 - (b) appointed or reappointed if, at any time, they have already served a term of 4 years or terms totalling 4 years.

Example—

A is a councillor-member appointed for a 4-year term. A ceases to be a councillor of the relevant council after 3 of those years. B, another councillor of the council, is appointed to replace A for the rest of that term. B is re-elected as a councillor of the council. Note—

For LGA 2009, see the *Local Government (Operations) Regulation 2010*, section 43.

- (5) An independent member may receive from a distributor-retailer, and a distributor-retailer may confer on an independent member, a benefit for the following only if it complies with the participation agreement—

- (7) If there are no members who may remain present for considering or deciding an issue, the distributor-retailer's participants may, by each signing consent to a proposed resolution, consider and decide the issue.
- (8) A disclosure under subsection (2) must be recorded in the board's minutes.

63 Period of transfer notices

- (1) A transfer notice can not take effect before 1 July 2010 or after 30 June 2012.
- (2) However, subsection (1) does not affect the giving of effect to a transfer scheme after 30 June 2012 or anything done under a transfer scheme before or after that date.

64 Effect of transfer notice

- (1) The transfer under a transfer notice of a liability discharges the person from whom the liability is transferred from the liability to the extent provided for under the transfer notice.
- (2) A transfer notice has effect despite any other law, transfer scheme or other instrument.

65 Transfer direction

- (1) The Minister may give a direction (a *transfer direction*) to any of the following (a *relevant entity*) to do anything the Minister considers necessary to achieve the transition to a distributor-retailer from its participating local governments—
 - (a) the distributor-retailer;
 - (b) the board;
 - (c) any of the distributor-retailer’s participating local governments.
- (2) Without limiting subsection (1), a transfer direction may be about—
 - (a) executing an instrument; or
 - (b) disclosing information; or

-
- (c) for the distributor-retailer, according particular terms and conditions of employment to its employees affected by the transfer during a stated period after its establishment consistent with the staff support framework; or
 - (d) anything the Minister considers necessary to remedy a contravention of the staff support framework.

Note—

Section 79 provided for the approval of a staff support framework. That provision was repealed by the *South-East Queensland Water (Distribution and Retail Restructuring) Amendment Act 2012*.

- (3) A transfer direction must be in writing and signed by the Minister.
- (4) If a relevant entity is given a transfer direction—
 - (a) the entity must comply with the direction; and
 - (b) if the entity is the distributor-retailer—its board must take the action necessary to ensure the distributor-retailer complies with the direction.

Maximum penalty—1,000 penalty units.

- (5) In this section—
board includes, for a local government, its councillors.

Part 3 Provisions facilitating transition

Division 1 General provisions

66 Chapter applies despite other laws and instruments

A thing may be done under this chapter despite any other law or instrument.

Example—

A transfer scheme or transfer notice may transfer a trustee lease under the Land Act without the written approvals that would otherwise be required for a transfer under section 58 of that Act.

67 Decisions not reviewable

- (1) A decision under this chapter—
 - (a) is final and conclusive; and
 - (b) can not be challenged, appealed against, reviewed, quashed, set aside or called into question in any other way, under the *Judicial Review Act 1991* or otherwise (whether by the Supreme Court, another court, a tribunal or another entity); and
 - (c) is not subject to any writ or order of the Supreme Court, another court, a tribunal or another entity on any ground.
- (2) In this section—

decision includes a decision or conduct leading up to or forming part of the process of making a decision.

68 Effect on legal relationships

- (1) Nothing done under this chapter including a thing done by or in compliance with, a transition document—
 - (a) makes a relevant entity liable for a civil wrong or a contravention of a law or for a breach of a contract or confidence; or
 - (b) makes a relevant entity in breach of any instrument, including an instrument prohibiting, restricting or regulating the assignment, novation or transfer of a right or liability or the disclosure of information; or
 - (c) is taken to fulfil a condition that—
 - (i) allows a person to terminate an instrument or obligation or modify the operation or effect of an instrument or obligation; or

-
- (ii) allows a person to enforce an obligation contained in an instrument or requires a person to perform an obligation contained in an instrument; or
 - (iii) requires any money to be paid before its stated maturity; or
 - (d) releases a surety or other obligee, wholly or partly, from an obligation.
- (2) If apart from this subsection, the advice, consent or approval of a person would be necessary to do something under this chapter, the advice is taken to have been obtained or the consent or approval is taken to have been given unconditionally.

Example—

A contract entered into by a local government provides that it agrees not to transfer a particular asset without a particular person's consent and that if the consent is given, it may be subject to particular conditions.

If the asset is transferred to a distributor-retailer under a transfer scheme or transfer notice, the consent required under the contract is taken to have been given unconditionally.

- (3) If apart from this Act, giving notice to a person would be necessary to do something under this chapter, the notice is taken to have been given.

- (4) In this section—

relevant entity means—

- (a) the State or an employee or agent of the State; or
- (b) a participating local government for a distributor-retailer or any of the local government's councillors, employees or agents; or
- (c) a distributor-retailer, a member of a board or an employee or agent of a distributor-retailer.

69 Disclosure and use for transition of information

- (1) A person may disclose information in the possession or control of a local government for the purpose of the transition to its distributor-retailer, or for the distributor-retailer to perform its geographic area functions, to—
 - (a) a person involved in the transition; or
 - (b) a member of the board or an employee or agent of the distributor-retailer; or
 - (c) another participating local government of the distributor-retailer.
- (2) A distributor-retailer or its board must comply with a request by the Minister for the disclosure of information under subsection (1) to a person.
- (3) A person may use information in the possession or control of a distributor-retailer for the purpose of the transition from its participating local governments.
- (4) Also, to remove any doubt, it is declared that a person may disclose or use information in compliance with a transition document.
- (5) A person who acting honestly discloses or uses information under this section is not liable civilly, criminally or under an administrative process for the disclosure or use.
- (6) This section is subject to the *Information Privacy Act 2009* and the *Right to Information Act 2009*.

70 Registering authority to register or record transfer

- (1) A registering authority must, on written application by a transferee entity, register or record in the appropriate way the transfer of an asset, liability or instrument under a transfer scheme or transfer notice to the transferee entity.
- (2) A regulation may exempt the transferee entity or the transferor to the transferee entity from complying with a relevant procedure required by the registering authority or under

another law for the purpose of registering or recording the transfer.

Example of what may be a relevant procedure—

The registering authority may require the transferee entity to complete and submit a particular form.

- (3) Subject to subsection (2) the transferee entity must comply with the procedures.
- (4) In this section—

registering authority means the registrar or another entity required or authorised by law to register or record transactions affecting or relating to assets, liabilities or instruments.

transferee entity means the entity to which an asset, liability or instrument is transferred under a transfer scheme or transfer notice.

71 Non-liability for State taxes, charges or fees

- (1) A local government or distributor-retailer is not liable to pay any of the following relating to anything done under a transition document—
 - (a) a tax under the *Duties Act 2001* or another Act;
 - (b) a charge or fee under the Land Act, Land Title Act, *Transport Operations (Road Use Management) Act 1995*, Water Act or another Act.
- (2) In this section—

tax includes duty, impost and levy.

Division 2 Provisions for other laws and instruments

Subdivision 1 Acquisition of Land Act

72 Existing acquisitions

- (1) This section applies to land acquired by a local government as a constructing authority under the Acquisition of Land Act.
- (2) If the land is transferred to a distributor-retailer under this chapter, the distributor-retailer is, for section 41 of that Act, taken to be the constructing authority that acquired that land on the day it was acquired.

73 Acquisitions interrupted by transfer scheme or notice

- (1) This section applies if—
 - (a) a participating local government of a distributor-retailer has—
 - (i) served a notice of intention to resume to take land as a constructing authority under the Acquisition of Land Act; or
 - (ii) entered into an agreement to take land; and
 - (b) the purpose of the proposed resumption relates to the distributor-retailer's geographic area functions.
- (2) The distributor-retailer may by notice given to each affected person decide to continue the taking.
- (3) The notice must state—
 - (a) that the distributor-retailer has become the constructing authority for the taking; and
 - (b) its address for service of documents.
- (4) On the giving of the notice, for the Acquisition of Land Act—

-
- (a) the distributor-retailer becomes the constructing authority for the taking; and
 - (b) the local government's rights and obligations concerning the taking end.
- (5) However, the purpose of the taking does not change.
- (6) In this section—
- affected person*, for the taking, means—
- (a) each person—
 - (i) on whom the local government served a notice of intention to resume the land; or
 - (ii) with whom the local government has entered into an agreement to take the land; and
 - (b) anyone else the distributor-retailer considers is financially affected by the taking.

74 Provisions for distributor-retailer becoming constructing authority

- (1) This section applies if under section 73, a distributor-retailer becomes the constructing authority for the taking of land instead of a local government.
- (2) The local government must give the distributor-retailer the documents relating to the taking.
- (3) Despite the Acquisition of Land Act, section 12(1) the land taken under a gazette resumption notice under that Act vests in the distributor-retailer.
- (4) The distributor-retailer—
 - (a) has for the taking the same powers and obligations under the Acquisition of Land Act as the local government; and
 - (b) does not represent the State for section 12 of that Act.

[s 75]

- (5) The right under the Acquisition of Land Act of a person who was served with a notice to take or who entered into an agreement to take the land does not change.
- (6) A reference to the local government in a document relating to the taking is, if the context permits, taken to be a reference to the distributor-retailer.
- (7) Without limiting subsection (6), if the local government was taking the land under an agreement to take—
 - (a) a reference in the agreement to the local government is taken to be a reference to the distributor-retailer; and
 - (b) the agreement gives rise to the same rights and liabilities as would have arisen if the local government were a party to the agreement.

Subdivision 2 Land Act

75 Terminating trust land and granting freehold interest

- (1) This section applies if—
 - (a) a transferred asset is attached to land that is trust land under the Land Act; and
 - (b) the Land Act Minister is satisfied the part of the land on which the transferred asset is situated is of adequate area to be allocated as freehold land, having regard to the location of the transferred asset and the use made of the adjoining land.
- (2) The Land Act Minister may under that Act, on application to the Land Act chief executive by the distributor-retailer to whom the transferred asset was transferred—
 - (a) if the land is a reserve—revoke all or part of the reserve; or
 - (b) if the land is a deed of grant in trust—require the trustee to surrender all or part of the deed of grant in trust.

