Mineral and Energy Resources (Common Provisions) Act 2014

An Act to provide for the first step in creating a simplified common framework for managing resource authorities in order to optimise development and use of Queensland's mineral and energy resources and to manage overlapping coal and petroleum resource authorities for coal seam gas

Chapter 1 Preliminary

Part 1 Introduction

1 Short title

This Act may be cited as the *Mineral and Energy Resources (Common Provisions) Act 2014*.

Editor's note—

Uncommenced amendments to the following provisions have been included in this indicative reprint—

- sections 20A, 43–45, 79, 81, 85–86, 88–92, 96–98

2 Commencement

This Act commences on a day to be fixed by proclamation.

Part 2 Purposes and application of Act

3 Main purposes

The main purposes of this Act are—

- (a) to consolidate particular provisions common to each of the Resource Acts; and
- (b) to provide for particular common processes that apply to resource authorities; and
- (c) to manage overlapping coal and petroleum resource authorities for coal seam gas; and
- (d) to assist in achieving the purposes of each of the Resource Acts.

4 How main purposes are achieved

- (1) The main purposes are achieved by providing for the following matters mainly in this Act, rather than in each of the Resource Acts—
 - (a) dealings, caveats and associated agreements;
 - (b) land access;
 - (c) the new framework for overlapping coal and petroleum resource authorities for coal seam gas;
 - (d) the resource authority register;
 - (e) other miscellaneous matters.
- (2) It is the intention of Parliament that this Act be the first step towards the replacement of the Resource Acts with a

simplified common framework that will apply to all resource authorities.

5 Act binds all persons

- (1) This Act binds all persons, including the State and as far as the legislative power of the Parliament permits, the Commonwealth and the other States.
- (2) Nothing in this Act makes the State, the Commonwealth or another State liable to be prosecuted for an offence against this Act.

6 Relationship with Resource Acts

- (1) This Act is to be read and construed with, and as if it formed part of, each Resource Act.
- (2) Without limiting subsection (1), the following principles apply—
 - (a) this Act is not intended to exclude, limit or otherwise affect the operation of a Resource Act unless this Act otherwise expressly provides;
 - (b) a reference to ‘this Act’ in a provision of a Resource Act relating to any of the following matters includes a reference to this Act—
 - (i) the functions or powers of an authorised officer under a Resource Act, including, for example, the power to give a compliance direction;
 - (ii) the functions or powers of a Minister under a Resource Act, including, for example, the power to take noncompliance action;
 - (iii) proceedings for an offence against a provision of a Resource Act;
 - (c) if the context permits, a reference to ‘this Act’ in a provision of a Resource Act, other than a provision

[s 7]

mentioned in paragraph (b), includes a reference to this Act.

- (3) Without limiting subsection (2)(a), this Act is not intended to exclude, limit or otherwise affect the following unless this Act otherwise expressly provides—
 - (a) the power under a Resource Act to grant a resource authority;
 - (b) the carrying out of authorised activities for a resource authority;
 - (c) the duties, obligations, requirements or restrictions imposed on a resource authority holder.
- (4) Despite subsections (2)(a) and (3), if this Act is inconsistent with a Resource Act, this Act prevails to the extent of the inconsistency.
- (5) Without limiting subsection (1), (2), (3) or (4)—
 - (a) if a provision of this Act deals with a particular matter and a provision of a Resource Act deals with the same matter and it is impossible to comply with both provisions, a person must comply with the provision of this Act and is excused from complying with the provision of the Resource Act, to the extent that it can not be complied with; and
 - (b) if a provision of this Act deals with a particular matter and a provision of a Resource Act deals with the same matter and it is possible to comply with both provisions, a person must comply with both provisions.

7 Reference to a Resource Act includes reference to this Act

If the context permits, a reference in another Act or document to a Resource Act is taken to include a reference to this Act.

 - (b) to the extent an interest in any of the following relates to the land—
 - (i) a mining interest under the Mineral Resources Act;
 - (ii) a petroleum authority under the P&G Act or 1923 Act petroleum tenure under the 1923 Act;
 - (iii) a GHG authority under the Greenhouse Gas Act;
 - (iv) a geothermal tenure under the Geothermal Act;
 - (v) an occupation right under a permit under the *Land Act 1994*.
- (2) **Public land** includes a public road.

15 What is a **public road**

A **public road** is an area of land that—

- (a) is open to or used by the public; and
- (b) is developed for or has as 1 of its main uses—
 - (i) the driving or riding of motor vehicles; or
 - (ii) pedestrian traffic; and
- (c) is controlled by a public road authority.

Examples of an area of land that may be included in a road—

- a bridge, culvert, ford, tunnel or viaduct
- a pedestrian or bicycle path

15A What is an **advanced activity**

An **advanced activity**, for a resource authority, is an authorised activity for the resource authority other than a preliminary activity for the resource authority.

Examples—

- levelling of drilling pads and digging sumps

- earthworks associated with pipeline installation
- bulk sampling
- open trenching or costeaning with an excavator
- vegetation clear-felling
- constructing an exploration camp, concrete pad, sewage or water treatment facility or fuel dump
- geophysical surveying with physical clearing
- carrying out a seismic survey using explosives
- constructing a track or access road
- changing a fence line

15B What is a *preliminary activity*

- (1) A *preliminary activity*, for a resource authority, is an authorised activity for the authority that will have no impact, or only a minor impact, on the business or land use activities of any owner or occupier of the land on which the activity is to be carried out.

Examples—

- walking the area of the authority
- driving along an existing road or track in the area
- taking soil or water samples
- geophysical surveying not involving site preparation
- aerial, electrical or environmental surveying
- survey pegging

- (2) However, the following are not preliminary activities—

- (a) an authorised activity carried out on land that—
- (i) is less than 100ha; and
 - (ii) is being used for intensive farming or broadacre agriculture;

Examples—

- land used for dryland or irrigated cropping, plantation forestry or horticulture

[s 16]

- a dairy, cattle or sheep feedlot, piggery or poultry farm
- (b) an authorised activity that affects the lawful carrying out of an organic or bio-organic farming system.

Chapter 2 Dealings, caveats and associated agreements

Part 1 Dealings

16 What is a *dealing*

A *dealing*, in relation to a resource authority, is—

- (a) any transaction or arrangement that causes the creation, variation, transfer or extinguishment of an interest in the resource authority; or
- (b) another transaction or arrangement, prescribed by regulation, that affects the resource authority.

17 Prescribed dealings require registration

- (1) A regulation may prescribe the dealings with a resource authority (each a *prescribed dealing*) that must be registered under this part to have effect.
- (2) A prescribed dealing must not be registered without the Minister's approval.
- (3) A prescribed dealing has no effect unless, and until, it is registered under this part.

18 Prohibited dealings have no effect

- (1) The following dealings with a resource authority are prohibited—
 - (a) a dealing with a resource authority that transfers a divided part of the authorised area for the resource authority, unless the dealing is—
 - (i) a sublease of a resource authority that is a lease; or
 - (ii) a transfer of a sublease mentioned in subparagraph (i) or of a share in the sublease;
 - (b) a dealing with a resource authority prescribed by regulation as prohibited.
- (2) A dealing with a resource authority prohibited under subsection (1) must not be registered under this part and has no effect.

19 Application for Minister's approval to register dealing

- (1) The *ordinary rule* is that the following entities may apply to the Minister for approval to register a prescribed dealing—
 - (a) the affected resource authority holder;
 - (b) any other entity with the affected resource authority holder's consent.
- (2) However, if a prescribed dealing is required to be executed because of the operation of a law, a regulation may change the ordinary rule by prescribing the following—
 - (a) who may or must make the application;
 - (b) the period within which the application must be made.

Example of dealing required to be executed because of the operation of a law—

the transfer of an interest in a resource authority because of the death of the resource authority holder

[s 20]

- (3) Chapter 5, part 1 applies for processing the application, and the Minister must decide to either refuse to give the approval or give the approval with or without conditions.

Note—

See section 23 if the approval relates to a prescribed dealing for which an indicative approval has been given under that section.

- (4) In this section—

affected resource authority holder means—

- (a) for a prescribed dealing affecting the whole of a resource authority—the holder of the resource authority;
or
(b) for a prescribed dealing affecting a share in a resource authority—the holder of the share.

20 Unpaid royalties prevent transfer of resource authority

- (1) This section applies if a prescribed dealing is a transfer of a resource authority or of a share in a resource authority.
- (2) However, this section does not apply if—
- (a) the share in the resource authority is being transferred to a person who already holds a share in the resource authority; and
- (b) the person transferring the share continues, after the transfer, to hold a share in the resource authority.
- (3) The Minister must not give an approval under section 19 while any royalty payable by the holder of the resource authority remains unpaid.

