this Division, the relevant Minister—
 - (a) must give effect to the pipeline coverage criteria; and
 - (b) in deciding whether or not the pipeline coverage criteria are satisfied in relation to the pipeline—
 - (i) must have regard to the national gas objective; and
 - (ii) must have regard to the coverage revocation recommendation; and
 - (iii) must take into account any submissions or comments he or she receives on a request under section 106(4); and
 - (iv) may take into account any relevant submissions and comments made to the NCC by the public under the Rules in relation to the application.
- (2) The relevant Minister gives effect to the pipeline coverage criteria as follows:

- (a) if the relevant Minister is satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline—the Minister must not make a coverage revocation determination;
- (b) if the relevant Minister is not satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline—the Minister must make a coverage revocation determination.

108 Operation and effect of coverage revocation determination

The pipeline the subject of a coverage revocation determination ceases to be a covered pipeline when the coverage revocation determination takes effect.

Part 2 Light regulation of covered pipeline services

Division 1 Making of light regulation determinations

Subdivision 1 Decisions when pipeline is not a covered pipeline

109 Application of Subdivision

This Subdivision applies if—

- (a) an application has been made under section 92 for a coverage determination; and
- (b) the pipeline the subject of the application is not a designated pipeline.

110 NCC's decision on light regulation of pipeline services

- (1) The NCC must decide whether to make a determination that the pipeline services provided or to be provided by means of the pipeline are light regulation services (a *light regulation determination*).
- (2) The NCC must make its decision under subsection (1)—
 - (a) at the same time as it makes the coverage recommendation; and
 - (b) within the time it must make the coverage recommendation.
- (3) A light regulation determination or a decision not to make a light regulation determination must—
 - (a) be made in accordance with this Law and the Rules; and

Note—

For example, see section 122.

- (b) be attached to the coverage recommendation; and
- (c) contain the information required by the Rules.

Note—

If the NCC makes a light regulation determination, and the relevant Minister makes the coverage determination, the service provider may submit a limited access arrangement in respect of the light regulation services to the AER for approval: see section 116.

Subdivision 2 Decisions when pipeline is a covered pipeline

111 Application of Subdivision

This Subdivision applies if a service provider provides pipelines services—

- (a) by means of a covered pipeline that is not a designated pipeline; and

- (b) to which an applicable access arrangement approved or made under a full access arrangement decision applies.

112 Application

- (1) A service provider may apply to the NCC for a determination that pipeline services provided by the service provider by means of a covered pipeline be light regulation services (a *light regulation determination*).
- (2) An application must—
 - (a) be in accordance with the Rules; and
 - (b) contain the information required by the Rules.
- (3) An application may only be made in respect of all of the pipeline services provided by means of the covered pipeline.

113 Application to be dealt with in accordance with the Rules

On receiving an application under section 112, the NCC must deal with it in accordance with the Rules.

114 NCC's decision on light regulation of pipeline services

- (1) The NCC must decide whether to make a light regulation determination within—
 - (a) 4 months after receiving an application under section 112; or
 - (b) if the Rules specify a later period, that period.
- (2) A light regulation determination or a decision not to make a light regulation determination must—
 - (a) be made in accordance with this Law and the Rules; and

Note—
For example, see section 122.

 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and

- (d) be made publicly available in accordance with the Rules.

Note—

If the NCC makes a light regulation determination, the service provider may submit a limited access arrangement in respect of the light regulation services to the AER for approval: see section 116.

Subdivision 3 Operation and effect of light regulation determinations

115 When light regulation determinations take effect

- (1) A light regulation determination takes effect—
 - (a) in the case of a light regulation determination made under Subdivision 1—on the day the relevant coverage determination takes effect;
 - (b) in the case of a light regulation determination made under Subdivision 2—60 business days after the light regulation determination is made.
- (2) A light regulation determination continues in operation until—
 - (a) it is revoked by operation of section 117(5); or
 - (b) a decision under section 119(2) or 120 takes effect; or
 - (c) it is revoked by operation of section 123(2); or
 - (d) it is revoked by operation of section 124.

116 Submission of limited access arrangement for light regulation services

- (1) A service provider may, in respect of light regulation services the service provider provides or intends to provide, submit a limited access arrangement to the AER for approval by the AER under the Rules.

-
- (2) If the service provider chooses to submit a limited access arrangement in accordance with subsection (1), the limited access arrangement must—
 - (a) be submitted in accordance with the Rules; and
 - (b) contain the information required by the Rules.
 - (3) A service provider must submit to the AER, for approval by the AER under the Rules, revisions to an applicable access arrangement that is a limited access arrangement and that applies to the light regulation services the provider provides—
 - (a) in accordance with the Rules; and
 - (b) within the period specified by the Rules.

Division 2 Revocation of light regulation determinations

Subdivision 1 On advice from service providers

117 Advice by service provider that light regulation services should cease to be light regulation services

- (1) A service provider may advise the NCC that it wishes that the pipeline services it provides cease to be light regulation services.
- (2) An advice under subsection (1) must be in writing.
- (3) On receiving an advice under subsection (1), the NCC must, without delay, publish notice of receipt of that advice—
 - (a) on its website; and
 - (b) in a newspaper circulating generally throughout Australia.
- (4) On publication of a notice under subsection (3) the service provider must comply with section 132.

- (5) The light regulation determination applying to the pipeline services is, by force of this section, revoked on the same day that an access arrangement that applies to the pipeline services provided by that service provider is, as the case requires, approved or made under a full access arrangement decision.
- (6) On the revocation of the light regulation determination the pipeline services to which the light regulation determination applied cease to be light regulation services.

Subdivision 2 On application by persons other than service providers

118 Application (other than by service provider) for revocation of light regulation determinations

- (1) A person (other than the service provider who provides light regulation services) may apply to the NCC for the revocation of a light regulation determination relating to those services.
- (2) An application under subsection (1) must—
 - (a) be in accordance with the Rules; and
 - (b) contain the information required by the Rules.

119 Decisions on applications made around time of applications for coverage revocation determinations

- (1) This section applies if an application is made under section 118 and—
 - (a) there is an application for a coverage revocation determination under section 102 under consideration—
 - (i) in respect of the covered pipeline by means of which the light regulation services the subject of the application under section 118 are provided; and
 - (ii) in respect of which the NCC has not made a coverage revocation recommendation; or

-
- (b) an application for a coverage revocation determination is made under section 102 in respect of the covered pipeline by means of which the light regulation services the subject of the application under section 118 are provided—
 - (i) after the application under section 118; but
 - (ii) before the NCC makes its decision in respect of the application under section 118.
 - (2) Despite anything to the contrary in this Part, the NCC must make its decision in respect of the application under this section.
 - (3) On receiving the application under section 118, the NCC must decide whether to revoke the light regulation determination.
 - (4) The NCC must make its decision under subsection (3)—
 - (a) at the same time as it makes the coverage revocation recommendation; and
 - (b) within the time it must make the coverage revocation recommendation.
 - (5) A decision under subsection (3) must—
 - (a) be made in accordance with this Law and the Rules; and
Note—
For example, see section 122.
 - (b) be attached to the coverage revocation recommendation; and
 - (c) contain the information required by the Rules.

120 NCC decision on application where no application for a coverage revocation recommendation

- (1) This section applies if—
 - (a) an application is made under section 118; and
 - (b) no application for a coverage revocation determination in respect of the covered pipeline (by means of which

the light regulation services the subject of the application under section 118) are provided is made before the NCC makes its decision in respect of the application under section 118.

- (2) Subject to this section, on receiving an application under section 118 the NCC must deal with it in accordance with the Rules.
- (3) The NCC must decide whether to revoke a light regulation determination within—
 - (a) 4 months after receiving an application under section 118; or
 - (b) if the Rules specify a later period, that period.
- (4) A decision under this section must—
 - (a) be made in accordance with this Law and the Rules; and
Note—
For example, see section 122.
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules.

121 Operation and effect of decision of NCC under this Division

- (1) Subject to section 124, on the making of a decision under section 119(2) or 120 revoking a light regulation determination, the service provider must comply with section 132.
- (2) However, the decision under section 119(2) or 120 revoking a light regulation determination does not take effect until an access arrangement that applies to the pipeline services provided by that service provider is approved or made under a full access arrangement decision.

- (3) The effect of a decision under section 119(2) or 120 revoking a light regulation determination is that the pipeline services to which the light regulation determination applied cease to be light regulation services.

Division 3 Principles governing light regulation determinations

122 Principles governing the making or revoking of light regulation determinations

- (1) In deciding whether to make a light regulation determination under Division 1 or to revoke a light regulation determination under Division 2, the NCC must consider—
 - (a) the likely effectiveness of the forms of regulation provided for under this Law and the Rules to regulate the provision of the pipeline services (the subject of the application) to promote access to pipeline services; and
 - (b) the effect of the forms of regulation provided for under this Law and the Rules on—
 - (i) the likely costs that may be incurred by an efficient service provider; and
 - (ii) the likely costs that may be incurred by efficient users and efficient prospective users; and
 - (iii) the likely costs of end users.

Note—

The forms of regulation provided for under this Law and the Rules to regulate the provision of the pipeline services by means of a covered pipeline are—

- (a) making a light regulation determination so that those services become light regulation services;
 - (b) not making a light regulation determination so that those services are regulated under a full access arrangement decision that approves or makes the applicable access arrangement that applies to those services.
- (2) In doing so, the NCC—

- (a) must have regard to the national gas objective; and
- (b) must have regard to the form of regulation factors; and
- (c) may have regard to any other matters it considers relevant.