-
- (3) If the Land Act Minister acts under subsection (2), the Governor in Council may under the Land Act, issue a deed of grant for the land to the distributor-retailer.
 - (4) For the purposes of the Land Act, chapter 4, part 1, division 2, freehold title may be granted without competition.
 - (5) An evaluation under the Land Act, section 16 is not required for the allocation of the land.
 - (6) The Land Act Minister must decide the purchase price for the land.
 - (7) Before approving a plan of subdivision identifying the area of the revocation, the Land Act Minister may require the distributor-retailer and the trustee of the reserve to agree to a plan of subdivision to define the boundaries of the land.
 - (8) The following provisions of the Land Act do not apply to a revocation of all or part of a reserve—
 - (a) sections 34A, 34B and 34E;
 - (b) section 34H relating to an improvement that is a transferred asset.
 - (9) In this section—

transferred asset means an asset transferred under a transfer scheme or transfer notice without the transfer of land to which the asset is attached or a change in the trusteeship.

76 Granting Land Act lease

- (1) This section applies if—
 - (a) a transferred asset is attached to land that is a reserve or unallocated State land; and
 - (b) the Land Act Minister is satisfied the part of the land on which the transferred asset is situated (the *relevant part*) is not of adequate area to be allocated as freehold land, having regard to the location of the transferred asset and the use made of the adjoining land.

[s 77]

- (2) The Land Act Minister may, on application to the Land Act chief executive by the distributor-retailer to whom the transferred asset was transferred, grant under the Land Act to the distributor-retailer a lease over the relevant part.
- (3) If the land is a reserve and the Land Act Minister grants a State lease over the relevant part, that Minister may, before granting the lease, require the distributor-retailer and the trustee of the reserve to agree to a plan of survey identifying the relevant part.
- (4) If the Land Act Minister decides to grant a lease under this section, it must be for the maximum term permitted under the Land Act.
- (5) For the Land Act, chapter 5, part 1, division 1, the annual rent for the lease is the minimum rent applicable for the category of the lease.
- (6) An evaluation under the Land Act, section 16 is not required for the allocation of the land.
- (7) In this section—

transferred asset means an asset transferred under a transfer scheme or transfer notice without the transfer of land to which the asset is attached or a change in the trusteeship.

Subdivision 3 Infrastructure agreements

77 Application of sdiv 3

- (1) This subdivision applies if—
 - (a) a participating local government of a distributor-retailer is a party to an infrastructure agreement; and
 - (b) either of the following apply—
 - (i) a transition document transfers to the distributor-retailer water infrastructure subject to the infrastructure agreement;

-
- (ii) the infrastructure agreement provides for water infrastructure in the distributor-retailer's geographic area.
- (2) This subdivision applies subject to any transition document relating to the distributor-retailer.
 - (3) If the infrastructure agreement relates to both the water infrastructure and another type of infrastructure, the agreement is a *bundled agreement*.

77A Novation for unbundled agreements

- (1) This section applies if the agreement relates only to the water infrastructure and not to any other type of infrastructure.
- (2) The distributor-retailer—
 - (a) is taken to be a party to the agreement instead of the local government; and
 - (b) assumes all of the local government's rights and liabilities under the agreement.
- (3) The agreement may be enforced by the distributor-retailer as if it were the local government.
- (4) The local government ceases to be bound by the agreement and is discharged from any further liability under it.

77B Bundled agreements—terms relating solely to water aspects

- (1) This section applies if—
 - (a) the agreement is a bundled agreement; and
 - (b) a term of the agreement solely relates to either or both of the following (each a *water aspect*)—
 - (i) the water infrastructure;
 - (ii) the carrying out of water infrastructure work.
- (2) The distributor-retailer assumes the following under the term—

[s 77C]

- (a) the local government's rights against another party to the agreement (each an *assumed right*);
 - (b) the local government's liabilities to another party to the agreement (each an *assumed liability*).
- (3) An assumed right—
- (a) may be discharged only by the discharging of it to the distributor-retailer; and
 - (b) may only be enforced by the distributor-retailer.
- (4) An assumed liability—
- (a) may be discharged only by the discharging of it by the distributor-retailer; and
 - (b) may be enforced only against the distributor-retailer.

77C Bundled agreement—mixed rights

- (1) This section applies if—
- (a) the agreement is a bundled agreement; and
 - (b) a term of the agreement gives a right to the local government; and
 - (c) the right relates, or may relate, to—
 - (i) a water aspect; and
 - (ii) another matter.
- (2) The right may be discharged only by the discharging of it to the local government.

Example—

The term requires another party to the agreement to give the local government security for the general performance of that party's liabilities under the agreement. The term does not provide for any particular amount for water aspects. The security must be given to the local government.

- (3) Only the local government may enforce the right.

Example—

The term requires another party to the agreement to construct infrastructure to a particular standard. The standard is capable of applying to the water infrastructure and to other types of infrastructure. Only the local government may enforce the requirement.

- (4) However, the local government must, at the distributor-retailer's request, enforce the right to the extent it relates to water aspects.
- (5) For any enforcement by the local government under subsection (3), any cost, damage or loss of the distributor-retailer relating to water aspects is taken to be a cost, damage or loss of the local government.

77D Bundled agreement—mixed liabilities

- (1) This section applies if—
 - (a) the agreement is a bundled agreement; and
 - (b) a term of the agreement imposes a liability on the local government; and
 - (c) the liability relates, or may relate, to—
 - (i) a water aspect; and
 - (ii) another matter.
- (2) The liability—
 - (a) may be discharged only by the discharging of it by the local government; and
 - (b) may be enforced only against the local government.
- (3) For the enforcement of a liability against the local government under subsection (2), any interest or right of the distributor-retailer relating to water assets is taken to be an interest or right of the local government.

77E Negotiation about mixed rights and liabilities

- (1) The local government and the distributor-retailer (each a *negotiation party*) must negotiate in good faith about the extent to which each of them are to share the following—
 - (a) rights to which section 77C applies;
 - (b) liabilities to which section 77D applies;
 - (c) costs incurred because of enforcement mentioned in section 77C;
 - (d) any costs, damage, liability or loss the local government incurs because of section 77D(2).
- (2) If, after the negotiation, the negotiation parties are in dispute about a matter mentioned in subsection (1), either negotiation party may refer the dispute to the Minister.
- (3) The Minister may resolve the dispute in any way the Minister considers appropriate that affords natural justice to the negotiation parties.
- (4) The Minister's decision on the resolution of the dispute binds the negotiation parties.
- (5) The Minister may delegate the Minister's functions under subsection (3) to an appropriately qualified public service officer.

77F Other necessary changes to be made for transition

- (1) This section applies subject to the other provisions of this subdivision.
- (2) References in the agreement to the local government are taken to be changed to reflect any necessary changes for the transition from the local government to the distributor-retailer.

77G Other party's rights and liabilities not affected

To remove any doubt, it is declared that this subdivision does not create any greater right for, or impose any greater liability

on, a party to the agreement other than the local government or the distributor-retailer.

Note—

See also section 68 (Effect on legal relationships).

77H Provision for things done under agreement before the transfer

The transfer of the water infrastructure under the transition document does not affect the validity of any of the following done before the transfer—

- (a) an infrastructure charge or cost levied by the local government under the repealed SPA, chapter 8, part 1 or the repealed IPA, chapter 5, part 1;
- (b) a condition imposed by the local government under the repealed SPA, chapter 8, part 1 or section 848 or repealed IPA, chapter 5, part 1 or section 6.1.31;
- (c) any other decision, charge, condition, contribution or agreement made, levied or imposed by the local government under the repealed SPA or repealed IPA.

Subdivision 3A Other matters under Acts about planning

77I Application of sdiv 3A

- (1) This subdivision applies for a relevant action by a participating local government of a distributor-retailer if—
 - (a) under the relevant action a liability to the local government has accrued to it, or may at any time accrue to it; and
 - (b) all or part of the liability is for—
 - (i) water infrastructure constructed or to be constructed in the distributor-retailer’s geographic area; or

[s 77J]

- (ii) a charge for the provision of water services or wastewater services.
- (2) This subdivision applies subject to any transition document relating to the distributor-retailer.
- (3) In this section—
- relevant action* means any of the following—
- (a) a compliance permit, development approval, decision, charge, condition or contribution under the repealed SPA decided, made, levied or imposed before 1 July 2010;
 - (b) a development approval under the repealed SPA decided after 1 July 2010 if the relevant development application was made before 1 July 2010;
 - (c) a compliance permit under the repealed SPA decided after 1 July 2010, if the relevant request for compliance assessment under that Act was made before 1 July 2010;
 - (d) an approval of a plan under the repealed *Integrated Planning Act 1997*, chapter 3, part 7, as continued in force under the repealed SPA, section 815.

77J Transfer of liability in particular circumstance

If all of the liability is for water infrastructure or for the charge for water services or wastewater services, the liability is taken to be a liability to the distributor-retailer instead of the local government.

77K Provisions for sharing benefit of liability not solely for water infrastructure

- (1) This section applies if—
- (a) the liability is for the water infrastructure; and
 - (b) under the relevant action there is also a liability for infrastructure other than water infrastructure; and

- (c) the terms of the relevant action do not attribute a specific part of the liability to the water infrastructure.
- (2) The local government and the distributor-retailer (each a *negotiation party*) must negotiate in good faith about the extent to which each of them is to share the benefit of the liability.
- (3) If, after the negotiation, the negotiation parties are in dispute about how to share the liability, either negotiation party may refer the dispute to the Minister.
- (4) The Minister may resolve the dispute in any way the Minister considers appropriate that affords natural justice to the negotiation parties.
- (5) The Minister's decision on the resolution of the dispute binds the negotiation parties.
- (6) The Minister may delegate the Minister's functions under this section to an appropriately qualified public service officer.

77L Changes in references under relevant action

- (1) A reference in the relevant action to the carrying out of water infrastructure work by the local government is taken to be a reference to the distributor-retailer carrying out the work.
- (2) A reference in the relevant action to the person who bears the liability to do something relating to the local government concerning the water infrastructure is taken to be a reference to the person doing that thing relating to the distributor-retailer.
- (3) Other references in the relevant action to the local government are taken to be changed to reflect any necessary changes for the transition from the local government to the distributor-retailer.

Subdivision 4 Reconfigurations

78 Reconfiguring a lot after transfer scheme or notice takes effect

- (1) This section applies if a transition document transfers or requires the transfer from a local government to a distributor-retailer of—
 - (a) part of a lot, as described in a plan of subdivision for reconfiguring the lot, on which a transferred asset is situated; or
 - (b) part of a lot that is transferred land as described in a plan of subdivision for reconfiguring the lot; or
 - (c) part of a lot that is adjacent to transferred land as described in a plan of subdivision for reconfiguring the lot.
- (2) The distributor-retailer may lodge in the land registry under the Land Title Act the plan of subdivision for reconfiguring the lot to give effect to the transfer or requirement.
- (3) The Planning Act does not apply to the reconfiguring of the lot.
- (4) Despite the Land Title Act, section 50 the plan of subdivision for reconfiguring the lot does not require the agreement, approval or consent of any entity.
- (5) In this section—

transferred asset means an asset transferred under a transition document without the transfer of land to which the asset is attached.

transferred land means land transferred under a transition document.