20A Failure to pay contribution to scheme fund or give surety prevents registration of prescribed dealing

- (1) This section applies if—
- (a) the Minister approves a prescribed dealing that is any of the following—

- (i) a transfer of a resource authority that authorises the carrying out of a resource activity for an environmental authority mentioned in the *Mineral and Energy Resources (Financial Provisioning) Act 2018*, section 32(1)(c)(i) or 33(1)(c)(i);
 - (ii) a transfer of a resource authority that authorises the carrying out of a resource activity for an environmental authority mentioned in the *Mineral and Energy Resources (Financial Provisioning) Act 2018*, section 53(d);
 - (iii) a transfer of a small scale mining tenure mentioned in the *Mineral and Energy Resources (Financial Provisioning) Act 2018*, section 53(e); and
- (b) a contribution to the scheme fund is required to be paid, or a surety required to be given, for the environmental authority or small scale mining tenure, under the *Mineral and Energy Resources (Financial Provisioning) Act 2018*.
- (2) The prescribed dealing must not be registered unless the entity that will be the holder of the resource authority, or small scale mining tenure, on registration of the prescribed dealing has paid the contribution to the scheme fund, or given the surety, under the *Mineral and Energy Resources (Financial Provisioning) Act 2018*.

21 Security may be required

- (1) This section applies if a prescribed dealing is a transfer of a resource authority or of a share in a resource authority.
- (2) As a condition of deciding to give an approval under section 19, the Minister may require the proposed transferee to give the State security for the resource authority.
- (3) The provisions of the relevant Resource Act for giving security for the type of resource authority are taken to apply to the proposed transferee and the security as if the security were given under those provisions.

Examples of the provisions of the relevant Resource Act—

- For the Geothermal Act, see chapter 6, part 4.
- For the Greenhouse Gas Act, see chapter 5, part 6.
- For the Mineral Resources Act, see sections 83, 144, 190 and 277.
- For the 1923 Act, see part 6G.
- For the P&G Act, see chapter 5, part 1.

22 Effect of registration and Minister's approval

The registration of a prescribed dealing, or the Minister's approval to register the dealing under section 19, allows the dealing to have effect according to its terms but does not of itself give the dealing any more effect or validity than it would otherwise have.

23 Indication of Minister's approval to register

- (1) This section applies for a proposed prescribed dealing.
- (2) The prescribed applicant for the proposed prescribed dealing may apply to the Minister for an indication of (an *indicative approval*)—
 - (a) whether the Minister is likely to give approval to register the proposed prescribed dealing; and
 - (b) what, if any, conditions are likely to be imposed by the Minister.
- (3) Chapter 5, part 1 applies for processing the application, and the Minister must decide to either refuse to give the indicative approval or give the indicative approval with or without conditions.
- (4) Subsection (5) applies if—
 - (a) the indicative approval indicates the Minister will give approval to register the proposed prescribed dealing; and

- (b) within the prescribed period, the prescribed applicant applies to the Minister under section 19 for approval to register the proposed prescribed dealing.
- (5) The Minister must grant the approval in accordance with the indicative approval unless—
 - (a) the proposed prescribed dealing is a transfer of the resource authority and the proposed transferee is not eligible to be a resource authority holder under this Act or the relevant Resource Act; or
 - (b) the application for the indicative approval contained incorrect material information or omitted material information and, had the Minister been aware of the discrepancy, the Minister would not have given the indicative approval; or
 - (c) preconditions for the indicative approval have not been complied with.
- (6) To remove any doubt, it is declared that granting of the approval is subject to sections 20 and 21.
- (7) In this section—

preconditions, for an indicative approval, means conditions imposed on the approval under this section that must be complied with before a related application is made for approval under section 19.

prescribed applicant, for a proposed prescribed dealing, means the entity that may, under section 19(1) or (2), apply for approval to register the dealing.

Part 2 Caveats

24 Definition for pt 2

In this part—

affected resource authority, for a caveat, means the resource authority over which the caveat is lodged.

25 Lodging of caveat

- (1) A person claiming an interest in a resource authority may lodge a caveat over the resource authority if the caveat—
 - (a) complies with the prescribed requirements for it; and
 - (b) is not a prohibited caveat; and
 - (c) is accompanied by the fee prescribed by regulation.
- (2) On receipt of the caveat, the chief executive must—
 - (a) record its existence in the register; and
 - (b) notify each holder of the affected resource authority of the receipt of the caveat; and
 - (c) notify all other persons who have a registered interest in the resource authority, and any subsisting prior caveator, of the receipt of the caveat.
- (3) A caveat has no effect for this Act if—
 - (a) it does not comply with the prescribed requirements for it; or
 - (b) it is a prohibited caveat.
- (4) In this section—

prohibited caveat means a caveat of a type, prescribed by regulation, that can not be lodged.

registered interest, in a resource authority, means an interest in the resource authority recorded in the register.

26 Effect of lodging caveat

- (1) Until a caveat lapses, is withdrawn or is removed, the caveat prevents registration of a dealing in relation to the affected resource authority from the date and time endorsed by the

chief executive on the caveat as the caveat's date and time of lodgement.

- (2) However—
 - (a) lodgement of a caveat does not prevent registration of an instrument of a type prescribed by regulation; and
 - (b) if a caveat is lodged over only a share in a resource authority, lodgement of the caveat does not prevent registration of a dealing in relation to the other shares in the resource authority.
- (3) A caveat does not create an interest in the affected resource authority.

27 Lapsing of caveat

- (1) A caveat lapses—
 - (a) for a caveat for which there was consent—at the expiration of the term, if any, stated in the caveat; or
 - (b) for a caveat for which there was no consent—
 - (i) if an order of the Land Court is in force in relation to the caveat—at the expiration of the order; or
 - (ii) otherwise—at the expiration of 3 months after the date of lodgement of the caveat or a shorter term stated in the caveat.
- (2) If there was consent to a caveat and the caveat does not state a term for which it continues, the caveat continues until it is withdrawn or removed.
- (3) There is consent to a caveat only if each holder of the affected resource authority has consented to the lodgement of the caveat and the consent is lodged together with the caveat.

28 Withdrawal or removal of caveat

- (1) The caveator for a caveat may withdraw the caveat by notifying the chief executive in writing.

[s 29]

- (2) Either of the following persons may apply to the Land Court for an order that a caveat be removed—
- (a) a person who has a right or interest (present or prospective) in the affected resource authority;
 - (b) a person whose right (present or prospective) to deal with the affected resource authority is affected by the caveat.

Note—

See the *Land Court Rules 2000* for how to make an application to the Land Court.

- (3) The Land Court may make the order—
- (a) whether or not the caveator has been served with the application; and
 - (b) on the terms it considers appropriate.

29 Recording of lapsing, withdrawal or removal of caveat

As soon as practicable after a caveat lapses, is withdrawn or is ordered to be removed, the chief executive must record the lapse, withdrawal or removal in the register.

30 Further caveat not available to same person

- (1) This section applies if a caveat (the *original caveat*) is lodged over an interest in an affected resource authority.
- (2) A further caveat with the same caveator can not be lodged over the interest on the same, or substantially the same, grounds as those stated in the original caveat unless—
 - (a) the consent of each holder of the affected resource authority is lodged with the caveat; or
 - (b) leave of a court of competent jurisdiction to lodge the further caveat is granted.

31 Compensation for lodging caveat without reasonable cause

The caveator for a caveat lodged over a resource authority without reasonable cause is liable to compensate anyone else who suffers loss or damage because of the caveat.

Part 3 Associated agreements

32 What is an *associated agreement*

- (1) An *associated agreement*, for a resource authority, means an agreement relating to the resource authority.
- (2) However, neither of the following agreements is an *associated agreement*—
 - (a) a prescribed dealing;
 - (b) another agreement prescribed by regulation.

33 Recording associated agreements

- (1) The holder of a resource authority to which an associated agreement relates may apply to the chief executive to have the agreement recorded in the register against the resource authority.
- (2) The application may include the date on which the associated agreement expires and it is to be removed from the register.
- (3) Chapter 5, part 1 applies for processing the application.
- (4) After lodgement of a valid application, the chief executive must record the associated agreement in the register against the resource authority to which the agreement relates.
- (5) The chief executive is not required to examine, or to determine the validity of, an associated agreement.

34 Effect of recording associated agreements

The recording of an associated agreement in the register does not of itself—

- (a) give the agreement any more effect or validity than it would otherwise have; or
- (b) create an interest in the resource authority against which it is recorded.

35 Removing associated agreements from register

- (1) The holder of a resource authority to which an associated agreement relates may apply to the chief executive to have the agreement removed from the register.
- (2) Chapter 5, part 1 applies for processing the application.
- (3) After lodgement of a valid application, the chief executive must remove the associated agreement from the register.

Chapter 3 Land access

Part 1 Land access codes

36 Making of land access codes

A regulation may make 1 or more codes for all Resource Acts (each a *land access code*) that—

- (a) states best practice guidelines for communication between the holders of resource authorities and owners and occupiers of land, public land authorities and public road authorities; and
- (b) imposes on resource authorities mandatory conditions concerning the conduct of authorised activities on land.

Part 2 Private land

Division 1 Application of pt 2

37 Application of pt 2

This part does not apply in relation to the following resource authorities under the Mineral Resources Act—

- (a) a prospecting permit;
- (b) a mining claim;
- (c) a mining lease.

Division 2 Entry for authorised activities and access requires entry notice

38 Application of div 2

This division applies to an entry to private land for the purpose of—

- (a) carrying out an authorised activity for a resource authority; or
- (b) crossing access land for the resource authority; or
- (c) gaining entry to access land for the resource authority.

39 Obligation to give entry notice to owners and occupiers

- (1) A person must not enter private land for a purpose mentioned in section 38 unless the resource authority holder has given each owner and occupier of the land an entry notice about the entry.

Maximum penalty—500 penalty units.

