- (2) The board must publish the areas of engineering on its website.

Part 2 Registration of professional engineers

Division 1 Preliminary

7B Types of registration as a professional engineer

The types of registration as a professional engineer under this Act are registration as a practising professional engineer or a non-practising professional engineer.

8 Applying for registration

- (1) Only an individual may apply to the board for registration as a registered professional engineer for an area of engineering.
- (2) The application must be—
 - (a) in the approved form and state the type of registration to which the application relates; and
 - (b) accompanied by each of the following—
 - (i) satisfactory evidence of the applicant's eligibility for registration;
 - (ii) if there is an assessment scheme approved for the area of engineering the applicant is applying to be registered in—the assessment entity's assessment of the applicant against the qualifications and competencies provided for under the scheme;
 - (iii) any other documents, identified in the approved form, the board reasonably requires to decide the application;
 - (iv) the application fee and registration fee prescribed under a regulation.
- (3) The approved form must provide for the inclusion of the applicant's contact details as a registered professional engineer.
- (4) The applicant also must provide any other relevant information reasonably required by the board to decide the application.

Note—

For how the board may make a requirement for information under section 8(4), 18(6) or 23(5), see section 27.

Division 2 Eligibility for registration

9 Eligibility

- (1) An applicant for registration is eligible for registration only if—
 - (a) the applicant is qualified, under section 10, for registration; and
 - (b) the board considers the applicant is fit to practise as a registered professional engineer.
- (2) Also, an applicant for registration as a non-practising professional engineer is eligible for registration only if the board is satisfied the applicant will not carry out, or be responsible for the carrying out of, professional engineering services within the registration period to which the application for registration relates.

10 When applicant is qualified for registration

- (1) An applicant for registration is qualified for registration in an area of engineering if the applicant has the qualifications and competencies—
 - (a) if there is an assessment scheme for the area of engineering—provided for under the assessment scheme; or
 - (b) otherwise—prescribed under a regulation for the area of engineering.
- (2) The competencies mentioned in subsection (1)—
 - (a) may relate to the practice of engineering in the area of engineering; and
 - (b) may include requirements about the following for the area of engineering—
 - (i) the nature, extent and period of practice of engineering by the applicant;

[s 11]

- (ii) the nature and extent of any research, study or teaching, relating to engineering, undertaken by the applicant;
- (iii) the nature and extent of any administrative work, relating to engineering, performed by the applicant.

11 Fitness to practise as a registered professional engineer

In deciding whether an applicant for registration is fit to practise as a registered professional engineer, the board may have regard to each of the following—

- (a) whether the applicant has a conviction, other than a spent conviction, for—
 - (i) an indictable offence; or
 - (ii) an offence against this Act or the repealed Act; or
 - (iii) another offence, relating to the practice of engineering, against a law applying, or that applied, in the State, the Commonwealth, another State or a foreign country;
- (b) if the applicant has been registered under this Act or the repealed Act, or registered to practise as a professional engineer under a law applying, or that applied, in the Commonwealth, another State or a foreign country and the registration was suspended or cancelled—the reason for its suspension or cancellation;
- (c) if the applicant has been a member of an association of professional engineers, whether in Australia or a foreign country, and the membership was suspended or cancelled—the reason for its suspension or cancellation;
- (d) an order about the applicant made under section 131 or 132 of this Act or section 60 of the repealed Act;
- (e) a proceeding taken against the applicant for a matter mentioned in section 36 under a law applying, or that

- applied, in the Commonwealth, another State or a foreign country;
- (f) whether the applicant—
 - (i) is affected by bankruptcy action; or
 - (ii) is an executive officer of a corporation affected by control action after the commencement of this section;
 - (g) if the applicant was required to undergo a health assessment—
 - (i) whether the applicant complied with the requirement; and
 - (ii) whether the applicant cooperated with the medical practitioner appointed to perform the assessment;
 - (h) whether a health assessment report for the applicant states that the applicant is unable to competently and safely practise as a professional engineer;
 - (i) whether the board reasonably believes a materially false or misleading representation or document is included in the application;
 - (j) any other issue relevant to the applicant's ability to competently practise as a registered professional engineer, including, for example, the applicant's mental or physical health.