Part 4 **Workforce provisions— preservation of rights of employees**

81 **Application of pt 4**

This part applies to the transfer of an employee of a local government (the *former employer*) to a distributor-retailer (the *new employer*) under a transition document.

82 **Continuity of employment**

- (1) The transfer does not—
 - (a) interrupt continuity of service, except that the employee is not entitled to claim the benefit of a right or entitlement more than once for the same period of service; or
 - (b) constitute a termination of employment by the former employer or a retrenchment or redundancy; or
 - (c) entitle the employee to a payment or other benefit because he or she is no longer employed by the former employer; or
 - (d) require the former employer to make any payment for the employee's accrued rights to recreation, sick, long service or other leave irrespective of any arrangement between the former employer and the employee.
- (2) The transfer has effect despite any other law, contract or other instrument.

-
- (c) any structure on the relevant land.
- (2) An employee or agent of the asset owner may enter the place at all reasonable times if the entry is—
- (a) necessary to do something relating to the asset for the performance of the asset owner’s functions as a distributor-retailer; or
- (b) necessary for the continued use of the asset in a way it was lawfully used before the transfer.

Examples of things for which entry may be necessary—

- carrying facilities into, through, across or under the land
 - performing work on the land
 - inspecting, operating, changing, maintaining, removing, repairing or replacing the asset
- (3) Also, the asset owner may allow other persons to enter the place at the times stated and as otherwise provided for in the transfer scheme or transfer notice.
- (4) This section does not apply to the entry of a structure or the part of a structure used for residential purposes.
- (5) To remove any doubt, it is declared that this section does not limit the making of other agreements between the asset owner and landowner about entry to or use of the place.

87 Compensation to landowner for entry and use

If the landowner incurs loss or damage because of the asset owner’s exercise of a power under section 86, the landowner is entitled to be paid compensation by the asset owner—

- (a) as worked out under the transfer scheme or transfer notice; or
- (b) as otherwise agreed between them.

88 Landowner’s obligations for asset

The landowner can not, without the asset owner’s written consent—

[s 89]

- (a) interfere with the asset; or
- (b) take any step to change the use of the land to which the asset is attached; or
- (c) carry out material works or make material improvements to the land; or
- (d) grant rights to anyone else relating to the land that are inconsistent with the asset owner's rights under section 86 or use of the asset.

Maximum penalty—50 penalty units.

89 Registration of information about asset

- (1) The asset owner may give a written request to the registrar to record the following information—
 - (a) that this part applies to the land to which the asset is attached;
 - (b) a description of the asset;
 - (c) the name of the asset owner.
- (2) On receiving the request, the registrar must make a record in a way that a search of a relevant register kept by the registrar under the Land Act or the Land Title Act will show the information.
- (3) On written request from the asset owner, the registrar must cancel the record.

Part 6 Provisions for easements

90 Application of pt 6

- (1) This part applies if—
 - (a) a participating local government for a distributor-retailer is the grantee under an easement; and

(b) the purpose for which the easement was created includes water supply or sewerage purposes.

(2) In this section—

easement includes a public utility easement under the Land Act or the Land Title Act.

91 Rights, liabilities and obligations under easement

(1) To the extent the easement relates to the purposes, the distributor-retailer—

(a) may exercise the same rights as the local government; and

(b) is subject to the same liabilities and obligations as the local government.

(2) However, the rights may be exercised only for the construction, installation, repair, replacement or removal of infrastructure relating to the purposes.

(3) This section does not remove or otherwise affect the local government's rights, liabilities and obligations under the easement.

(4) The distributor-retailer and the local government may make an agreement about the joint use of the easement.

92 Registration of information about easement

(1) The local government or the distributor-retailer may give a written request to the registrar to record the following information—

(a) that this part applies to the easement;

(b) an identifying number of the easement;

(c) the distributor-retailer's name.

(2) On receiving the request, the registrar must make a record in a way that a search of a relevant register kept by the registrar

[s 92AA]

under the Land Act or the Land Title Act will show the information.

- (3) On written request from the local government or the distributor-retailer, the registrar must cancel the record.

Chapter 3A Replacement of Allconnex by councils

Part 1 Preliminary

92AA Application of ch 3A

This chapter applies, and anything done under it takes effect, despite any other provision of this Act or another law, a transfer document, a participation agreement or a contract or other instrument.

92AB What is *Allconnex*

Allconnex is the Southern SEQ Distributor-Retailer Authority.

92AC What is a *withdrawn council*

A *withdrawn council* is—

- (a) the Gold Coast City Council; or
- (b) the Logan City Council; or
- (c) the Redland City Council.

Note—

The withdrawn councils are Allconnex's participating local governments.

92AD What is Allconnex's *successor*

- (1) Allconnex's *successor* is—
 - (a) for a provision about a customer—the withdrawn council in whose local government area the customer received, or wanted to receive, services from Allconnex of a type mentioned in the Water Supply Act, schedule 3, definition *customer*; or
 - (b) for a provision about an asset, liability or matter that, under a retransfer document or part 4, division 2, is transferred to a withdrawn council—that council; or
 - (c) for an infrastructure agreement that provides for water infrastructure for a withdrawn council's local government area—that council; or
 - (d) for a provision about a matter not provided for under paragraphs (a) to (c)—the geographically-connected withdrawn council.

Example for paragraph (d)—

Under this chapter, water infrastructure is transferred to a withdrawn council. That council is Allconnex's successor for a provision about a trade waste approval by it authorising discharge into the infrastructure.

- (2) If a matter is located in, or relates to, more than 1 withdrawn council's local government area, each of them is a *successor* of Allconnex.
- (3) If, under this chapter, the withdrawn councils are stated to be Allconnex's *proportional joint successor* for a matter, all of them are its joint successor, rateably in accordance with their participation rights under Allconnex's participation agreement immediately before the retransfer.
- (4) In this section—

liability does not include a matter that is, or may be, the subject of a dispute referral under the EWO Act or a liability under an order under that Act.

matter includes—

- (2) The Water Supply Act, section 20 does not apply to a withdrawn council.
- (3) A withdrawn council continues to be a service provider, subject to the Water Supply Act.
- (4) A withdrawn council must, as soon as practicable, give the regulator the information mentioned in the Water Supply Act, section 12 about the council as a service provider.

The Water Supply Act, sections 24 and 25 do not apply for Allconnex's cessation as, or the withdrawn councils becoming, a service provider.

- (2) This section—
 - (a) does not prevent the Water Supply Act, chapter 2, part 5, division 2 from applying to the new area; but
 - (b) is subject to section 92DB.

92AJ Creation of commercial business units for withdrawn councils

- (1) For LGA 2009, each withdrawn council is taken to have decided by resolution to do the following—

- (2) Until a withdrawn council decides otherwise, the name of its WSP business is the name of its commercial business unit for the services under the repealed *Local Government Act 1993* immediately before 1 July 2010.
- (3) If a withdrawn council's WSP business proposes to develop significant water infrastructure, the council must consult with any other withdrawn council or distributor-retailer whose local government area or geographic area adjoins the council's local government area.
- (4) To remove any doubt, it is declared that this section does not limit or otherwise affect a withdrawn council's capacity under

[s 92AK]

 - section 53CL(c)
 - section 53CN
 - section 53DA
 - part 2, division 7
 - part 3.
- (2) The provisions apply—

- (a) as if a reference in them to a discharge officer were a reference to a local government worker, under LGA 2009, of the withdrawn council authorised by it to perform functions mentioned in section 53CL; and
- (b) as if a reference to a distributor-retailer included a reference to the withdrawn council; and
- (c) with other necessary changes.

92AN Other functions not affected

To remove any doubt, it is declared that this division does not limit or otherwise affect the withdrawn council's or the local government worker's functions under LGA 2009.

Division 4 Allconnex's status, functions and board

92AO Legal status unaffected until dissolution

To remove any doubt, it is declared that, until Allconnex is dissolved, nothing in this chapter—

- (a) affects its establishment and legal status under sections 8 and 9; or
- (b) makes the State liable for any of its liabilities.

92AP Residual functions

Allconnex can not perform functions other than those that are required, necessary or convenient—

- (a) for this chapter or a law applying to it until its dissolution; or
- (b) because it has been a service provider or it continues to be a distributor-retailer.

- (3) However, the notice must not state where the information may be obtained if the Minister considers that there is a need to protect confidentiality or privacy relating to the information.

 - (a) signed by the Minister; and
 - (b) kept available for inspection at a place stated in the retransfer notice by the persons to whom the matter relates.

97 Amendment of code

- (1) The Minister may amend the code.
- (2) Sections 95 and 96 apply to the amendment as if a reference in the sections to the code were a reference to the amending code.

99AC Application of complaints standard

- (1) The complaints standard applies to an SEQ service provider for the handling of complaints by its customers.

- (2) In this section—

complaints standard means AS ISO 10002—2006 Customer satisfaction—Guidelines for complaints handling in organizations (ISO 10002:2004, MOD).

Division 2 Meters

Subdivision 1 General provisions

99AFA SEQ service provider may accept meter reading by customer

If asked by a customer to do so in a particular case, an SEQ service provider may accept the reading supplied by the customer of the meter recording the customer's water consumption as the water consumption of the customer for a particular period.

99AG Meters must be read annually

Each SEQ service provider must take reasonable steps to ensure each meter recording each of its customers' water consumption is read at least once each year.

Note—

For the power of an SEQ service provider to install and read meters, see the Water Supply Act, sections 35 and 37.

99AH Methods and basis of charging

- (1) An SEQ service provider may use methods of charging for water supplied or sold by it to its customers the provider considers appropriate, including, for example—
 - (a) giving an account based on meter readings; or
 - (b) if the water supplied or sold is not measured by a water meter—
 - (i) the estimated average water usage of the customers within a group of customers who have similar water usage; or
 - (ii) another method that is appropriate to decide a customer's likely water usage.

[s 99AI]

- (2) However, an SEQ service provider must not give an estimated account to a customer for 2 or more consecutive periods.

Example—

It may be a reasonable excuse for an offence under section 99AB for a contravention of subsection (2) that reasonable access was not available to the meter at the customer's premises.