- (2) An entry notice is invalid if—

[s 40]

- (a) it does not comply with the prescribed requirements for the notice; or
 - (b) it states a period for entry that is longer than the maximum period for entry; or
 - (c) it is not given to an owner or occupier at least 10 business days before the entry.
- (3) However, an entry notice is not invalid if—
- (a) given to an owner or occupier less than 10 business days before the entry; and
 - (b) the owner or occupier has agreed in writing to the shorter period.

- (4) In this section—

give includes to give by publication if the resource authority holder has been given an approval to do so under section 41 and complies with the approval.

maximum period for entry means the maximum period, prescribed by regulation, that access to land is to be allowed for a particular entry to the land.

40 Exemptions from obligations under div 2

- (1) An obligation under this division to give an entry notice about an entry to private land for a purpose mentioned in section 38 does not apply if—
- (a) the resource authority holder owns the land; or
 - (b) the resource authority holder has an independent legal right to enter the land for the purpose; or
 - (c) the entry is to preserve life or property or because of an emergency that exists or may exist; or
 - (d) the entry is authorised under the relevant Resource Act for the resource authority; or
 - (e) the entry is of a type prescribed by regulation.

- (2) An obligation under this division to give an entry notice about an entry to private land for a purpose mentioned in section 38 also does not apply if the resource authority holder has 1 of the following with each owner and occupier of the land—
- (a) a waiver of entry notice for the entry that is in effect;
- Note—*
An owner or occupier of land may give a waiver of entry notice for an entry to the land. See section 42.
- (b) a conduct and compensation agreement for the land and—
- (i) the agreement provides for alternative obligations for the entry; and
- (ii) the holder complies with the alternative obligations for the entry;
- (c) an opt-out agreement.

- (3) In this section—

independent legal right, to enter land, means a right to enter the land that is enforceable under any law, including a common law right, but does not include a right to enter the land under this Act or a Resource Act.

Example of an independent legal right to enter land—

a contractual arrangement allowing a party to the contract to enter particular land

41 Approval to give entry notices by publication

- (1) A resource authority holder may apply to the chief executive for approval to give an entry notice by publishing it in a stated way.
- (2) The application may relate to more than 1 entry notice or a particular type of entry.
- (3) The chief executive may give the approval only if satisfied—

[s 42]

- (a) the publication will happen at least 20 business days before the entry; and
 - (b) for an owner or occupier who is an individual—it is impracticable to give the owner or occupier the notice personally.
- (4) Chapter 5, part 1 applies for processing the application, and the chief executive must decide to either refuse to give the approval or give the approval with or without conditions.

42 Right to give waiver of entry notice

- (1) An owner or occupier of land may give a waiver of entry notice for an entry made to the land for a purpose mentioned in section 38.
- (2) A waiver of an entry notice—
 - (a) is invalid if it does not comply with the prescribed requirements for the notice; and
 - (b) can not be withdrawn during the notified period; and
 - (c) ceases to have effect at the end of the notified period.
- (3) In this section—
notified period, for a waiver of entry notice, means the period stated in the notice as the period during which the land may be entered.

Division 3 Entry for advanced activities requires agreement

43 Carrying out advanced activities on private land requires agreement

- (1) A person must not enter private land to carry out an advanced activity for a resource authority unless each owner and occupier of the land—

- (a) is a party to a conduct and compensation agreement about the advanced activity and its effects; or
- (b) is a party to a deferral agreement; or
- (c) has elected to opt out from entering into a conduct and compensation agreement or deferral agreement under section 45; or
- (d) is a party to—
 - (i) an arbitration under part 7, division 2, subdivision 3A; or
 - (ii) an application to the Land Court under section 96.

Maximum penalty—500 penalty units.

- (2) This section does not apply for an entry to private land to carry out an advanced activity for a resource authority if—
 - (a) the resource authority holder owns the land; or
 - (b) the resource authority holder has an independent legal right to enter the land to carry out the activity; or
 - (c) the entry is to preserve life or property or because of an emergency that exists or may exist; or
 - (d) the entry is authorised under the relevant Resource Act for the resource authority; or
 - (e) the entry is of a type prescribed by regulation.
- (3) This section does not limit the requirement under section 39 for a person to give an entry notice about the entry to private land for a purpose mentioned in section 38.
- (4) In this section—

independent legal right, to enter land, means a right to enter the land that is enforceable under any law, including a common law right, but does not include a right to enter the land under this Act or a Resource Act.

44 Deferral agreements

- (1) An owner or occupier of land may enter into an agreement (a ***deferral agreement***) with a resource authority holder that a conduct and compensation agreement can be entered into after entry to the land.
- (2) A deferral agreement is invalid if it does not comply with the prescribed requirements for the agreement.

45 Right to elect to opt out

- (1) An owner or occupier of land may elect to opt out of entering into a conduct and compensation agreement or a deferral agreement with a resource authority holder.
- (2) The election to opt out is an ***opt-out agreement*** and is invalid if it does not comply with the prescribed requirements for the agreement.
- (3) Despite any term of the opt-out agreement, either party to the agreement may, by giving written notice to the other parties to the agreement, unilaterally terminate the agreement within 10 business days of a signed copy of the agreement being given to the owner or occupier of land.
- (4) An opt-out agreement for land ends—
 - (a) according to its terms; or
 - (b) if the resource authority ends; or
 - (c) if it is terminated by a party under subsection (3); or
 - (d) if the parties enter into any of the following agreements—
 - (i) a deferral agreement;
 - (ii) a conduct and compensation agreement;
 - (iii) another opt-out agreement for the land.

Note—

An opt-out agreement does not negate a resource authority holder's liability to compensate an eligible claimant. See section 81.

Division 4 Access to private land outside authorised area

Subdivision 1 Application

46 Application of div 4

This division does not apply in relation to mineral development licences under the Mineral Resources Act.

Subdivision 2 Access rights and access agreements

47 Limited access to private land outside authorised area

- (1) A resource authority holder may exercise an access right over access land if—
 - (a) the following have agreed orally or in writing to the exercise of the rights—
 - (i) if exercising the rights is likely to have a permanent impact on access land—each owner and occupier of the land;
 - (ii) if exercising the rights is unlikely to have a permanent impact on access land—each occupier of the land; or
 - (b) the exercise of the rights is needed to preserve life or property or because of an emergency that exists or may exist.
- (2) An agreement about the exercise of the rights mentioned in subsection (1)(a) is an *access agreement*.
- (3) In this section—

access land, for a resource authority, means land, outside the authorised area for the resource authority, that it is reasonably

[s 48]

necessary to allow the holder to cross in order to enter the authorised area.

Note—

See section 49 for the criteria for deciding whether access is reasonable.

access rights, over access land for a resource authority, means the right to—

- (a) cross the access land if it is reasonably necessary to allow the holder to enter the authorised area; and
- (b) carry out activities on the access land that are reasonably necessary to allow the crossing of the land.

Example for paragraph (b)—

opening a gate or fence

permanent impact, on land, means a continuing effect on the land or its use or a permanent or long-term adverse effect on its current lawful use by an occupier of the land.

Example of an exercise of access rights that is likely to have a permanent impact—

building a road

Example of an exercise of access rights that is unlikely to have a permanent impact—

opening or closing a gate

48 Owner or occupier must not unreasonably refuse to make access agreement

- (1) An owner or occupier of access land must not, if asked by a resource authority holder, unreasonably refuse to make an access agreement with the holder.
- (2) For subsection (1), the owner or occupier does not unreasonably refuse only because the owner or occupier asks for the agreement to be subject to reasonable and relevant conditions offered by the owner or occupier.
- (3) If an owner or occupier has not made an access agreement within 20 business days after being asked to make the

agreement by a resource authority holder, the owner or occupier is taken to have refused to make the agreement.

Note—

Either party may refer a refusal under subsection (1) or (3) to the Land Court to decide whether the refusal is unreasonable. See section 52.

49 Criteria for deciding whether access is reasonable

- (1) This section provides for matters to be considered in deciding whether—
 - (a) it is reasonably necessary for a resource authority holder to cross access land to allow the holder to enter the authorised area for the resource authority; or
 - (b) it is reasonably necessary for a resource authority holder to carry out activities on access land to allow the crossing of the land; or
 - (c) an owner or occupier of access land has unreasonably refused to make an access agreement.
- (2) The resource authority holder must first show it is not possible or reasonable to exercise the access rights by using a formed road.
- (3) After subsection (2) has been satisfied, the following must be considered—
 - (a) the nature and extent of any impact the exercise of the access rights will have on access land and the owner or occupier's use and enjoyment of it;
 - (b) how, when and where, and the period during which, the resource authority holder proposes to exercise the access rights.
- (4) In this section—

formed road means any existing road or track on private land or public land used, or that may reasonably be capable of being used, to drive or ride motor vehicles.

50 Additional topics for access agreements

- (1) This section applies if a resource authority holder and an owner or occupier of access land make an access agreement for the exercise of access rights over the access land.
- (2) The access agreement may provide for alternative obligations, for entry to the access land, to the entry notice obligations under section 39.
- (3) If the access agreement is in writing, it may include a conduct and compensation agreement for the exercise or future exercise of access rights by the resource authority holder.

51 Other rights to grant entry not affected

This subdivision does not limit or otherwise affect the ability of an owner or occupier to grant a resource authority holder a right of access to land, including, for example, by the grant of an easement.