Division 3 Decision on applications for registration

12 Deciding application

- (1) The board must consider each application for registration made under section 8 and either grant or refuse to grant the application as soon as practicable after the last of the following events to happen—
 - (a) the board receives the application;

[s 13]

- (b) the board receives all necessary information to decide the application.
- (2) In deciding the application, the board must have regard to the assessment of an assessment entity, if any, given to the board by the applicant under section 8(2)(b)(ii).

13 Grant of application

- (1) If the board decides to grant the application, it must as soon as practicable—
 - (a) register the applicant as a registered professional engineer in 1 or more of the areas of engineering for which the applicant is qualified for registration; and
 - (b) give the applicant a certificate of registration.
- (2) The board may, in granting the application, decide to impose conditions on the applicant's registration that are reasonable and relevant.
- (3) If the board decides to impose conditions on the applicant's registration, the board must as soon as practicable give the applicant an information notice about the decision.
- (4) In deciding the areas of engineering for which an applicant may be registered, the board must have regard to the applicant's qualifications and competencies in the practice of engineering.

14 Refusal of application

If the board decides to refuse to grant the application, it must as soon as practicable—

- (a) give the applicant an information notice for the decision; and
- (b) refund the fees that accompanied the application less a reasonable amount, if any, prescribed under a regulation for processing the application.

15 Period of registration

- (1) The period of registration that is to apply to a registered professional engineer (the **registration period**) is a financial year.
- (2) If the board decides to register an applicant during a registration period, the registration remains in force for the period—
 - (a) commencing on the day when the board makes the decision; and
 - (b) ending on the last day of the registration period.

Division 4 Renewal and restoration of registrations

Subdivision 1 Preliminary

16 Meaning of *continuing registration requirements*

- (1) ***Continuing registration requirements*** are requirements that, if satisfied, demonstrate that an applicant for renewal or restoration of registration has maintained competency in the practice of engineering in the area of engineering for which the applicant is, or was, registered.
- (2) The requirements may include requirements about the following for an area of engineering—
 - (a) the nature, extent and period of practice of engineering by the applicant;
 - (b) the nature and extent of continuing professional development to be undertaken by the applicant;
 - (c) the nature and extent of research, study or teaching, relating to engineering, to be undertaken by the applicant;

- (d) the nature and extent of administrative work, relating to engineering, to be performed by the applicant.
- (3) The requirements are met by—
 - (a) if the applicant is registered with an assessment entity for participation in the continuing registration requirements of an assessment scheme conducted by the entity—complying with the continuing registration requirements of the assessment scheme; or
 - (b) otherwise—complying with the board’s continuing registration requirements for the area of engineering for which the applicant is, or was, registered.
- (4) An assessment entity must—
 - (a) keep published the continuing registration requirements of each of the entity’s assessment schemes on the entity’s website; and
 - (b) ensure the continuing registration requirements of each of the entity’s assessment schemes are readily available to any registered professional engineer on request.
- (5) The board must—
 - (a) keep published the board’s continuing registration requirements on the board’s website; and
 - (b) keep the requirements available for inspection, without charge, during normal business hours at the board’s office; and

The board must give a registered professional engineer notice of the expiry of the engineer’s registration at least 3 months before the expiry.

Subdivision 2 **Renewal**

18 Applying for renewal

- (1) A registered professional engineer may apply to the board for renewal of the professional engineer's registration.
- (2) The application may only be made at least 1 month, but not more than 3 months, before the last day of the registration period (the *expiry day*).
- (3) The application must be—
 - (a) in the approved form; and
 - (b) accompanied by each of the following—
 - (i) the documents, identified in the approved form, the board reasonably requires to decide the application;

- (4) Despite subsection (2), the board may accept an application for renewal of registration made within 1 month before the expiry day if the board is satisfied it would be reasonable in all the circumstances to accept the application.
- (5) The approved form must provide for the inclusion of the applicant's contact details as a registered professional engineer.
- (6) The registered professional engineer also must provide any other relevant information reasonably required by the board to decide the application.

