5 Interest on outstanding debt

For the purposes of this regulation (other than section 18), the interest rate on an outstanding debt is the rate that is 2% above the Suncorp Metway business variable lending rate as applying from time to time.

PART 2—PROVISIONS RELATING TO WATER SUPPLY

6 Regulated section of a watercourse

(1) The chief executive may determine a part of a watercourse to be a regulated section of the watercourse if the chief executive considers that the water supply in that part is increased from time to time as a result of works constructed or operated by the chief executive.

(2) The chief executive must note on a licence that permits water to be taken from a part of a watercourse that is a regulated section, that the part is a regulated section.

7 Water harvesting during periods of unregulated flow

(1) If at any time the chief executive considers that the water supply available from a source exceeds the expected demands on the water supply at that time, the chief executive may make a notification under this section.

*Water Resources (Rates and Charges) Regulation
1992*

(2) The notification—

- (a) is to be made to the persons licensed to harvest water from the source; and
- (b) is to declare a period of unregulated flow in relation to the source; and
- (c) may specify days on which the period starts and finishes, or may declare that the period is to continue until the chief executive makes a further notification specifying the day that the period is to finish; and
- (d) may be made by public notice or any other suitable means.

(3) For the purpose of calculating a water charge payable, by a person licensed to harvest water, for an amount of water taken from a source during a period of unregulated flow, that amount—

- (a) is to be included in a determination of the amount of water taken by water harvesting; and
- (b) is not to be included in a determination of the amount of water taken made by reference to an announced allocation or nominal allocation of a holding.

(4) If, in a notification made under this section, the chief executive declares—

- (a) a period of unregulated flow in relation to a regulated section of the Condamine River North Branch; and
- (b) that, during the period, either general water harvesting or restricted water harvesting is to apply;

a person must pay the charge, for water taken during the period, that is specified in this regulation in relation to general water harvesting or restricted water harvesting (as the case may be).

8 Water taken during periods of unrestricted flow

(1) If at any time the chief executive considers that the water supply available from a source exceeds the expected demands on the water supply at that time, the chief executive may make a notification under this section.

*Water Resources (Rates and Charges) Regulation
1992*

(2) The notification—

- (a) is to be made to the persons licensed to take water from the source; and
- (b) is to declare a period of unrestricted flow in relation to the source; and
- (c) may specify days on which the period starts and finishes, or may declare that the period is to continue until the chief executive makes a further notification specifying the day that the period is to finish; and
- (d) may be made by public notice or any other suitable means.

(3) For the purpose of calculating a water charge payable for an amount of water taken from the source during a period of unrestricted flow, that amount—

- (a) is to be charged at the specified rate for taking water during a period of unrestricted flow; and
- (b) is to be included in any determination of the amount of water taken made by reference to an announced allocation or nominal allocation of a holding.

10 Irrigation projects

(1) If the chief executive—

- (a) operates, or has constructed, works outside an irrigation area; and
- (b) considers that the water supply in an area outside an irrigation area has been increased as a result of the works;

the chief executive may determine the area to be an irrigation project.

(2) The chief executive may name an irrigation project for the purposes of the Act, for example—the ‘Mary Valley project’.

(3) The chief executive must display at an office of the department, or other suitable place, in or near an irrigation project, a map showing the boundaries of the irrigation project.

(4) The chief executive may make further determinations adding an area to, or excluding an area from, an irrigation project.

(5) In determining whether an area should be added to or excluded from an irrigation project, the chief executive must have regard to the effect the works are having on the water supply in the area at the time of the determination.

(6) If the chief executive determines that an area be added to or excluded from an irrigation project, the chief executive must, by public notice or other suitable means, notify the persons licensed to take water from the area.

11 Ground water areas

(1) If the chief executive—

- (a) manages the ground water resource in an area; or
- (b) operates, or has constructed, works that the chief executive considers have—
 - (i) increased the ground water supply in an area; or
 - (ii) reduced the demand for ground water in an area;

the chief executive may determine the area to be a ground water area.

(2) The chief executive may name a ground water area for the purposes of the Act, for example—the ‘Horseshoe Lagoon ground water area’.

(3) The chief executive must display at an office of the department, or other suitable place, in or near a ground water area, a map showing the boundaries of the ground water area.

(4) The chief executive may make further determinations adding an area to, or excluding an area from, a ground water area.

(5) In determining whether an area should be added to or excluded from a ground water area, the chief executive must have regard to—

- (a) any representation made by a person affected by the determination; and
- (b) any other evidence;

as to the effect the works are having on the ground water supply, or demand for ground water, in the area at the time of the determination.

(6) If the chief executive determines that an area be added to or excluded from a ground water area, the chief executive must, by public notice or

other suitable means, notify the persons licensed to take water from the area.

11A Carryover of water allocations

(1) This section applies if—

- (a) a person holds a nominal allocation for land in an area mentioned in schedule 1; and
- (b) the chief executive has decided an announced allocation for the land for a water year; and
- (c) the person has not used all the water, available under the announced allocation, during the water year.

(2) The person may apply to the chief executive to carry over all or part of the unused water from the water year to the next water year.

(3) The application must be accompanied by an application fee of \$100.

(4) The chief executive may approve the carryover if the chief executive is satisfied it is reasonable to do so having regard to—

- (a) the storage capacity available in the area; and
- (b) the quantity of water for which the chief executive estimates a carryover might be requested during the water year.