Subdivision 3 Land Court resolution

52 Power of Land Court to decide access agreement

- (1) If a dispute arises between a resource authority holder and an owner or occupier of land (the *parties*) about a matter mentioned in section 49(1), either party may apply to the Land Court for it to decide the matter.
- (2) In deciding the matter, the Land Court—
 - (a) must have regard to section 49(2) and (3); and
 - (b) may impose conditions it considers appropriate for the exercise of the access rights.
- (3) Conditions imposed under subsection (2)(b) are taken to be—
 - (a) if there is already an access agreement between the parties—conditions of that agreement; or

- (b) if there is no access agreement between the parties—an access agreement between the parties.

53 Power of Land Court to vary access agreement

- (1) A resource authority holder, or an owner or occupier of land, may apply to the Land Court to vary an access agreement between them.
- (2) In deciding the application, the Land Court must have regard to section 49(2) and (3).
- (3) The Land Court may vary the access agreement only if it considers the change is appropriate because of a material change in circumstances.
- (4) This section does not prevent the owner or occupier and the resource authority holder from agreeing to vary the access agreement.
- (5) The power of the Land Court to vary an access agreement is not limited by part 6.

Division 5 Periodic report after entry of land

54 Report to owners and occupiers

- (1) This section applies if—
 - (a) private land has been entered to carry out authorised activities for a resource authority; or
 - (b) access land for a resource authority has been entered in the exercise of the access rights over the land.
- (2) The holder of the resource authority must, within the prescribed period, give each owner and occupier of the land a report about the entry.
- (3) The report must comply with the prescribed requirements for the report.

Part 3 Public land

Division 1 Entry to public lands and particular uses of public roads

56 Application of div 1

- (1) This division applies for—
 - (a) an entry to public land; and
 - (b) the use of a public road, other than a notifiable road use.

Note—

For the obligations of a resource authority holder for a notifiable road use, see division 2.

- (2) However, this division does not apply in relation to the following resource authorities under the Mineral Resources Act—
 - (a) a prospecting permit;
 - (b) a mining claim;
 - (c) a mining lease.

57 What is a *periodic entry notice*

- (1) A *periodic entry notice* is the first notice about an entry, or series of entries, to public land to carry out an authorised activity for a resource authority.
- (2) A periodic entry notice must—
 - (a) state the period (the *entry period*) for which the resource authority holder, or any of the holder's employees or agents, may enter the land to carry out the authorised activity; and

- (b) be given to the public land authority no less than the prescribed period before the start of the entry period; and
 - (c) otherwise comply with the prescribed requirements for the notice.
- (3) An entry period can not be longer than the prescribed period applying for the entry unless the public land authority agrees in writing to a longer period.
- (4) A periodic entry notice that does not comply with this section is invalid.

58 Entry to public land to carry out authorised activity is conditional

- (1) A person must not enter public land to carry out an authorised activity for a resource authority unless—
- (a) the activity is an activity that may be carried out by a member of the public without requiring specific approval of the public land authority for the land; or
- Example—*
- travelling on a public road in the area of the resource authority
- (b) the public land authority for the land has given a waiver of entry notice for the entry; or
 - (c) the entry is made in compliance with a periodic entry notice given by the resource authority holder to the public land authority for the land under section 57; or
 - (d) the entry is needed to preserve life or property or because of an emergency that exists, or may exist.

Maximum penalty—100 penalty units.

- (2) A person may comply with subsection (1)(b) or (c) despite merely being an applicant for the resource authority at the time of giving the notice.

59 Conditions public land authority may impose

- (1) This section applies if a resource authority holder gives a public land authority a periodic entry notice about an entry to public land to carry out an authorised activity for the resource authority.
- (2) The public land authority may, for the entry period stated in the notice, impose reasonable and relevant conditions on the resource authority holder about the entry to the public land or the carrying out of the authorised activity.
- (3) The conditions may, for example, be about—
 - (a) giving the public land authority, at stated intervals, notice of particular activities being carried out on the land by or for the holder; or
 - (b) affecting other owners and occupiers of the public land.
- (4) However, if the public land authority imposes a condition about giving the authority further notice of subsequent entries made during the entry period, the condition must require the notice be given—
 - (a) generally—at least 2 business days before the entry; or
 - (b) if the holder and the public land authority have agreed to a longer or shorter period for giving the notice—within the agreed period.
- (5) The public land authority can not impose a condition for a resource authority or its relevant environmental authority that is—
 - (a) the same as a condition already applying to the authority; or
 - (b) substantially the same as a condition already applying to the authority; or
 - (c) inconsistent with a condition already applying to the authority.
- (6) However, if the public land authority is the chief executive of the department in which the *Nature Conservation Act 1992* is

administered, that chief executive may impose a condition more stringent than the environmental authority's conditions.

- (7) The public land authority may vary any condition it imposes if the condition would otherwise be inconsistent with the requirements under subsection (5).
- (8) If the public land authority decides—
 - (a) to impose a condition, other than a condition agreed to or requested by the resource authority holder; or
 - (b) to vary a condition, other than a variation agreed to or requested by the resource authority holder;

it must give the holder an information notice about the decision.

- (9) The resource authority holder must comply with the conditions imposed by the public land authority.

Maximum penalty for subsection (9)—100 penalty units.

- (10) In this section—

entry period, for a periodic entry notice, see section 57(2).

60 Right to give waiver of entry notice

- (1) A public land authority for land may give a waiver of entry notice for an entry made to the land to carry out an authorised activity for a resource authority.
- (2) A waiver of an entry notice—
 - (a) is invalid if it does not comply with the prescribed requirements for the notice; and
 - (b) can not be withdrawn during the notified period; and
 - (c) ceases to have effect at the end of the notified period.
- (3) In this section—

notified period, for a waiver of entry notice, means the period stated in the notice as the period during which the land may be entered.

Division 2 Notifiable road use

61 Application of div 2

This division applies to the use of a public road if the use is a notifiable road use.

62 What is a *notifiable road use*

A *notifiable road use*, of a public road, is the use of the road as prescribed by regulation.

63 Use of public roads for notifiable road use

- (1) A resource authority holder must not use a public road for a notifiable road use unless—
 - (a) the holder has given the public road authority for the road a notice, complying with the prescribed requirements, that the holder proposes to carry out the use; and
 - (b) 1 of the following applies—
 - (i) the holder and the relevant public road authority have signed a compensation agreement for the use;
 - (ii) the public road authority has given written consent to the carrying out of the use;
 - (iii) an application has been made under section 100 to decide the holder's compensation liability to the public road authority relating to the road.
- (2) A requirement of a resource authority holder under subsection (1) is taken to be a condition of the resource authority.

64 Directions about notifiable road use

- (1) The public road authority for a public road may, by written notice, give a resource authority holder a reasonable direction (a **road use direction**) about the way the holder may use the road for a notifiable road use.

Examples of what a direction may be about—

- when the road may be used
 - the route for the movement of heavy vehicles
 - safety precautions the holder must take
- (2) The road use direction may also require the holder to—
- (a) carry out an assessment of the impacts likely to arise from a notifiable road use the subject of the notice; and
 - (b) consult with the public road authority in carrying out the assessment.
- (3) However—
- (a) an assessment can not be required if the notifiable road use is transport relating to a seismic survey or drilling activity; and
 - (b) the public road authority can not require an assessment of an impact to the extent it has already been assessed under an EIS under the Environmental Protection Act or a similar document under another Act.
- (4) A road use direction is invalid—
- (a) to the extent it is about more than the following matters—
 - (i) preserving the condition of the road;
 - (ii) the safety of road users or the public; and
 - (b) if it is not accompanied by, or does not include, an information notice about the decision to give the direction.

[s 65]

- (5) Compliance with a road use direction given to a resource authority holder is taken to be a condition of the resource authority.

65 Exemptions from div 2

- (1) A resource authority or a project may be prescribed by regulation as being exempt from some or all of the provisions of this division.
- (2) An exemption prescribed under subsection (1) may include conditions that must be complied with for the exemption to apply.

- (7) Nothing said by a person at the conference is admissible in evidence in a proceeding without the person's consent.

Subdivision 3 Negotiation and ADR

- (4) The negotiations under this subdivision end if the parties enter into an opt-out agreement.

86 No entry to land during minimum negotiation period

- (1) If, during the minimum negotiation period, the parties enter into a conduct and compensation agreement or a deferral agreement, the resource authority holder can not enter the relevant land to carry out advanced activities for the resource authority until the period ends.
- (2) Subsection (1) applies despite the terms of the agreement.

87 Cooling-off during minimum negotiation period

- (1) This section applies if the parties enter into a conduct and compensation agreement or a deferral agreement during the minimum negotiation period.
- (2) Either party may, within the minimum negotiation period, terminate the agreement by giving notice to the other party.

- (3) On the giving of a notice under subsection (2), the terminated agreement is taken never to have had any effect.
- (4) To remove any doubt, it is declared that subsection (3) does not change the time when the negotiation notice was given.

[s 89]

- (7) If a party obtains a decision under subsection (6) from the Land Court or a prescribed ADR institute, the party must give the other party notice of the decision.