99AI Special meter readings

- (1) A customer of an SEQ service provider may ask it for a reading of the meter for the customer's premises to work out the amount of water consumed at the premises since the last meter reading for the premises.
- (2) The SEQ service provider may require a fee for the reading.
- (3) The fee must be no more than the actual cost of the reading.
- (4) Subject to any payment required under subsection (2), the SEQ service provider must cause the reading to be carried out.

Subdivision 2 Meter tests

99AJ Meter accuracy test at customer's request

 - (a) by a test carried out for the SEQ service provider (a *provider test*); or
 - (b) by referring the meter for testing to an independent person (the *independent tester*) accredited by the National Association of Testing Authorities (an *independent test*).
- (2) The SEQ service provider or independent tester may require the customer to pay the following before carrying out the test—

-
- (a) for a provider test—a charge owing by the customer to the SEQ service provider for water services or wastewater services;
 - (b) the fee for testing each meter to be tested.
- (3) The fee must be the reasonable, but no more than the actual, cost of each test.
 - (4) Subject to any payment required under subsection (2), the SEQ service provider or independent tester must cause the test to be carried out.
 - (5) The SEQ service provider or independent tester must tell the customer when and where the test is to be carried out.
 - (6) The customer, or customer's nominee, may be present during the test.

99AK When meter taken to register accurately

- (1) A meter registers incorrectly only if it registers outside the prescribed margin of the correct amount of water supplied, whether greater or less.
- (2) The prescribed margin is 5%.

99AL Extent of inaccuracy

If a properly conducted test shows a meter registers incorrectly, it is taken to be registering incorrectly only to the extent to which the registration falls outside the prescribed margin.

99AM Notice of test results

- (1) If a provider test or independent test is carried out, the person who carried out the test must give the customer who requested the test notice of the test results as soon as practicable.
- (2) If the test shows the meter is registering incorrectly, the notice must state the extent to which the registration falls outside the prescribed margin.

99AN Refund and adjustment if inaccuracy

- (1) If a provider test or independent test shows the meter tested is registering incorrectly, the relevant SEQ service provider must—
 - (a) refund the customer who requested the test any test fee paid by the customer for the test; and
 - (b) adjust the customer's previous relevant accounts to reflect the actual or a reasonable estimation of the water supplied to the customer.
- (2) However, subsection (1)(b) does not apply for accounts issued for more than 1 year.

99AO Using testing instruments

- (3) In this section—
total water cycle management plan, of a local government, means a plan about the collection, treatment and recycling of wastewater, stormwater, groundwater and other water sources and the integration of water use in its local government area.

Part 4 Making and amendment

99BR Process for making

- (1) To make a water netserv plan, an SEQ service provider must—
 - (a) give public notice about the proposal to make part A of a water netserv plan; and
 - (b) carry out public consultation in relation to proposed part A of the plan, including—
 - (i) making proposed part A of the plan available for inspection for at least 20 business days; and
 - (ii) inviting submissions to the SEQ service provider about proposed part A of the plan; and
 - (iii) considering submissions mentioned in subparagraph (ii); and
 - (c) ensure proposed part A of the plan is endorsed as follows—
 - (i) for a distributor-retailer—by each participating local government for the distributor-retailer as being consistent with the planning assumptions for its local government area;

- (ii) for a withdrawn council—by the council as being consistent with the planning assumptions for its local government area; and
- (d) subject to subsections (2) to (5), adopt the plan under section 99BRAB.
- (2) A participating local government or withdrawn council must endorse proposed part A of the plan if the plan is consistent with the planning assumptions for its local government area.

- (6) The SEQ service provider can not adopt the plan if proposed part A of the plan is not endorsed by the Planning Minister.
- (7) If the SEQ service provider is a distributor-retailer, the SEQ service provider can not adopt the plan if proposed part A of the plan is not endorsed by each of its participating local governments.

99BRAA Process for amending plan

- (1) An SEQ service provider may, under this section and section 99BRAB, amend its water netserv plan.
- (2) An administrative amendment to part A of the plan or any amendment to part B of the plan may be made at any time.

[s 99BRAA]

- (3) Before making a minor amendment to part A of the plan, the SEQ service provider must—

- (5) In this section—

administrative amendment, of a water netserv plan, means an amendment correcting or changing—

- (a) the format or presentation of the plan; or
- (b) a cross-reference in the plan; or

Chapter 4C Water approvals and infrastructure

Part 1 Services advice notices

99BRAC Obtaining notice

- (1) A person may, at any time, request a notice (a *services advice notice*) about a connection from a distributor-retailer.
- (2) The request must be made in the way stated in the distributor-retailer's connections policy.
- (3) The distributor-retailer may give the person a services advice notice stating—
 - (a) advice about the proposed connection having regard to its connections policy; and
 - (b) the charges and conditions that may apply to the connection; and
 - (c) any other relevant matter about the connection.
- (4) The distributor-retailer may impose a fee stated in the connections policy for the services advice notice.

99BRAD Water approval still required

- (1) Despite any services advice notice being given, if the person intends to make the connection, the person must apply for a water approval.
- (2) The services advice notice does not bind the distributor-retailer's decision if the person applies for the water approval.

Part 2 Water approvals

Division 1 Application and decision process

99BRAE Operation of pt 2

This part provides for a person (the *applicant*) to apply for a water approval for a connection, other than a standard connection, for a distributor-retailer.

Note—

For provisions relevant to water approvals and offences under the Water Supply Act, see the Water Supply Act, chapter 2, part 5, division 6.

99BRAE Applying for water approval

- (1) The application must be made to the distributor-retailer in the way stated in its connections policy.
- (2) If the applicant is not the owner of the land related to the connection, the owner's written consent must accompany the application.

Examples of land related to the connection—

- the land for the connection
 - land for which access is required for the connection
- (2A) However, subsection (2) does not apply to the extent the application relates to a publicly-controlled place.
 - (3) If the application is required to be made in a form under the connections policy, the *Acts Interpretation Act 1954*, section 48A applies to the form as if the form were prescribed or approved under this Act.
 - (4) The distributor-retailer may impose a fee stated in the connections policy for the application.

99BRAG Decision generally

- (1) In deciding the application, the distributor-retailer must assess the application and—
 - (a) approve all or part of the application; or
 - (b) refuse all of the application.
- (2) The decision may include the imposition of conditions (***water approval conditions***) permitted under division 2 and part 7 on any approval.
- (3) The assessment must be against—
 - (a) the decision criteria stated in its connections policy; and
 - (b) the SEQ design and construction code; and
 - (c) any other matter the distributor-retailer considers to be relevant to the connection or supply of its water services or wastewater services.

99BRAH Other decision rules

The distributor-retailer may refuse the application if it considers the connection—

- (a) is not technically feasible; or
- (b) would unreasonably interfere with the connection or supply of its water services or wastewater services to other customers.

99BRAI Decision notice

- (1) The distributor-retailer must give the applicant a notice (a ***decision notice***) of the decision on the application.
- (2) The decision notice must state—
 - (a) the decision and the day it was made; and
 - (b) if the application is refused, or part of the application is approved—the reasons for refusal; and

- (c) for an application other than a staged water connection application—any water approval conditions imposed or charges levied for the connection; and
 - (d) for a staged water connection application—
 - (i) any water approval conditions imposed or charges levied for the connection; and
 - (ii) the stages of the connection; and
 - (iii) which stages of the connection (if any) are authorised under the water approval; and
 - (iv) any water approval conditions imposed, or charges levied, on a stage of the connection authorised under the water approval; and
 - (v) which stages of the connection require a further application for a water approval; and
 - (e) for each water approval condition about trunk or non-trunk infrastructure imposed under this chapter—the provision under which the condition was imposed; and
 - (f) the applicant’s rights of internal review and appeal.
- (3) The decision notice may be combined with any trade waste approval or seepage water approval given to the applicant.
- (4) If the distributor-retailer does not give the applicant a decision notice within the period during which the application is required to be decided under the connections policy, the distributor-retailer is taken to have refused the application.

Division 2 Conditions and charges

Subdivision 1 Water approval conditions

99BRAJ Water approval conditions must be relevant and reasonable

- (1) Water approval conditions must—
 - (a) be relevant to, but not an unreasonable imposition on, the connection; or
 - (b) be reasonably required for, or as a result of, the connection.
- (2) Without limiting subsection (1), the conditions may be for any of the following—
 - (a) the level of demand for the water service or wastewater service for the connection;
 - (b) protecting or maintaining the safety and efficiency of the distributor-retailer's infrastructure;
 - (c) requiring property service infrastructure or network infrastructure to be designed and constructed including infrastructure designed and constructed in accordance with the SEQ design and construction code;
 - (d) requiring a document or works for the water approval to be certified by the distributor-retailer or a nominated person;
 - (e) requiring a nominated person to make a connection to the distributor-retailer's network infrastructure;
 - (f) requiring a connection, or part of it, to be completed within a stated period;
 - (g) requiring the payment of security under an agreement under section 99BRAL to support a condition of the approval;
 - (h) trunk infrastructure or non-trunk infrastructure.

- (3) However, a water approval condition must not—
 - (a) impose a condition about trunk infrastructure or non-trunk infrastructure unless the condition is permitted to be imposed under part 7, divisions 4 to 6; or
 - (b) require a person to enter into a water infrastructure agreement.
- (4) If a water approval is for all or part of a staged water connection application, the water approval conditions for the approval may be imposed on any or all stages of the connection.

99BRAK Power to amend

- (1) This section applies if the holder of a water approval asks the distributor-retailer, in the way stated in its connections policy, to amend a water approval condition of the approval.
- (2) The distributor-retailer must decide to—
 - (a) approve the request, with or without conditions; or
 - (b) refuse the request.
- (3) Division 1, other than section 99BRAI, applies to the decision, with any necessary changes, as if a reference in the division to an application were a reference to an application for the amendment.
- (4) The distributor-retailer must give the applicant notice (an *amendment notice*) of the decision about the condition stating the following—
 - (a) the day the decision was made;
 - (b) whether the request is approved or refused;
 - (c) if the request is refused, the reasons for refusal;
 - (d) the applicant's rights of internal review and appeal.
- (5) If the condition is amended under this section—

- (a) the condition as amended, and any conditions imposed under subsection (2)(a), take effect when the amendment notice is given to the applicant; and
 - (b) any conditions imposed under subsection (2)(a) are taken to be water approval conditions of the water approval; and
 - (c) the distributor-retailer may give the applicant an infrastructure charges notice under part 7, division 3, subdivision 3 if the notice relates to the amended condition.
- (5A) If an infrastructure charges notice is given under subsection (5)(c) for a water approval, the notice replaces any existing infrastructure charges notice in effect for the approval.
- (6) To avoid any doubt, it is declared that despite an amendment to a condition of a water approval—
- (a) the water approval continues in effect; and
 - (b) a condition amended under this section is a water approval condition.

