Environmental Offsets Act 2014

An Act to provide for environmental offsets to counterbalance significant residual impacts of particular activities on particular matters of national, State or local environmental significance and to establish a framework in relation to environmental offsets

Part 1 Preliminary

1 Short title

This Act may be cited as the *Environmental Offsets Act 2014*.

2 Commencement

This Act, other than the following provisions, commences on a day to be fixed by proclamation—

- part 14
- section 101
- section 102, to the extent it inserts section 14
- sections 106 to 111
- section 114
- sections 125 to 127
- section 133
- section 135
- sections 137 and 138
- part 25
- schedule 1.

Part 2 Purpose and application of Act

3 Purpose and achievement

- (1) The main purpose of this Act is to counterbalance the significant residual impacts of particular activities on prescribed environmental matters through the use of environmental offsets.
- (2) The main purpose is achieved primarily by—
 - (a) establishing a framework for environmental offsets; and
 - (b) recognising the level of protection given to prescribed environmental matters under other legislation; and
 - (c) providing for national, State and local matters of environmental significance to be prescribed environmental matters for the purpose of this Act; and
 - (d) coordinating the implementation of the framework in conjunction with other legislation.

Note—

Section 95(1) provides this Act applies to an authority granted under another Act only if the application under the other Act for the authority was made on or after the commencement of that section. See section 95 for further relevant provisions.

4 Act binds all persons

- (1) This Act binds all persons including the State and, to the extent the legislative power of the Parliament permits, the Commonwealth and the other States.
- (2) Nothing in this Act makes the State, the Commonwealth or any other State liable to be prosecuted for an offence against this Act.

5 Relationship with particular Acts

- (1) This Act does not affect or limit the functions or powers under the State Development Act of the Coordinator-General,

including, for example, the power to impose a condition under part 4, division 8 of that Act.

- (2) Also, this Act does not affect or limit—
- (a) the power of an assessment manager to impose a condition stated in a report of the Coordinator-General under section 39 of the State Development Act; or
 - (b) a person's obligation under section 54 of the State Development Act to take into consideration the Coordinator-General's report; or
 - (c) the obligation on an administering authority under the *Environmental Protection Act 1994*, section 205(2) to impose a condition.
- (3) To remove any doubt, it is declared that if there is an inconsistency between—
- (a) an imposed condition; and
 - (b) a deemed condition;
- the imposed condition prevails to the extent of the inconsistency with the deemed condition.

Note for subsection (3)—

However, a deemed condition prevails over some conditions in the following Acts—

- the *Environmental Protection Act 1994*—see section 714;
- the *Marine Parks Act 2004*—see section 151B;
- the *Nature Conservation Act 1992*—see sections 66A and 100J.

- (4) In this section—

Coordinator-General see schedule 2 of the State Development Act.

imposed condition means—

- (a) a condition imposed under another Act as a result of a power or obligation mentioned in subsection (2); or
- (b) an imposed condition within the meaning of the State Development Act, section 54B(2).

Part 3 Interpretation

6 Definitions

The dictionary in schedule 2 defines particular words used in this Act.

Division 2 Key concepts and definitions

7 What is an *offset condition* and an *environmental offset*

(1) Under another Act, an administering agency may impose a condition (an *offset condition*) on an authority under the other Act for a prescribed activity for a prescribed environmental matter that—

(a) requires an environmental offset to be undertaken; or

Examples of environmental offsets for paragraph (a)—

- carrying out work to maintain the viability of a prescribed environmental matter
- preparing a plan about a prescribed environmental matter
- conducting scientific research or an education program

(b) otherwise relates to an environmental offset.

Example for paragraph (b)—

payment of a financial settlement offset

(2) An *environmental offset* is an activity undertaken to counterbalance a significant residual impact of a prescribed activity on a prescribed environmental matter.

(3) However, an environmental offset for a prescribed environmental matter that is a protected area, other than a special wildlife reserve or nature refuge, may include the delivery of any activity that provides a social, cultural, economic or environmental benefit to any protected area.