- (6) If the parties do not, under subsection (5), jointly appoint an arbitrator, the party giving the arbitration election notice must require a prescribed arbitration institute to appoint an arbitrator, who is independent of both parties, to conduct the arbitration.
- (7) A prescribed arbitration institute does not incur any civil monetary liability for an act or omission in the performance, or purported performance, of a function under subsection (6) unless the act or omission is done or made in bad faith or through negligence.
- (8) In this section—

prescribed arbitration institute means an entity for appointing arbitrators that is prescribed by regulation.

91B Arbitrator's functions

- (2) If, before the appointment of the arbitrator, the parties have participated in an ADR about the dispute, the parties are liable to pay the fees and expenses of the arbitrator in equal shares unless the parties agree, or the arbitrator decides, otherwise.
- (3) Other than as provided under subsection (1) or (2), each party to an arbitration must bear the party's own costs for the arbitration unless the parties agree, or the arbitrator decides, otherwise.

91F Effect of arbitrator's decision

- (1) The arbitrator's decision is final.
- (2) The parties may not apply for review of, or appeal against, the decision.
- (3) The arbitrator's decision does not limit or otherwise affect a power of the Supreme Court to decide a decision of the arbitrator is affected by jurisdictional error.
- (4) The arbitrator's decision has the same effect as if the parties had entered into a binding and enforceable agreement to the same effect as the decision.

Subdivision 4 Recording particular agreements

92 Particular agreements to be recorded on titles

- (a) if subsection (3)(a) applies—the agreement ends; or
 - (b) if subsection (3)(b) applies—the day the resource authority holder becomes aware the land has been subdivided.
- (5) If the registrar is given a notice under subsection (4) in relation to an agreement that has ended, the registrar must, if satisfied the agreement has ended or is no longer relevant for the land, remove the particulars of the agreement from the relevant register.
- (6) If the registrar is given a notice under subsection (4) in relation to the subdivision of land, the registrar must, if satisfied the agreement is not relevant for a new lot created by the subdivision, remove the particulars of the agreement from the relevant register to the extent it relates to the new lot.
- (7) The registrar must also remove the particulars of the agreement from the relevant register if—
 - (a) requested to do so, in the appropriate form, by a party to the agreement; and
 - (b) the registrar is satisfied the agreement has ended or is no longer relevant for the land.

Division 3 Compensation for notifiable road uses

93 Liability to compensate public road authority

- (1) A resource authority holder is liable to compensate the public road authority for a public road for any cost, damage or loss the authority incurs or will incur that is or will be caused by notifiable road uses carried out by the holder that relate to the road.

Examples of a possible cost for subsection (1)—

- repair costs to rectify damage to the road caused or that will be caused by any of the uses
- capital costs for unplanned upgrades of the road incurred or that will be incurred because of any of the uses
- bring-forward costs, including interest charges, for a planned upgrade of the road that because of any of the uses is or will be required earlier than planned

- (2) The resource authority holder's liability under subsection (1) is the holder's **compensation liability** to the public road authority.
- (3) The compensation liability—
 - (a) applies whether or not the holder has given notice of the use; and
 - (b) is in addition to and does not limit or otherwise affect the holder's liability under another provision of this Act about compensating the public road authority or anyone else.

94 Road compensation agreement

- (1) A resource authority holder and the public road authority for a public road may enter into an agreement (a **road compensation agreement**) about the holder's compensation liability to the public road authority.
- (2) A road compensation agreement is invalid if it does not comply with the prescribed requirements for the agreement.

Division 4 Land Court jurisdiction

Subdivision 1 Conduct and compensation

96 Party may apply to Land Court

- (1) This section applies if—
 - (a) a party has given an ADR election notice to another party seeking to negotiate the resolution of a dispute; and
 - (b) at the end of the period applying under section 89(2) or (4) for negotiating a resolution of the dispute, the parties have not entered into a conduct and compensation agreement; and

[s 96A]

- (c) an arbitration election notice about the dispute has not been given, or a request for arbitration about the dispute has not been accepted under section 91A(4), by the parties.
- (2) Either party may apply to the Land Court to decide the dispute.
- (3) However, the Land Court may decide the liability or future liability only to the extent it is not subject to a conduct and compensation agreement between the parties.

96A Applications may be heard together

- (1) This section applies if an eligible claimant has brought a proceeding in the Land Court for the payment by a resource authority holder of compensation under the Environmental Protection Act.
- (2) The Land Court may hear together the application and an application under section 96 by the eligible claimant or resource authority holder if the Land Court considers it desirable in the interests of justice.

96B Negotiation and preparation costs

- (1) A party may apply to the Land Court for—
 - (a) a declaration that all or part of stated costs are payable under section 91; or
 - (b) if the party is an eligible claimant—an order requiring the payment of negotiation and preparation costs under section 91.
- (2) The Land Court may, in a proceeding mentioned in subsection (1) or a proceeding brought under section 96, make a declaration about, or an order for the payment of, negotiation and preparation costs under section 91.
- (3) However, if the costs are the costs of an agronomist, the Land Court can not make an order or declaration in relation to the

costs unless the agronomist is appropriately qualified to perform the function for which the costs are incurred.

97 Orders Land Court may make

- (1) The Land Court may make any order it considers appropriate to enable or enforce its decision on an application under this part.
- (2) Without limiting subsection (1), the Land Court may order—
 - (a) non-monetary compensation as well as monetary compensation; or
 - (b) that a party not engage in particular conduct; or
 - (c) that the parties engage in further ADR.
- (3) In considering whether to make an order under subsection (2)(c), the Land Court may have regard to the behaviour of the parties in the process leading to the application.

Subdivision 2 Additional jurisdiction

98 Additional jurisdiction for compensation, conduct and related matters

- (1) This section applies to a resource authority holder and an eligible claimant (the *parties*) if any of the following apply—
 - (a) the holder has carried out a preliminary activity;
 - (b) there is a conduct and compensation agreement or deferral agreement between the parties.
- (2) The Land Court may do all or any of the following—
 - (a) assess all or part of the relevant resource authority holder's compensation liability to the eligible claimant;
 - (b) decide a matter related to the compensation liability;

[s 99]

- (c) declare whether or not a proposed authorised activity for the relevant resource authority would, if carried out, interfere with the carrying out of lawful activities by the eligible claimant;
- (d) make any order it considers necessary or desirable for a matter mentioned in paragraph (a), (b) or (c).

Example—

The Land Court declares that a particular proposed authorised activity interferes with the carrying out of lawful activities by the eligible claimant. It may also order that a stated modification of, or reduction in, the activity would remove the interference.

99 Jurisdiction to impose or vary conditions

- (1) In deciding a matter mentioned in section 98(2), the Land Court may—
 - (a) impose any condition it considers appropriate for the exercise of the parties' rights; or
 - (b) vary any existing condition under an agreement between the parties.
- (2) The variation may be made on any ground the Land Court considers appropriate.
- (3) The imposed or varied condition is taken to be—
 - (a) if there is an agreement between the parties—a condition of the agreement; or
 - (b) if there is no agreement between the parties—an agreement between the parties.
- (4) In this section—

- (2) The party may apply to the Land Court for an order about the alleged breach.
- (3) An application may be made during the term, or after the end, of the agreement.
- (4) The Land Court may make any order it considers appropriate on an application under this section.

- (1) Either of the following entities may apply to the Land Court for the Court to decide a resource authority holder's compensation liability to a public road authority—
 - (a) the public road authority;

- (b) the resource authority holder.
- (2) However, the Land Court may decide the compensation liability only to the extent it is not subject to a road compensation agreement.
- (3) In making the decision, the Land Court may have regard to—
 - (a) all prescribed criteria relating to the public road authority, resource authority and notifiable road use; and
 - (b) whether the applicant has attempted to mediate or negotiate the compensation liability; and
 - (c) any other matter the Court considers relevant to making the decision.

Subdivision 4 Later review of compensation by Land Court

101 Review of compensation by Land Court

- (1) This section applies if—
 - (a) the compensation liability or future compensation liability of a resource authority holder to either of the following has been agreed to under a compensation agreement or decided by the Land Court (the *original compensation*)—
 - (i) an eligible claimant;
 - (ii) a public road authority; and
 - (b) there has been a material change in circumstances (the *change*) since the agreement or decision.
- (2) The following may apply to the Land Court for a review of the original compensation—
 - (a) the resource authority holder;
 - (b) the eligible claimant;

- (c) the public road authority.
- (3) In carrying out the review, the Land Court may review the original compensation only to the extent it is affected by the change.
- (4) If the Land Court considers the original compensation is not affected by the change, it must not carry out or continue with the review.
- (5) The Land Court may, after carrying out the review, decide to confirm the original compensation or amend it in a way the Court considers appropriate.
- (6) In making the decision, the Land Court must have regard to—
 - (a) all criteria prescribed by regulation applying for the compensation; and
 - (b) whether the applicant has attempted to mediate or negotiate the compensation liability; and
 - (c) any other matter the Court considers relevant to making the decision.
- (7) If the decision is to amend the original compensation, the original compensation as amended under the decision is, for this Act, taken to be the original compensation.

104 What is an *overlapping area*

- (1) An *overlapping area* is land that is the subject of both a column 1 resource authority and a corresponding column 2 resource authority for the column 1 resource authority.
- (2) However, land is an *overlapping area* only if the column 1 resource authority was granted after the corresponding column 2 resource authority was granted.
- (3) A reference to an overlapping area includes, if the circumstances permit, an area that will become an overlapping area when a column 1 resource authority that has been applied for is granted.
- (4) Even if subsections (1) to (3) do not apply to make land an overlapping area, land is an *overlapping area* if it is the subject of both a coal resource authority and a petroleum resource authority.