99BRAL Water approval condition agreements

- (1) The holder of a water approval may enter into an agreement with an entity, including, for example, a distributor-retailer, to establish the obligations, or secure the performance, of a party to the agreement about a water approval condition of the approval.
- (2) An applicant for a connection, the distributor-retailer and a nominated person may enter into an agreement to establish the obligations, or secure the performance, of a party to the agreement about a proposed water approval condition for the connection.

99BRAM Water infrastructure agreement terms become water approval conditions

If there is a water infrastructure agreement and a water approval for the same connection, all terms of the agreement are taken to be water approval conditions of the approval.

Note—

For provisions about water infrastructure agreements, see part 7, division 7.

Subdivision 2 Water approval charges

99BRAN Charges that may be levied

- (1) A distributor-retailer may levy a charge for any of the following—
 - (a) a property service connection or a network connection (a *connection charge*);
 - (b) property service infrastructure (a *property service works charge*).
- (2) The charges may be levied on any stage of the relevant connection.
- (3) The distributor-retailer may recover from a person to whom the charge is levied the amount, or part of the amount, of the charge as a debt.

Division 3 Effect of water approvals

99BRAO When approval takes effect

A decision notice for a water approval is taken to be a water approval having effect from when the decision notice is given to the applicant.

99BRAP When approval lapses

A water approval has effect until it lapses under a condition of the approval.

99BRAQ Approval attaches to land

- (1) A water approval—
 - (a) attaches to the land to which the approval relates until the approval lapses; and
 - (b) binds the owner of the land, the owner's successors in title and any occupier of the land.
- (2) Subsection (3) applies if a water approval (a *prior approval*) attaches to land and another water approval (a *later approval*) attaches to the land after the prior approval.
- (3) Subsection (1) continues to apply to the prior approval but only to the extent the prior approval is not modified under the later approval.

99BRAR Notice about conditions, fees and charges

The distributor-retailer may give a holder of a water approval a notice stating whether the holder has—

- (a) complied with the conditions of the approval; and
- (b) paid the fees and charges under the approval.

99BRAS Authority to make a connection

- (1) The water approval authorises the making of a connection to the extent authorised under the approval.
- (2) However, a distributor-retailer or a person authorised by the distributor-retailer may make a connection, or carry out works for the connection, without a water approval.

99BRAT Assessment of connections, water approvals and works

- (1) To avoid any doubt, it is declared that—
 - (a) a water approval for a connection including works for the connection, or a grant of a standard connection including works for the connection, is a complete assessment of the connection or works; and
 - (b) a connection including works for the connection can not be assessed or authorised under a local law or any other law of a State.
- (2) Subsection (1) does not apply to a connection, including works for the connection—
 - (a) in a priority development area under the *Economic Development Act 2012*; or
 - (b) on PDA-associated land for a priority development area under the *Economic Development Act 2012*.

Part 3 Standard connections

99BRAU Requests for standard connections

- (1) This section applies if a connection (a *standard connection*) complies with a distributor-retailer's criteria mentioned in section 99BOA(a) for the connection area.
- (2) A person may ask the distributor-retailer for the standard connection.
- (3) The distributor-retailer must grant the request if—
 - (a) the person pays the fee for the request stated in the distributor-retailer's connections policy; and
 - (b) if the land related to the standard connection is land other than a publicly-controlled place and the person making the request is not the owner of the land—the owner has given written consent to the connection.

Examples of land related to the connection—

- the land for the connection
 - land for which access is required for the connection
- (4) The grant of the request must be made within 5 business days after receiving it or another period agreed to by the distributor-retailer and the person.
- (5) The distributor-retailer must, within 5 business days of granting the request, give the person a notice stating—
- (a) the standard conditions for the standard connection; and
 - (b) a charge for the standard connection under this part.
- (6) The grant is taken to be a water approval for the standard connection and has effect from when the person receives the notice.

Note—

Part 2, division 3 and part 7, divisions 3 to 7 apply to a standard connection that is taken to be a water approval.

- (7) The standard connection is subject to the conditions (the ***standard conditions***) stated in the distributor-retailer's connections policy under section 99BOA(a).
- (8) The distributor-retailer may impose a fee stated in the connections policy for the request under this section.

99BRAV Charges that may be levied

- (1) A distributor-retailer may, for a standard connection, levy a charge for any of the following—
- (a) a property service connection or a network connection (a ***connection charge***);
 - (b) property service infrastructure (a ***property service works charge***).
- (2) The distributor-retailer may recover from a person to whom the charge is levied the amount, or part of the amount, of the charge as a debt.

Division 2 Internal reviews

99BRAY Appeal process starts with internal review

An appeal of an original decision, other than an appeal against a compliance notice, must be, in the first instance, by way of an application for internal review.

99BRAZ Who may apply for review

- (1) An interested person for an original decision may apply for an internal review of the decision (an *internal review application*).
- (2) An internal review application may be made only to the chief executive officer of the relevant distributor-retailer (the *reviewer*).

- (4) If the review decision confirms the original decision, for the purpose of an appeal, the original decision is taken to be the review decision.
- (5) If the review decision amends the original decision, for the purpose of an appeal, the original decision as amended is taken to be the review decision.
- (6) In this section—

review decision period means—

 - (a) 15 business days after receiving an internal review application; or
 - (b) another period agreed to between the distributor-retailer and the applicant.

99BRBC Notice of review decision

 - (b) appeal against the decision to the Planning and Environment Court.

- (4) If the reviewer does not comply with subsection (1), the reviewer is taken to have made a decision confirming the original decision.

99BRBD Internal review stops particular actions

- (1) If an internal review is started under this division, any work under a water approval must not be started until the review is decided or withdrawn.
- (2) Despite subsection (1), if the reviewer is satisfied the outcome of the review would not be affected if the work is started before the review is decided, the reviewer may allow the work to start before the review is decided.

Division 3 Appeals to a development tribunal

99BRBE Appeals about applications for connections—general

- (1) This section applies to an applicant for a connection if—

 - (c) if the decision is the giving of an infrastructure charges notice—
 - (i) the decision involved an error relating to—
 - (A) the working out, for section 99BRCJ, of additional demand; or

 - (ii) there was no decision about an offset or refund; or
 - (iii) if the infrastructure charges notice states a refund will be given—the timing for giving the refund.

- (a) the relevant charge itself; or

- (b) for a decision about an offset or refund for an infrastructure charges notice—
 - (i) the establishment cost of infrastructure identified in the distributor-retailer’s water netserv plan; or
 - (ii) the cost of infrastructure decided using the method included in the distributor-retailer’s infrastructure charges schedule.
- (5) The appeal must be started within the standard appeal period.

99BRBFA Appeals against refusal of conversion application

99BRBM Appeals may be combined with appeals under the Planning Act

- (1) This section applies if—

 - (a) the Planning and Environment Court, on the application of the distributor-retailer, decides otherwise;
 - (b) the appeal is withdrawn;
 - (c) the appeal is dismissed.
- (2) However, subsection (1) does not apply if the compliance notice is about—

- (1) If an appeal, other than an appeal under section 99BRBP, is started under this division, any work under a water approval must not be started until the appeal is decided or withdrawn.
- (2) However, if the Planning and Environment Court is satisfied the outcome of the appeal would not be affected if all or part of the work were to start before the appeal is decided, the court may allow all or that part of the work to start before the appeal is decided.

99BRBW Appeals may be combined with appeals under the Planning Act

- (1) This section applies if—
 - (a) an appeal is started under this division; and

Division 3 Charges for trunk infrastructure

Subdivision 1 Power to adopt charges

99BRCF Power to adopt charges by board decision

- (1) A distributor-retailer's board may decide (a *board decision*) to adopt charges (each an *adopted charge*) for providing trunk

infrastructure in relation to its water service or wastewater service.

Note—

See also section 140F.

- (2) However—
- (a) a board decision does not, of itself, levy an adopted charge; and
 - (b) the making of a board decision is subject to subdivision 2; and
 - (c) an adopted charge must not be for—
 - (i) trunk infrastructure related to work or use of land authorised under the *Greenhouse Gas Storage Act 2009*, the *Mineral Resources Act 1989*, the *Petroleum Act 1923* or the *Petroleum and Gas (Production and Safety) Act 2004*; or

Note—

See section 99BRCE(3).

- (4) In this section—

designation see the Planning Act, section 35(1).

non-State school see the *Education (Accreditation of Non-State Schools) Act 2017*, section 6.

Subdivision 2 Board decision

99BRCG Matters for board decision

- (1) An adopted charge may be made for providing trunk infrastructure for a land use if—
 - (a) the land use is prescribed by regulation under the Planning Act, section 112(3)(b); and
 - (b) the charge is no more than the proportion of the maximum adopted charge for trunk infrastructure the distributor-retailer may have under—
 - (i) a breakup agreement to which it is a party; or
 - (ii) if it is not a party to a breakup agreement—a regulation under the Planning Act.
- (2) There may be different adopted charges for providing trunk infrastructure in different parts of the distributor-retailer's geographic area.
- (3) Also, a board decision may do either or both of the following—
 - (a) declare there is no adopted charge for part or all of the distributor-retailer's geographic area;
 - (b) make a provision (an *automatic increase provision*) that provides for automatic increases in levied charges from when they are levied to when they are paid.
- (4) However, an automatic increase provision must state how increases under it are to be worked out.
- (5) Also, the automatic increase must not be more than the lesser of the following—
 - (a) the difference between the levied charge and the amount mentioned in subsection (1)(b) the distributor-retailer could have levied for the trunk infrastructure when the charge is paid;
 - (b) the increase worked out using the PPI, adjusted according to the 3-yearly PPI average, for the period—

- (i) starting on the day the levied charge is levied; and
- (ii) ending on the day the charge is paid.

(6) In this section—

3-yearly PPI average means the PPI adjusted according to the 3-year moving average quarterly percentage change between financial quarters.

maximum adopted charge, for a financial year, for trunk infrastructure, means the sum of—

- (a) the maximum amount for an adopted charge for the infrastructure—
 - (i) prescribed under the Planning Act, section 112(1); and
 - (ii) in force at the start of the financial year; and
- (b) an amount equal to the amount mentioned in paragraph (a) multiplied by the sum of the percentage increases for each financial quarter since the amount was last prescribed or amended.

percentage increase means the 3-yearly moving average quarterly percentage increase in the PPI.