8 What is a *significant residual impact*

- (1) Generally, a *significant residual impact* is an adverse impact, whether direct or indirect, of a prescribed activity on all or part of a prescribed environmental matter that—
 - (a) remains, or will or is likely to remain, (whether temporarily or permanently) despite on-site mitigation measures for the prescribed activity; and
 - (b) is, or will or is likely to be, significant.
- (2) If a prescribed environmental matter is a protected area and the adverse impact of the prescribed activity results, or will or is likely to result, in 1 or more of the following, for the purpose of subsection (1)(b), the impact is significant—
 - (a) the authorised clearing or inundation of all or part of the protected area for the construction of private or publicly owned infrastructure on the area;
 - (b) the exclusion of, or reduction in, the public use or enjoyment of all or part of the protected area;
 - (c) a reduction in the natural or cultural values, within the meaning of the *Nature Conservation Act 1992*, of all or part of the protected area.
- (3) However, an impact as mentioned in subsection (2) is not a significant residual impact for the protected area if the prescribed activity is—
 - (a) conducted by an authorised person performing functions under the *Nature Conservation Act 1992*; and
 - (b) consistent with the management of the area under the *Nature Conservation Act 1992*, section 15.
- (4) If a prescribed environmental matter is, or is in, a legally secured offset area and the adverse impact of the prescribed activity on all or part of the matter results, or will or is likely to result, in 1 or more of the following, for the purpose of subsection (1)(b), the impact is significant—
 - (a) for the prescribed environmental matter for which the area was set aside for the purposes of an environmental

[s 9]

offset—a use of the area that is inconsistent with how the environmental offset was or is required to be undertaken to achieve a conservation outcome for the prescribed environmental matter under a delivery or management plan or agreement (however described in this or another Act);

- (b) for any other prescribed environmental matter in the area—a significant residual impact as mentioned in subsection (1) on the other prescribed environmental matter.
- (5) For subsection (2), a protected area does not include a nature refuge.
- (6) To remove any doubt, it is declared that subsection (2) does not apply to a prescribed environmental matter in a protected area.

9 What is a *prescribed activity*

A *prescribed activity* is an activity—

- (a) the subject of an authority under another Act; and
- (b) for which an offset condition may be imposed under the other Act on the authority; and
- (c) that is prescribed under a regulation.

10 What is a *prescribed environmental matter* and a *matter of environmental significance*

- (1) A *prescribed environmental matter* is any of the following matters prescribed under a regulation to be a prescribed environmental matter—
- (a) a matter of national environmental significance;
 - (b) a matter of State environmental significance;
 - (c) a matter of local environmental significance.
- (2) The prescription of a prescribed environmental matter may be made by reference to a matter declared, defined, designated,

established, listed, prescribed or otherwise described under this Act or another Act.

Examples for subsection (2)—

- a fish habitat area declared under the *Fisheries Act 1994*
 - a marine conservation park zone established under a zoning plan for a State marine park under the *Marine Parks Act 2004*
 - vulnerable wildlife prescribed under the *Nature Conservation Act 1992*
- (3) A regulation may only prescribe a matter of national environmental significance to be a prescribed environmental matter if—
- (a) it is a matter of national environmental significance under the *Environment Protection and Biodiversity Conservation Act 1999* (Cwlth), chapter 2; and
 - (b) it is, or may be, the subject of an approval for the taking of an action or class of actions in relation to the matter under section 46 or 146B of that Act.

11 Conservation outcome achieved by environmental offset

A *conservation outcome* is achieved by an environmental offset for a prescribed activity for a prescribed environmental matter if the offset is selected, designed and managed to maintain the viability of the matter.

Part 4 Environmental offsets policies

12 What is an *environmental offsets policy*

- (1) An *environmental offsets policy* is a document prescribed under a regulation to be an environmental offsets policy.
- (2) As soon as possible after the prescription as an environmental offsets policy of a document made by the chief executive, the chief executive must make the policy available for inspection in the way the chief executive considers appropriate.

[s 13]

- (3) As soon as possible after the prescription as an environmental offsets policy of a document made by a local government, the local government must ensure the policy is available for inspection in the way the local government considers appropriate.
- (4) For subsections (2) and (3), an example of a way the chief executive or a local government may consider appropriate is making the document available in an electronic form on a website.
- (5) If the document prescribed to be an environmental offsets policy is amended or repealed, the amendment or repeal does not take effect for this Act until—
 - (a) for an amendment—the document as amended is prescribed to be an environmental offsets policy; or
 - (b) for a repeal—the document is prescribed to have been repealed.