105 What is an *ML (coal) holder*

- (1) An *ML (coal) holder* is the holder of an ML (coal).
- (2) A reference to an ML (coal) holder includes, if the circumstances permit, an EP (coal) holder or MDL (coal) holder who is an applicant for an ML (coal).

106 What is a *PL holder*

- (1) A *PL holder* is the holder of a PL.
- (2) A reference to a PL holder includes, if the circumstances permit, an applicant for a PL.

107 Extended meaning of ML (coal) and PL

For this chapter, a reference to an ML (coal) or a PL includes, if the circumstances permit, a reference to an ML (coal) or PL that has been applied for but has not been granted.

Division 3 Other key provisions

108 Purpose of div 3

This division contains definitions and other provisions relevant to the operation of this chapter.

109 What is an *initial mining area* or *IMA*

- (1) An *initial mining area*, or *IMA*, is an area in an overlapping area, identified by an ML (coal) holder, for which the ML (coal) holder requires sole occupancy to carry out authorised activities for the ML (coal).
- (2) The total area that may be identified as an IMA is the minimum area that is reasonably considered to be required for 10 years of safe mining.
- (3) An IMA may be a single area, or a number of separate areas, each of which is an IMA.

110 What is a *future mining area* or *FMA*

- (1) A *future mining area*, or *FMA*, is an area in an overlapping area, identified by an ML (coal) holder, in which the ML (coal) holder intends to carry out authorised activities for the ML (coal) as mining operations advance outside the IMA.
- (2) An FMA must be contiguous with an IMA.

111 What is a *rolling mining area* or *RMA*

- (1) A *rolling mining area*, or *RMA*, is an area in an overlapping area, identified by an ML (coal) holder, for which the ML (coal) holder requires sole occupancy to carry out authorised activities for the ML (coal).
- (2) The total area that may be identified as an RMA is the minimum area that is reasonably considered to be required for 1 year of safe mining.

- (3) An RMA must be within an FMA.
- (4) Each RMA must be considered on a sequential, year by year basis.
- (5) An RMA for a particular year must not be more than 10% of the total of the areas that are an IMA or FMA in the overlapping area.

112 What is a *simultaneous operations zone* or *SOZ*

The *simultaneous operations zone*, or *SOZ*, for an IMA or RMA, is an area in an overlapping area, contiguous with an IMA or RMA, in relation to which safety and health arrangements for the co-existence of an ML (coal) and a petroleum resource authority are reasonably considered to be required.

113 What is *sole occupancy*

- (1) If an ML (coal) holder has *sole occupancy* of an IMA or RMA, to the extent the ML (coal) is for a surface mine—
 - (a) the ML (coal) holder may carry out any authorised activity for the ML (coal) in the IMA or RMA; and
 - (b) the holder of a corresponding column 2 resource authority for the ML (coal) may not carry out any authorised activity for the authority in the IMA or RMA.
- (2) If an ML (coal) holder has *sole occupancy* of an IMA or RMA, to the extent the ML (coal) is for an underground mine—
 - (a) the ML (coal) holder may carry out any authorised activity for the ML (coal) in the IMA or RMA; and
 - (b) the holder of a corresponding column 2 resource authority for the ML (coal) may carry out an authorised activity for the authority in the IMA or RMA unless the site senior executive for the underground mine directs the holder not to carry out the authorised activity for the

[s 114]

purpose of facilitating safety and health arrangements for the co-existence of an ML (coal) and a petroleum resource authority that are reasonably considered to be required.

- (3) The ML (coal) holder's sole occupancy of an IMA or RMA does not limit the right of the corresponding column 2 resource authority holder to carry out authorised activities for the authority within the overlapping area but outside the IMA or RMA.
- (4) If the corresponding column 2 resource authority is a PL, and it is necessary for PL major gas infrastructure for the PL on an IMA or RMA to be replaced, the PL holder is not required to abandon the use of the infrastructure on the IMA or RMA until replacement PL major gas infrastructure has been constructed and commissioned, and is in operation.

114 What is *joint occupancy*

If an ML (coal) holder and the holder of a corresponding column 2 resource authority for the ML (coal) have *joint occupancy* of a SOZ for an IMA or RMA—

- (a) the ML (coal) holder may carry out authorised activities for the ML (coal) in the SOZ subject to any safety and health arrangements for the co-existence of an ML (coal) and a petroleum resource authority that are reasonably considered to be required; and
- (b) the holder of the corresponding column 2 resource authority for the ML (coal) may carry out authorised activities for the authority subject to any safety and health arrangements for the co-existence of an ML (coal) and a petroleum resource authority that are reasonably considered to be required.

115 What is the *mining commencement date*

- (1) The *mining commencement date*, for an IMA or RMA in an overlapping area, is—

- (a) the date, identified by a coal resource authority holder for the overlapping area, for starting to carry out authorised activities for the coal resource authority in the IMA or RMA; or
 - (b) if the resource authority holders for the overlapping area agree in writing to change the date mentioned in paragraph (a) for an IMA or RMA—the new agreed date; or
 - (c) if the date mentioned in paragraph (a) or (b) for an IMA or RMA is changed under section 127, 128, 142A, 241A or by arbitration—the new changed date.
- (2) For subsection (1)(a), the date identified by an ML (coal) holder for an IMA must be—
- (a) if the corresponding column 2 resource authority for the ML (coal) is an ATP—at least 18 months after the date on which the advance notice for the ML (coal) is given; or
 - (b) if the corresponding column 2 resource authority for the ML (coal) is a PL—at least 11 years after the date on which the advance notice for the ML (coal) is given.
- (3) For subsection (1)(a), the date identified by an ML (coal) holder for an RMA must be—
- (a) for the first RMA in an overlapping area—at least 10 years after the mining commencement date for the IMA to which the RMA is contiguous; and
 - (b) for each subsequent RMA in the overlapping area—at least 1 year after the mining commencement date for the immediately preceding RMA.

- (2) An 18 months notice must be given to an ATP holder at least 18 months before the mining commencement date for the IMA.
- (3) Subject to subsection (2)—
- (a) an 18 months notice may be given at the same time as an advance notice; or
 - (b) an 18 months notice and an advance notice may be given as a combined notice.

123 Confirmation notice

- (1) A *confirmation notice*, for an ML (coal), is a notice that—

- (a) states that the ML (coal) holder intends to start carrying out authorised activities for the ML (coal) in an IMA in an overlapping area the subject of the ML (coal); and
 - (b) states the mining commencement date for the IMA; and
 - (c) confirms the ML (coal) holder will start coal mining operations in the IMA on the date stated under paragraph (b) for the IMA; and
 - (d) includes any other information prescribed by regulation.
- (2) A confirmation notice must be given to a PL holder at least 18 months, but no more than 2 years, before the date stated under subsection (1)(b) for the IMA.

124 Sole occupancy of RMA

An ML (coal) holder has sole occupancy of each RMA for an overlapping area the subject of the ML (coal) from the mining commencement date for the RMA, but only if the ML (coal) holder has given each petroleum resource authority holder an RMA notice for the ML (coal) as required under this division.

125 RMA notice

- (1) An **RMA notice**, for an ML (coal), is a notice that—
- (a) states that the ML (coal) holder intends to start carrying out authorised activities for the ML (coal) in an RMA in an overlapping area the subject of the ML (coal); and
 - (b) states the mining commencement date for the RMA; and
 - (c) confirms the ML (coal) holder will start coal mining operations in the RMA on the date stated under paragraph (b) for the RMA; and
 - (d) includes any other information prescribed by regulation.
- (2) An RMA notice must be given to a petroleum resource authority holder at least 18 months before the date stated under subsection (1)(b) for the RMA.

126 Joint occupancy of SOZ

An ML (coal) holder and a petroleum resource authority holder have *joint occupancy* of a SOZ for an IMA or RMA for an overlapping area from the mining commencement date for the IMA or RMA.