19 Registration in force while application is considered

[s 20]

- (a) if the board decides to renew the registration—the day a new certificate of registration is given to the applicant under section 21; or
 - (b) if the board decides to refuse to renew the registration—the day stated, under section 22(a), in the information notice for the decision; or
 - (c) if the application is taken to have lapsed under section 27—the day it is taken to have lapsed.
- (2) Subsection (1) does not apply if the registration is earlier suspended or cancelled under this Act.

20 Deciding application

- (1) The board must consider an accepted application and either renew or refuse to renew the registration as soon as practicable after the last of the following events to happen—
- (a) the board receives the application;
 - (b) the board receives all necessary information to decide the application.
- (2) In deciding the application, the board must have regard to—

Division 6 Powers of board and investigators

55 Power to require information or attendance

- (1) For an investigation, the board or an investigator may, by notice given to a person, require the person to—
 - (a) give the board or investigator information related to the investigation by a stated reasonable time; or
 - (b) attend before the board or investigator at a stated reasonable time and place to answer questions, or produce documents, related to the investigation.
- (2) For information that is an electronic document, compliance with the requirement requires the giving of a clear image or written version of the electronic document.
- (3) In this section—

information includes a document.

Example of information—

engineering plans or drawings, or a document containing engineering calculations

56 Offence to contravene information or attendance requirement

- (1) A person of whom a requirement is made under section 55(1)(a) must comply with the requirement unless the person has a reasonable excuse.

Maximum penalty—50 penalty units.

- (2) A person of whom a requirement is made under section 55(1)(b) must not fail, without reasonable excuse—

- (a) to attend as required by the notice; or
- (b) to continue to attend as required by the board or investigator until excused from further attendance; or
- (c) to answer a question the person is required to answer by the board or investigator; or
- (d) to produce a document the person is required to produce by the notice.

Maximum penalty—50 penalty units.

- (3) It is a reasonable excuse for a person not to give the information, answer the question or produce the document, if giving the information, answering the question or producing the document might tend to incriminate the person or expose the person to a penalty.

57 Inspection and copying of produced documents

- (1) If a document is produced to the board or an investigator, whether under a notice under section 55 or otherwise, the board or investigator may inspect it.
- (2) Also, the board or investigator may make a copy of, or take an extract from, the document if the board or investigator reasonably considers the document may be relevant to the investigation being conducted by the board or investigator.

Division 7 Seizure of documents

58 Seizing document as evidence

The board or investigator may seize a document mentioned in section 57(1) if the board or investigator reasonably believes the document is evidence that is relevant to the investigation being conducted by the board or investigator.

59 Receipt for seized document

- (1) As soon as practicable after the board or investigator seizes a document, the board or investigator must give a receipt for it to the person from whom it was seized.
- (2) The receipt must describe generally each document seized and its condition.

60 Investigator to give seized document to board

If an investigator seizes a document under section 58, the investigator must give the document to the board when the investigator gives the board a report about the investigation under section 71(1).

61 Access to seized document

- (1) Until a seized document is returned, the board or investigator must allow its owner to inspect or copy it.
- (2) Subsection (1) does not apply if it would be unreasonable to allow the inspection or copying.

62 Return of seized document

- (1) The board must return a document seized as evidence, whether by the board or an investigator, to its owner—
 - (a) at the end of 6 months; or

- (b) if proceedings involving the document are started within 6 months—at the end of the proceedings and any appeal from the proceedings.
- (2) Despite subsection (1), the board must immediately return the document to its owner if the board stops being satisfied its continued retention as evidence is necessary.

Division 7A Entry of places by investigators

Subdivision 1 Power to enter

62A General power to enter places

- (1) An investigator may enter a place if—
 - (a) an occupier at the place consents under subdivision 2 to the entry and section 62D has been complied with for the occupier; or
 - (b) it is a public place and the entry is made when the place is open to the public; or
 - (c) the entry is authorised under a warrant and, if there is an occupier of the place, section 62I has been complied with for the occupier.
- (2) If the power to enter arose only because an occupier of the place consented to the entry, the power is subject to any conditions of the consent and ceases if the consent is withdrawn.
- (3) If the power to enter is under a warrant, the power is subject to the terms of the warrant.