Division 4 Revocation if coverage determination not made

123 Light regulation determination revoked if coverage determination not made

- (1) This section applies if—
 - (a) a light regulation determination has been made in respect of pipeline services; but
 - (b) the pipeline by means of which those services will be provided does not become a covered pipeline because the relevant Minister, contrary to a coverage recommendation recommending coverage, makes a decision not to make a coverage determination.
- (2) The light regulation determination is, by force of this section, revoked on the same day as the relevant Minister's decision not to make a coverage determination takes effect.

Division 5 Effect of pipeline ceasing to be covered pipeline

124 Light regulation services cease to be such services on cessation of coverage of pipeline

If a pipeline by means of which light regulation services are provided ceases to be a covered pipeline because of a coverage revocation determination—

- (a) the light regulation determination applying to the light regulation services provided by means of that pipeline

is, by force of this section, revoked on the same day the coverage revocation determination takes effect; and

- (b) to avoid doubt, the light regulation services to which that determination applied cease to be light regulation services on the same day.

Division 6 AER reviews into designated pipelines

125 AER reviews

- (1) The MCE may request the AER to conduct a review into, and report to it as to, whether a pipeline should continue to be a designated pipeline.
- (2) A service provider that provides pipeline services by means of a designated pipeline may request the AER to conduct a review into, and report to the MCE as to, whether that pipeline should continue to be a designated pipeline.
- (3) A request under subsection (1) or (2) must be in writing.
- (4) On receiving a request under this section, the AER must conduct a review as to whether the pipeline the subject of the request should continue to be a designated pipeline.
- (5) In conducting a review under this section, the AER must—
 - (a) have regard to—
 - (i) the national gas objective; and
 - (ii) whether there has been a material change in competition in a market served by the designated pipeline; and
 - (b) consult, in accordance with the Rules, with the public.
- (6) On the completion of a review under this section, the AER must prepare a report and—
 - (a) give the report to the MCE; and
 - (b) publish the report on its website.

- (7) The AER must also give a copy of the report to the service provider that has requested the review.

Part 3 Coverage of pipelines the subject of tender process

126 Tender approval pipelines deemed to be covered pipelines

- (1) A pipeline to which a tender approval decision relates is deemed to be a covered pipeline on and from the date the tender approval decision becomes irrevocable by operation of the Rules.
- (2) The pipeline ceases to be a covered pipeline—
 - (a) if there is an applicable access arrangement that applies to the pipeline services provided, or that are to be provided by means of that pipeline—when that arrangement expires; or
 - (b) when a coverage revocation determination made in respect of that pipeline takes effect.

Note—

Under the Rules, the NCC will—

- (a) classify the pipeline to be constructed and operated in accordance with an approved tender process as a cross boundary transmission pipeline, cross boundary distribution pipeline, transmission pipeline or distribution pipeline; and
- (b) determine the relevant Minister for the purposes of that pipeline.

Part 4 Coverage following approval of voluntary access arrangement

127 Certain pipelines become covered pipelines on approval of voluntary access arrangement

- (1) This section applies if—

- (2) The application must be accompanied by the fee prescribed by the Regulations (if any).

129 Reclassification decision

- (1) The NCC must make a decision (a *reclassification decision*) within—
 - (a) 4 months after receiving an application under section 128; or
 - (b) if the Rules specify a later period, that period.
- (2) A reclassification decision must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules.
- (3) In making a reclassification decision, the NCC must have regard to—
 - (a) the national gas objective; and
 - (b) the pipeline classification criterion.
- (4) The NCC must also as part of the reclassification decision—
 - (a) if it reclassifies the pipeline the subject of the application as a transmission pipeline—determine whether the transmission pipeline is also a cross boundary transmission pipeline;
 - (b) if it reclassifies the pipeline the subject of the application as a distribution pipeline—determine whether the distribution pipeline is also a cross boundary distribution pipeline.
- (5) If, under subsection (4), the NCC determines that a pipeline reclassified as a distribution pipeline is also a cross boundary distribution pipeline, the NCC must determine the participating jurisdiction with which the cross boundary

distribution pipeline is most closely connected. In doing so, the NCC must have regard to the jurisdictional determination criteria.

130 Effect of reclassification decision

On the making of a reclassification decision—

- (a) the pipeline is, in accordance with the decision, reclassified as either a transmission pipeline or distribution pipeline; and
- (b) the relevant Minister in respect of the pipeline is the relevant Minister as provided under this Law.

Chapter 4 General requirements for provision of covered pipeline services

Part 1 General duties for provision of pipeline services by covered pipelines

131 Service provider must be legal entity of a specified kind to provide pipeline services by covered pipeline

A covered pipeline service provider must not provide a pipeline service by means of a covered pipeline unless the service provider is—

- (a) a legal entity registered under the *Corporations Act 2001* of the Commonwealth; or
- (b) a foreign company; or

- (c) a corporation established by or under a law of this jurisdiction or another participating jurisdiction, whether or not that corporation has been established for a public purpose; or
- (d) the Crown in right of this jurisdiction or another participating jurisdiction; or
- (e) a person referred to in paragraph (a) to (d) and that person provides a pipeline service by means of a covered pipeline together with another person referred to in paragraph (a) to (d).

132 Submission of full access arrangement or revisions to applicable full access arrangements

- (1) A covered pipeline service provider must submit to the AER, for approval by the AER under the Rules, a full access arrangement or revisions to an applicable access arrangement that is a full access arrangement, in respect of the pipeline services the provider provides or intends to provide—
 - (a) in the circumstances specified by the Rules; and
 - (b) within the period of time specified by the Rules.
- (2) Subsection (1) does not apply—
 - (a) if the pipeline services that are, or are intended to be, provided by the service provider light regulation services; or
 - (b) to the extent the Rules provide subsection (1) is not to apply.

Note—

A service provider who provides or intends to provide pipeline services by means of an international pipeline to which a price regulation applies must submit a limited access arrangement to the AER for approval: see section 168.

133 Preventing or hindering access

- (1) A person who is—

-
- (a) a covered pipeline service provider; or
 - (b) a person who—
 - (i) is a party to an agreement with a service provider relating to a pipeline service provided by means of a covered pipeline; or
 - (ii) as a result of an access determination is entitled to a pipeline service provided by means of a covered pipeline; or
 - (c) an associate of a service provider or a person referred to in paragraph (b),

must not engage in conduct for the purpose of preventing or hindering the access of another person to a pipeline service provided by means of the covered pipeline.

- (2) For the purposes of subsection (1), a person is deemed to engage in conduct for a particular purpose if—
 - (a) the conduct is or was engaged in for that purpose or for a purpose that includes, or included, that purpose; and
 - (b) that purpose is or was a substantial purpose.
- (3) A person may be taken to have engaged in conduct for the purpose referred to in subsection (1) even though, after all the evidence has been considered, the existence of that purpose is ascertainable only by inference from the conduct of the person or of any other person or from other relevant circumstances.
- (4) Subsection (3) does not limit the manner in which the purpose of a person may be established for the purpose of subsection (1).
- (5) In this section—
 - (a) a reference to engaging in conduct is a reference to doing or refusing to do any act, including refusing to supply a pipeline service or, without reasonable grounds, limiting or disrupting a pipeline service, or making, or giving effect to, a provision of, a contract or arrangement, arriving at, or giving effect to, a provision

- of, an understanding or requiring the giving of, or giving, a covenant;
- (b) a reference to refusing to do an act includes a reference to—
- (i) refraining (otherwise than inadvertently) from doing that act; or
- (ii) making it known that that act will not be done.
- (6) Subsection (1) does not apply to conduct engaged in in accordance with an agreement, if the agreement was in force on 30 March 1995.

Example—

An example of conduct which may be prohibited if the requisite purpose is established is refusing to supply, or limiting or disrupting the supply of, a pipeline service to a user or prospective user for technical or safety reasons without reasonable grounds.

134 Supply and haulage of natural gas

- (1) If a producer states terms and conditions (whether or not including the price) (the first terms) on which the producer offers to supply natural gas through a covered pipeline that is in operation at the time of the offer to a person at a place other than the exit flange of the producer's processing plant, the producer must, on request by the person, state terms and conditions (including the price, if the price was included in the first terms) (the second terms) on which the producer will supply natural gas to the person at the exit flange.
- (2) If there is a difference in the price stated in the first terms and the second terms, the producer must include in the second terms a statement of the reasons for the difference.
- (3) If the producer offers to supply natural gas to a person at a place other than the exit flange of the producer's processing plant, the producer must, on request, offer to supply the gas at the exit flange on the terms and conditions (including price) stated in accordance with this section.

135 Covered pipeline service provider must comply with queuing requirements

A covered pipeline service provider must comply with the queuing requirements of an applicable access arrangement.

136 Covered pipeline service provider providing light regulation services must not price discriminate

- (1) A covered pipeline service provider must not engage in price discrimination when providing light regulation services.
- (2) Subsection (1) does not apply if the covered pipeline service provider engages in price discrimination that is conducive to efficient service provision.

Part 2 Structural and operational separation requirements (ring fencing)

Division 1 Interpretation

137 Definitions

In this Part—

additional ring fencing requirement has the meaning given by section 143(1);

compliance date means the date that is 6 months after the date a pipeline becomes a covered pipeline;

marketing staff has the meaning given by section 138;

related business means the business of producing, purchasing or selling natural gas or processable gas, but does not include purchasing or selling of natural gas or processable gas to the extent necessary—

- (a) for the safe and reliable operation of a covered pipeline;
- or

- (b) to enable a service provider to provide balancing services in connection with a covered pipeline.