127 Exceptional circumstances notice may be given by petroleum resource authority holder

- (1) This section applies if—
 - (a) a petroleum resource authority holder—
 - (i) has received an advance notice for an ML (coal); or
 - (ii) has received a proposal, under section 133 or 146, to amend an agreed joint development plan to change the size or location of, or the mining commencement date for, an IMA or RMA, but has not yet agreed to the proposal; and
 - (b) the holder considers an extension of the period (the *relevant period*) before the ML (coal) holder may carry out authorised activities for the ML (coal) in the IMA or RMA is justified because of the following exceptional circumstances—
 - (i) there are high performing petroleum wells or fields in the IMA or RMA;
 - (ii) the relevant period is not sufficient to allow for production of petroleum from the high performing wells or fields at the prescribed threshold.
- (2) The petroleum resource authority holder may give the ML (coal) holder a notice (an *exceptional circumstances notice*) stating—
 - (a) the exceptional circumstances justifying the extension mentioned in subsection (1)(b); and
 - (b) the petroleum resource authority holder's preferred mining commencement date, which must not be more

than 5 years after the mining commencement date for the IMA or RMA; and

- (c) any other information prescribed by regulation.
- (3) However, if subsection (1)(a)(i) applies, the exceptional circumstances notice must be given within 3 months after the petroleum resource authority holder receives the advance notice.
- (4) The exceptional circumstances notice must be accompanied by technical data, including, for example, data about production modelling, justifying the preferred mining commencement date.
- (5) The ML (coal) holder must, within 3 months after receiving the exceptional circumstances notice, give the petroleum resource authority holder a notice stating whether the ML (coal) holder accepts the petroleum resource authority holder's preferred mining commencement date.
- (6) If the ML (coal) holder does not accept the petroleum resource authority holder's preferred mining commencement date under subsection (5), or claims that exceptional circumstances justifying the extension do not exist, the petroleum resource authority holder may apply for arbitration of the dispute.
- (7) Despite subsection (6), the petroleum resource authority holder and the ML (coal) holder may jointly apply for arbitration of the dispute at any time.
- (8) If an ML (coal) holder accepts an ATP holder's preferred mining commencement date for an IMA or RMA under subsection (5) (the *new date*), or a new mining commencement date for an IMA or RMA is established by arbitration (also the *new date*)—
 - (a) the new date applies as the mining commencement date for the IMA or RMA, including if a PL is granted in relation to the ATP; and

[s 128]

- (b) within 20 business days after the new date is accepted or established, the ML (coal) holder must give the chief executive a written notice stating—
 - (i) that exceptional circumstances justifying a new mining commencement date have been accepted by the ML (coal) holder or established by arbitration; and
 - (ii) the new mining commencement date; and
 - (iii) any other information prescribed by regulation.
- (9) In this section—

prescribed threshold means the threshold for production of petroleum that is prescribed by regulation.

128 Acceleration notice may be given by ML (coal) holder

- (1) This section applies if an ML (coal) holder considers a mining commencement date for an IMA or RMA should be an earlier date.
- (2) The ML (coal) holder may give the PL holder a notice (an ***acceleration notice***) that—
 - (a) states the earlier date; and
 - (b) includes any other information prescribed by regulation.
- (3) The acceleration notice may be given only in the period—
 - (a) starting on the day an advance notice is given to the PL holder; and
 - (b) ending on the day that is 18 months before the mining commencement date for the IMA or RMA.
- (4) The ML (coal) holder must amend any joint development plan that applies to the ML (coal) holder to ensure it is consistent with the acceleration notice.
- (5) The acceleration notice has effect to change a mining commencement date whether or not the PL holder agrees to the change.

Note—

See section 167(1)(a) for the liability of an ML (coal) holder who gives an acceleration notice to a PL holder to compensate the PL holder.

129 Abandonment of sole occupancy of IMA or RMA

- (1) This section applies if an ML (coal) holder no longer requires sole occupancy of the whole or a part of an IMA or RMA for an overlapping area.
- (2) The ML (coal) holder must give each petroleum resource authority holder for the overlapping area a notice (an ***abandonment notice***) that—
 - (a) identifies the area of the IMA or RMA for which the ML (coal) holder proposes to abandon sole occupancy; and
 - (b) states the date (the ***abandonment date***) on which the ML (coal) holder proposes to abandon sole occupancy; and
 - (c) includes any other information prescribed by regulation.
- (3) The site senior executive for the coal mine must facilitate the petroleum resource authority holder's access to the area mentioned in subsection (2)(a) from the abandonment date.
- (4) An abandonment of sole occupancy does not limit—
 - (a) any obligation of the ML (coal) holder to carry out rehabilitation or environmental management required of the holder under the Environmental Protection Act; or
 - (b) the ML (coal) holder's right to occupy the IMA or RMA to comply with an obligation mentioned in paragraph (a).

Division 3 Joint development plan

130 Requirement for agreed joint development plan

- (1) This section applies if an ML (coal) holder gives an advance notice to a PL holder.
- (2) The ML (coal) holder must ensure—
 - (a) within 12 months after giving the advance notice to the PL holder or, if an application for arbitration of a dispute is made under section 131(2) or (3), within 9 months after the appointment of the arbitrator—there is in place—
 - (i) a joint development plan that has been agreed with the PL holder; or
 - (ii) an agreed joint development plan as arbitrated; and
 - (b) within 20 business days after the agreed joint development plan is in place—written notice is given to the chief executive stating the following—
 - (i) that the plan is in place;
 - (ii) the period for which the plan has effect;
 - (iii) other information prescribed by regulation.
- (3) The agreed joint development plan must—
 - (a) identify the ML (coal) holder and PL holder under the plan; and
 - (b) set out an overview of the activities proposed to be carried out in the overlapping area by the ML (coal) holder, including the location of the activities and when they will start; and
 - (c) set out an overview of the activities proposed to be carried out in the overlapping area by the PL holder, including the location of the activities and when they will start; and

- (d) identify any IMA and RMA for the overlapping area, and any SOZ proposed for any IMA or RMA for the overlapping area; and
 - (e) state the mining commencement date for any IMA or RMA; and
 - (f) state how the activities mentioned in paragraphs (b) and (c) optimise the development and use of the State's coal and coal seam gas resources; and
 - (g) state the period for which the agreed joint development plan is to have effect; and
 - (h) include any other information prescribed by regulation.
- (4) For 2 or more overlapping areas in the area the subject of the ML (coal)—
- (a) to the extent practicable, there may be in place a single agreed joint development plan for 2 or more of the overlapping areas; and
 - (b) if there are 2 or more agreed joint development plans in place for the overlapping areas, the ML (coal) holder may give the chief executive a single notice as mentioned in subsection (2)(b) for all the agreed joint development plans.

131 Negotiation of agreed joint development plan

- (1) A PL holder who receives an advance notice must negotiate in good faith with the ML (coal) holder to enable the ML (coal) holder to give a notice under section 130(2)(b).
- (2) If a PL holder and the ML (coal) holder can not agree on a joint development plan to the extent it relates to a relevant matter within 6 months after the PL holder receives the advance notice, the ML (coal) holder must apply for arbitration of the dispute.

- (3) Despite subsection (2), the PL holder and the ML (coal) holder may jointly apply for arbitration of the dispute, to the extent it relates to a relevant matter, at any time.

132 Consistency with development plans

- (1) The ML (coal) holder must ensure any development plan under the Mineral Resources Act for the ML (coal) is consistent to the greatest practicable extent with each agreed joint development plan that applies to the ML (coal) holder.
- (2) The PL holder must ensure any development plan under the P&G Act for the PL is consistent to the greatest practicable extent with each agreed joint development plan that applies to the PL holder.
- (3) This section applies even if any of the following takes place for the ML (coal) or the PL—
 - (a) a renewal;
 - (b) a transfer;
 - (c) a complete or partial subletting.

133 Amendment of agreed joint development plan

- (1) An agreed joint development plan may be amended by agreement at any time.
- (2) A resource authority holder mentioned in this division who receives a proposal for an amendment of an agreed joint development plan must negotiate in good faith about the amendment.
- (3) A resource authority holder who can not obtain a proposed amendment of an agreed joint development plan under this section may apply for arbitration of the dispute to the extent it relates to a relevant matter.
- (4) Subsection (5) applies if an amendment of an agreed joint development plan, whether by agreement under this section or

by arbitration, provides for a cessation, or significant reduction or increase, of—

- (a) mining under the ML (coal); or
 - (b) production under the PL.
- (5) Within 20 business days after making the amendment, the resource authority holders must jointly give the chief executive a written notice that—
- (a) states the agreed joint development plan has been amended; and
 - (b) if there is a cessation or significant reduction of an authorised activity for a resource authority—includes, or is accompanied by, a statement about—
 - (i) whether the cessation or reduction is reasonable in the circumstances; and
 - (ii) whether the resource authority holders have taken all reasonable steps to prevent the cessation or reduction.

134 Authorised activities allowed only if consistent with agreed joint development plan

- (1) This section applies if an agreed joint development plan applies to an ML (coal) holder and a PL holder.
- (2) The ML (coal) holder may carry out an authorised activity for the ML (coal) in an overlapping area the subject of the ML (coal) only if carrying out the activity is consistent with the agreed joint development plan.
- (3) The PL holder may carry out an authorised activity for the PL in an overlapping area the subject of the PL only if carrying out the activity is consistent with the agreed joint development plan.
- (4) To remove any doubt, it is declared that if an ML (coal) holder has given an advance notice to a PL holder and there is no agreed joint development plan that applies to the ML (coal)

[s 135]

holder and the PL holder, the PL holder may carry out an authorised activity for the PL in the overlapping area the subject of the PL and ML (coal) if carrying out the activity is consistent with each development plan under the P&G Act that applies to the PL holder.

135 Condition of authorities

It is a condition of both an ML (coal) and a PL that the holder must comply with each agreed joint development plan that applies to the holder.

Division 4 Incidental coal seam gas

136 Definitions for div 4

In this division—

diluted incidental coal seam gas means incidental coal seam gas that is subject to air contamination.

Note—

Diluted incidental coal seam gas will generally result from using underground in-seam and goaf drainage techniques for gas production.

undiluted incidental coal seam gas means incidental coal seam gas that is free of air contamination.

Note—

Undiluted incidental coal seam gas will generally result from using surface to in-seam techniques for gas production.

137 Resource optimisation

An ML (coal) holder must, in relation to incidental coal seam gas in an overlapping area that is subject to the ML (coal), use reasonable endeavours to—

- (a) minimise unnecessary contamination or dilution of the incidental coal seam gas; and

- (b) maximise production of undiluted incidental coal seam gas.