13 Content of environmental offsets policy

An environmental offsets policy may—

- (a) set out the circumstances in which an environmental offset may or may not be required; or
- (b) set out the characteristics of an area that is suitable for undertaking an environmental offset; or
- (c) provide for the ongoing management and monitoring of, and reporting about, an environmental offset; or
- (d) provide for deciding the size and scale of an environmental offset so the offset is proportionate to the significant residual impacts on a prescribed environmental matter; or
- (e) set out the requirements for determining the amount required for a financial settlement offset; or
- (f) include any other provision relating to the main purpose of this Act.

Part 5 Imposing offset conditions

13A Definition for pt 5

In this part—

existing means—

- (a) for a State condition—an offset condition that has been imposed; or
- (b) for a Commonwealth condition—a condition that has been imposed under a relevant Commonwealth Act.

13B What this part is about

- (1) This part applies if an administering agency may impose an offset condition on an authority, under another Act, for an impact on a prescribed environmental matter.
- (2) This part applies despite anything to the contrary in the other Act, other than as mentioned in—
 - (a) section 5; or
 - (b) the Planning Act, section 62.

14 Imposing offset condition

- (1) The administering agency may impose the offset condition only if satisfied—
 - (a) the prescribed activity will, or is likely to, have a significant residual impact on a prescribed environmental matter; and
 - (b) all reasonable on-site mitigation measures for the prescribed activity have been, or will be, undertaken.
- (2) When making a decision under the other Act about whether to impose an offset condition, the administering agency must consider any offset condition that has been imposed on an authority under another Act for—

- (a) the same, or substantially the same, impact; and
- (b) the same, or substantially the same, prescribed environmental matter.

15 Restriction on imposition of offset condition

- (1) An administering agency may impose an offset condition on an authority only if—
 - (a) the same, or substantially the same, impact has not been assessed under a relevant Commonwealth Act; and
 - (b) the same, or substantially the same, prescribed environmental matter has not been assessed under a relevant Commonwealth Act.
- (2) Subsection (1) applies whether or not the assessment resulted in the imposition of an offset condition.
- (3) However, subsection (1) does not apply if the prescribed environmental matter to which the condition relates is a protected area.
- (4) An administering agency that is a local government may impose an offset condition on an authority only for the following—
 - (a) a matter of local environmental significance;
 - (b) another prescribed environmental matter that is further prescribed by regulation as relevant for this subsection.
- (5) In this section—

relevant Commonwealth Act means—

 - (a) the *Environment Protection and Biodiversity Conservation Act 1999* (Cwlth) as a controlled action;
or
 - (b) the *Great Barrier Reef Marine Park Act 1975* (Cwlth);
or
 - (c) another Commonwealth Act prescribed by regulation.

Part 6 Requirements about environmental offsets

Division 1 Deemed conditions

16 Conditions that apply under this Act to authority

- (1) This section applies if an offset condition is imposed on an authority, under another Act, for a significant residual impact of a prescribed activity on a prescribed environmental matter.
- (2) Sections 19B, 22, 24 and 25 state further conditions that, under this Act, are imposed on the authority.
- (3) A further condition mentioned in subsection (2) is a *deemed condition* of the authority.
- (4) A reference in another Act to a condition (however described) of the authority includes each deemed condition.
- (5) Subsection (4) applies despite anything to the contrary in the Planning Act, section 66(1)(a) and (c).

17 Contravention of deemed condition

- (1) This section applies to the following persons—
 - (a) an authority holder;
 - (b) another person who is acting under an authority granted under another Act.
- (2) A person to whom this section applies must comply with each deemed condition of the authority.
- (3) If a person contravenes a deemed condition, the person may be dealt with under the Act under which the authority was granted as if the person had contravened an offset condition imposed under that Act.
- (4) Without limiting subsection (3), the person may be prosecuted under the other Act for a breach of a deemed condition and, if convicted, is liable to a penalty in the same way and to the

same extent as if the person had breached an offset condition imposed under the other Act.