138 Meaning of marketing staff

- (1) A person is marketing staff of—
 - (a) a covered pipeline service provider, if the person—
 - (i) is an officer, employee, consultant or independent contractor or agent of the covered pipeline service provider; and
 - (ii) is directly involved in the sale, marketing or advertising of pipeline services (whether or not the person is also involved in other activities);
 - (b) an associate of a covered pipeline service provider, if the person—
 - (i) is an officer, employee, consultant or independent contractor or agent of the associate; and
 - (ii) is directly involved in the sale, marketing or advertising of pipeline services (whether or not the person is also involved in other activities).
- (2) A person is not marketing staff of a covered pipeline service provider, or an associate of a covered pipeline service provider, if—
 - (a) the person's function or role (as an officer, employee, consultant or independent contractor or agent of a covered pipeline service provider, or an associate of a covered pipeline service provider) is only to provide technical, administrative, legal and accounting services to that provider or associate; or
 - (b) the sale, marketing or advertising of pipeline services is only an incidental part of the person's function or role (as an officer, employee, consultant or independent contractor or agent of a covered pipeline service provider, or an associate of a covered pipeline service provider).

Example—

A person in the position of general manager of marketing of a covered pipeline service provider or an associate of a covered pipeline service provider would be marketing staff whereas a person in the position of chief executive officer, or chief financial officer, of a covered pipeline service provider or an associate of a covered pipeline service provider would not be marketing staff.

Division 2 Minimum ring fencing requirements

139 Carrying on of related businesses prohibited

On and after the compliance date, a covered pipeline service provider must not carry on a related business.

140 Marketing staff and the taking part in related businesses

- (1) On and after the compliance date, a covered pipeline service provider must ensure that none of its marketing staff are officers, employees, consultants, independent contractors or agents of an associate of the covered pipeline service provider that takes part in a related business.
- (2) On and after the compliance date, a covered pipeline service provider must ensure that none of its officers, employees, consultants, independent contractors or agents are marketing staff of an associate of the covered pipeline service provider that takes part in a related business.

141 Accounts that must be prepared, maintained and kept

On and after the compliance date, a covered pipeline service provider must prepare, maintain and keep—

- (a) separate accounts in respect of pipeline services provided by means of every covered pipeline owned, operated or controlled by the covered pipeline service provider; and

- (b) a consolidated set of accounts in respect of the whole of the business of the covered pipeline service provider.

Division 3 Additional ring fencing requirements

142 Division does not limit operation of Division 2

This Division does not limit Division 2.

143 AER ring fencing determinations

- (1) Subject to this Division and subject to and in accordance with the Rules, the AER may make a determination requiring a covered pipeline service provider or associate of a covered pipeline service provider named in the determination to do, or refrain from doing, a thing specified in the determination (an *additional ring fencing requirement*).
- (2) In specifying an additional ring fencing requirement the AER must have regard to the following principles:
 - (a) in the case where 1 part of the business of a covered pipeline service provider (*business unit A*) is providing pipeline services to another part of the business of the covered pipeline service provider (*business unit B*), the covered pipeline service provider must ensure that business unit A provides the pipeline services to business unit B as if business unit B were a separate unrelated entity;
 - (b) in the case where a covered pipeline service provider is providing pipeline services to an associate of the service provider, the covered pipeline service provider must ensure that those services are provided as if the associate of the covered pipeline service provider were a separate unrelated entity;
 - (c) users and prospective users should have sufficient information in order to understand whether a covered

pipeline service provider is complying with paragraph (a) or (b).

- (3) The AER must—
 - (a) notify, in writing, the covered pipeline service provider or associate named in the AER ring fencing determination of the making of that determination; and
 - (b) give the covered pipeline service provider or associate a copy of the AER ring fencing determination.
- (4) An AER ring fencing determination must specify the date on and after which the covered pipeline service provider or associate of a covered pipeline service provider must do, or refrain from doing, a thing specified in the determination (a *notified compliance date*).
- (5) A notified compliance date must not be a date that is earlier than 10 business days after the date the covered pipeline service provider or associate of a covered pipeline service provider is given a copy of the AER ring fencing determination.
- (6) A covered pipeline service provider or associate of a covered pipeline service provider must comply with every additional ring fencing requirement specified in an AER ring fencing determination on and after the notified compliance date.

144 AER to have regard to likely compliance costs of additional ring fencing requirements

In making an AER ring fencing determination the AER must have regard to the likely costs that may be incurred by, as the case requires—

- (a) an efficient covered pipeline service provider; or
- (b) an efficient associate of a covered pipeline service provider,

in complying with an additional ring fencing requirement specified in the determination.

145 Types of ring fencing requirements that may be specified in an AER ring fencing determination

Without limiting what may be specified as an additional ring fencing requirement, the AER, in an AER ring fencing determination, may require a covered pipeline service provider to—

- (a) ensure that its business and business activities are conducted, structured and arranged in the particular manner specified;

Example 1

An AER ring fencing determination may require the covered pipeline service provider to ensure that persons employed or engaged by the covered pipeline service provider in relation to the provision of pipeline services are not also associates, or employed by associates, of the covered pipeline service provider that take part in a related business and how this must be effected.

Example 2

An AER ring fencing determination may require the covered pipeline service provider to put in place electronic, physical and procedural security measures in respect of the offices and computer systems of the covered pipeline service provider, and of the offices and computer systems of its associates, so that certain specified employees or persons engaged by the covered pipeline service provider do not have access to certain specified information.

- (b) in a specified manner, disclose, to the AER and to the public, specified information in a specified manner about its business operations, structure and arrangements, and its business activities.

Division 4 AER ring fencing exemptions

146 Exemptions from minimum ring fencing requirements

- (1) A covered pipeline service provider may, in accordance with the Rules, apply to the AER for an exemption from—
 - (a) the requirement under section 139; or

-
- (b) a requirement under section 140; or
 - (c) the requirement under section 141.
- (2) On receiving an application under subsection (1), the AER, subject to and in accordance with the Rules, may exempt a covered pipeline service provider from—
- (a) the requirement under section 139; or
 - (b) a requirement under section 140; or
 - (c) the requirement under section 141.

Division 5 Associate contracts

147 Service provider must not enter into or give effect to associate contracts that have anti-competitive effect

A covered pipeline service provider must not—

- (a) enter into an associate contract that has; or
- (b) vary an associate contract so that contract, as varied, has; or
- (c) give effect to a provision of an associate contract that has,

the purpose, or would have or be likely to have the effect, of substantially lessening competition in a market for natural gas services unless—

- (d) that associate contract is an approved associate contract; or
- (e) that provision is contained in an approved associate contract.

148 Service provider must not enter into or give effect to associate contracts inconsistent with competitive parity rule

- (1) A covered pipeline service provider must not—

- (a) enter into an associate contract that is; or
 - (b) vary an associate contract so that contract, as varied, is; or
 - (c) give effect to a provision of an associate contract that is, inconsistent with the competitive parity rule unless—
 - (d) that associate contract is an approved associated contract; or
 - (e) that provision is contained in an approved associate contract.
- (2) For the purposes of subsection (1), and any Rules made for the purposes of that subsection, the competitive parity rule is the rule that a covered pipeline service provider must ensure that any pipeline services that the covered pipeline service provider provides to an associate of the covered pipeline service provider are provided to that associate as if that associate were a separate unrelated entity.

Chapter 5 Greenfields pipeline incentives

Part 1 Interpretation

149 Definitions

In this Chapter—

excluded infrastructure, in relation to a pipeline, means tanks, reservoirs, machinery, equipment or other infrastructure that forms part of the pipeline but is classified by the Rules as excluded infrastructure for the purposes of this Law;

greenfields pipeline project means a project for the construction of—

- (a) a pipeline that is to be structurally separate from any existing pipeline (whether or not it is to traverse a route different from the route of an existing pipeline); or
- (b) a major extension to an existing pipeline that is not a covered pipeline; or
- (c) a major extension to a covered pipeline by means of which light regulation services are provided if that extension is exempted by the AER under section 19.

150 International pipeline to be a transmission pipeline for purposes of Chapter

An international pipeline is, for the purposes of this Chapter, a transmission pipeline.

Part 2 15-year no-coverage determinations

151 Application for 15-year no-coverage determination for proposed pipeline

- (1) If a greenfields pipeline project is proposed, or has commenced, the service provider may, before the pipeline is commissioned, apply for a determination (a 15-year no-coverage determination) exempting the pipeline from being a covered pipeline.
- (2) If a price regulation exemption has been granted for an international pipeline, an application for a 15-year no-coverage determination for the pipeline may be made by the service provider—
 - (a) before the pipeline is commissioned; or
 - (b) after the pipeline is commissioned but before the term of the price regulation exemption comes to an end.
- (3) An application for a 15-year no-coverage determination—
 - (a) is to be made to the NCC; and

- (b) must include a description of the pipeline that meets the requirements specified by the Rules; and
 - (c) must contain the information required by the Rules; and
 - (d) need not describe, or include details of, excluded infrastructure; and
 - (e) must be accompanied by the fee prescribed by the Regulations (if any).
- (4) In this section—
- service provider* includes a person that intends to be a service provider.

152 Application to be dealt with in accordance with the Rules

On receiving an application under section 151, the NCC must deal with it in accordance with the Rules.