138 Right of first refusal

- (1) An ML (coal) holder must offer to supply, on reasonable terms, any incidental coal seam gas in an overlapping area that is subject to the ML (coal), to which the ML (coal) holder is otherwise entitled under the Mineral Resources Act, section 318CN, to a petroleum resource authority holder in the overlapping area.
- (2) The ML (coal) holder must make the offer by giving the petroleum resource authority holder written notice of the offer—
 - (a) for undiluted incidental coal seam gas in an IMA in the overlapping area—as early as practicable; or
 - (b) for diluted incidental coal seam gas in an IMA in the overlapping area—when the ML (coal) holder gives the petroleum resource authority holder—
 - (i) if the petroleum resource authority is a PL holder—a confirmation notice; or
 - (ii) if the petroleum resource authority is an ATP holder—an 18 months notice; or
 - (c) for undiluted or diluted incidental coal seam gas in an RMA in the overlapping area—when the ML (coal) holder gives the petroleum resource authority holder the RMA notice.
- (3) The petroleum resource authority holder may accept the offer—
 - (a) for an offer made under subsection (2)(a) or (b)—within 12 months after receiving the notice, or a later period agreed to by the ML (coal) holder; or

- (b) for an offer made under subsection (2)(c)—within 3 months after receiving the notice, or a later period agreed to by the ML (coal) holder.
- (4) If the petroleum resource authority holder accepts the offer, the petroleum resource authority holder must—
 - (a) enter into a contract with the ML (coal) holder for delivery of the gas; and
 - (b) take supply of the gas within 2 years after accepting the offer, or a later period agreed to by the ML (coal) holder; and
 - (c) pay the ML (coal) holder the amount of royalty that is payable for the gas under the Mineral Resources Act, section 320.
- (5) A contract mentioned in subsection (4)(a) must include the matters prescribed by regulation.
- (6) If the petroleum resource authority holder does not accept the offer under subsection (3), or take supply of the gas under subsection (4), the ML (coal) holder may use the gas under the Mineral Resources Act, section 318CN.
- (7) However, if the ML (coal) holder has not, under the Mineral Resources Act, section 318CN, used gas offered to a petroleum resource authority holder under subsection (2)(a) within 12 months after becoming entitled to use the gas under subsection (6), the ML (coal) holder must not use the gas under the Mineral Resources Act, section 318CN until—
 - (a) the ML (coal) holder re-offers to supply the gas to the petroleum resource authority holder; and
 - (b) either—
 - (i) the petroleum resource authority holder rejects the re-offer; or
 - (ii) 3 months, or a longer period agreed to by the ML (coal) holder, elapses after the re-offer is made without the petroleum resource authority holder accepting the re-offer.

- (8) A notice of offer under subsection (2), or a notice of re-offer under subsection (7), must include the matters prescribed by regulation.
- (9) This section does not limit or otherwise affect the obligations imposed on a petroleum resource authority holder under the P&G Act.

- (2) A resource authority holder mentioned in this part who receives a proposal for an amendment of an agreed joint development plan must negotiate in good faith about the amendment.
- (3) A resource authority holder who can not obtain a proposed amendment of an agreed joint development plan under this section may apply for arbitration of the dispute to the extent it relates to a relevant matter.
- (4) Subsection (5) applies if an amendment of an agreed joint development plan, whether by agreement under this section or by arbitration, provides for a cessation, or significant reduction or increase, of—
 - (a) mining under the ML (coal); or
 - (b) production under the PL.
- (5) Within 20 business days after making the amendment, the resource authority holders must jointly give the chief executive a written notice that—
 - (a) states that the joint development plan has been amended; and

- (4) To remove any doubt, it is declared that if a PL holder has given a petroleum production notice to an ML (coal) holder and there is no agreed joint development plan that applies to the PL holder and the ML (coal) holder, the ML (coal) holder may carry out an authorised activity for the ML (coal) in the overlapping area the subject of the ML (coal) and PL if carrying out the activity is consistent with each development plan under the Mineral Resources Act that applies to the ML (coal) holder.

148 Condition of authorities

It is a condition of both a PL and an ML (coal) that the holder must comply with each agreed joint development plan that applies to the holder.

148A Modification of particular provisions if preferred tenderer appointed

- (1) This section applies if—
 - (a) the Minister publishes a call for tenders for a petroleum lease under the P&G Act, section 127; and
 - (b) the Minister appoints a preferred tenderer on the tenders made in response to the call.
- (2) For applying the requirements under this chapter—
 - (a) the only PL holder required to give a petroleum production notice to a coal resource authority holder under section 141(1) is the PL holder appointed under

- the P&G Act, chapter 2, part 2, division 3, subdivision 3 as the preferred tenderer; and
- (b) despite section 141(1)(c), a petroleum production notice given by a PL holder mentioned in paragraph (a) is not required to include a proposed joint development plan; and
 - (c) a PL holder mentioned in paragraph (a) complies with section 141(2) if the PL holder gives the petroleum production notice to the coal resource authority holder within 10 business days after the PL holder is appointed as preferred tenderer; and
 - (d) a PL holder mentioned in paragraph (a) is not required to comply with section 142; and
 - (e) the coal resource authority holder given a petroleum production notice by a PL holder under paragraph (c) complies with section 121(2) if the coal resource authority holder gives an advance notice to the PL holder within 30 business days after the petroleum production notice is given to the coal resource authority holder; and
 - (f) an advance notice mentioned in paragraph (e) complies with section 121(1) if the notice—
 - (i) states that the ML (coal) holder has applied for the grant of the ML (coal); and
 - (ii) includes a copy of the application for the ML (coal), other than any statement detailing the applicant's financial and technical resources; and
 - (iii) includes a proposed joint development plan for the overlapping area the subject of the ML (coal); and
 - (g) if a proposed joint development plan mentioned in paragraph (f)(iii) identifies an IMA for the overlapping area, the mining commencement date for the identified IMA must be at least 11 years after the date on which the ML (coal) holder applied for the grant of the ML (coal); and

- (h) a PL holder mentioned in paragraph (a) complies with section 154(3)(a) if the PL holder gives the information required to be given under section 154 within 20 business days after the PL holder gives the petroleum production notice to the coal resource authority holder; and
 - (i) a coal resource authority holder given a petroleum production notice under paragraph (c) complies with section 154(3)(a) if the coal resource authority holder gives the information required to be given under section 154 within 20 business days after the coal resource authority holder is given the petroleum production notice.
- (3) To remove any doubt, it is declared that—
- (a) this section does not limit the changing of the mining commencement date for the IMA mentioned in subsection (2)(g) in the way mentioned in section 115(1)(b) or (c); and
 - (b) section 156 applies in relation to information—
 - (i) given by a PL holder mentioned in this section to a coal resource authority holder mentioned in this section; or
 - (ii) given by a coal resource authority holder mentioned in this section to a PL holder mentioned in this section.
- (4) This section applies whether the preferred tenderer mentioned in subsection (1)(b) was appointed before or after the commencement of this section.

Part 4 Concurrent applications

149 Concurrent notice may be given by ATP holder

- (1) This section applies if an ATP holder—

- (a) receives an advance notice under part 2 in relation to an overlapping area from the holder of an EP (coal) or MDL (coal) that includes the overlapping area; and

Note—

Under part 2, an advance notice for an ML (coal) is given by the applicant for the ML (coal).

- (b) intends to apply for a PL, that will include the overlapping area, within 6 months after the ATP holder receives the advance notice.
- (2) The ATP holder may give the holder of the EP (coal) or MDL (coal) a written notice (a **concurrent notice**) stating the information mentioned in subsection (1)(b).
 - (3) The concurrent notice must be given within 3 months after the ATP holder receives the advance notice.
 - (4) If the concurrent notice is given and the application for the PL is made within the 6 months mentioned in subsection (1)(b), this chapter must, to the greatest practicable extent, be applied as if the ATP holder was already a PL holder when the advance notice was given to the ATP holder.
 - (5) Without limiting subsection (4)—
 - (a) the mining commencement date for an IMA in the overlapping area, for the purposes of the advance notice, is taken to be at least 11 years after the date on which the advance notice was given; and
 - (b) the mining commencement date for the IMA may be changed in the way mentioned in section 115(1)(b) or (c); and
 - (c) the ATP holder may give an exceptional circumstances notice under section 127, including at the same time as the concurrent notice is given.
 - (6) However, despite subsection (4), the ML (coal) holder must ensure the agreed joint development plan mentioned in section 130(2) is in place within 12 months after receiving from the ATP holder a petroleum production notice or, if an

application for arbitration of a dispute is made under section 131(2) or (3), within 9 months after the appointment of the arbitrator, instead of within the period mentioned in section 130(2).

150 Requirements for holder of EP (coal) or MDL (coal) if concurrent PL application

- (1) This section applies if the holder of an EP (coal) or MDL (coal)—
 - (a) receives a petroleum production notice under part 3 in relation to an overlapping area from the holder of an ATP that includes the overlapping area; and
 - (b) lodges an application for an ML (coal) before the PL the subject of the petroleum production notice is granted.

Note—

- (3) However, a reference to a register in the former provisions is taken to be a reference to the new register.
- (4) To remove any doubt, it is declared that the dealing mentioned in subsection (1)(a) may be registered if it is able to be registered under the former provisions.
