Notes to the schedule

Unless otherwise stated, area in square metres refers to land area. For a drive-in shopping centre, the land area refers to the site coverage of the buildings, roadways, parking facilities and landscaping areas only. In all other cases, the land area refers to the part of the land used for the purpose stated in the category of property.

If the number representing the area (expressed in square metres) of any property, or the licensed capacity (expressed in litres) of any depot, includes a fraction, the number is to be rounded to the nearest whole number (rounding one-half upwards).