153 No-coverage recommendation

- (1) The NCC must make a recommendation recommending to the relevant Minister that the pipeline the subject of the application—
- (a) be exempted from being a covered pipeline for a period of 15 years; or
 - (b) not be exempted from being a covered pipeline for a period of 15 years.
- (2) A recommendation under this section must—
- (a) be made in accordance with this Law and the Rules; and
 - (b) be made within the time specified by the Rules; and
 - (c) contain the information required by the Rules; and
 - (d) be given to the persons specified by the Rules; and
 - (e) be made publicly available in accordance with the Rules.

- (3) A recommendation under this section may recommend an outcome different to the outcome sought in the application under section 151.

Example—

An applicant may apply for a 15-year no-coverage determination in relation to the whole pipeline. The NCC may recommend that only a part of the pipeline the subject of the application be subject to a 15-year no-coverage determination.

- (4) A recommendation under this section must be delivered to the relevant Minister without delay.

154 Principles governing the making of a no-coverage recommendation

- (1) In making a no-coverage recommendation, the NCC—
 - (a) must give effect to the pipeline coverage criteria; and
 - (b) in deciding whether or not the pipeline coverage criteria are satisfied must have regard to the national gas objective.
- (2) The NCC gives effect to the pipeline coverage criteria as follows:
 - (a) if the NCC is satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline the recommendation must be against making a 15-year no-coverage determination;
 - (b) if the NCC is not satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline the recommendation must be in favour of making a 15-year no coverage determination.

155 Initial classification decision to be made as part of recommendation

- (1) If the pipeline the subject of an application under section 151 is not an international pipeline, the NCC must, as part of a no-coverage recommendation, classify the pipeline as a transmission pipeline or a distribution pipeline (an *initial*

classification decision). In doing so, the NCC must apply the pipeline classification criterion.

- (2) The NCC must as part of an initial classification decision—
 - (a) if it classifies the pipeline the subject of the application as a transmission pipeline—determine whether the transmission pipeline is also a cross boundary transmission pipeline; or
 - (b) if it classifies the pipeline the subject of the application as a distribution pipeline—determine whether the distribution pipeline is also a cross boundary distribution pipeline.
- (3) The NCC must also determine, as part of an initial classification decision, the participating jurisdiction with which the pipeline the subject of the application under section 151 is most closely connected if the NCC determines the pipeline is also a cross boundary distribution pipeline. In doing so, the NCC must have regard to the jurisdictional determination criteria.

156 Relevant Minister's determination on application

- (1) On receiving a no-coverage recommendation the relevant Minister must decide whether or not to make a 15-year no-coverage determination in respect of the pipeline to which the recommendation relates.
- (2) The relevant Minister must use his or her best endeavours to make the decision within 30 business days after receiving the coverage recommendation.
- (3) If the relevant Minister is unable to make the decision within the period specified under subsection (2), he or she must make the decision as soon as reasonably practicable after the end of the specified period.
- (4) The relevant Minister, for the purpose of making the decision, may request submissions or comments in relation to an application under section 151.

-
- (5) A 15-year no-coverage determination or a decision not to make a 15-year no-coverage determination must—
- (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules.
- (6) A 15-year no-coverage determination may have an outcome different to the outcome—
- (a) sought in the application under section 151; or
 - (b) of the no-coverage recommendation.

Example—

An applicant may apply for a 15-year no-coverage determination in relation to the whole pipeline. The NCC may recommend that only a part of the pipeline the subject of the application be subject to a 15-year no-coverage determination. The relevant Minister may make a 15-year no-coverage determination that applies to different parts of the pipeline to those recommended by the NCC be subject to the determination.

157 Principles governing the making of a 15-year no-coverage determination or decision not to do so

- (1) In deciding whether to make a 15-year no-coverage determination under this Part, the relevant Minister—
- (a) must give effect to the pipeline coverage criteria; and
 - (b) in deciding whether or not the pipeline coverage criteria are satisfied in relation to the pipeline—
 - (i) must have regard to the national gas objective; and
 - (ii) must have regard to the no-coverage recommendation; and
 - (iii) must take into account any submissions or comments he or she receives on a request under section 156(4); and

- (iv) may take into account any relevant submissions and comments made to the NCC by the public under the Rules in relation to the application.
- (2) The relevant Minister gives effect to the pipeline coverage criteria as follows:
 - (a) if the Minister is satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline the Minister must not make a 15-year no-coverage determination;
 - (b) if the Minister is not satisfied that all the pipeline coverage criteria are satisfied in relation to the pipeline the Minister must make a 15-year no-coverage determination.

158 Effect of 15-year no-coverage determination

- (1) A 15-year no-coverage determination—
 - (a) takes effect on and from the date specified in the determination; and
 - (b) continues in operation for a period of 15 years from the commissioning of the pipeline.
- (2) An application for coverage of a pipeline to which a 15-year no-coverage determination applies can be made before the end of the period for which the determination remains in operation only if the coverage sought in the application is to commence from, or after, the end of that period.

159 Consequences of Minister deciding against making 15-year no-coverage determination for international pipeline

- (1) If—
 - (a) the Commonwealth Minister decides against making a 15-year no-coverage determination for an international pipeline; and

- (b) the applicant asks the Commonwealth Minister to treat the application as an application for a price regulation exemption,

the Commonwealth Minister may treat the application as an application for a price regulation exemption under Chapter 5 Part 3.

- (2) If the Commonwealth Minister decides to treat an application for a 15-year no-coverage determination as an application for a price regulation exemption, the Commonwealth Minister may—
- (a) refer the application to the NCC for a recommendation under Chapter 5 Part 3; or
- (b) proceed to determine the application without a recommendation under Chapter 5 Part 3.

Part 3 Price regulation exemptions

Division 1 Application for price regulation exemption

160 Application for price regulation exemption

- (1) If a greenfields pipeline project for construction of an international pipeline is proposed, or has commenced, the service provider may, before the pipeline is commissioned, apply for a price regulation exemption for the pipeline.
- (2) An application for a price regulation exemption—
- (a) is to be made to the NCC; and
- (b) must include a description of the pipeline that meets the requirements specified by the Rules; and
- (c) must contain the information required by the Rules; and
- (d) need not describe, or include details of, excluded infrastructure; and

- (e) must be accompanied by the fee prescribed by the Regulations (if any).
- (3) In this section—
service provider includes a person that intends to be a service provider.

Division 2 Recommendations by NCC

161 Application to be dealt with in accordance with the Rules

On receiving an application under section 160, the NCC must deal with it in accordance with the Rules.

162 NCC's recommendation

- (1) The NCC must make a recommendation to the Commonwealth Minister as to whether the Minister should grant a price regulation exemption for the pipeline the subject of the application.
- (2) A recommendation under this section must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) be made within the time specified by the Rules; and
 - (c) contain the information required by the Rules; and
 - (d) be given to the persons specified by the Rules; and
 - (e) be made publicly available in accordance with the Rules.
- (3) A recommendation under this section must be delivered to the Commonwealth Minister without delay.

163 General principle governing NCC's recommendation

- (1) In making its recommendation on an application for a price regulation exemption, the NCC must weigh the benefits to the

public of granting the exemption against the detriments to the public.

- (2) In doing so, the NCC—
 - (a) must have regard to the national gas objective with particular reference to—
 - (i) the implications of the exemption for relevant markets (including the effect on market power); and
 - (ii) other possible effects on the public interest; and
 - (b) may have regard to any other relevant matter.

Division 3 Making and effect of price regulation exemption

164 Making of price regulation exemption

- (1) On receiving the NCC's recommendation under section 162, the Commonwealth Minister must decide whether to grant a price regulation exemption.
- (2) The Commonwealth Minister must use his or her best endeavours to make the decision within 10 business days after receiving the NCC's recommendation.
- (3) If the Commonwealth Minister is unable to make the decision within the period specified under subsection (2), he or she must make the decision as soon as reasonably practicable after the end of the specified period.
- (4) A decision under this section must—
 - (a) be made in accordance with this Law and the Rules; and
 - (b) contain the information required by the Rules; and
 - (c) be given to the persons specified by the Rules; and
 - (d) be made publicly available in accordance with the Rules.

165 Principles governing the making of a price regulation exemption

- (1) In deciding whether to make a decision to grant a price regulation exemption, the Commonwealth Minister must weigh the benefits to the public of granting the exemption against the detriments to the public.
- (2) In doing so, the Commonwealth Minister—
 - (a) must have regard to the national gas objective with particular reference to—
 - (i) the implications of the exemption for relevant markets (including the effect on market power); and
 - (ii) other possible effects of the exemption on the public interest; and
 - (b) must have regard to the NCC's recommendation; and
 - (c) may take into account any relevant submissions and comments made to the NCC by the public under the Rules in relation to the application; and
 - (d) may have regard to any other relevant matter.

166 Conditions applying to a price regulation exemption

A price regulation exemption granted under this Part is subject to the following conditions:

- (a) the service provider must publish on its website prices for the provision of pipeline services by means of the international pipeline; and
- (b) the service provider's limited access arrangement and the register of spare capacity are to be accessible on the service provider's website; and
- (c) the service provider—
 - (i) must, as and when required by the AER or the Commonwealth Minister, provide information requested by the AER or the Commonwealth

Minister (in a manner and form determined or approved by the AER or the Commonwealth Minister) on access negotiations and the result of access negotiations; and

- (ii) must report annually to the AER and the Commonwealth Minister (in a manner and form approved by the AER or the Commonwealth Minister) on access negotiations and the result of access negotiations.

Note—

See also sections 168 and 169(3).