99BRCH Working out cost of infrastructure for offset or refund

- (1) For the purpose of working out an offset or refund under this part, a board decision must include a method for working out the cost of the infrastructure the subject of the offset or refund.
- (2) The method must be consistent with the parameters for the purpose provided for under a guideline under the Planning Act, section 116(2).

99BRCHA Criteria for deciding conversion application

- (1) A board decision must include criteria for deciding a conversion application.

- (2) The criteria must be consistent with parameters for the criteria provided for under a guideline mentioned in the Planning Act, section 117(2).

Subdivision 3 Levying charges

99BRCI When charge may be levied and recovered

- (1) This section applies if—
 - (a) a distributor-retailer has given a water approval; and
 - (b) an adopted charge applies for providing the trunk infrastructure.
- (2) The distributor-retailer must give the applicant for the water approval an infrastructure charges notice.

Note—

For the giving of an infrastructure charges notice for the part of a water approval that was a PDA development approval under the *Economic Development Act 2012*, see also section 51AU(5) and (6) of that Act.

- (3) The infrastructure charges notice must be given within 10 business days after the distributor-retailer gives the applicant a decision notice under section 99BRAI or a notice under section 99BRAU(5).
- (4) Subsection (3) is subject to any provision under which an infrastructure charges notice may be amended or replaced.

Note—

See sections 99BRAK(5)(c), 99BRDC(3) and 99BRDH(4).

- (5) The infrastructure charges notice lapses if the water approval stops having effect.
- (6) A charge (a *levied charge*) under an infrastructure charges notice—
 - (a) is subject to sections 99BRCJ and 99BRCT; and
 - (b) is payable by the applicant; and
 - (c) attaches to the premises; and

-
- (d) becomes payable as provided for under subdivision 4; and
 - (e) is subject to any agreement under section 99BRCM(1); and
 - (f) may be recovered, in whole or part, by the distributor-retailer from the applicant as a debt.

99BRCJ Limitation of levied charge

- (1) A levied charge may be only for additional demand placed upon trunk infrastructure that will be generated by the connection the subject of the water approval.
- (2) In working out additional demand—
 - (a) any existing demand for a water service or wastewater service must not be included if it is the subject of an existing water approval for the premises; and
 - (b) the demand on trunk infrastructure generated by the following must not be included—
 - (i) an existing use on the premises if the use is lawful and already taking place on the premises;
 - (ii) a previous use that is no longer taking place on the premises if the use was lawful at the time it was carried out;
 - (iii) other development on the premises if the development may be lawfully carried out without the need for a further development permit under the Planning Act.
- (3) However, the demand generated by a water approval, use or development mentioned in subsection (2) may be included if an infrastructure requirement that applies or applied to the water approval, use or development has not been complied with.
- (3A) Also, the demand generated by development mentioned in subsection (2)(b)(iii) may be included if—

[s 99BRCK]

- (a) an infrastructure requirement applies to the land on which the development will be carried out; and
 - (b) the infrastructure requirement was imposed on the basis of development of a lower scale or intensity being carried out on the land.
- (4) In this section—
- charges notice* means—
- (a) an infrastructure charges notice under this Act or the Planning Act; or
 - (b) a notice mentioned in the repealed SPA, section 977(1).
- infrastructure requirement* means a charges notice, a water approval condition or a condition of a development approval that requires infrastructure or a payment in relation to demand on trunk infrastructure.

99BRCK Requirements for infrastructure charges notice

- (1) An infrastructure charges notice must state all of the following for the levied charge—
- (a) its current amount;
 - (b) how it has been worked out;
 - (c) the land;
 - (d) when it will be payable under section 99BRCL (without considering any possible water infrastructure agreement);
 - (e) if an automatic increase provision applies—
 - (i) that it is subject to automatic increases; and
 - (ii) how the increases are worked out under the provision;
 - (f) whether an offset or refund under this part applies and, if so, information about the offset or refund, including when the refund will be given.

-
- (1A) However, the infrastructure charges notice need not include the information mentioned in subsection (1)(f) if the person who is to receive the notice has—
- (a) advised, in writing, the distributor-retailer giving the notice that the information need not be included in the notice; or
 - (b) indicated, in an approved form, that the information need not be included in the notice.
- (2) The infrastructure charges notice must—
- (a) state the date of the notice; and
 - (b) state any review or appeal rights the recipient of the notice has in relation to the notice; and
- Note—*
- See chapter 4C, part 4 for reviews and appeals in relation to a decision to give an infrastructure charges notice.
- (c) include or be accompanied by any other information prescribed by regulation.

Subdivision 4 **Payment**

99BRCL Payment triggers generally

- (1) A levied charge for trunk infrastructure becomes payable—
 - (a) if the charge applies for a water approval and there is a related reconfiguring of a lot that is assessable development—when the network connection is made; or
 - (b) otherwise—when the property service connection is made.
- (2) This section is subject to any relevant water infrastructure agreement.
- (3) In this section—
assessable development see the Planning Act, section 44(3).

99BRCM Agreements about payment or provision instead of payment

- (1) The recipient of an infrastructure charges notice and the distributor-retailer that gave it may agree about either or both of the following—
 - (a) whether the levied charge may be paid other than as required under section 99BRCL, including whether it may be paid by instalments;
 - (b) whether infrastructure may be provided instead of paying part or all of the levied charge.
- (2) If the levied charge is subject to an automatic increase provision, the agreement must state how increases in the charges are payable under the agreement.

Subdivision 5 Changing charges

99BRCN Application of Planning Act, ch 4, pt 2, div 2, sdiv 5

The Planning Act, chapter 4, part 2, division 2, subdivision 5 applies to an infrastructure charges notice given by a distributor-retailer with any necessary changes, as if a reference in the subdivision to—

- (a) an infrastructure charges notice were a reference to an infrastructure charges notice under this Act; and
- (b) the local government that gave the infrastructure charges notice were the distributor-retailer that gave the infrastructure charges notice under this Act; and
- (c) the appeal period for the infrastructure charges notice were a reference to the period within which the recipient of the infrastructure charges notice may make an internal review application under part 4, division 2 of this Act about the decision to give an infrastructure charges notice.

Subdivision 6 Miscellaneous

99BRCO Distributor-retailer may supply different trunk infrastructure from that identified in a water netserv plan

A distributor-retailer may supply different trunk infrastructure from the infrastructure identified in its water netserv plan if the infrastructure supplied delivers the same desired standard of service identified in the plan.

Division 4 Water approval conditions about trunk infrastructure

Subdivision 1 Conditions for necessary trunk infrastructure

99BRCP Application and operation of sdiv 1

- (1) This subdivision applies if trunk infrastructure necessary to service the premises the subject of a water approval (the *subject premises*)—
 - (a) has not been provided; or
 - (b) has been provided but is inadequate.
- (2) Sections 99BRCQ and 99BRCR provide for a distributor-retailer to be able to impose particular water approval conditions (each condition is a *necessary infrastructure condition*) on any water approval given.

99BRCQ Necessary infrastructure condition for infrastructure identified in water netserv plan

- (1) This section applies if the distributor-retailer's water netserv plan identifies adequate trunk infrastructure to service the subject premises.

[s 99BRCR]

- (2) The distributor-retailer may impose a water approval condition requiring either or both of the following to be provided at a stated time—
 - (a) the identified infrastructure;
 - (b) different trunk infrastructure delivering the same desired standard of service.

99BRCR Necessary infrastructure condition for other infrastructure

- (1) This section applies if the distributor-retailer's water netserv plan does not identify adequate trunk infrastructure to service the subject premises.
- (2) The distributor-retailer may impose a water approval condition that requires development infrastructure necessary to service the premises to be provided at a stated time.

Note—

See schedule, definition *trunk infrastructure*.

- (3) However, the distributor-retailer may impose a condition under subsection (2) only if the development infrastructure services a connection consistent with the assumptions stated in the water netserv plan about the type, scale, location, timing or intensity of future development.

99BRCS Deemed compliance with reasonable or relevant requirement

- (1) A necessary infrastructure condition is taken to comply with section 99BRAJ(1) if—
 - (a) generally, the infrastructure required is—
 - (i) necessary to service the subject premises; and
 - (ii) the most efficient and cost-effective solution for servicing other premises in the general area of the subject premises; and

-
- (b) for a necessary infrastructure condition that requires the provision of the infrastructure on the subject premises, its provision—
 - (i) is not an unreasonable imposition on the connection; and
 - (ii) is reasonably required for the connection.
 - (2) To remove any doubt, it is declared that a necessary infrastructure condition may be imposed for infrastructure even if it will service premises other than the subject premises.

99BRCT Offset or refund requirements

- (1) This section applies if—
 - (a) trunk infrastructure the subject of a necessary infrastructure condition services, or is planned to service, premises other than the subject premises; and
 - (b) an adopted charge applies for the trunk infrastructure.
- (2) If the cost of the infrastructure required to be provided under the condition is equal to or less than the amount worked out by applying the adopted charge to the connection, the cost must be offset against that amount.

Note—

For how the cost is worked out, see sections 99BRCH and 99BRDC.

- (3) If the cost of the infrastructure required to be provided under the condition is more than the amount worked out by applying the adopted charge to the connection—
 - (a) there is no amount payable by the applicant for the relevant water approval; and
 - (b) the distributor-retailer must refund the applicant an amount equal to the difference between the establishment cost of the trunk infrastructure and the amount worked out by applying the adopted charge to the connection.

Subdivision 2 Conditions for additional trunk infrastructure costs

99BRCU Power to impose

- (1) A distributor-retailer may impose a condition (an *additional payment condition*) on a water approval requiring the payment of additional trunk infrastructure costs if—
 - (a) the connection—
 - (i) will generate infrastructure demand of more than that required to service the type, scale or intensity of future development assumed in the water netserv plan; or
 - (ii) will require new trunk infrastructure earlier than when identified in the distributor-retailer’s water netserv plan; or
 - (iii) is for premises completely or partly outside the connection area and future connection area; and
 - (b) the connection would impose additional trunk infrastructure costs on the distributor-retailer after taking into account either or both of the following—
 - (i) levied charges for the trunk infrastructure;
 - (ii) trunk infrastructure provided, or to be provided, by the applicant under this part.
- (2) An additional payment condition is taken to comply with section 99BRAJ(1) to the extent the infrastructure is necessary, but not yet available, to service the connection.
- (3) Subsection (2) applies even if the infrastructure is also intended to service other premises.
- (4) The power to impose an additional payment condition is subject to the rest of this subdivision.