Subdivision 2 Entry by consent

62B Application of subdivision

This subdivision applies if an investigator intends to ask an occupier of a place to consent to the investigator or another investigator entering the place under section 62A(1)(a).

62C Incidental entry to ask for access

For the purpose of asking the occupier for the consent, an investigator may, without the occupier's consent or a warrant—

- (a) enter land around premises at the place to an extent that is reasonable to contact the occupier; or
- (b) enter part of the place the investigator reasonably considers members of the public ordinarily are allowed to enter when they wish to contact an occupier of the place.

62D Matters investigator must tell occupier

Before asking for the consent, the investigator must—

- (a) explain to the occupier the purpose of the entry, including the powers intended to be exercised; and
- (b) tell the occupier that—
 - (i) the occupier is not required to consent; and
 - (ii) the consent may be given subject to conditions and may be withdrawn at any time.

62E Consent acknowledgement

- (1) If the consent is given, the investigator may ask the occupier to sign an acknowledgement of the consent.
- (2) The acknowledgement must state—

- (a) the purpose of the entry, including the powers to be exercised; and
 - (b) that the occupier has been given an explanation about the purpose of the entry, including the powers intended to be exercised; and
 - (c) that the occupier has been told—
 - (i) that the occupier is not required to consent; and
 - (ii) that the consent may be given subject to conditions and may be withdrawn at any time; and
 - (d) that the occupier gives the investigator or another investigator consent to enter the place and exercise the powers; and
 - (e) the day and time the consent was given; and
 - (f) any conditions of the consent.
- (3) If the occupier signs the acknowledgement, the investigator must immediately give a copy to the occupier.
- (4) If—
- (a) an issue arises in a proceeding about whether the occupier consented to the entry; and
 - (b) a signed acknowledgement complying with subsection (2) for the entry is not produced in evidence;
- the onus of proof is on the person relying on the lawfulness of the entry to prove the occupier consented.

Subdivision 3 Entry under warrant

62F Application for warrant

- (1) An investigator may apply to a magistrate for a warrant for a place.
- (2) The investigator must prepare a written application that states the grounds on which the warrant is sought.

- (3) The written application must be sworn.
- (4) The magistrate may refuse to consider the application until the investigator gives the magistrate all the information the magistrate requires about the application in the way the magistrate requires.

Example—

The magistrate may require additional information supporting the written application to be given by statutory declaration.

62G Issue of warrant

- (1) The magistrate may issue the warrant for the place only if the magistrate is satisfied there are reasonable grounds for suspecting there is at the place, or will be at the place within the next 7 days, a particular thing or activity that may provide evidence of an offence against this Act.
- (2) The warrant must state—
 - (a) the place to which the warrant applies; and
 - (b) that a stated investigator or any investigator may with necessary and reasonable help and force—
 - (i) enter the place and any other place necessary for entry to the place; and
 - (ii) exercise the powers of the investigator; and
 - (c) particulars of the offence that the magistrate considers appropriate; and
 - (d) the name of the person suspected of having committed the offence unless the name is unknown or the magistrate considers it inappropriate to state the name; and
 - (e) the evidence that may be seized under the warrant; and
 - (f) the hours of the day or night when the place may be entered; and
 - (g) the magistrate's name; and
 - (h) the day and time of the warrant's issue; and

- (i) the day, within 14 days after the warrant's issue, the warrant ends.

62H Defect in relation to a warrant

A warrant is not invalidated by a defect in—

- (a) the warrant; or
- (b) compliance with this subdivision;

unless the defect affects the substance of the warrant in a material particular.