167 Effect of price regulation exemption

- (1) If a price regulation exemption is granted, then for a period of 15 years from the commissioning of the pipeline, the services provided by means of the pipeline are not subject to price or revenue regulation under this Law or the Rules.
- (2) A price regulation exemption is, however, ineffective unless a limited access arrangement, approved by the AER, is in force in relation to the relevant pipeline.

Note—

See also section 168.

- (3) If, while a price regulation exemption remains in force, the Commonwealth Minister makes a 15-year no-coverage determination for the pipeline, the 15-year no-coverage determination supersedes the price regulation exemption (which is then terminated) and remains in force for the balance of the period for which the exemption was granted.
- (4) An application for coverage of a pipeline to which a price regulation exemption applies can only be made before the end of the period of exemption if the coverage sought in the application is to commence from, or after, the end of that period.

Division 4 Limited access arrangements

168 Limited access arrangements for pipeline services provided by international pipeline to which a price regulation exemption applies

- (1) A service provider must, within 60 business days after the grant of a price regulation exemption, submit a limited access arrangement to the AER for approval by the AER under the Rules.
- (2) A limited access arrangement must—
 - (a) be submitted in accordance with the Rules; and
 - (b) contain the information required by the Rules.
- (3) A service provider must submit to the AER, for approval by the AER under the Rules, revisions to an applicable access arrangement that is a limited access arrangement and that applies to the pipeline service to which that arrangement applies—
 - (a) in accordance with the Rules; and
 - (b) within the period specified by the Rules.

Division 5 Other matters

169 Other obligations to which service provider is subject

- (1) The service provider for a pipeline to which a price regulation exemption applies is subject to the following provisions as if the pipeline were a covered pipeline:
 - (a) Chapter 4 Part 1 (except sections 132 and 136); and
 - (b) Chapter 4 Part 2.
- (2) The service provider for a pipeline to which a price regulation exemption applies must comply with any Rules that—

-
- (a) relate to the facilitation of, and request for access to, pipeline services provided by means of that pipeline; and
 - (b) apply to the service provider or a class of person of which the service provider is a member.
- (3) A service provider must ensure compliance with conditions to which the price regulation exemption is subject.

Note—

See also section 160.

170 Service provider must not price discriminate in providing international pipeline services

- (1) A service provider must not, when providing pipeline services—
 - (a) by means of an international pipeline to which a price regulation exemption applies; and

- (2) Subsection (1) does not apply if the service provider engages in price discrimination that is conducive to efficient service provision.

Part 4 Extended or modified application of greenfields pipeline incentive

171 Requirement for conformity between pipeline description and pipeline as constructed

- (1) Subject to this Part—
 - (a) a greenfields pipeline incentive applies to the pipeline as described in the relevant pipeline description; and

- (b) if the pipeline, as constructed, materially differs from the pipeline as described in the relevant pipeline description, the incentive does not attach to the pipeline and the service provider is not entitled to its benefit.
- (2) In determining whether a pipeline, as constructed, materially differs from the relevant pipeline description, excluded infrastructure is not to be taken into account.
- (3) In this section—
relevant pipeline description means a description of a pipeline required to be included in an application under section 151 or 160.

172 Power of relevant Minister to amend pipeline description

- (1) The relevant Minister may, on application by the service provider for a pipeline for which a greenfields pipeline incentive has been granted, amend the relevant pipeline description.
- (2) An amendment cannot, however, be made under this section after the pipeline has been commissioned.
- (3) The relevant Minister—
 - (a) may refer an application for amendment to a pipeline description to the NCC for advice; and
 - (b) if the amendment sought involves a substantial change to the pipeline description as it currently exists must refer the application to the NCC for advice.
- (4) In giving its advice to the relevant Minister, the NCC must have regard to the criteria that were relevant to the grant of the greenfields pipeline incentive.
- (5) In deciding whether to make the amendment sought, the relevant Minister—

-
- (b) if the application has been referred to the NCC for advice must consider the NCC's advice.

Part 5 Early termination of greenfields pipeline incentive

173 Greenfields pipeline incentive may lapse

176 Revocation for breach of condition to which a price regulation exemption is subject

The Commonwealth Minister, on application by the AER, may revoke a price regulation exemption on the ground that the service provider has breached a condition to which the price regulation exemption is subject.

177 Exhaustive provision for termination of greenfields pipeline incentive

A greenfields pipeline incentive does not terminate, and cannot be revoked, before the end of its term except as provided in this Part.

Chapter 6 Access disputes—scheme pipelines

Part 1 Interpretation and application

178 Definitions

In this Chapter—

access dispute means a dispute between a user or prospective user and a service provider about 1 or more aspects of access to a pipeline service provided by means of a scheme pipeline;

access dispute pipeline means a scheme pipeline used or that could be used to provide a pipeline service that is the subject of an access dispute;

dispute hearing means a hearing conducted by the dispute resolution body for the purpose of making an access determination;

party, in relation to an access dispute, has the meaning given by section 183.

178A Application of this Chapter to disputes arising under the Rules

The provisions of this Chapter applicable to the determination of an access dispute apply, subject to such modifications as may be specified in the Rules, to the determination of any

dispute arising under any provision of the Rules specified in the Rules for the purposes of the section.

179 Chapter does not limit how disputes about access may be raised or dealt with

This Chapter is not to be taken to limit how a dispute about access to a pipeline service may be raised or dealt with.

180 No price or revenue regulation for access disputes relating to international pipeline services

An access dispute notified under this Chapter in relation to a pipeline service provided by means of an international pipeline to which a price regulation exemption applies must not be resolved under this Chapter on terms—

- (a) regulating the price at which a service is to be provided by the service provider; or
- (b) limiting the revenue to be derived by the service provider from the provision of a service.

Part 2 Notification of access dispute

181 Notification of access dispute

- (1) Subject to this section, if a prospective user or user is unable to agree with a service provider about 1 or more aspects of access to a pipeline service provided or to be provided by means of a scheme pipeline, the prospective user, user or service provider may notify the dispute resolution body, in writing, that an access dispute exists.

Note—

A dispute about access to a light regulation service may be notified under this section because light regulation services are pipeline services provided by means of a covered pipeline (which is a scheme pipeline).

- (2) A notification must be accompanied by the fee prescribed by the Regulations (if any).

- (3) On receiving a notification under subsection (1), the dispute resolution body must notify, in writing, of the access dispute—
 - (a) the service provider, if a prospective user or user (as the case requires) notified the dispute resolution body of the access dispute under subsection (1);
 - (b) the prospective user or user (as the case requires), if the service provider notified the dispute resolution body of the access dispute under subsection (1).

182 Withdrawal of notification

- (1) The person who notified the dispute resolution body of an access dispute under section 181(1) may withdraw that notification at any time before the dispute resolution body makes an access determination in respect of that access dispute.
- (2) The notification must be withdrawn by notice in writing.
- (3) If the notification is withdrawn, it must be taken, for the purposes of this Chapter, never to have been given.

183 Parties to an access dispute

The parties to an access dispute are—

- (a) the person notifying the dispute resolution body of an access dispute under section 181(1); and
- (b) a person notified by the dispute resolution body under section 181(3); and
- (c) if the dispute resolution body is of the opinion that the resolution of the access dispute may involve requiring another person to do something—that other person; and
- (d) any other person who applies in writing to be made a party and is accepted by the dispute resolution body as having a sufficient interest.

Part 3 Access determinations

184 Determination of access dispute

- (1) Unless the dispute resolution body terminates an access dispute under section 186, the dispute resolution body must make a determination on access by the prospective user or user, as the case requires.
- (2) In making an access determination the dispute resolution body must comply with this Chapter and the Rules.
- (3) An access determination must—
 - (a) be in writing; and
 - (b) include a statement of reasons for making the determination; and
 - (c) be given to the parties without delay.
- (4) An access determination has effect on and after the date specified in the determination.

185 Dispute resolution body may require parties to mediate, conciliate or engage in an alternative dispute resolution process

- (1) The dispute resolution body may require the parties, in accordance with the Rules, to mediate, conciliate or engage in another alternative dispute resolution process for the purpose of resolving the dispute.
- (2) A party must comply with a requirement under subsection (1).

186 Dispute resolution body may terminate access dispute in certain cases

- (1) The dispute resolution body may at any time terminate an access dispute (without making an access determination) if the dispute resolution body considers that—
 - (a) the notification of the access dispute was vexatious; or

- (b) the subject matter of the dispute is trivial, misconceived or lacking in substance; or
 - (c) the party who notified the access dispute had, but did not avail itself of, an opportunity to engage in negotiations in good faith with the other party before that notification; or
 - (d) a specified dispute termination circumstance has occurred.
- (2) Subject to section 188, the dispute resolution body may also terminate an access dispute (without making an access determination) if the dispute resolution body considers that the aspect of access about which there is a dispute is expressly or impliedly dealt with under a contract between, as the case requires—
- (a) the prospective user and service provider;
 - (b) the user and service provider.
- (3) In this section—

specified dispute termination circumstance means a circumstance specified by the Rules as being a circumstance, the occurrence of which, entitles the dispute resolution body to terminate an access dispute (without making an access determination).

187 No access determination if dispute resolution body considers there is genuine competition

Despite anything to the contrary in this Chapter, the dispute resolution body may refuse to make an access determination that requires the service provider to provide a particular pipeline service to a prospective user or user if the dispute resolution body considers that the pipeline service the subject of the access dispute could be provided on a genuinely competitive basis by a person other than the service provider or an associate of the service provider.