Division 2 Election before starting prescribed activity

18 Electing how to deliver environmental offset

- (1) This section applies if—
 - (a) under another Act, an offset condition has been, or may be, imposed on an authority; and
 - (b) the condition relates to the significant residual impact of a prescribed activity on a prescribed environmental matter.
- (2) An entity may, by notice in the approved form given to the administering agency for the offset condition, elect to deliver an environmental offset for the prescribed activity, or for a stage of the prescribed activity, by—
 - (a) a proponent-driven offset; or
 - (b) a financial settlement offset; or
 - (c) a combination of a proponent-driven offset and a financial settlement offset.
- (3) A notice of election that involves a proponent-driven offset must be accompanied by a plan (an *offset delivery plan*) about how the entity will undertake the offset.
- (4) The offset delivery plan must—
 - (a) describe how an environmental offset will be undertaken and the conservation outcome will be achieved; and
 - (b) state that the entity, and any other entity that owns land on which the environmental offset will be undertaken, agree to the offset being undertaken; and
 - (c) be signed by the entities mentioned in paragraph (b); and

-
- (d) satisfy each other requirement prescribed by regulation for this section.
- (5) For subsection (4)(a), the offset delivery plan must—
- (a) effectively account for and manage the risks of the environmental offset failing to achieve the conservation outcome; and
 - (b) ensure the environmental offset provides benefits in relation to the prescribed environmental matter in addition to any other benefit provided under a requirement of, or of an authority under, an Act; and

Example for paragraph (b)—

Ensuring an environmental offset in relation to the management of a pest provides benefits in addition to a landowner's obligation under the *Land Protection (Pest and Stock Route Management) Act 2002*, section 77 to take reasonable steps to keep land free of particular pests.

- (c) have transparent governance arrangements that can be readily measured, monitored, audited and enforced; and
- (d) ensure the environmental offset is of a size and scale proportionate to the significant residual impact on the prescribed environmental matter.

19 Agreed delivery arrangements

- (1) After receiving a notice of election, the administering agency must consider the election and any offset delivery plan, including by considering—
 - (a) each relevant environmental offsets policy; and
 - (b) any other matter prescribed by regulation for this section.
- (2) The administering agency must decide whether it is appropriate to deliver the environmental offset in the way stated in the notice of election, and any offset delivery plan, or whether the offset should be delivered in a different way.
- (3) The administering agency must give the entity a notice that states—

[s 19]

- (a) the way in which the environmental offset is required to be delivered; and
 - (b) the entity is required to enter into an agreed delivery arrangement within a stated reasonable period; and
 - (c) that the entity may apply for a review of the decision; and
 - (d) how and when the entity may apply for a review of the decision.
- (4) An ***agreed delivery arrangement*** is an agreement between an entity and the administering agency about the entity's delivery of an environmental offset, with reference to any offset delivery plan.
- (5) An agreed delivery arrangement may be entered into before or after the authority is granted.

Note—

However, see section 19A for when an agreed delivery arrangement is entered into before the authority is granted.

- (6) If the administering agency fails to give notice under subsection (3) within 40 business days after receiving the notice of election, the entity may apply for a review of the failure to give the notice, in the way provided for under subsection (8).
- (7) The entity and administering agency may amend either or both of the following—
- (a) the agreed delivery arrangement;
 - (b) an offset delivery plan;
- by entering into another agreed delivery arrangement before the entity starts the relevant prescribed activity, or the relevant stage of a prescribed activity.
- (8) A regulation may provide for—
- (a) a review of a decision to require an environmental offset to be delivered in a way that differs from the way stated in a notice of election; or

-
- (b) a review of a failure to give a notice under subsection (3) within 40 business days after the administering agency receives the notice of election; or
 - (c) what happens if the entity and administering agency do not enter into an agreed delivery arrangement within the stated reasonable period; or
 - (d) a dispute resolution process.

19A Agreed delivery arrangement before authority granted

- (1) This section applies if an entity enters into an agreed delivery arrangement (the *early arrangement*) under section 19 before an authority is granted.
- (2) The entity—
 - (a) may start to deliver a proponent-driven offset before the authority is granted; but
 - (b) must not pay any amount under a financial settlement offset until after the authority is granted.
- (3) If, after the early arrangement is entered into, but not more than 10 business days after the authority for the prescribed activity is granted—
 - (a) there is a change in the way the prescribed activity is proposed to be carried out that will result in a change to the impact; and
 - (b) the administering agency decides that the impact that is counterbalanced under the early arrangement differs from the impact likely to arise from the prescribed activity;the administering agency must give the entity a notice under subsection (4).
- (4) The administering agency's notice must state—
 - (a) the environmental offset is required to be delivered in a way that differs from the way stated in the early arrangement; and

[s 19B]

- (b) the entity is required to enter into another agreed delivery arrangement to that effect, within a stated reasonable period; and
 - (c) the reasons for the decision; and
 - (d) that the entity may apply for a review of the decision; and
 - (e) how and when the entity may apply for a review of the decision.
- (5) A regulation may provide for a review of the decision to require the environmental offset to be delivered in a way that differs from the way stated in the early arrangement.