62I Entry procedure

- (1) This section applies if an investigator named in a warrant issued under this subdivision for a place is intending to enter the place under the warrant.
- (2) Before entering the place, the investigator must do or make a reasonable attempt to do the following things—
 - (a) identify himself or herself to a person present at the place who is an occupier of the place by producing the investigator's identity card or another document evidencing the investigator's appointment;
 - (b) give the person a copy of the warrant;
 - (c) tell the person the investigator is permitted by the warrant to enter the place;
 - (d) give the person an opportunity to allow the investigator immediate entry to the place without using force.
- (3) However, the investigator need not comply with subsection (2) if the investigator believes on reasonable grounds that immediate entry to the place is required to ensure the effective execution of the warrant is not frustrated.

Division 7B General powers of investigators after entering places

62J Application of division

- (1) The powers under this division may be exercised if an investigator enters a place under section 62A.
- (2) However, if the investigator enters a place to get the occupier's consent to enter a place, this division applies to the investigator only if the consent is given or the entry is otherwise authorised.

62K General powers

- (1) The investigator may do any of the following (each a *general power*)—
 - (a) search any part of the place;
 - (b) inspect, examine or film any part of the place or anything at the place;
 - (c) take for examination a thing, or a sample of or from a thing, at the place;
 - (d) take an extract from, or copy, a document at the place, or take the document to another place to copy;
 - (e) take into or onto the place any person, equipment and materials the investigator reasonably requires for exercising a power under this division;
 - (f) remain at the place for the time necessary to achieve the purpose of the entry.
- (2) The investigator may take a necessary step to allow the exercise of a general power.
- (3) If the investigator takes a document from the place to copy it, the investigator must copy the document and return it to the place as soon as practicable.

- (4) If the investigator takes from the place an article or device reasonably capable of producing a document from an electronic document to produce the document, the investigator must produce the document and return the article or device to the place as soon as practicable.
- (5) In this section—
examine includes analyse, test, account, measure, weigh, grade, gauge and identify.
film includes photograph, videotape and record an image in an other way.
inspect, a thing, includes open the thing and examine its contents.

62L Power to require reasonable help

- (1) The investigator may make a requirement (a *help requirement*) of an occupier of the place or a person at the place to give the investigator reasonable help to exercise a general power, including, for example, to produce a document or to give information.
- (2) When making the help requirement, the investigator must give the person an offence warning for the requirement.

62M Offence to contravene help requirement

- (1) A person of whom a help requirement has been made must comply with the requirement unless the person has a reasonable excuse.
Maximum penalty—50 penalty units.
- (2) It is a reasonable excuse for an individual not to comply with a help requirement if complying might tend to incriminate the individual or expose the individual to a penalty.

Division 7C Power to seize evidence

62N Seizing evidence at a public place that may be entered without consent or warrant

- (1) This section applies if an investigator enters a public place.
- (2) The investigator may seize a thing at the public place if the investigator reasonably believes the thing is evidence of an offence against this Act.

62O Seizing evidence at a place that may only be entered with consent or warrant

- (1) This section applies if—
 - (a) an investigator is authorised to enter a place under this part only with the consent of the occupier of the place or a warrant; and
 - (b) the investigator enters the place after obtaining the necessary consent or warrant.
- (2) If the investigator enters the place with the occupier's consent, the investigator may seize a thing at the place if—
 - (a) the investigator reasonably believes the thing is evidence of an offence under this Act; and
 - (b) seizure of the thing is consistent with the purpose of entry as explained to the occupier when asking for the occupier's consent.
- (3) If the investigator enters the place under a warrant, the investigator may seize the evidence for which the warrant was issued.
- (4) The investigator may also seize anything else at the place if the investigator reasonably believes—
 - (a) the thing is evidence of an offence against this Act; and
 - (b) the seizure is necessary to prevent the thing being hidden, lost or destroyed.

62P Power to secure seized thing

- (1) Having seized a thing under this division, an investigator may—
 - (a) leave it at the place where it was seized (the *place of seizure*) and take reasonable action to restrict access to it; or
 - (b) move the thing from the place of seizure.
- (2) For subsection (1)(a), the investigator may, for example—
 - (a) seal the thing, or the entrance to the place of seizure, and mark the thing or place to show access to the thing or place is restricted; or
 - (b) for equipment—make it inoperable; or
 - (c) require a person the investigator reasonably believes is in control of the place or thing to do an act mentioned in paragraph (a) or (b) or anything else an investigator could do under subsection (1)(a).