99BRCV Content of additional payment condition

- (1) An additional payment condition must state all of the following—
 - (a) why it was imposed;
 - (b) the amount of the payment to be made under the condition;
 - (c) details of the trunk infrastructure for which the payment is required;
 - (d) when the amount becomes payable (the *payment time*);
 - (e) that the applicant may, instead of making the payment, elect to provide part or all of the trunk infrastructure;
 - (f) if the applicant so elects—
 - (i) any requirements for providing the trunk infrastructure; and
 - (ii) when it must be provided.
- (2) Unless the applicant and the distributor-retailer otherwise agree, the payment time is—
 - (a) if the trunk infrastructure is necessary to service the premises—by the day the connection, or work associated with the connection, starts; or
 - (b) if the trunk infrastructure is not necessary to service the premises—
 - (i) for a connection associated with reconfiguring a lot—when the network connection is made; or
 - (ii) for other connections—when the property service connection is made.

99BRCW Restriction if connection completely in connection area and future connection area

- (1) This section applies for an additional payment condition imposed by a distributor-retailer for a connection completely inside the connection area and future connection area.

[s 99BRCX]

- (2) The additional payment condition may require a payment only as follows—
 - (a) for trunk infrastructure to be provided earlier than planned in the water netserv plan—the additional establishment cost that would be incurred by the distributor-retailer in providing the trunk infrastructure earlier than planned;
 - (b) for infrastructure associated with a different type, scale or intensity of future development from that assumed in the water netserv plan—the establishment cost of any additional trunk infrastructure made necessary by the connection.

99BRCX Other area restrictions

- (1) This section applies for an additional payment condition imposed by a distributor-retailer for a connection completely or partly outside the connection area and future connection area.
- (2) The additional payment condition may only require the payment of—
 - (a) the establishment cost of trunk infrastructure that is—
 - (i) made necessary by the connection; and
 - (ii) needed to service the rest of the connection area and future connection area; and
 - (b) either or both of the following establishment costs of any temporary infrastructure—
 - (i) costs required to ensure the safe or efficient operation of infrastructure needed to service the connection;
 - (ii) costs made necessary by the connection; and
 - (c) any decommissioning, removal and rehabilitation costs of the temporary infrastructure; and

- (d) the maintenance and operating costs for up to 5 years of the infrastructure and temporary infrastructure as mentioned in paragraphs (a) and (b).

99BRCY Refund if connection in connection area and future connection area

- (1) This section applies for an additional payment condition imposed by a distributor-retailer for a connection completely inside the connection area and future connection area.
- (2) The distributor-retailer must refund the payer the proportion of the establishment cost of the infrastructure that—
 - (a) may be apportioned reasonably to other users of the infrastructure; and
 - (b) has been, is or is to be, the subject of a levied charge by the distributor-retailer.

99BRCZ Refund if water approval ceases

- (1) This section applies if—
 - (a) a water approval subject to an additional payment condition no longer has effect; and
 - (b) a payment has been made under the condition; and
 - (c) construction of the infrastructure the subject of the condition has not substantially started before the water approval no longer has effect.
- (2) The distributor-retailer must refund the payer any part of the payment the distributor-retailer has not spent, or contracted to spend, on designing and constructing the infrastructure.
- (3) Timing of the refund is subject to terms agreed between the payer and distributor-retailer.

99BRDA Additional payment condition does not affect other powers

To remove any doubt, it is declared that the imposition of an additional payment condition does not prevent a distributor-retailer from doing the following—

- (a) adopting charges for trunk infrastructure or levying charges;
- (b) imposing a condition for non-trunk infrastructure;
- (c) imposing a necessary infrastructure condition.

Subdivision 3 Miscellaneous provisions

99BRDB No conditions on State infrastructure suppliers

- (1) A distributor-retailer can not impose a condition under this division on a supplier of State infrastructure.
- (2) In this section—
State infrastructure see the Planning Act, schedule 2.

99BRDC Working out cost for required offset or refund

- (1) This section applies if—
 - (a) a distributor-retailer has given an applicant for a water approval—
 - (i) a water approval under which the applicant is required to provide trunk infrastructure; and
 - (ii) an infrastructure charges notice that includes details of an offset or refund under this part relating to the establishment cost of the trunk infrastructure; and
 - (b) the applicant does not agree with the value of the establishment cost.

- (2) The applicant may, by notice to the distributor-retailer, require it to use the method under the relevant infrastructure charges schedule to recalculate the establishment cost.
- (2A) A notice under subsection (2) must be given to the distributor-retailer before the levied charge under the infrastructure charges notice becomes payable under section 99BRCL.
- (3) By notice to the applicant, the distributor-retailer must amend the existing infrastructure charges notice.
- (4) The amended infrastructure charges notice must adopt the method to work out the establishment cost.

Division 5 Miscellaneous provisions about trunk infrastructure

Subdivision 1 Conversion of particular non-trunk infrastructure before construction starts

99BRDD Application of sdiv 1

This subdivision applies if—

- (a) a particular water approval condition under section 99BRDJ requires non-trunk infrastructure to be provided; and
- (b) the construction of the non-trunk infrastructure has not started.

99BRDE Application to convert infrastructure to trunk infrastructure

- (1) The holder of a water approval may apply to convert non-trunk infrastructure to trunk infrastructure.

Note—

For the making of a conversion application for the part of a water approval that was a PDA development approval under the *Economic Development Act 2012*, see also section 51AU(7) of that Act.

- (2) The application (the ***conversion application***) must be made to the distributor-retailer, in writing, within 1 year after the water approval takes effect.

99BRDF Deciding conversion application

- (1) The distributor-retailer must consider and decide the conversion application within the required period.
- (2) In deciding the conversion application, the distributor-retailer must have regard to the criteria for deciding the application in its infrastructure charges schedule.
- (3) However, at any time before making the decision, the distributor-retailer may give a notice (an ***information requirement***) to the applicant requiring the applicant to give information the distributor-retailer reasonably needs to make the decision.
- (4) The notice must state—
 - (a) what information it requires; and
 - (b) a period of at least 10 business days for giving the information; and
 - (c) the effect of subsection (5).
- (5) The application lapses if the applicant does not comply with the notice within the later of the following—
 - (a) the period stated in the notice for giving the information;
 - (b) any later period, as agreed within the period stated in the notice, between the distributor-retailer and the applicant.
- (6) In this section—

required period means 30 business days after—

 - (a) generally—the making of the application; or

-
- (b) if an information requirement is made—the requirement is complied with.

99BRDG Notice of decision

- (1) As soon as practicable after deciding the conversion application, the distributor-retailer must give the applicant notice of the decision.
- (2) If the decision is to convert the non-trunk infrastructure to trunk infrastructure, the notice must state whether an offset or refund under this part applies and, if it does, details of the offset or refund.
- (3) If the decision is not to convert the non-trunk infrastructure to trunk infrastructure, the notice must be an information notice about the decision.

99BRDH Effect of and action after conversion

- (1) This section applies if the decision on a conversion application is to convert the non-trunk infrastructure to trunk infrastructure.

Note—

See schedule, definition *trunk infrastructure*.

- (2) The relevant water approval condition requiring the non-trunk infrastructure to be provided no longer has effect.
- (3) Within 20 business days after making the decision, the distributor-retailer may amend the water approval by imposing a necessary infrastructure condition for the trunk infrastructure.
- (4) If a necessary infrastructure condition is imposed, the distributor-retailer must also do either of the following within 10 business days after the imposition for the purposes of section 99BRCT(2) or (3)(b)—
 - (a) give an infrastructure charges notice;
 - (b) amend, by notice to the applicant, any existing infrastructure charges notice for the water approval.

[s 99BRDI]

- (5) For taking action under subsections (3) and (4), divisions 3 and 4 and part 4 apply as if—
 - (a) a water approval were a reference to the conversion; and
 - (b) a levied charge were a reference to the amendment of the levied charge.

Subdivision 2 Other provisions

99BRDI Application of levied charge

- (1) A levied charge paid to a distributor-retailer must be used to provide trunk infrastructure.
- (2) To remove any doubt, it is declared that the amount paid need not be held in trust by the distributor-retailer.

Division 6 Non-trunk infrastructure

99BRDJ Conditions distributor-retailers may impose

- (1) This section applies for the imposition by a distributor-retailer of a water approval condition about non-trunk infrastructure.
- (2) The condition may be only about providing development infrastructure for 1 or more of the following—
 - (a) a network, or part of a network, internal to the premises;
 - (b) connecting the premises to external infrastructure networks;
 - (c) protecting or maintaining the safety or efficiency of the water infrastructure network of which the non-trunk infrastructure is a component.
- (3) The condition must state the infrastructure to be provided and when it must be provided.

Division 7 Water infrastructure agreements

99BRDK Water infrastructure agreement

A *water infrastructure agreement* is an agreement, as amended from time to time, mentioned in any of the following—

- section 99BRCM(1)
- section 99BRCV(2)
- section 99BRCZ(3)
- section 99BRDP(1).

99BRDL Obligation to negotiate in good faith

- (1) This section applies if—
 - (a) a distributor-retailer proposes to another entity that they enter into a water infrastructure agreement; or
 - (b) another entity proposes to a distributor-retailer that they enter into a water infrastructure agreement.
- (2) The distributor-retailer or other entity to whom the proposal is made must, in writing, tell the proponent if it agrees to entering into negotiations for an infrastructure agreement.
- (3) In negotiating an infrastructure agreement, the distributor-retailer and the other entity must act in good faith.

Examples of actions that subsection (3) requires—

- disclosing to the other party to the negotiation in a timely way information relevant to entering into the proposed agreement
- considering and responding in a timely way to the other party's proposals about the proposed agreement
- giving reasons for each response

99BRDM Content of water infrastructure agreement

A water infrastructure agreement must—

[s 99BRDMA]

- (a) if obligations under it would be affected by a change in the ownership of land the subject of the agreement—include a statement about how the obligations must be fulfilled in that event; and
- (b) include any other matters required by regulation to be included.

99BRDMA Copy of water infrastructure agreement to be given to local government

- (1) This section applies if a participating local government is not a party to a water infrastructure agreement that relates to its local government area.
- (2) The distributor-retailer must give the local government a copy of the agreement.