188 Restrictions on access determinations

- (1) The dispute resolution body must not make an access determination that would have any of the following effects:
 - (a) preventing a user obtaining a sufficient amount of a pipeline service under a contract or previous access determination to be able to meet the user's reasonably anticipated requirements, measured at the time the access dispute was notified;
 - (b) preventing a prospective user or user from obtaining, by the exercise of a pre-notification right, a sufficient amount of a pipeline service to be able to meet the prospective user's or user's actual requirements;
 - (c) depriving a person of a relevant protected contractual right.
- (2) In this section—

pre-notification right means a right under a contract, or under an access determination, that was in force at the time when the access dispute was notified under section 181;

relevant exclusivity right means an express contractual right that arose on or after 30 March 1995 that—

- (a) prevents a service provider supplying pipeline services to persons who are not parties to the contract; or
- (b) limits or controls a service provider's ability to supply pipeline services to persons who are not parties to the contract,

but does not include a user's contractual right to obtain a certain amount of pipeline services;

relevant protected contractual right means a right under a contract (other than a relevant exclusivity right) that was in force immediately before the notification of an access dispute under section 181.

189 Access determination must give effect to applicable access arrangement

Subject to sections 190 and 191 and any Rules made for the purposes of this Part, the dispute resolution body must, in making an access determination, give effect to the applicable access arrangement—

- (a) applying to the pipeline services provided, or to be provided, by means of the access dispute pipeline; and
- (b) in effect at the time the determination is made,
(even though that arrangement may not have been in force when notification of the access dispute was given).

190 Access determinations and past contributions of capital to fund installations or the construction of new facilities

- (1) In making an access determination, the dispute resolution body may (where relevant) take into account past contributions of capital to fund installations or the construction of new facilities.
- (2) Without limiting section 74, the Rules may—
 - (a) specify the matters that the dispute resolution body must address in making that access determination;
 - (b) specify the content of that access determination.

191 Rules may allow determination that varies applicable access arrangement for installation of a new facility

- (1) This section applies if the dispute resolution body is proposing to make an access determination that will require—
 - (a) a service provider to install or construct a new facility to expand the capacity of the access dispute pipeline; and
 - (b) the prospective user or user who is a party to the access dispute to contribute some or all of the capital to fund the installation or construction of the new facility.
- (2) Without limiting section 74, the Rules may—

- (a) confer a function or power on the dispute resolution body to, when making the access determination, vary the applicable access arrangement; and
- (b) specify the matters that the dispute resolution body must address in making that access determination; and
- (c) specify the kinds of variations that may be made to the applicable access arrangement; and
- (d) specify the content of that access determination.

192 Access determinations need not require the provision of a pipeline service

An access determination may, but need not, require a service provider to provide a pipeline service to a prospective user.

193 Content of access determinations

Subject to this Chapter, an access determination may deal with any matter relating to the provision of a pipeline service to a prospective user or user.

Example—

An access determination may require the service provider to provide a pipeline service to the prospective user or user at—

- (a) a specified tariff, rate or charge; and
- (b) on specified terms and conditions.

Part 4 Variation of access determinations

194 Variation of access determination

- (1) The dispute resolution body may vary an access determination on the application of any party to the determination. However, it cannot vary the final determination if any other party objects.

Note—

If the parties cannot agree on a variation, a new access dispute can be notified under section 181.

- (2) Section 188 applies to a variation under this section as if—

 - (b) preventing a prospective user or user from obtaining, by the exercise of a pre-notification right, a sufficient amount of a pipeline service to be able to meet the prospective user's or user's actual requirements;

 - (b) the terms and conditions on which access is to be granted should be governed by an existing contract or determination.
- (3) The arbitrator may also at any time terminate an arbitration if the arbitrator considers that a specified dispute termination circumstance has occurred.
- (4) In subsection (3), a *specified dispute termination circumstance* is a circumstance specified by the Rules as being a circumstance, the occurrence of which, entitles the arbitrator to terminate an access dispute without any further step being taken.

- (2) The arbitration is terminated under this section by giving notice of termination to—

248 Tribunal must not grant leave unless serious issue to be heard and determined etc

Subject to this Division, the Tribunal must not grant leave to apply under section 245(1) unless it appears to the Tribunal—

- (a) that there is a serious issue to be heard and determined as to whether a ground for review set out in section 246(1) exists; and
- (b) in the case of a designated reviewable regulatory decision—that the applicant has established a prima facie case that a determination made by the Tribunal varying the designated reviewable regulatory decision, or setting aside the designated reviewable regulatory decision and a fresh decision being made by the AER following remission of the matter to the AER by the Tribunal, on the basis of 1 or more grounds raised in the application, either separately or collectively, would, or would be likely to, result in a materially preferable designated NGO decision.

249 Leave must be refused if application is about an error relating to revenue amounts below specified threshold

- (1) This section applies if—
 - (a) leave to apply under section 245(1) is about an error in a designated reviewable regulatory decision that is a full access arrangement decision; and
 - (b) the ground for review relied on by the applicant relates to the amount of revenue that may be earned by a covered pipeline service provider that is specified in or derived from that decision.
- (2) Despite section 248, the Tribunal must not grant leave to apply under section 245(1) even if there is a serious issue to be heard and determined as to whether a ground for review set out in section 246(1) exists unless the amount that is specified in or derived from the decision exceeds the lesser of \$5,000,000 or 2% of the average annual regulated revenue of the covered pipeline service provider.

250 Tribunal must refuse to grant leave if submission not made or is made late

The Tribunal must not grant leave to apply under section 245(1) to a *person or body* referred to in paragraph (b), (c) or (d) of the definition of affected or interested person or body in section 244 if that person or body—

- (a) did not make a submission or comment in relation to the making of the reviewable regulatory decision under review following an invitation to do so under this Law or the Rules; or
- (b) did make a submission or comment in relation to the making of the reviewable regulatory decision under review following an invitation to do so under this Law or the Rules but that submission—
 - (i) was not made within the time required under this Law or the Rules following that invitation; and
 - (ii) was not taken into account in the making of the decision.

251 Tribunal may refuse to grant leave to service provider in certain cases

- (1) This section applies—
 - (a) in relation to an application under section 245(1) by a service provider for a review of a reviewable regulatory decision that applies to the service provider; and
 - (b) if the Tribunal is satisfied of the matters set out in section 248 or 249 to grant leave to apply under section 245(1).
- (2) Despite being satisfied of the matters set out in section 248 or 249 to grant leave to apply under section 245(1), the Tribunal may refuse to grant leave to the service provider if the Tribunal is satisfied the service provider—
 - (a) without reasonable excuse—

- (i) failed to comply with a request (including a request for relevant information), or a direction made under this Law or the Rules for the purpose of making the decision; or
- (ii) conducted itself in a manner that resulted in the making of the decision being delayed; or
- (b) misled, or attempted to mislead—
 - (i) in all cases, the original decision maker on a matter relevant to the original decision maker's decision;
 - (ii) in the case of a reviewable regulatory decision that is a Ministerial coverage decision, the NCC on a matter relevant to the making of an NCC recommendation relating to the decision.

252 Effect of application on operation of reviewable regulatory decisions

An application under section 245(1)—

- (a) does not stay the operation of the following reviewable regulatory decisions:
 - (i) an applicable access arrangement decision approving or making an applicable access arrangement; or
 - (ii) an associate contract decision;
- (b) stays the operation of any other reviewable regulatory decision on the granting of leave to apply by the Tribunal, unless the Tribunal otherwise orders.

253 Intervention by others in a review without leave

Only the following persons may intervene in a review under this Division without leave of the Tribunal:

- (a) a service provider to whom the reviewable regulatory decision being reviewed applies;
- (b) a Minister of a participating jurisdiction.

254 Leave for reviewable regulatory decision process participants

- (1) The Tribunal must grant leave to a person or body to intervene in a review under this Division if that person or body is a reviewable regulatory decision process participant (other than a user or consumer intervener).
- (2) (Repealed)

255 Leave for user or consumer intervener

- (1) A user or consumer intervener may apply to the Tribunal for leave to intervene in a review of a reviewable regulatory decision under this Division.
- (2) The Tribunal may grant leave to a user or consumer intervener to intervene in a review under this Division.
- (3) Without limiting subsection (2), the Tribunal may grant leave to a user or consumer intervener to intervene in a review under this Division if the Tribunal is satisfied—
 - (a) the user or consumer intervener, in its application for leave to intervene, raises a matter that will not be raised by the original decision maker or the applicant; or
 - (b) the information or material the user or consumer intervener wishes to present, or the submissions the user or consumer intervener wishes to make, in the review are likely to be better presented or made by the user or consumer intervener rather than another party to the review; or
 - (c) the interests of the user or consumer intervener or its members are affected by the decision being reviewed.
- (4) For the purposes of subsection (3)(c)—
 - (a) the interests of a user or consumer intervener are to be taken to be affected if the reviewable regulatory decision being reviewed relates to an object or purpose of the user or consumer intervener;

- (b) the interests of a user or consumer intervener are not to be taken to not be affected only because those interests do not coincide with the interests of the applicant.

256 Interveners may raise new grounds for review

- (1) An intervener may raise in a review under this Division any of the grounds specified in section 246 even if the ground that is raised by the intervener is not raised by the applicant.
- (1a) If an intervener raises a new ground for review under subsection (1) in relation to a designated reviewable regulatory decision, the intervener must also specify the manner in which a determination made by the Tribunal varying the designated reviewable regulatory decision, or setting aside the designated reviewable regulatory decision and a fresh decision being made by the AER following remission of the matter to the AER by the Tribunal, on the basis of 1 or more grounds raised in the notice of intervention or in the application for review, either separately or collectively, would, or would be likely to, result in a materially preferable designated NGO decision.
- (2) To avoid doubt, it is for the intervener to establish the ground referred to in subsection (1) and the matter referred to in subsection (1a).