62Q Offence to contravene seizure requirement

A person must comply with a requirement made of the person under section 62P(2)(c) unless the person has a reasonable excuse.

Maximum penalty—50 penalty units.

62R Offence to interfere

- (1) If access to a seized thing is restricted under section 62P, a person must not tamper with the thing or with anything used to restrict access to the thing without—
 - (a) an investigator's approval; or
 - (b) a reasonable excuse.

Maximum penalty—50 penalty units.
- (2) If access to a place is restricted under section 62P, a person must not enter the place in contravention of the restriction or

[s 62S]

tamper with anything used to restrict access to the place without—

- (a) an investigator's approval; or
- (b) a reasonable excuse.

Maximum penalty—50 penalty units.

62S Receipt and information notice for seized thing

- (1) This section applies if an investigator seizes anything under this division unless—
 - (a) the investigator reasonably believes there is no-one apparently in possession of the thing or it has been abandoned; or
 - (b) because of the condition, nature and value of the thing it would be unreasonable to require the investigator to comply with this section.
- (2) The investigator must, as soon as practicable after seizing the thing, give an owner or person in control of the thing before it was seized—
 - (a) a receipt for the thing that generally describes the thing and its condition; and
 - (b) an information notice about the decision to seize it.
- (3) However, if an owner or person from whom the thing is seized is not present when it is seized, the receipt and information notice may be given by leaving them in a conspicuous position and in a reasonably secure way at the place at which the thing is seized.
- (4) The receipt and information notice may—
 - (a) be given in the same document; and
 - (b) relate to more than 1 seized thing.
- (5) The investigator may delay giving the receipt and information notice if the investigator reasonably suspects giving them may frustrate or otherwise hinder an investigation by the investigator under this part.

- (6) However, the delay may be only for so long as the investigator continues to have the reasonable suspicion and remains in the vicinity of the place at which the thing was seized to keep it under observation.

62T Access to seized thing

- (1) Until a seized thing is forfeited or returned, the investigator who seized the thing must allow an owner of the thing—
 - (a) to inspect it at any reasonable time and from time to time; and
 - (b) if it is a document—to copy it.
- (2) Subsection (1) does not apply if it is impracticable or would be unreasonable to allow the inspection or copying.
- (3) The inspection or copying must be allowed free of charge.

62U Return of seized things

- (1) If a seized thing is not forfeited, the investigator must return it to its owner—
 - (a) at the end of 1 year; or
 - (b) if proceedings involving the thing are started within 1 year, at the end of the proceedings and any appeal from the proceedings.
- (2) Despite subsection (1), unless a thing that has been seized as evidence is forfeited, the investigator must immediately return it to its owner if the investigator stops being satisfied its continued retention as evidence is necessary.

62V Forfeiture of seized things

- (1) The board may decide a thing that has been seized under this division is forfeited to the board if the board or an investigator—

- (a) after making reasonable inquiries, can not find an owner; or
 - (b) after making reasonable efforts, can not return it to an owner; or
 - (c) reasonably believes it is necessary to keep the thing to prevent it being used to commit the offence for which it was seized.
- (2) However, for subsection (1)(a) and (b), the board or investigator is not required to—
 - (a) make inquiries if it would be unreasonable to make inquiries to find an owner; or
 - (b) make efforts if it would be unreasonable to make efforts to return the thing to an owner.

Example for paragraph (b)—

The owner of the thing has migrated to another country.
- (3) Regard must be had to the thing's condition, nature and value in deciding—
 - (a) whether it is reasonable to make inquiries or efforts; and
 - (b) if inquiries or efforts are made—what inquiries or efforts, including the period over which they are made, are reasonable.