99BRDN When water infrastructure agreement binds successors in title

- (1) This section applies if the owner of land to which a water infrastructure agreement applies is a party to the agreement or consents to the water connection obligations being attached to the land.
- (2) The water connection obligations under the water infrastructure agreement attach to the land and bind the owner and the owner's successors in title of the land.
- (3) If the owner's consent under subsection (1) is given but not endorsed on the water infrastructure agreement, the owner must give a copy of the document evidencing the owner's consent to the distributor-retailer for the land to which the consent applies.
- (4) Despite subsection (2), subsections (5) and (6) apply if—
 - (a) the water infrastructure agreement states that if the land is subdivided, part of the land is to be released from the water connection obligations; and
 - (b) the land is subdivided.

- (5) The part is released from the water connection obligations.
- (6) The water connection obligations are no longer binding on the owner of the part.
- (7) In this section—

public sector entity see the Planning Act, schedule 2.

water connection obligation means an obligation under the water infrastructure agreement other than an obligation to be fulfilled by a public sector entity.

99BRDO Water infrastructure agreement prevails over water approval and infrastructure charges notice

- (1) If a water infrastructure agreement is inconsistent with a water approval or infrastructure charges notice, the agreement prevails to the extent of the inconsistency.
- (2) This section is subject to the *Economic Development Act 2012*, section 120A(4).

Note—

See also the *Economic Development Act 2012*, section 120(5) for when an infrastructure agreement under the Planning Act applies instead of the part of a water approval that was part of a PDA development approval under that Act.

99BRDP Agreement for infrastructure partnerships

- (1) A person may enter into an agreement with a distributor-retailer about—
 - (a) providing or funding infrastructure; or
 - (b) refunding payments made towards the cost of providing or funding infrastructure.
- (2) Subsection (1) has effect despite section 99BRAJ and divisions 2 to 6.

Part 8 Miscellaneous provisions

99BRDQ SEQ service provider's guarantees to provide connection

- (1) This section applies to an SEQ service provider that has adopted a water netserv plan.
- (2) The SEQ service provider must provide a connection to its infrastructure networks for its water service or wastewater service if the connection complies with its connection criteria in the connection area.
- (3) To avoid any doubt, it is declared that an SEQ service provider does not guarantee to provide a connection to its water service or wastewater service in a future connection area.

99BRDR Ch 4C does not limit Water Supply Act

To avoid any doubt, it is declared that this chapter is not intended to limit a power or function of a distributor-retailer under the Water Supply Act.

Chapter 5 Miscellaneous provisions

Part 1 Public access to information

99BT Keeping particular documents available for inspection and purchase

- (1) An SEQ service provider must keep available for inspection and purchase a copy of each of the following—
 - (a) part A of the SEQ service provider's water netserv plan;
 - (ab) all supporting material used to draft its water netserv plan;

-
- (b) a map showing the limits of the SEQ service provider's connection areas;

 - (i) each annual capital works program prepared by the distributor-retailer under section 100B;
 - (ii) an infrastructure charges register that complies with section 99BU;
 - (iii) each infrastructure agreement and water infrastructure agreement to which the distributor-retailer is a party;
 - (iv) each approved inspection program;
 - (v) each water approval that attaches to land, including any conditions of the approval;
 - (vi) each document mentioned in the water netserv plan used to prepare the plan.

Note—

For access to an SEQ service provider's customer service charter, see section 99AEA.

- (2) The documents mentioned in subsection (1)(a) and (c) must also be kept available on the SEQ service provider's website.

99BU Requirements for infrastructure charges register

- (1) For section 99BT(1)(d)(ii), the infrastructure charges register must include all charges for infrastructure levied by the distributor-retailer.
- (2) For each of the charges, the register must include all of the following—
 - (a) the real property description of land to which the charge applies;
 - (b) the schedule under which the charge was levied;

[s 99BV]

- (c) the amount of the charge levied;
 - (d) the amount of the charge unpaid;
 - (e) any relevant number of units of demand charged for;
 - (f) if the charge was levied as a result of a development approval—the approval reference number and the day the approval will lapse;
 - (g) if infrastructure was to be provided instead of paying the charge—details of any infrastructure still to be provided.
- (3) Also, the register must include—
- (a) the charge rate, stated in the charges schedule, for each charge levied; and
 - (b) if the charge has been adjusted for inflation—details of how it was adjusted and the adjusted charge rate.

99BV SEQ service provider may charge for copies of documents

- (1) An SEQ service provider may charge a person for supplying a copy of a document or part of a document.
- (2) The charge must not be more than the cost to the SEQ service provider of—
 - (a) making the copy available to the person; and
 - (b) if the person asks for the material to be posted—the postage.

Part 3 Portability of long service leave

99BY Definition for pt 3

In this part—

accrued right to long service leave, for a person, means the person's entitlement to take long service leave after having

completed a minimum period of employment with an employer.

99BZ Application of pt 3

This part applies if—

- (a) a person is employed (the *new employment*) by a distributor-retailer (the *new employer*); and
- (b) the person was previously employed (the *former employment*) by another distributor-retailer (the *former employer*); and
- (c) the period between ending the former employment and beginning the new employment is not longer than 1 year; and
- (d) the person did not receive a payment from the former employer of an amount as a cash equivalent for accrued long service leave.

99BZA Continuation of accrued rights to long service leave

- (1) The person's accrued right to long service leave in relation to the former employment is continued in relation to the new employment as an accrued right to long service leave as an employee of the new employer.
- (2) From the start of the new employment, the new employer has the same obligations in relation to the person's accrued right to long service leave as the former employer had in relation to the person at the end of the former employment.

Example—

If a person was entitled to take 11 weeks long service leave at the time the former employment ended, the person continues to be entitled to take 11 weeks long service leave after the start of the new employment. The entitlement would not be subject to completing any further period of employment with the new employer.

- (3) However, after the start of the new employment, the person continues to accrue rights to long service leave only under the

[s 99BZB]

same conditions as an employee of the new employer who is not a person to whom this part applies.

99BZB Recognition of previous periods of employment

- (1) This section applies when deciding the person's accrued right to long service leave in relation to the new employer.
- (2) The person's period of employment with the former employer, in addition to the person's period of employment with the new employer, is taken to be the person's period of employment with the new employer.

Example—

A person is taken to have completed a period of employment of 10 years with a new employer if the person completed a period of employment of 6 years with a former employer and a period of employment of 4 years with the new employer.

99BZC Payment by former employer to new employer towards long service leave entitlements accrued with former employer

- (1) The former employer must pay the new employer an amount for the number of days of long service leave that the person—
 - (a) is entitled to take because of the person's period of employment with the former employer; or
 - (b) would have been entitled to take, because of the person's period of employment with the former employer, if there was no minimum period of employment to be completed before the entitlement is accrued.
- (2) The amount is the amount the former employer would have been required to pay the person if the person had taken the long service leave.
- (3) The amount must be paid within a reasonable period after being requested by the new employer.
- (4) A former employer of the person must provide the person's new employer with the following information about the person—

- (a) the length of accrued long service leave;
- (b) any special leave taken without salary;
- (c) any long service leave taken by the person or any amount paid to the person instead of long service leave;
- (d) any undertaking given in relation to long service leave.

Part 4 Other matters

99BZD Compensation by local governments for particular matters

- (1) This section applies if a participating local government (the *council*) of a distributor-retailer adopts, does or makes any of the following (the *triggering event*)—
 - (a) an individual direction;
 - (b) a change, during the capped prices period, to a subsidy or rebate for users of water services or wastewater services;
 - (c) an action or decision of a type prescribed under a regulation.
- (2) The council has a liability to compensate (the *compensation liability*) the distributor-retailer and its other participating local governments (each a *claimant*) for any direct and reasonably anticipated financial detriment they will or may suffer because of the triggering event's effects.
- (3) However, the compensation liability does not apply for a type of detriment prescribed under a regulation.
- (4) The council and each claimant must make reasonable endeavours to negotiate in good faith to reach an agreement about the amount, if any, of the compensation liability.
- (5) However, the agreement can not do, or have the effect of—
 - (a) changing participation rights without approval under section 29; or

[s 100]

- (b) anything else prescribed under a regulation.
- (6) A regulation may provide for all or any of the following about the compensation liability—
 - (a) the period within which it can be claimed;
 - (b) how it may be claimed;
 - (c) how any amount for the liability may or must be paid;
 - (d) dispute resolution if it is not provided for under the distributor-retailer's participation agreement.

100 Liability for Commonwealth and State tax equivalents

- (1) The Treasurer may issue a manual (the *tax equivalents manual*) that—
 - (a) fixes tax equivalents to be paid by a distributor-retailer to its participating local governments, in full or in a stated part; and
 - (b) appoints a person to be the tax assessor under the tax equivalents manual.
- (2) Without limiting subsection (1), the tax equivalents manual may provide for all or any of the following—

 - (b) the lodging of returns by distributor-retailers;
 - (c) assessing returns;
 - (d) the functions of the tax assessor;
 - (e) objections and appeals against assessments and rulings.
- (3) A distributor-retailer must, as required under the tax equivalents manual, pay tax equivalents to its participating local governments in the proportions provided for under its participation agreement.
- (4) The Treasurer must table a copy of the tax equivalents manual, and each amendment of the manual, in the Legislative

Assembly within 14 sitting days after the manual is issued or the amendment made.

- (5) The tax equivalents manual may be made together with or form part of a tax equivalents manual issued by the Treasurer under an Act about local government.

- (6) In this section—

government tax means tax imposed under a Commonwealth Act or a State Act.

tax equivalents, to be paid by a distributor-retailer to its participating local governments, means amounts representing the value of benefits the distributor-retailer derives because it is not liable to pay a government tax that it would be liable to pay if it were not a distributor-retailer.

Treasurer means the Minister administering the 2007 restructuring Act.

100A Trade waste management plans and plans for managing wastewater services

- (a) on 1 July 2010; and
 - (b) until the day the distributor-retailer has a water netserv plan.
- (2) The existing trade waste management plan of a participating local government for a distributor-retailer is taken to be the distributor-retailer's trade waste management plan under the water EPP, section 22.
- (3) In managing its wastewater service, the distributor-retailer must have regard to the provisions about the matters that, under the water EPP, section 20, are included in the existing total water cycle management plans of its participating local governments.
- (4) On and from the day a distributor-retailer has a water netserv plan, the water EPP, section 22 does not apply to the distributor-retailer as a sewerage service provider.

[s 100B]

- (5) On and from 1 July 2010, the water EPP, section 20, does not apply to a participating local government.
- (6) In this section—
existing, for a trade waste management plan or total water cycle management plan of a participating local government, means the local government’s environmental plan about trade waste management or total water cycle management plan developed under the water EPP and in effect immediately before 1 July 2010.

- (2) When making the requirement, the chief executive must warn the SEQ service provider it is an offence to fail to comply with the requirement unless the SEQ service provider has a reasonable excuse.