257 Parties to a review under this Division

The parties to a review under this Division are—

- (a) the applicant; and
- (b) the original decision maker whose decision is the reviewable regulatory decision being reviewed under this Division; and
- (c) an intervener.

258 Matters that parties to a review may and may not raise in a review

- (a1) This section does not apply to a designated reviewable regulatory decision (see section 258A).
- (1) An original decision maker whose decision is the reviewable regulatory decision being reviewed under this Division may, in the review, raise—
 - (a) a matter not raised by the applicant or an intervener that relates to a ground for review, or a matter raised in support of a ground for review, raised by the applicant or an intervener;
 - (b) a possible outcome or effect on the reviewable regulatory decision being reviewed that the original decision maker considers may occur as a consequence of the Tribunal making a determination setting aside or varying the reviewable regulatory decision.
- (2) A party (other than the original decision maker) to a review under this Division may not raise any matter that was not raised in submissions in relation to the reviewable regulatory decision before that decision was made.

258A Matters that may and may not be raised in a review (designated reviewable regulatory decisions)

- (1) This section applies to a designated reviewable regulatory decision.
- (2) The AER, in a review of a decision to which this section applies, may—
 - (a) respond to any matter raised by the applicant or an intervener; and
 - (b) raise any other matter that relates to—
 - (i) a ground for review; or
 - (ii) a matter raised in support of a ground for review; or

- (iii) a matter relevant to the issues to be considered under section 259(4a) and (4b).
- (3) In a review of a decision to which this section applies, the following provisions apply in relation to a person or body, other than the AER (and so apply at all stages of the proceedings before the Tribunal):
 - (a) a covered pipeline service provider that provides the pipeline services to which the decision being reviewed applies may not raise in relation to the issue of whether a ground for review exists or has been made out any matter that was not raised and maintained by the provider in submissions to the AER before the decision was made;
 - (b) a covered pipeline service provider whose commercial interests are materially affected by the decision being reviewed may not raise in relation to the issue of whether a ground for review exists or has been made out any matter that was not raised and maintained by the provider in submissions to the AER before the decision was made;
 - (c) an affected or interested person or body (other than a provider under paragraph (a) or (b)) may not raise in relation to the issue of whether a ground for review exists or has been made out any matter that was not raised by the person or body in a submission to the AER before the decision was made;
 - (d) subject to paragraphs (a), (b) and (c)—
 - (i) the applicant, or an intervener who has raised a new ground for review under section 256, may raise any matter relevant to the issues to be considered under section 259(4a) and (4b); and
 - (ii) any person or body, other than the applicant or an intervener who has raised a new ground for review under section 256, may not raise any matter relevant to the issues to be considered under section 259(4a) and (4b) unless it is in response to a matter raised by—

- (A) the AER under subsection (2)(b)(iii); or
 - (B) the applicant under subparagraph (i); or
 - (C) an intervener under subparagraph (i).
- (4) For the purposes of subsection (3)(d)—
- (a) a reference to an applicant includes a reference to a person or body who has applied to the Tribunal for leave to apply for a review under this Division; and
 - (b) a reference to an intervener includes a reference to a person or body who has applied to the Tribunal for leave to intervene in a review under this Division.

259 Tribunal must make determination

- (1) If, following an application, the Tribunal grants leave in accordance with section 245, the Tribunal must make a determination in respect of the application.

Note—

See section 260 for the time limit within which the Tribunal must make its determination.

- (2) Subject to subsections (4) and (4a), a determination under this section may—
- (a) affirm the reviewable regulatory decision; or
 - (b) vary the reviewable regulatory decision; or
 - (c) set aside the reviewable regulatory decision and remit the matter back to the original decision maker to make the decision again in accordance with any direction or recommendation of the Tribunal.
- (3) For the purposes of making a determination of the kind in subsection (2)(a) or (b), the Tribunal may perform all the functions and exercise all the powers of the original decision maker under this Law or the Rules.
- (4) In deciding whether to remit a matter back to the original decision maker to make the decision again, other than in a case where the decision is a designated reviewable regulatory

decision, the Tribunal must have regard to the nature and relative complexities of—

- (a) the reviewable regulatory decision; and
 - (b) the matter the subject of the review.
- (4a) In a case where the decision is a designated reviewable regulatory decision, the Tribunal may only make a determination—
- (a) to vary the designated reviewable regulatory decision under subsection (2)(b); or
 - (b) to set aside the designated reviewable regulatory decision and remit the matter back to the AER under subsection (2)(c),
- if—
- (c) the Tribunal is satisfied that to do so will, or is likely to, result in a decision that is materially preferable to the designated reviewable regulatory decision in making a contribution to the achievement of the national gas objective (a *materially preferable designated NGO decision*) (and if the Tribunal is not so satisfied the Tribunal must affirm the decision); and
 - (d) in the case of a determination to vary the designated reviewable regulatory decision—the Tribunal is satisfied that to do so will not require the Tribunal to undertake an assessment of such complexity that the preferable course of action would be to set aside the decision and remit the matter to the AER to make the decision again.
- (4b) In connection with the operation of subsection (4a) (and without limiting any other matter that may be relevant under this Law)—
- (a) the Tribunal must consider how the constituent components of the designated reviewable regulatory decision interrelate with each other and with the matters raised as a ground for review; and
 - (b) without limiting paragraph (a), the Tribunal must take into account the revenue and pricing principles (in the

- same manner in which the AER is to take into account these principles under section 28); and
- (c) the Tribunal must, in assessing the extent of contribution to the achievement of the national gas objective, consider the designated reviewable regulatory decision as a whole; and
 - (d) the following matters must not, in themselves, determine the question about whether a materially preferable designated NGO decision exists:
 - (i) the establishment of a ground for review under section 246(1);
 - (ii) consequences for, or impacts on, the average annual regulated revenue of a covered pipeline service provider;
 - (iii) that the amount that is specified in or derived from the designated reviewable regulatory decision exceeds the amount specified in section 249(2).
- (4c) If the Tribunal makes a determination under subsection (2)(b) or (c), the Tribunal must specify in its determination—
- (a) the manner in which it has taken into account the interrelationship between the constituent components of the designated reviewable regulatory decision and how they relate to the matters raised as a ground for review as contemplated by subsection (4b)(a); and
 - (b) in the case of a determination to vary the designated reviewable regulatory decision—the reasons why it is proceeding to make the variation in view of the requirements of subsection (4a)(d).
- (5) A determination by the Tribunal affirming, varying or setting aside the reviewable regulatory decision is, for the purposes of this Law (other than this Part), to be taken to be a decision of the original decision maker.

260 Target time limit for Tribunal for making a determination under this Division

- (1) The Tribunal must use its best endeavours to make a determination in respect of the application for review under this Division—
 - (a) within 3 months after the Tribunal grants leave in accordance with section 245 (the *standard period*); or
 - (b) if the standard period is extended under this section— that period as extended.
- (2) If the Tribunal is unable to make a determination in respect of the application within the standard period, or that period as extended, the Tribunal must, by notice in writing, extend the standard period or that period by a specified period.
- (3) The Tribunal must give a copy of the notice to—
 - (a) the applicant; and
 - (b) every other party to the application.
- (4) The Tribunal may extend the standard period, or that period as extended, more than once.
- (5) If the Tribunal extends a period, it must publish a notice in a newspaper circulating generally throughout Australia—
 - (a) stating that it has done so; and
 - (b) specifying a date by which it must now use its best endeavours to make the determination.

261 Matters to be considered by Tribunal in making determination

- (1) Subject to this section, the Tribunal, in acting under this Division in relation to a reviewable regulatory decision—
 - (a) must not consider any matter other than review related matter (and any matter arising as a result of consultation under paragraph (b)); and
 - (b) must, before making a determination that relates to a designated reviewable regulatory decision, take

reasonable steps to consult with (in such manner as the Tribunal thinks appropriate)—

- (i) users and prospective users of the pipeline services; and
- (ii) any user or consumer associations or user or consumer interest groups,

that the Tribunal considers have an interest in the determination, other than a user or consumer association or a user or consumer interest group that is a party to the review.

(2) (Repealed)

(3) If in a review, other than a review that relates to a designated reviewable regulatory decision, the Tribunal is of the view that a ground of review has been made out, the Tribunal may allow new information or material to be submitted if the new information or material—

- (a) would assist it on any aspect of the determination to be made; and
- (b) was not unreasonably withheld from—
 - (i) in all cases, the original decision maker when the decision maker was making the reviewable regulatory decision; and
 - (ii) in the case of a reviewable regulatory decision that is a Ministerial coverage decision, the NCC when it was it making the NCC recommendation related to Ministerial coverage decision.

(3a) If in a review that relates to a designated reviewable regulatory decision the Tribunal is of the view that a ground for review has been made out, the Tribunal may, on application by a party to the review, allow new information or material to be submitted if the party can establish to the satisfaction of the Tribunal that the information or material—

- (a) was publicly available or known to be publicly available to the AER when it was making the designated reviewable regulatory decision; or

(b) would assist the Tribunal on any aspect of the determination to be made and was not unreasonably withheld from the AER when it was making the designated reviewable regulatory decision,

and was (in the opinion of the Tribunal) information or material that the AER would reasonably have been expected to have considered when it was making the designated reviewable regulatory decision.