19B Deemed condition for agreed delivery arrangement

- (1) This section applies to an authority, granted by an administering agency under another Act, to carry out a prescribed activity to which an offset condition relates.
- (2) It is a condition of the authority that the authority holder must have entered into an agreed delivery arrangement with the administering agency, before starting—
 - (a) any works that impact on the prescribed environmental matter to which the offset condition relates; or
 - (b) if the authority allows the prescribed activity to be carried out in stages—any works for the stage that impact on the prescribed environmental matter to which the offset condition relates.

Division 3 Amending agreements after prescribed activity starts

20 Amending agreement after prescribed activity starts

- (1) This section applies if—

-
- (a) an administering agency and an authority holder have entered into an agreed delivery arrangement that involves a proponent-driven offset; and
 - (b) the authority holder has started the prescribed activity to which the authority relates.
- (2) The authority holder and administering agency may, by entering into another agreed delivery arrangement, amend either or both of the following—
 - (a) the agreed delivery arrangement;
 - (b) an offset delivery plan about the delivery of the proponent-driven offset.
 - (3) In considering whether to enter into a further agreed delivery arrangement, the administering agency must consider the matters mentioned in section 19(1)(a) and (b).
 - (4) An offset delivery plan amended under this section must comply with section 18(4) and (5).

Division 4 Proponent-driven offsets

21 What is a *proponent-driven offset*

A *proponent-driven offset* is an environmental offset that an entity undertakes directly or indirectly.

Example of an entity indirectly undertaking an environmental offset—

An entity may deliver an environmental offset by contracting with a broker to carry out activities on the entity's behalf.

22 Requirement for proponent-driven offset

- (1) This section applies if, under an agreed delivery arrangement, an authority holder is to deliver an environmental offset in whole or in part by a proponent-driven offset.
- (2) It is a condition of the authority that the authority holder must comply with the agreed delivery arrangement, including the agreed offset delivery plan.

Division 5 Financial settlement offsets

23 What is a *financial settlement offset*

- (1) A *financial settlement offset* is a payment, in relation to delivering an offset condition imposed on an authority, by the authority holder to the department or a local government of an amount required by the administering agency that granted the authority.
- (2) The amount of the payment is—
 - (a) if the administering agency is a local government—an amount up to the amount determined by the local government in accordance with the environmental offsets policy; or
 - (b) for any other administering agency—an amount determined by the administering agency in accordance with the environmental offsets policy.

24 Requirements for financial settlement offsets

- (1) This section applies if, under an agreed delivery arrangement, an authority holder is to deliver an offset condition in whole or in part by a financial settlement offset.
- (2) It is a condition of the authority that, before the authority holder starts any part of the prescribed activity to which the offset condition relates, the holder must pay the amount required by, and in the way stated in, the agreed delivery arrangement—
 - (a) if the offset condition relates to a matter of local environmental significance that is prescribed as a prescribed environmental matter—to the local government that is the administering agency; or
 - (b) if the offset condition relates to a matter of State environmental significance that is prescribed as a prescribed environmental matter and further prescribed

as relevant for this section—to the local government that is the administering agency; or

- (c) otherwise—to the department.

Note—

See also sections 85 and 89.

- (3) The authority holder may pay the amount required by the agreed delivery arrangement for a stage of the prescribed activity only if the authority allows the prescribed activity to be carried out in stages.

Division 6 Further condition about legally secured offset areas

25 Impacts on legally secured offset area

- (1) This section applies to an authority granted under another Act for a prescribed activity to be undertaken in a legally secured offset area.
- (2) It is a condition of the authority that the authority holder must not carry out any prescribed activity in the legally secured offset area if—