62W Information notice about forfeiture decision

- (1) If the board decides under section 62V(1) to forfeit a seized thing, the board must as soon as practicable give a person who owned the thing immediately before the forfeiture (the ***former owner***) an information notice about the decision.
- (2) If the decision was made under section 62V(1)(a) or (b), the information notice may be given by leaving it at the place where the seized thing was seized, in a conspicuous position and in a reasonably secure way.

- (3) The information notice must state that the former owner may apply for a stay of the decision if he or she applies to the tribunal for a review of the decision.
- (4) However, subsections (1) to (3) do not apply if—
 - (a) the decision was made under section 62V(1)(a) or (b); and
 - (b) the place where the seized thing was seized is—
 - (i) a public place; or
 - (ii) a place where the notice is unlikely to be read by the former owner.

62X When thing becomes property of the board

A thing becomes the property of the board if the thing is forfeited to the board under section 62V.

62Y How property may be dealt with

- (1) This section applies if, under section 62X, a thing becomes the property of the board.
- (2) The board may deal with the thing as the board considers appropriate, including, for example, by destroying it or giving it away.
- (3) The board must not deal with the thing in a way that could prejudice the outcome of an appeal against the forfeiture under this part.
- (4) If the board sells the thing, the board must, after deducting the costs of the sale, make reasonable efforts to return the proceeds of the sale to the former owner of the thing.

Division 8 Notice of damage and compensation

63 Notice of damage

- (1) This section applies if the board or an investigator damages property when exercising or purporting to exercise a power under division 6 or 7.
- (2) The board or investigator must immediately give notice of the damage to the person who appears to the board or investigator to be the owner of the property.
- (3) The notice must state—
 - (a) the particulars of the damage; and
 - (b) that the person who suffered the damage may be entitled to claim compensation under section 64.
- (4) If the board or investigator believes the damage was caused by a latent defect in the property or circumstances beyond the board's or investigator's control, the board or investigator may state the belief in the notice.
- (5) This section does not apply to damage the board or investigator reasonably believes is trivial.
- (6) In subsection (2)—

owner, of property, includes the person in possession or control of it.

64 Compensation

- (1) This section applies if a person incurs loss or damage because of the exercise or purported exercise of a power under division 6 or 7.
- (2) The person is entitled to be paid the reasonable compensation because of the loss or damage agreed between the board and the person, or failing agreement, decided by a court.

- (3) Compensation may be claimed and ordered to be paid in a proceeding—
 - (a) brought in a court with jurisdiction for the recovery of the amount of compensation claimed; or
 - (b) for an offence against this Act brought against the person claiming compensation.
- (4) A court may order compensation to be paid only if it is satisfied it is fair to make the order in the circumstances of the particular case.

Division 9 Offences about investigations

65 False or misleading statements

A person must not, in relation to an investigation under this part, state anything to the board or an investigator that the person knows is false or misleading in a material particular.

Maximum penalty—50 penalty units.

66 False or misleading documents

- (1) A person must not, in relation to an investigation under this part, give the board or an investigator a document containing information that the person knows is false or misleading in a material particular.

Maximum penalty—50 penalty units.

- (2) Subsection (1) does not apply to a person who, when giving the document—
 - (a) informs the board or investigator, to the best of the person's ability, how it is false or misleading; and
 - (b) if the person has, or can reasonably obtain, the correct information—gives the correct information to the board or investigator.

67 Obstructing board or investigators

- (1) A person must not obstruct the board in its exercise of a power in the conduct of an investigation, or an investigator in the exercise of a power, unless the person has a reasonable excuse.

Maximum penalty—100 penalty units.

- (2) If a person has obstructed the board or an investigator as mentioned in subsection (1) and the board or investigator decides to proceed with the exercise of the power, the board or investigator must warn the person that—

- (a) it is an offence to obstruct the board or an investigator, unless the person has a reasonable excuse; and
(b) the board or investigator considers the person's conduct is an obstruction.

- (3) In this section—

obstruct includes hinder and attempt to obstruct or hinder.

68 Impersonation of investigators

A person must not pretend to be an investigator.

Maximum penalty—100 penalty units.

Part 4 Reports and board's decisions about investigations

For applying this part to a person mentioned in section 36AA(1), the person is taken to be a registered professional engineer.