(3b) In addition, if in a review of a designated reviewable regulatory decision the Tribunal is of the view—

(a) that a ground for review has been made out; and

(b) that it would assist the Tribunal to obtain information or material under this subsection in order to determine whether a materially preferable designated NGO decision exists,

the Tribunal may, on its own initiative, take steps to obtain that information or material (including by seeking evidence from such persons as it thinks fit).

(3c) The action taken by a person acting in response to steps taken by the Tribunal under subsection (3b) must be limited to considering decision related matter under section 68C.

(3d) In addition, in the case of a review of a designated reviewable regulatory decision that is a decision to make a full access arrangement decision in place of an access arrangement that the AER did not approve, the Tribunal may consider the reasons of the AER for its decision not to approve the access arrangement or proposed revisions to the applicable access arrangement (as the case may be).

(4) Subject to this Law, for the purpose of subsection (3)(b) and (3a)(b), information or material not provided to the original decision maker, the NCC or the AER (as the case requires) following a request for that information or material by the original decision maker, the NCC or the AER under this Law or the Rules is to be taken to have been unreasonably withheld.

(5) Subsection (4) does not limit what may constitute an unreasonable withholding of information or material.

(6) (Repealed)

(7) In this section—

review related matter means—

- (a) the application for review; and
- (b) a notice raising new grounds for review filed by an intervener; and
- (c) the submissions made to the Tribunal by the parties to the review; and
- (d) —
 - (i) in the case of a designated reviewable regulatory decision—decision related matter under section 68C; or
 - (ii) in any other case—
 - (A) the reviewable regulatory decision and the written record of it and any written reasons for it; and
 - (B) any written submissions made to the original decision maker before the reviewable regulatory decision was made or the NCC before the making of an NCC recommendation; and
 - (C) any reports and materials relied on by the original decision maker in making the reviewable regulatory decision or the NCC in making an NCC recommendation; and
 - (D) any draft of the reviewable regulatory decision or NCC recommendation; and
 - (E) any submissions on—
 - the draft of the reviewable regulatory decision or the reviewable regulatory

- decision itself considered by the original decision maker; or
 - the draft of an NCC recommendation or the NCC recommendation itself considered by the NCC; and
- (F) the transcript of any hearing (if any) conducted by the original decision maker for the purpose of making the reviewable regulatory decision; and
- (e) any other matter properly before the Tribunal in connection with the relevant proceedings.

262 Assistance from NCC in certain cases

- (1) This section applies if the reviewable regulatory decision being reviewed under this Division is a Ministerial coverage decision.
- (2) The member of the Tribunal presiding in the review may require the NCC to give information and other assistance and to make reports, as specified, by the member for the purposes of the review.

Division 3 Tribunal review of information disclosure decisions

263 Application for review

- (1) A person whose interests are adversely affected by an information disclosure decision may apply to the Tribunal for a review of the decision.
- (2) An application must be made in the form and manner determined by the Tribunal.
- (3) An application may only be made on the ground that—
 - (a) the decision was not made in accordance with law; or

-
- (b) the decision is unreasonable having regard to all relevant circumstances.
 - (4) The person must lodge the notice with the Tribunal no later than 5 business days after the date of the last notice given under section 91GH or section 329 (as the case requires).
 - (5) An application under this section stays the operation of the decision until the earlier of—
 - (a) 20 business days; or
 - (b) the making of a determination by the Tribunal in respect of the application.

264 Exclusion of public in certain cases

On the application of a party to a review under this Division, the Tribunal may conduct the review in the absence of the public.

265 Determination in the review

- (1) Subject to this Part, on receipt of an application under section 263, the Tribunal must make a determination in respect of the application.
- (2) A determination under this section must only—
 - (a) affirm the information disclosure decision; or
 - (b) forbid disclosure by the AER or AEMO of the information or document to which the information disclosure decision relates; or
 - (c) restrict, as specified in the determination, the intended disclosure by the AER or AEMO of the information or document to which the information disclosure decision relates.
- (3) For the purposes of making a determination of the kind in subsection (2)(a), the Tribunal may perform all the functions and exercise all the powers of the AER or AEMO (as the case requires) under this Law or the Rules.

- (4) A determination by the Tribunal affirming the information disclosure decision, or forbidding or restricting disclosure of information, is, for the purposes of this Law (other than this Part), to be taken to be a decision of the AER or AEMO (as the case requires).

266 Tribunal must be taken to have affirmed decision if decision not made within time

- (1) This section applies if the Tribunal does not make a determination under section 265 within 20 business days after an application is lodged under section 263.
- (2) The Tribunal must be taken to have made a determination under section 265 affirming the information disclosure decision to which the application relates.

267 Assistance from AER or AEMO

The member of the Tribunal presiding in the review may require the AER or AEMO (as the case requires) to give information, to make a report or to give other assistance for the purposes of the review.

Division 4 General

268 Costs in a review

- (1) Subject to this section, the Tribunal may order that a party to a review under this Part pay all or a specified part of the costs of another party to the review.
- (2) The Tribunal must not make an order requiring an original decision maker or small/medium user or consumer intervener to pay the costs of another party to the review unless the Tribunal considers that the original decision maker or intervener has conducted their case in the review without due regard to—

-
- (a) the costs that would have to be incurred by another party to the review as a result of that conduct; or
 - (b) the time required by—
 - (i) the Tribunal to hear the review as a result of that conduct; or
 - (ii) another party to prepare their case as a result of that conduct; or
 - (c) in the case of the AER in a review of a designated reviewable regulatory decision—the submissions or arguments made to the Tribunal by another party.
- (3) The Tribunal may make an order requiring a user or consumer intervener (that is not a small/medium user or consumer intervener) that has intervened in the review to pay all or part of the costs of another party to the review if the Tribunal considers that the intervener has conducted their case in the review without due regard to—
- (a) the costs that would have to be incurred by another party to the review as a result of that conduct; or
 - (b) the time required by—
 - (i) the Tribunal to hear the review as a result of that conduct; or
 - (ii) another party to prepare their case as a result of that conduct; or
 - (c) the submissions or arguments made to the Tribunal by another party.

269 Amount of costs

- (1) If the Tribunal makes an order for costs in a review under this Part, the Tribunal may in that order fix the amount of costs payable by a party to the review on—
 - (a) a party and party basis; or
 - (b) a solicitor and client basis; or
 - (c) an indemnity basis; or

- (d) any other basis as the Tribunal may decide.
- (2) However, in the case of a review that relates to a designated reviewable regulatory decision—
 - (a) subsection (1) does not apply in relation to an order for costs against a small/medium user or consumer intervener; and
 - (b) if the Tribunal makes an order for costs against a small/medium user or consumer intervener in favour of another party, the costs must be limited to the payment of reasonable administrative costs (as determined by the Tribunal) of that other party.

269A Costs not to be passed on

- (1) This section applies to any expenditure or cost that a service provider incurs, or is forecast to incur, as a result of or incidental to a review that relates to a designated reviewable regulatory decision under this Part, including costs awarded under section 268.
- (2) A service provider—
 - (a) must not, for the purposes of an applicable access arrangement decision, include as part of its capital expenditure or operating expenditure any expenditure or cost to which this section applies; and
 - (b) must not recover from end users or seek a pass through of any expenditure or cost to which this section applies.
- (3) This section applies despite any provision to the contrary in this Law, the Rules, an applicable access arrangement or an applicable access arrangement decision (and this section prevails to the extent of any inconsistency between such a provision and this section).

Chapter 10 General

Part 1 Provisions relating to applicable access arrangements

- (2) In this section—

relevant exclusivity right means an express contractual right that arose on or after 30 March 1995 that—

- (a) prevents a service provider supplying pipeline services to persons who are not parties to the contract; or
- (b) limits or controls a service provider's ability to supply pipeline services to persons who are not parties to the contract,

but does not include a user's contractual right to obtain a certain amount of pipeline services;

relevant protected contractual right means—

- (a) in the case of an applicable access arrangement approved under an applicable arrangement decision—a right under a contract (other than a relevant exclusivity right) in force immediately before that access arrangement was submitted for approval under this Law;
- (b) in the case of an applicable access arrangement made under an applicable arrangement decision because—
 - (i) a full access arrangement was not submitted for approval as required under section 132—a right under a contract (other than a relevant exclusivity right) in force immediately before the date on

which an access arrangement was required to be submitted for approval;

- (ii) an access arrangement was not approved under an applicable arrangement decision—a right under a contract (other than a relevant exclusivity right) in force immediately before the date on which that access arrangement was submitted for approval.

322 Service provider may enter into agreement for access different from applicable access arrangement

Subject to section 135, nothing in this Law is to be taken as preventing a service provider from entering into an agreement with a user or a prospective user about access to a pipeline service provided by means of a scheme pipeline that is different from an applicable access arrangement that applies to that pipeline service.

323 Applicable access arrangements continue to apply regardless of who provides pipeline service

An applicable access arrangement applies to a pipeline service provided, or to be provided, by means of a pipeline regardless of who provides that pipeline service.

- (1a) However—
 - (a) in the case of information given to the AER in order to comply with a regulatory information instrument—the AER must not disclose information under subsection (1) unless and until—

 - (7a) Despite anything to the contrary in this Law, this section is taken to be an exhaustive statement of the requirements of the natural justice hearing rule in relation to—

- (a) the AER's decision under subsection (1) to disclose information given in confidence to the AER including, but not limited to, such information given to the AER in compliance with a regulatory information instrument and in relation to which a claim of confidentiality has been made in accordance with section 57A; and