(5) The chief executive may approve the carryover on conditions including—

- (a) the time within which the carried over water must be used; and
- (b) how much of the carried over water is available for use.

(6) The chief executive may also approve carryovers for all or part of an area, without application by holders of nominal allocations for land in the area.

11B Forward draw of water allocations

(1) This section applies if—

- (a) a person holds a nominal allocation for land in an area mentioned in schedule 1; and

*Water Resources (Rates and Charges) Regulation

(c) the person reasonably expects to use all the water, available under the announced allocation, during the water year.

(2) The person may apply to the chief executive to forward draw, to the water year, all or part of the water to be available under an announced allocation for the next water year.

(3) The application must be accompanied by an application fee of \$100.

(4) The chief executive may approve the forward draw if the chief executive is satisfied it is reasonable to do so having regard to—

(a) the availability of water in the area; and

(b) the impact the forward draw might have on the supply of water for other persons in the area who would be entitled to receive water in the next water year.

(5) The chief executive may approve the forward draw on conditions including—

(a) the time within which the forward draw water must be used; and

(b) that the forward draw water may not be the subject of an agreement under section 231³ of the Act to allow another person to use the water.

(6) The chief executive may also approve forward draws for all or part of an area, without application by holders of nominal allocations for land in the area.

(7) If a quantity of water is forward drawn under this section, the quantity of water is to be deducted from the announced allocation available for use in the water year from which it was drawn.

(8) In subsection (1)(c)—

“announced allocation”, if a person’s nominal allocations for licences are combined on 1 notice for payment under section 14A,⁴ means the aggregate of the announced allocations for the nominal allocations.

3 Section 231 (Agreements as to transfer of water under allocation) of the Act

4 Section 14A (Combining nominal allocations for charging purposes)

PART 3—WATER CHARGES

12 Definitions

In this part—

“land” means a holding or land for which water may be taken under a licence.

“relevant area”, in relation to land, means—

- (a) in the case of land in an area mentioned in schedule 1—the area mentioned; or
- (b) in any other case—the area mentioned in schedule 1 from which water may be taken under a licence for the land.

(1) A minimum annual account fee is payable for a water year on each nominal allocation granted to land for which water may be taken from an area mentioned in schedule 1.

(2) If the charge levied under section 13 for the water year is less than the minimum annual account fee stated in schedule 1 for the area, the minimum annual account fee is payable.

- (c) the application is accompanied by an application fee of \$50.

(2) The chief executive may combine the nominal allocations for the licences in 1 notice of payment if the chief executive is satisfied it is reasonable to do so having regard to—

- (a) the distance between the parcels of land for which the nominal allocations were granted; and
- (b) whether the parcels of land are serviced by the same works.

(3) If nominal allocations for the licences are combined in 1 notice for payment, section 14 must be applied to the aggregate of the nominal allocations for the licences, and the aggregate of the corresponding announced allocations, as if the nominal allocations were 1 allocation and the announced allocations were 1 allocation.

16 Charges for water in excess of entitlements

(1) A charge is levied on water in excess of an entitlement under an announced allocation that is taken under an authority granted under section 229 of the Act.

(2) The charge may be worked out using the formula—

amount payable for water + percentage amount of nominal allocation.

(3) In the formula—

“amount payable for water” is the amount payable under this regulation (other than this section) for the water.

“percentage amount of nominal allocation” is 5% of the nominal allocation charge specified in schedule 2 for each megalitre of water taken under the authority for the land.

16A Notice for payment of charges or fees

(1) A charge under section 13 or 16, or a fee under section 14—

- (a) may be made and levied—

Water Resources (Rates and Charges) Regulation
1992

- (ii) if the chief executive does not decide a period—quarterly; and
 - (b) may be made and levied by giving written notice to the person to whom water is supplied; and
 - (c) becomes payable on the day the notice is issued; and
 - (d) must be paid within 30 days after the notice is issued; and
 - (e) for any part of the charge or fee remaining unpaid after 30 days—accrues interest at the rate stated in section 5.

16B Recovery of charges and fees

(1) Any part of a charge under section 13 or 16, or a fee under section 14, that becomes payable under section 16A may be recovered by the chief executive by action in a court of competent jurisdiction.

(2) Interest payable on a charge or fee may be recovered in the same way the charge or fee may be recovered.

17 Nominal allocation charges

(1) Before the chief executive grants a nominal allocation for land in an irrigation area or irrigation project, the owner of the land must pay to the chief executive the nominal allocation charge specified for the land in schedule 2.

(1A) The charges specified in schedule 2 do not apply to the sale, under part 5 of the Act, of an entitlement to be issued with a licence for a nominal allocation.

(2) Despite subsection (1), the chief executive may grant the nominal allocation if the owner of the land arranges for payment of the nominal allocation charge for the land by instalments on terms satisfactory to the chief executive.

(3) The owner of the land is not required to pay the nominal allocation charge for the land if—

- (a) the owner acquires the land through an auction under the *Land Act 1994*; and
- (b) a nominal allocation is granted for the land before the land is offered for auction.

18 Payment of a nominal allocation charge by instalments

(1) This section applies if an owner of land pays a nominal allocation charge by instalments.

(2) The owner must—

- (a) pay interest on the unpaid part of the charge; and
- (b) comply with the agreed terms for payment of instalments.

(3) Interest on the unpaid part of the charge—