69 Board's report about investigation

- (1) The board must, as soon as practicable after completing an investigation, prepare a written report about the investigation.
- (2) The report must include the board's findings about the investigation, including, if the investigation was the result of a complaint, the board's findings about the complaint.

70 Report about investigation being conducted

An investigator must, if asked by the board, give the board an interim report about the conduct of an investigation being conducted by the investigator.

71 Investigator's report about investigation

- (1) An investigator must, as soon as practicable after the investigator considers an investigation being conducted by the investigator is completed, give the board a written report about the investigation.
- (2) If the investigation was the result of a complaint, the report must include the investigator's findings about the complaint.
- (3) If the board considers the report does not include enough information to enable the board to make a decision under section 73(2) or 75(2), the board may, by notice, ask the investigator to give the board a further report about the investigation.
- (4) The investigator must, as soon as practicable, comply with a request under subsection (3).

72 Board may report to Minister

The board may, at any time, give the Minister a report about an investigation conducted by the board or an investigator.

- (1) This section applies if the board—
 - (a) prepares a report under section 69(1) about a registered professional engineer; or
 - (b) receives a report under section 71(1) about a registered professional engineer and does not request a further report about the engineer under section 71(3); or
 - (c) receives a further report under section 71(3) about a registered professional engineer.
- (2) As soon as practicable after preparing the report, or receiving the report or further report, the board must decide to do 1 or more of the following—
 - (a) start a disciplinary proceeding against the registered professional engineer;
Note—
For how to start a disciplinary proceeding, see part 8.
 - (b) enter into an undertaking agreed with the registered professional engineer about a matter relating to the engineer carrying out professional engineering services, including, for example, to submit to an audit of the engineer's practice of engineering;
 - (c) caution or reprimand the registered professional engineer;
 - (d) impose a condition on the engineer's registration;
 - (e) take no further action about the matter the subject of the investigation.
- (2A) If the engineer does not comply with an undertaking entered into under subsection (2)(b), the board may decide to take another action mentioned in subsection (2).
- (3) In acting under subsection (2), the board must have regard to the main objects of this Act and the disciplinary grounds.

- (4) Also, regardless of what the board decides under subsection (2)(a) to (d), the board may start proceedings to prosecute the registered professional engineer for an offence.
- (5) A decision to take action as mentioned in subsection (2)(b) to (e) does not prevent the board taking the matter the subject of the investigation into consideration at a later time as part of a pattern of conduct or practice that may result in starting a disciplinary proceeding against the registered professional engineer.

74 Notice of result of investigation about registered professional engineer

- (1) As soon as practicable after making a decision under section 73(2) or (4) about a registered professional engineer, the board must give notice of the decision to—

 - (c) receives a further report under section 71(3) about a person other than a registered professional engineer.
- (2) As soon as practicable after preparing the report, or receiving the report or further report, the board must decide to do 1 or more of the following—
 - (a) start proceedings to prosecute the person for an offence;
 - (b) enter into an undertaking agreed with the person about the person's conduct, including, for example, to apply for registration or to only carry out professional engineering services under the direct supervision of a practising professional engineer;
 - (c) caution or reprimand the person;
 - (d) take no further action about the matter the subject of the investigation.
- (3) If the person does not comply with an undertaking entered into under subsection (2)(b), the board may decide to take another action mentioned in subsection (2).

- (2) The board may include in the register particulars of its decision with other particulars relevant to the person's registration.

75B Publishing information if person other than registered professional engineer found guilty of offence

- (1) This section applies if a person other than a registered professional engineer is found guilty of an offence against part 7 of this Act, whether or not a conviction is recorded.
- (2) The board may, during the relevant period, publish the information about the offence on the board's website.
- (3) For subsection (2), only the following information may be published—
- (a) the person's full name and any other identifying particulars;
 - (b) the person's business address or former business address;
 - (c) particulars of the offence committed by the person;
 - (d) any other particulars prescribed by regulation.
- (4) If the finding of guilt is quashed on appeal, the board must remove any reference to the offence from the website.
